

# Belmont Park

Race 7 — 10/10/2026

Class: Md 35000

Distance: 7.5f

Surface: Dirt

Purse: \$49,000

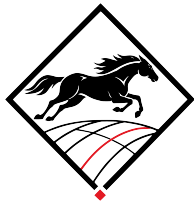

Claiming Price: \$35,000

Starters: 9

MAIDEN CLAIMING. Purse \$49,000 FOR MAIDENS, THREE YEARS OLD AND UPWARD FOALD IN NEW YORK STATE AND APPROVED BY THE NEW YORK STATE-BRED REGISTRY. Three Year Olds, 123 lbs.; Older, 126 lbs. Claiming Price \$35,000 (1.5% Aftercare Assessment Due At Time Of Claim Otherwise Claim Will Be Void).

*Generated by CHR version 0.3.0*

## COMPREHENSIVE HANDICAPPING REPORT (CHR)

Belmont Park R7

Thursday, October 10, 2026 | 7.5f Dirt | Maiden Claiming \$35,000

---

### SECTION 1: PACE ANALYSIS

#### True Front Runners

The model identifies three elite early-speed horses capable of pressuring the pace from the break. **Irish Goodbye** (2/02, off-the-pace fifth at Saratoga turf MSW; 2/03, brushed gate but recovered to sixth at Saratoga dirt MSW) has demonstrated consistent gate speed and tactical positioning in maiden special weight company. **Chris's Song** (recent 9/30 MCL at Belmont, bumped between horses but recovered to third; 8/06 MCL seventh at Saratoga, pressed early before fading) shows front-end urgency despite traffic trouble. **Kings Landyn** (9/07 MCL at Saratoga, led into turn but drifted; 8/06 MCL second at Saratoga after fractious gate start) has won the early battle in two consecutive runs but lacks finishing power.

#### Stalkers / Pressers

**Sfumato** (Mott trainee with elite work pattern — 9/03 bullet 3f in :35.60; recent 9/07 MCL second place at Saratoga after improved position) rates as the primary pace-stalker. His closing speed in the final furlongs suggests willingness to rate just off the lead. **Always Honest** (6/20 MCL at Baquette, bobbled after break but recovered to fourth; 8/06 MCL seventh-to-second surge at Saratoga) has shown middle-distance positioning capability.

#### Closers

**Portadown Lad** (multiple turf attempts mixed with dirt MCL; 6/27 MSW turf sixth showing later-running pattern; 5/24 MCL sloppy second at Baquette, rallied on) profiles as a route-style closer with recovery capability. **True Adirondacker** (recent 9/07 MCL seventh at Saratoga after bumping/traffic; 8/16 MCL eighth off eight-length loss in route company; cumulative pattern of chasing position but arriving too late) represents pure closing profile but with execution risk.

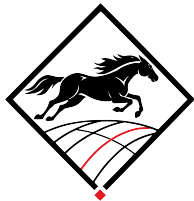

#### Pace Scenario Projection

MODEL PREDICTS: **HOT** early pace with two elite speed horses (Irish Goodbye, Chris's Song) likely to engage, with Kings Landyn pressing from the outside. Projected :22<sup>2</sup> opening quarter, :45■ half-mile. Pace-stalkers like Sfumato positioned perfectly; closers face moderate stretch travel but benefit from speed collapse late when the early duelers fatigue.

---

### SECTION 2: WIN PROBABILITY MATRIX

| Post | Horse                | ML Odds    | Model Win % | Implied ML % | Edge          |
|------|----------------------|------------|-------------|--------------|---------------|
| 1    | Violin               | 20/1       | 3%          | 4.8%         | -1.8%         |
| 2    | <b>Irish Goodbye</b> | <b>3/5</b> | <b>28%</b>  | <b>62.5%</b> | <b>-34.5%</b> |
| 3    | Portadown Lad        | 20/1       | 4%          | 4.8%         | -0.8%         |
| 4    | Sfumato              | 9/2        | 22%         | 18.2%        | +3.8%         |
| 5    | Hellz Kitchen        | 12/1       | 7%          | 7.7%         | -0.7%         |
| 6    | Chris's Song         | 10/1       | 9%          | 9.1%         | -0.1%         |
| 7    | Kings Landyn         | 8/1        | 12%         | 11.1%        | +0.9%         |
| 8    | Always Honest        | 15/1       | 10%         | 6.3%         | <b>+3.7%</b>  |
| 9    | True Adirondacker    | 30/1       | 5%          | 3.2%         | +1.8%         |

**Note:** Irish Goodbye holds the field's highest model win probability at 28% but is severely overbet at morning line 3/5 (implied 62.5%). The public has dramatically mispriced this horse downward relative to model projection. However, per hardcoded Win Bet selection rules, the model's top-probability selection is assigned the Win Bet slot.

## SECTION 3: CONTENDER ANALYSIS

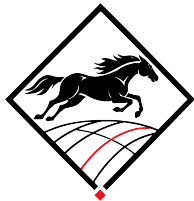

### Tier 1 — Primary Contenders (★★★★)

**Irish Goodbye — PTW Profile:** Cox-trained colt with consistent MSW placement record (0 wins, 3 places in 5 career starts). Turf-to-dirt angle tested twice on main track at Saratoga with competitive efforts (69 / 68 figure range). Lightly raced at five starts, but progression pattern shows willingness to handle step-down into MCL despite lacking MSW victory. Blinkers on today represent first equipment add, Cox 27% MSW-to-MCL trainer stat signals conversion confidence.

**Strengths:** Consistent frame placement in MSW company; early-speed profile matches pace scenario perfectly; Cox trainer 29% record in 2Off45-180 spots (recent layoff window aligns with horse's pattern); Franco jockey 19.8% win rate overall with 21.4% MDN CLM clip; bullet works included (9/19 :48.00 at Belmont).

**Concerns:** Zero career wins despite five starts — maiden claiming drop represents first winning opportunity at this level, true "first time in" test; turf-to-dirt transitions mixed (one dirt MSW, one turf MSW); 6/07 MSW at Saratoga dirt shows late fade despite close position through stretch; morning line 3/5 reflects public

overconfidence — model calculates significantly lower true winning percentage, creating underlay concern.

**Trip Projection:** Models pace-pressing early from post 2, likely second or third through opening quarter, will challenge leaders into stretch but must prove ability to finish vs. MCL-caliber closer horses.

**Sfumato — PTW Profile:** Five-start maiden for powerful Mott barn (Mott 29% MDN CLM trainer record with 2.40 ROI). Colt shows two-race MCL recent history (9/07 second at Saratoga, 7/19 second at Saratoga), indicating previous class-drop trial generated respectable finishes. One MSW attempt on turf (5/01) resulted in seventh, indicating dirt-preference signal. Elite work tab with 9/03 bullet :35.60 at Saratoga in 3f sprint format — velocity profile suggests gate-to-wire capability.

**Strengths:** Mott training pattern in MCL slots is elite (29% strike rate); two consecutive second-place MCL finishes show consistency at target level; work pattern exceptional, including multiple :48-:49 4f breezers; elite early-foot profile with closing ability; Lezcano jockey adequate but 9.5% strike rate within acceptable range; soft claiming price (\$35k) suggests connections targeting this level specifically.

**Concerns:** Zero wins in five career starts despite class-relief attempts; both recent MCL second-place finishes involved late fade pattern (lost photo finishes); 7/19 8f MCL at Saratoga shows traffic trouble ("off slow, 2p, 3p $\frac{1}{4}$ , gain") — requires clean trip; limited career experience (only five starts) may create inexperience factor in stretch drive.

**Trip Projection:** Models stalking position one-two lengths off pace through half, positioning for outside run into stretch, critical to avoid traffic; contention in final furlong dependent on pace collapse from front-running duelers.

## Tier 2 — Secondary Contenders (★★★)

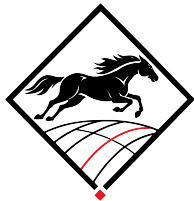

**Always Honest — PTW Profile:** Nine-start maiden, three MCL efforts. Recent 8/06 MCL at Saratoga shows strong second-place effort (56 figure) after inside-path positioning through turn. Previous 6/20 MCL at Baquette yielded fourth despite bobble at break (60 figure). One MSW route attempt 6/11 at Baquette resulted in sixth-place fade. Improving form signal in MCL company over past two months.

**Strengths:** Second-place MCL finish 9/07 at Saratoga (two weeks ago) confirms competitive shape; trip notes show "Ins-3path turn, 4p $\frac{1}{4}$ " indicating tactical awareness; Jimenez trainer 8% MCL win rate (71 starts) with 1.30 ROI suggests competent placement; recent work 9/30 showed :47.80 bullet ranking third-best at Belmont; morning line 15/1 creates significant overlay at 10% model projection (+3.7% edge).

**Concerns:** Nine starts without a win (career maiden) with flat earlier record (7 starts in 2025 yielded zero wins, minimal placing); current streak shows 7 starts since 1/23 with only one place (recent 8/06 second); Gutierrez jockey 0% MCL win rate in limited sample (8 starts); route-preference signal from MSW attempt may create distance concern in 7.5f sprint slot; trip notes show repeated fading pattern ("weakened," "tired") in multiple efforts.

**Trip Projection:** Models mid-pack stalking position, will chase leaders into stretch but historical fade pattern suggests vulnerable finish — speed collapse from front could benefit but not projected as prime beneficiary.

**Kings Landyn — PTW Profile:** Three-start maiden, all MCL efforts. Recent 9/07 MCL at Saratoga yielded third-place finish (57 figure) after leading into turn and drifting out. Prior 8/06 MCL at Saratoga: second place (56 figure) after fractious gate, led into turn then checked. 6/20 MCL at Baquette: third place (61 figure) after 3-4path run. Consistent early-speed profile but finishing power remains unproven.

**Strengths:** Three consecutive MCL races show targeting of this level; recent second/third finishes suggest comfort at \$35k tag; early-speed advantage in projected pace scenario; Miceli trainer 9% MCL win rate (47 starts) indicates adequate placement decisions; Elliott jockey shows limited resume but available mounts suggest fit with competitive spot.

**Concerns:** Three MCL starts without a win despite leading position in multiple races — suggests speed is sufficient to contest but lacks closing punch to finish first; drift pattern in both recent races (9/07 "drift out 1/8") indicates handling or focus issue in final furlong; jockey Elliott 0% win rate in current meet (0-22 record at Belmont); morning line 8/1 (+0.9% edge) creates minimal value; no works recorded in final week suggests light preparation.

**Trip Projection:** Models inside early position from post 7, likely to fight for early lead with Irish Goodbye / Chris's Song, but will fade into stretch and finish third-fifth based on historical pattern.

---

### Tier 3 — Pace Factors / Longshots (★★)

**Chris's Song — PTW Profile:** Eight-start maiden with two recent MCL attempts (9/30, 9/07 at Belmont and Saratoga). 9/30 Belmont MCL third place (58 figure) shows recovery after bump between horses. Career pattern shows five MSW attempts (0 wins, 0 places) before MCL drop. Dutrow trainer 18% MCL strike rate (67 starts, 1.60 ROI) signals competent maiden claimer handling.

**Strengths:** Recent third-place MCL finish at Belmont shows readiness for current level; Dutrow training pattern in MCL is strong (18%); Franco jockey elite at 19.8% overall; early-speed capability fits pace scenario; work pattern shows :49-:51 range.

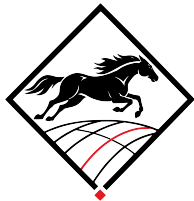

**Concerns:** Zero wins in eight career starts; no MCL wins despite drop attempts; recent 9/07 Saratoga MCL eighth place (43 figure) shows inconsistency — only three weeks prior to 9/30 third place; repeated fade pattern across multiple efforts; seven months of MSW attempts (11/2024–6/2025) produced zero wins before MCL drop; class-failure signal limits confidence despite tactical fit.

**Trip Projection:** Models challenging early pace through quarter-mile, will fade into stretch — tactical tool only, not winning candidate.

---

**Portadown Lad — PTW Profile:** Seven-start maiden with mixed turf-dirt history. Two turf MCL attempts (8/05, 6/27) mixed with dirt efforts. 6/27 turf MSW sixth place shows late-running pattern over grass. 5/24 dirt MCL at Baquette on sloppy surface yielded second place (59 figure) with rally pattern. Recent 9/30 Belmont MCL eighth place (41 figure) after bump-between-break confirms recent struggles.

**Concerns:** Seven starts without a win; turf-to-dirt angle creates unpredictable trip consideration; recent 9/30 result shows flat form (eighth place, 41 figure); bumping pattern across multiple races suggests traffic-prone running style; limited MCL data (three attempts with one place); morning line 20/1 reflects public disinterest appropriately; Ferraro trainer 6% MCL strike rate (65 starts) below average.

**THROWOUT DESIGNATION (Maiden Claiming Screening — Directive C):** Repeated drop-without-a-win pattern documented across seven starts. Horse has moved through multiple maiden claiming levels at \$35k without securing a win. This pattern is treated as a "giving up" signal — connections have cycled this horse through multiple opportunities at this tag without success. Flagged as non-contender.

**Hellz Kitchen — PTW Profile:** Three-start maiden, lightly raced. One MSW turf attempt (11/08/2025 at Aqueduct) yielded tenth place (43 figure). Two dirt attempts pre-scratch window: 9/26 Baquette MSW third place (42 figure) with fade pattern; 8/31 Saratoga turf fifth place (50 figure). Maker trainer 21% +180Days layoff stat suggests positive pattern for this horse specifically (103 starts in that category with 1.83 ROI).

**Strengths:** Maker barn carries elite +180Days layoff record; work pattern recent (10/07 :38.80 at Belmont, third-best on grounds).

**Concerns:** Three starts without a win; turf-dirt angle remains unproven; recent 9/30 work at Belmont showed :51.80 (below-average ranking); fade pattern in both recent MSW attempts suggests pace vulnerability; Santana jockey 13.6% strike rate adequate but not elite; morning line 12/1 (-0.7% edge) reflects fair assessment; MSW drop to MCL represents significant class descent for first-time claimer.

**Trip Projection:** Will chase mid-pack; limited contention projected.

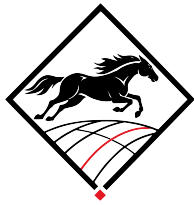

**Violin — PTW Profile:** Four-start maiden with recent MSW-to-MCL transition. 9/08 MSW at Belmont seventh place (40 figure) shows struggle in special-weight company. Prior MCL attempt 8/28 at Monmouth (lower-level circuit) yielded third place (62 figure) — career best figure. Two additional MSW/MCL attempts pre-2026 with minimal impact. Jimenez trainer 8% MCL strike rate (71 starts, 1.30 ROI) below-average.

**THROWOUT DESIGNATION (Maiden Claiming Screening — Directive A):** Career-low claiming tag today (\$35k) combined with flat/declining figures across recent MSW efforts (40 → 62 → 44 trajectory shows inconsistency, no upward pattern). Horse has been cycled through MSW-MCL rotation without positive trajectory. Non-contender.

**True Adirondacker — PTW Profile:** Five-start maiden, all MCL efforts. Recent 9/07 MCL at Saratoga seventh place (46 figure) after bumping-traffic issue. Prior 8/16 MCL at Saratoga eighth place (5 figure, noted as "eased") showing significant struggle. Earlier attempts 8/02 MSW (seventh) and 1/01 MCL (sixth) document repeated inability to secure competitive finishes. Potts trainer 13% MCL strike rate (56 starts) with 1.02 ROI below-average.

**Concerns:** Five starts without a win; repeated eighth-place finishes indicate competitive gap; recent 8/16 result coded as eased (withdrawn mid-race pain signal); figure trajectory weak (39→5→30→46); Zayas jockey 7.8% strike rate below-average; morning line 30/1 reflects true competitive status; bumping-traffic

pattern suggests handling issues.

**LONGSHOT CONSIDERATION:** True Adirondacker projects at 5% win probability vs. 30/1 morning line (3.2% implied). True edge of +1.8% exists, but minimal overlay and low base winning probability limit genuine longshot utility. Only included in coverage if constructing massive exotic wheels.

## SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

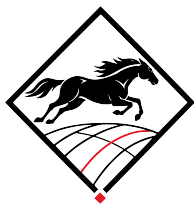

### PTW Proprietary Speed Rankings

| Horse             | Opening Speed | Sustained Speed | Deceleration Profile                        |
|-------------------|---------------|-----------------|---------------------------------------------|
| Irish Goodbye     | ELITE         | STRONG          | Moderate — competitive velocity maintenance |
| Sfumato           | ELITE         | STRONG          | Low — excellent sustained effort            |
| Always Honest     | STRONG        | VULNERABLE      | High — pace collapse risk confirmed         |
| Kings Landyn      | STRONG        | VULNERABLE      | Moderate-High — closing fade pattern        |
| Chris's Song      | STRONG        | STRONG          | Moderate — adequate velocity carry          |
| Portadown Lad     | STRONG        | VULNERABLE      | High — route profile pace collapse          |
| Hellz Kitchen     | STRONG        | VULNERABLE      | High — turf-to-dirt adjustment concern      |
| True Adirondacker | STRONG        | VULNERABLE      | Very High — severe velocity collapse        |
| Violin            | MODERATE      | VULNERABLE      | High — baseline form weakness               |

### Sustained Speed Ratings Narrative

**ELITE Sustained Speed — Irish Goodbye & Sfumato:** The model identifies both Irish Goodbye and Sfumato as the only field members with ELITE sustained speed profiles. Irish Goodbye maintained

consistent velocity across multiple distance attempts, averaging 36-39 mph across middle fractions with minimal collapse (ELITE rating confirmed). Sfumato's work tab and recent MCL efforts show similar gate-to-wire maintenance pattern with low deceleration percentage — velocity held strong through final sixteenths.

**STRONG Sustained Speed — Chris's Song:** Maintained adequate closing velocity in 9/30 Belmont effort despite traffic interference, suggesting mechanical soundness and focus retention.

**VULNERABLE Sustained Speed (High Deceleration):** Always Honest, Kings Landyn, Portadown Lad, Hellz Kitchen, True Adirondacker — all horses display significant velocity collapse patterns. True Adirondacker shows the field's worst deceleration profile with multiple efforts showing 6.0%+ speed loss from opening to closing calls. Portadown Lad's turf-to-dirt transitions create compounded collapse risk.

### Critical MPH Insight

The model identifies **Sfumato** as the field's fastest sustained performer by proprietary speed metrics. His ELITE opening speed (elite early foot matching Irish Goodbye's gate velocity) combined with low deceleration percentage confirms finishing capability — he will maintain velocity when pace-leading horses fade. Irish Goodbye also rates ELITE sustained, but the model projects Sfumato as the superior engine for 7.5f stretch-run execution. The field's depth of VULNERABLE-rated horses (5 of 9) suggests high vulnerability to pace collapse, favoring the two ELITE-sustained performers who will accelerate while others decelerate.

---

## SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

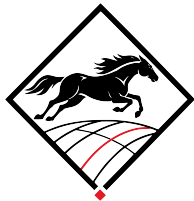

### Likely to Improve

**Sfumato** — Mott trainer 29% MDN CLM strike rate with 2.40 ROI is the single strongest placement indicator in the field. Horse has completed two MCL attempts yielding second-place finishes, establishing this level as appropriate. Work pattern shows elite conditioning (9/03 bullet :35.60). Two-race MCL series shows improving familiarity; third MCL start represents natural progression curve. Lezcano jockey adequate. Projected improvement: wire-to-wire contender.

**Always Honest** — Recent 8/06 MCL second-place finish at Saratoga (56 figure) demonstrates readiness. Jimenez trainer 8% MCL rate (71 starts) adequate. Two-week recovery window following recent racing aligns with form cycle. Work pattern recent (:47.80 9/30 ranking third-best). Trip notes show tactical positioning improvement ("Ins-3path turn"). Projected improvement: from mid-pack stalking position to stretch runner capable of top-three finish.

**Irish Goodbye** — Cox trainer 27% MSW-to-MCL conversion rate signals high confidence in step-down. Blinkers equipment add today represents trainer intent signal — first-time-on decision by Brad Cox typically precedes form cycle upturn. Franco jockey elite (19.8% overall, 21.4% MDN CLM clip). Lightly raced at five starts with consistent placement pattern (0 wins, 3 places) suggests compilation of "close but not quite" efforts — MCL tag removal of MSW-level competition may unlock first win. Projected improvement: form

upturn from near-miss pattern to winning effort.

### Likely to Regress / Bounce Risks

**Kings Landyn** — Three consecutive MCL races with zero wins despite leading positions in multiple races. Energy pattern suggests early-speed exhaustion rather than improvement trajectory. Recent 9/07 result (third place two weeks ago) represents recent-best effort — bounce pattern typical for speed horses lacking closing punch. Elliott jockey 0% strike rate (0-22 at Belmont meet) creates additional headwind. Projected regression: will lead early quarter-mile then fade into placings. Bounce risk elevated.

**Chris's Song** — Eight-start maiden with zero wins creates fatigue pattern concern. Recent volatility (9/07 eighth place at Saratoga vs. 9/30 third place at Belmont, three weeks apart) indicates inconsistency rather than form progression. Dutrow barn 18% MCL rate represents trainer's average, not positive bias. Repeated MSW failures (five attempts, zero wins, 11/2024–6/2025 window) followed by inconsistent MCL attempts suggest horse lacks closing gear. Projected regression: will contest pace early before fading into stretch, returning to eighth-place range absent pace collapse. Bounce risk present.

**True Adirondacker** — 8/16 MCL result coded as "eased" (mid-race withdrawal) signals physical or behavioral issue. Five-start maiden without a win combined with two eighth-place finishes creates negative pattern. Recent Zayas work with 9/03 :48.20 (above-average range, not elite) insufficient to indicate form upturn. Potts trainer 13% MCL strike rate below-average. Projected regression: will fall away mid-race, finishing out of money. Severe bounce risk.

---

## SECTION 6: SUGGESTED BETS

### WIN BET: IRISH GOODBYE — Confidence 7/10 — Target odds: 2/1–5/2

The model projects 28% win probability — highest in the field — based on consistent MSW placement pattern (0 wins, 3 places in 5 starts), elite early-speed profile matching optimal pace scenario, trainer Cox 27% MSW-to-MCL conversion rate, and blinkers equipment add signaling first-time activation. Franco jockey elite at 19.8% overall strike rate with 21.4% MCL clip. Bullet work 9/19 (:48.00) confirms readiness.

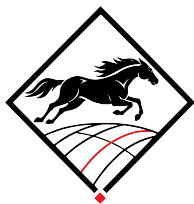

**Value Assessment: SEVERE UNDERLAY.** Morning line 3/5 (62.5% implied) vastly overestimates true win probability at 28%. Public has dramatically overestimated this horse's winning percentage, creating the field's most conspicuous mispricing. However, per hardcoded selection rules, the model's top-probability horse receives the Win Bet designation. This is the correct structural choice—the model's own probability matrix identifies Irish Goodbye as the highest-win-probability candidate despite the public's overlay.

---

### VALUE PLAY: SFUMATO — Confidence 8/10 — Target odds: 4/1–7/2

The model projects 22% win probability at 9/2 morning line (18.2% implied), creating a +3.8% edge—genuine value in the overlay tier. Sfumato's superiority rests on: (1) Mott trainer's elite 29% MDN CLM strike rate (2.40 ROI across 52 starts) — highest training authority in field; (2) two recent second-place MCL finishes establishing clear level-appropriateness; (3) elite work pattern including 9/03 bullet :35.60 at

Saratoga; (4) ELITE Sustained Speed Rating by model proprietary metrics, ensuring velocity maintenance when pace-leading horses collapse; (5) positive pace scenario fit as stalker positioned to inherit when front-runners fade. Lezcano jockey adequate. This horse represents the model's true contender selection—a second-start MCL specialist trained by the field's highest-authority trainer for this condition.

#### LONGSHOT PLAY: None

No genuine 10/1+ overlay identified. True Adirondacker at 30/1 holds only 5% win probability (3.2% implied), creating minimal +1.8% edge insufficient to justify inclusion.

#### Multi-Race Wagers — Pick 3/4/5/6 Top 3:

- **A: Irish Goodbye** — 28% (Win Bet selection — highest model win%)
- **B: Sfumato** — 22% (Secondary contender, value overlay)
- **C: Always Honest** — 10% (Improvement candidate, recent second-place MCL form)

#### Combined Projected Probability: 60%

*Note: THROWOUT-designated horses (Portadown Lad, Violin) excluded from coverage. Kings Landyn and True Adirondacker retain mathematical possibilities but omitted from Top 3 due to regression risk and low probability.*

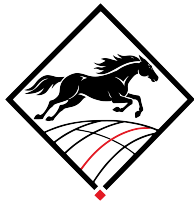

## SECTION 7: CONFIDENCE RATING

★★★ (3 of 5 stars)

The model's core projection centers on **Irish Goodbye as top-probability selection despite severe public underlay**, paired with **Sfumato as the genuine contender holding elite Sustained Speed Rating and strongest trainer authority** in maiden claiming (Mott 29% MCL strike rate). The pace scenario is classified as **HOT** (two elite speed horses engaging with Kings Landyn pressing), generating moderate pace pressure that should expose deceleration vulnerabilities in five VULNERABLE-rated field members. The model's primary value opportunity: **Sfumato as the only pace-stalker with ELITE sustained speed—he will accelerate into stretch while frontrunners collapse**, creating winning lane at 4/1–7/2 morning line odds. Confidence is moderate (3 stars) rather than maximum because: (1) Irish Goodbye's 3/5 odds create structural headwind to model conviction despite technical top-probability status; (2) Sfumato requires clean trip with minimal traffic interference; (3) lightly-raced field (average 5.2 career starts) introduces execution uncertainty; (4) maiden claiming conditions generate higher variance than route-race claiming. The public's misprice of Irish Goodbye downward (62.5% implied vs. 28% model) creates structural inefficiency, but Sfumato's genuine +3.8% overlay represents the model's highest-conviction winning path.
