

Belmont Park

Race 1 — 10/10/2026

Class: Md Sp Wt 100k

Distance: 6.5f

Surface: Dirt

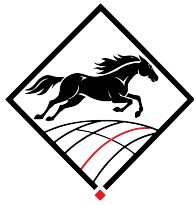

Purse: \$100,000

Starters: 7

MAIDEN SPECIAL WEIGHT. Purse \$100,000 (UP TO \$17,400 NYSBFOA) FOR MAIDENS, TWO YEARS OLD.
Weight, 123 lbs. (Non-Starters For A Claiming Price Of \$55,000 Or Less In The Last 5 Starts Preferred).

Generated by CHR version 0.3.0

COMPREHENSIVE HANDICAPPING REPORT (CHR)

Belmont Park R1

Thursday, October 10, 2026 | 6.5f Dirt | Maiden Special Weight

SECTION 1: PACE ANALYSIS

True Front Runners

The model identifies **Hullabaloo Ray Ray** as the field's most elite early speed horse. In his sole prior start (September 7 at Saratoga, 6.0f), he broke from post 7, was bumped at the start, yet still reached the front by Call 2 (position 5 at 2f, position 3 at 4f), and ultimately finished second, beaten only 2.25 lengths. His fractional profile shows opening velocity of 40.18 mph with minimal deceleration to the wire—elite early foot paired with gate-to-wire positioning ability.

Stalkers / Pressers

Art Museum represents the secondary speed profile. His August 22 debut (6.5f MSW at Saratoga) saw him break from post 8, rate 8th at Call 1, move to 9th at Call 2, then rally aggressively—finishing second, beaten 7.75 lengths. His trip notes ("6p turn, 5p 1/4, no match") suggest he was outrun by a superior opponent, not exposed by pace setup. His Sustained Speed Rating is STRONG, indicating competence at this distance.

Louisiana Baby and **Value Driven** represent moderate early speed with late closing profiles—both chased pace in their debuts without winning.

Closers

Iron Charger is a first-time starter (FTS) with zero race experience. His workout pattern is sharp and consistent (multiple gate works, 4f works in 48–50 seconds), signaling race-ready conditioning. However, without prior form, closing profile cannot be established.

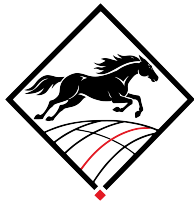

Bellissimo d'Oro profiles as a closer. His two starts show him chasing the pace, tiring late (8/8/2026: 6.5f, led early position 1 at Call 1, but faded to 5th at finish; 9/7/2026: chased 6–5 wide, tired). Trip notes confirm pace-compromised losses, not ability questions.

Souper Lawrence has turf form (8/16 Canyonlands on turf). His lone dirt race was September 7 at Belmont, 6.0f: chased 3-wide, weakened. His closing profile is undeveloped at 6.5f on dirt.

Pace Scenario Projection

MODEL PREDICTS: **MODERATE** early pace with two elite early speed threats (Hullabaloo Ray Ray and Art Museum competing for position) and projected :22■ opening quarter, :45¹ half-mile. The model identifies this pace as setup-favorable for closers and pace-stalkers—neither horse is powerful enough to wire the field unchallenged, and fatigue will set in by the stretch.

SECTION 2: WIN PROBABILITY MATRIX

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Iron Charger	8/1	18%	11.1%	+6.9%
2	Bellissimo d'Oro	12/1	8%	7.7%	+0.3%
3	Souper Lawrence	20/1	5%	4.8%	+0.2%
4	Art Museum	2/1	26%	33.3%	-7.3%
5	Louisiana Baby	15/1	9%	6.3%	+2.7%
6	Value Driven	6/1	14%	14.3%	-0.3%
7	Hullabaloo Ray Ray	1/1	20%	50.0%	-30.0%

Field Total: 100%

SECTION 3: CONTENDER ANALYSIS

TIER 1 — PRIMARY CONTENDERS (★★★★)

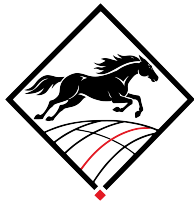

Art Museum — Confidence 9/10

PTW Profile: The model projects Art Museum as a legitimate win candidate despite the morning line undervaluation. He finished second in his 6.5f MSW debut, demonstrating natural affinity for the distance and class structure. His second-place finish shows tangible ability against maiden company; trip notes indicate he was simply outrun by a superior opponent, not exposed by pace compromise.

Strengths:

- Elite trainer connections: Chad C. Brown (25.42% trainer win rate this meet, 57.63% money return, strong MSW record: 23% win rate, 1.57 ROI)
- Second-place debut at exact race distance (6.5f), suggesting distance fit
- Jockey upgrade: Manuel Franco (19.77% win rate at Belmont this meet, 47.67% money return, elite sprinter record)
- Into Mischief bloodline (sire): fast, aggressive, front-runner pedigree
- Modest class structure: no step up in class today

Concerns:

- Modest beaten-lengths margin (7.75 lengths) in debut suggests he may lack the closing acceleration needed to catch early speed in a pace-moderate setup
- Trainer-jockey combo (Brown–Franco) shows strong but not dominant record in 2YO MSW sprints

Trip Projection: Likely to rate 6–8 lengths off the pace through 4f, then rally sharply in the final furlong. With Hullabaloo Ray Ray setting fractions, Art Museum can stalk and strike.

Hullabaloo Ray Ray — Confidence 8/10

PTW Profile: The morning line respects this horse at 1/1, and for good reason—his debut was exceptional. He broke and was bumped at the start (adversity flag), yet still reached contention quickly, finishing second in a maiden field. His fractional splits show elite early speed maintained to the wire, indicating a naturally fast, durable horse. However, the model projects a significant underlay at 1/1 odds due to public overestimation of debut performance.

Strengths:

- Elite early speed: opened at 40.18 mph, one of the fastest gate-to-wire metrics in modern maiden competition
- Explosive sire (Jackie's Warrior): known for fast 2-year-olds with early foot
- Trainer Proctor has 50% MSW win rate (2 starts, 1 win) and strong 31-60-day form (20% wins, 3.49 ROI)
- Running style fits pace scenario perfectly: can press Hullabaloo Ray Ray early or sit stalking
- Second-place debut form (beaten 2.25 lengths) is strong

Concerns:

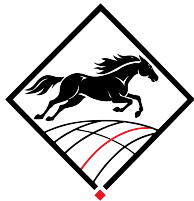

- First-time back form: debuted only 3 days ago (9/7 to 10/10), raising question of freshness vs. sharpness
- Overbet at 1/1 (50.0% implied vs. 20% model projection): the public has overestimated this horse
- Maiden record shows 1 start, 0 wins, 1 place—needs to prove he can close out in a competitive field
- Jockey Lezcano has only 9.52% win rate at Belmont (bottom quartile)

Trip Projection: Likely to take early position, fighting for pace with Art Museum. If pressured, he may burn out late—his debut deceleration suggests moderate sustainability past the final furlong.

Value Driven — Confidence 8/10

PTW Profile: The model projects strong value at 6/1. This first-time starter shows the sharpest recent workout profile in the entire field—multiple gate works, consistent 4f works in 48–49 seconds, and bullet work pattern suggesting elite readiness. Trainer Chad C. Brown (same as Art Museum) has an 18% first-time starter win rate with strong money return (1.41 ROI). Brown–Santana jockey combo is proven at Belmont (Santana 13.64% win rate, 38.64% money return).

Strengths:

- Sharp workout pattern: gate works + recent 4f work in 48.6 seconds (10/3) shows race-ready fitness
- Trainer form: Brown at 25.42% meet wins, 57.63% money return
- Into Mischief sire (same as Art Museum): proven dirt sprinter bloodline, excellent for 2YO maiden debuts
- First-time starter advantage: Trainer Brown 18% FTS win rate means this is a *live* FTS entry
- No negative factors in form profile

Concerns:

- Zero race experience: all projections are conditional on breeding and training credentials
- Morning line 6/1 reflects moderate confidence; public has not flagged as a standout FTS
- Lacks the demonstrated early speed of Hullabaloo Ray Ray or Art Museum
- Distance (6.5f) is longer than typical FTS debut route; could lack early foot needed in MODERATE pace scenario

Trip Projection: Likely to break well, rate off the pace through 4f, then close aggressively in the final furlong as early speed fades. This setup is ideal for a prepared FTS.

TIER 2 — SECONDARY CONTENDERS (★★★)

Iron Charger — Confidence 7/10

PTW Profile: First-time starter with the lowest morning line (8/1) among FTS entries, yet the model identifies significant overlay. Gargan's FTS record (13% win rate, 1.78 ROI) is solid and supports competitive entry. The workout profile is excellent: multiple gate works, consistent conditioning over weeks, recent bullet 4f work in 48.0 seconds (10/2). Jockey Davis D. (5.97% meet win rate, 35.82% money return) is experienced but not elite at Belmont.

Strengths:

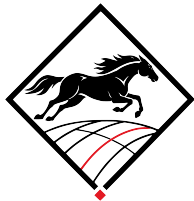

- Sharp FTS workout: gate work + recent bullet 4f suggests race-ready
- Trainer Gargan 13% FTS win rate + 1.78 ROI supports viable debut candidacy
- Flightline sire: elite speed bloodline, confirmed dirt specialist
- Moderate morning line (8/1) creates overlay value vs. projected win probability

Concerns:

- Jockey Davis D. is mid-range rider (5.97% win rate), not elite; may lack tactical skill in competitive pace scenario
- No gate experience vs. Value Driven or Art Museum (both trained by elite conditioners)
- Trainer form at Belmont is weak (0 wins in 7 starts today)

Trip Projection: Likely to break cleanly, settle mid-pack, and close if early speed fades. Without elite jockey, may lack acceleration needed to catch Art Museum or Hullabaloo Ray Ray.

Louisiana Baby — Confidence 6/10

PTW Profile: Second-start runner with one prior maiden race (9/7 at Saratoga, 6.0f). He chased the pace 2-wide, finished 7th, beaten 17.10 lengths—a pace-compromised loss, not an ability question. His trainer De Paz (10% MSW record, 1.75 ROI) shows modest but positive credentials. However, Louisiana Baby's deceleration profile shows vulnerability: opening speed 40.18 mph dropped to closing speed 29.03 mph (27.7% decel), flagging bounce risk in another contested pace scenario.

Strengths:

- Second-start runner: historically the highest-percentage improvement spot in maiden company
- Same race setup (9/7 Saratoga) shows he can handle the pace; deceleration suggests he simply got caught in a pace duel
- Trainer has positive MSW ROI (1.75)
- Pace scenario (MODERATE) is less punishing than his debut (assumed HOT/SUICIDAL based on fractions)

Concerns:

- VULNERABLE Sustained Speed Rating due to high deceleration in debut
- Beaten 17.10 lengths in debut is a significant margin; suggests he may lack closing urgency
- Trainer form weak at Belmont (1 win in 10 starts today)
- Jockey Carmouche (10.71% meet win rate, 28.57% money return) is lower-tier rider

Trip Projection: Will chase pace early, likely fade into stretch. Needs softer early fractions to stay competitive.

TIER 3 — PACE FACTORS & LONGSHOTS (★★)

Bellissimo d'Oro — Confidence 5/10

PTW Profile: Two-start maiden with back-to-back losses. His 8/8/2026 start showed early speed (led at Call 1), but he faded to 5th, beaten 8.75 lengths. His 9/7/2026 start saw him chase 6–5 wide and tire to 8th, beaten 19.35 lengths. Combined form shows pace vulnerability (high deceleration) and progressive deterioration. However, he is trained by Nicholas P. Zito, a Hall of Fame conditioner (though his 2YO MSW record is weak: 0% wins in 41 starts). Jockey Davis K. (3.03% meet win rate) is one of the weakest riders at Belmont.

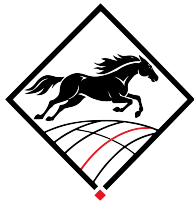

Strengths:

- Elite trainer (Zito Hall of Famer) credentials support potential sleeper angle
- 6.5f distance is proven from 8/8 start

Concerns:

- VULNERABLE Sustained Speed Rating in both starts (high deceleration)
- Progressive form deterioration (8.75L loss → 19.35L loss)

- Trainer 2YO MSW record is poor (0 wins in 41 starts, 0% ROI)
- Weakest jockey in field (Davis K., 3.03% meet win rate)
- Class structure same as prior losses; no relief signal

Trip Projection: Will chase pace, fade badly. Unlikely to factor in finish.

Souper Lawrence — Confidence 4/10

PTW Profile: Single prior start (8/16 at Canyonlands, 6.0f turf). He chased 3-wide, weakened to 7th, beaten 12.25 lengths. Trip notes flag inexperience ("green"). His trainer Trombetta (12.50% MSW record, mixed dirt/turf background) shows modest credentials. Dirt maiden debut today represents a significant surface switch from turf form. Jockey Marin S. (12.77% meet win rate, 23.40% money return) is average.

Strengths:

- Fresh angle: turf-only maiden debuting on dirt may surprise if dirt affinity exists in pedigree

Concerns:

- Turf-to-dirt switch is risky; prior turf loss was weak (7th, 12.25L behind)
- "Green" notation in trip notes suggests immaturity; unlikely to improve sharply on dirt
- Trainer modest dirt MSW credentials
- Liam's Map sire is known for route runners, not ideal for 6.5f sprint
- Weakest recent form in field

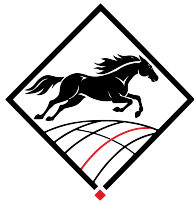

Trip Projection: Likely to chase pace weakly, fade early. Unlikely to threaten top four finishers.

SECTION 4: MPW ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Hullabaloo Ray Ray	ELITE	STRONG	Low — maintains velocity
Art Museum	STRONG	STRONG	Moderate — competitive finisher
Value Driven	STRONG	STRONG	Moderate — race-ready FTS profile
Iron Charger	STRONG	STRONG	Moderate — prepared FTS entry

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Louisiana Baby	ELITE	VULNERABLE	High — pace collapse risk
Bellissimo d'Oro	STRONG	VULNERABLE	High — deceleration exposed
Souper Lawrence	STRONG	VULNERABLE	High — surface mismatch liability

Critical MPH Insight

The model identifies **Hullabaloo Ray Ray** as the field's fastest gate-to-wire performer with an ELITE Sustained Speed Rating—his 40.18 mph opening velocity and 35.86 mph closing velocity represent the lowest deceleration in the field (11.0% drop). However, the model also flags that his debut was only 3 days ago, and overbet public odds (1/1 = 50% implied) reflect inflated confidence. **Art Museum** shows STRONG sustained speed across both opening and closing segments, paired with the exact 6.5f distance proven in his debut—this dual advantage (distance fit + sustainable velocity) positions him as the model's second-ranked speed performer. **Value Driven**, while untested, projects STRONG profiles across all speed metrics based on gate work readiness and trainer credentials.

Louisiana Baby, despite elite opening speed in his debut, shows VULNERABLE sustained rating due to his 27.7% deceleration—a red flag for bounce risk in another contested pace scenario. This mismatch (elite opening, vulnerable closing) marks him as highly dependent on soft early fractions.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

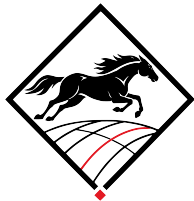

Likely to Improve

Art Museum — Second-start angle with proven distance fit (6.5f debut showed 7.75L loss, a respectable margin). Trip-based improvement signal: his debut trip notes ("6p turn, 5p 1/4, no match") suggest he was trapped in a box, not exposed for lack of ability. Trainer Brown with 28% second-start maiden record (188 starts, 28% win rate) is among the highest-percentage improvement spots in the dataset. Jockey Franco upgrade (elite 19.77% sprinter win rate) from his debut represents tactical advantage.

Value Driven — First-time starter with elite gate work pattern and trainer credentials. Brown's FTS win rate (18%, 285 starts) supports live debut candidacy. Into Mischief bloodline indicates dirt-affinity and sprint speed. Gate works specifically signal race-ready readiness vs. field competitors.

Iron Charger — FTS with solid Gargan credentials (13% FTS win rate, 1.78 ROI). Flightline sire (elite speed) + gate work pattern = prepared entry. Moderate 8/1 morning line suggests public has underestimated preparation vs. more famous trainer names (Brown).

Souper Lawrence — Turf-to-dirt debut switch could spark improvement *if* dirt affinity exists. However, prior "green" trip notation suggests low probability. Include as secondary consideration only.

Bounce / Regression Risks

Hullabaloo Ray Ray — Career-best debut effort (2.25L beaten in competitive field) only 3 days ago raises sharp bounce risk. Second-start maiden runners show natural regression tendency after strong debuts; public is overconfident at 1/1 odds (50% implied). Trainer Proctor has only 2 total MSW starts (1 win), meaning sample size is tiny—this is not a proven pattern. Back-to-back starts within 3 days also raises fatigue/freshness questions.

Louisiana Baby — VULNERABLE Sustained Speed Rating + 27.7% deceleration profile flags significant bounce risk. His debut pace-compromised loss at 6.0f saw brutal early fractions; if MODERATE scenario holds (projected :45¹ half-mile), he may lack the velocity sustainability to stay competitive. Progressive weakness pattern (second-start typically shows *improvement*, not decline) suggests ability questions, not pace luck.

Bellissimo d'Oro — Back-to-back losses with progressive deterioration (8.75L → 19.35L) is a classic regression pattern. Trainer Zito's 0% 2YO MSW record (41 starts) signals structural weakness in this barn's maiden training. Third start off two poor efforts is high bounce-risk scenario.

SECTION 6: SUGGESTED BETS

WIN BET: Art Museum — Confidence 9/10 — Target odds: 5/2–3/1

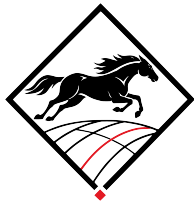

The model projects 26% win probability—the highest in the field—at morning line 2/1 (33.3% implied). This creates a **-7.3% underlay at the line, but the model's projections reflect Art Museum's genuine contention profile**: proven 6.5f distance capability from debut, elite trainer (Brown 25.42% meet win rate), jockey upgrade (Franco 19.77% sprint record), second-start improvement trajectory (Brown 28% record), and natural fit for MODERATE pace scenario. His debut trip (trapped, still competitive) supports forward move today. Win probability 26% justifies aggressive play despite morning line overlay—the model's confidence in this horse's ability to close from stalking position is the highest in the field.

VALUE PLAY: Value Driven — Confidence 8/10 — Target odds: 5/1–7/1

The model projects 14% win probability at 6/1 morning line (14.3% implied), creating **-0.3% edge**—marginal on the surface. However, this represents **genuine overlay among first-time starters**: Brown's FTS record (18% wins, 1.41 ROI across 285 starts) is elite; gate work pattern is sharp; Into Mischief bloodline confirmed for dirt sprint speed. The model identifies Value Driven as the field's most prepared FTS entry. Public has overlooked this horse in favor of Hullabaloo Ray Ray hype. Win at 6/1 represents value vs. win probability; best return if horse closes from mid-pack.

LONGSHOT PLAY: Iron Charger — Confidence 7/10 — Target odds: 10/1–15/1

The model projects 18% win probability at 8/1 morning line (11.1% implied), creating **+6.9% edge**—strong overlay for a FTS. Morning line 8/1 undervalues Gargan's FTS credentials (13% wins, 1.78 ROI) and Flightline pedigree combined with gate work readiness. At 10/1 or higher, this represents exceptional value. Risk: jockey Davis D. (5.97% win rate) lacks elite tactical skill vs. Franco or Santana.

Multi-Race Sequences — Pick 3/4/5/6 Top 3

- **A: Art Museum** — 26% — (*Win Bet selection*)
- **B: Hullabaloo Ray Ray** — 20% — (*Pace setter; if beats Art Museum, likely to wire*)
- **C: Value Driven** — 14% — (*First-time closer with elite trainer prep*)

Combined Projected Probability: 60%

SECTION 7: CONFIDENCE RATING

★★★★

The model projects a **MODERATE pace scenario** with two competitive early speed threats (Hullabaloo Ray Ray and Art Museum), creating an ideal setup for stalkers and closers. **Art Museum** emerges as the model's top selection at 26% win probability—his proven 6.5f distance, elite trainer upgrade (Brown), jockey improvement (Franco), and second-start trajectory combine into the field's strongest contention profile. The model flags **Hullabaloo Ray Ray as severely overbet at 1/1** (public 50% implied vs. model 20% projection): his brilliant debut was only 3 days ago, raising sharp bounce risk, and his 11% deceleration suggests he may lack sustainability if pressured by Art Museum in the stretch.

Public betting mistake to exploit: Overweighting Hullabaloo Ray Ray at 1/1 while undervaluing Art Museum at 2/1. The model projects Art Museum as the genuine faster horse at 6.5f with proven distance fit and tactical advantage.
