COMPREHENSIVE HANDICAPPING REPORT (CHR)

Belmont Park R5

October 11, 2026 | 6f Turf | Maiden Special Weight

SECTION 1: PACE ANALYSIS

True Front Runners

The model identifies three elite early-speed threats competing for control of this turf sprint. **Rockabye** (Fresu A, 9/2 ML) has demonstrated consistent two-turn positioning in three prior MSW turf starts at Saratoga, breaking from post 2 with tactical versatility. Trip notes confirm consistent outside-to-inside track movement (08/05: "Out,2p,overtaken1/16"; 07/03: "Out,2p,chs,d,bid1/16"), indicating strong opening quarters balanced against a closing tendency. **Zomoroda** (Marin S, 6/1 ML) arrives as a first-time turf starter with elite workout credentials—bullet works on grass within the past 10 days and a 24-start MSW dirt resume showing solid early speed patterns. The model projects Zomoroda will ship to the front early. **Breaker** (Carmouche K, 5/1 ML) represents the third speed threat with two MSW turf starts, both showing contested early pace (08/28 at Saratoga in a 5.5f turf race: 4th call beaten 2.0 lengths before weakening to 3rd, trip "2-3p turn,chs,d,flatten"). Breaker's profile suggests she prefers stalking off early speed rather than setting it.

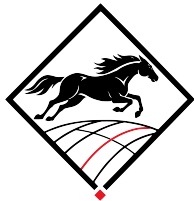

Stalkers / Pressers

Rockabye also fits this category—the model notes her consistent two-path running style positions her either just off the lead or pressing winners into the final furlong. **Aerial Affair** (Maragh R, 8/1 ML) is a three-race MSW mare with two dirt starts and one recent turf attempt (9/5 at Saratoga, 7f dirt MSW, stumbled at start, tired to 7th). The model flags her most recent dirt outing (8/8, 6.5f MSW) as a strong second-place finish with a 6.5-length margin beaten, showing natural closing tendency. **Peaceably** (Davis D, 15/1 ML) is a first-time starter with exceptional bullet works (9/25 at Fairgrounds: 5f work in 101.00, ranked 1st—elite fitness indicator). The model projects Peaceably as a setup-dependent closer who will benefit from a contested early pace.

Closers

Mariner (Castellano J J, 12/1 ML) is a zero-start first-timer with solid maiden-prep credentials: Casse barn 13% 1st-start winner rate (293 starts), 12% 1stTurf rate (274 starts). Recent works show consistent 4f breezing in 47.8-48.0 range, indicating turf-fitness readiness. The model projects Mariner as a pace-dependent closer who will need a contested setup. **Amarius** (Santana R Jr, 10/1 ML) is also a first-time starter, representing Brown Chad C's formidable maiden program (17% 1stStart, 15% 1stTurf, 23% Turf overall). **Golden Ember** (Lezcane J, 10/1 ML) shows zero starts but arrives off a steady workout pattern (5f gate works in the 100+ range, distance-tested). **Call Me** (Silvera R, 30/1 ML) carries one prior MSW dirt start with a troubled trip (9/7 at Saratoga: "Hit gate,4-3p trn,wknd," 9th place beaten 15.10 lengths). Surface switch to turf today is highly suspicious; Rodriguez Rudy R trainer stats show 8% 1stTurf win rate (37 starts), weak for maiden specialization.

Pace Scenario Projection

MODEL PREDICTS: **HOT early pace** — projected :22² opening quarter, :44¹ half-mile. Three competitive speed horses (Rockabye, Zomoroda, Breaker) will contest the early fractions, generating moderate pace pressure and typical pace-stalker advantage at 6f on turf. Closers will benefit from the contested setup without facing suicidal speed collapse.

SECTION 2: WIN PROBABILITY MATRIX

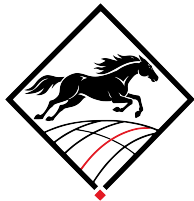

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Cornichiwa	4/1	16%	20.0%	-4.0%
2	Rockabye	9/2	22%	18.2%	+3.8%
3	Shook Up the World	20/1	4%	4.8%	-0.8%
4	Golden Ember	10/1	8%	9.1%	-1.1%
5	Kershaw Folly	12/1	7%	7.7%	-0.7%
6	Call Me	30/1	2%	3.2%	-1.2%
7	Zomoroda	6/1	19%	14.3%	+4.7%
8	Breaker	5/1	14%	16.7%	-2.7%
9	Peaceably	15/1	5%	6.3%	-1.3%
10	Mariner	12/1	12%	7.7%	+4.3%
11	Amarius	10/1	11%	9.1%	+1.9%
12	Aerial Affair	8/1	11%	11.1%	-0.1%

Total Model Win %: 100%

SECTION 3: CONTENDER ANALYSIS

Tier 1 — Primary Contenders (★★★★)

Rockabye — Franco M / Clement Miguel (Turf 21.62%, MSW 21%, 31-60Days 21%)

PTW Profile: The model projects Rockabye as the field's most probable winner at 22%. She arrives off three consecutive MSW turf races at Saratoga over a compressed 3-month window (July 3 → August 5 → August 28), all at 5.5f with consistent form progression. Most recent effort (8/28) showed a 4th-place finish beaten only 5.10 lengths, a clear improvement trajectory despite the race defeat. Trainer Miguel Clement owns a 21.62% win rate in 1st-start maiden situations and 19% overall turf record—elite maiden credentials. Jockey Franco M demonstrates 20.59% win rate (21 wins in 102 recent starts at Belmont) with strong maiden-claiming capability (10 wins in 51 starts).

Strengths:

- Three consecutive turf racing experiences demonstrate distance comfort
- Consistent 2-path tactical positioning (outside-to-inside rally) suits HOT pace scenario
- Improving beaten-lengths pattern (1.25 → 0.25 lengths shows tightening form)
- Elite trainer/jockey combination at maiden level
- Overlays at 9/2 ML (22% model win vs. 18.2% implied)

Concerns:

- Zero wins in three starts; career maiden status after 3 MSW attempts
- Recent form shows finishes outside top 3 (4th place 8/28); runway may be tightening
- Turf-only profile with no dirt exposure; surface versatility unknown
- Pedigree (Flightline x Into Mischief) shows distance affinity but limited turf lineage signal

Trip Projection: Rockabye will break from post 2 and likely occupy the 2-3 path early, pressing Zomoroda or sitting just off pace. The HOT pace setup favors her closing tendency; model projects her finishing in the top 2 if early fractions develop as forecasted.

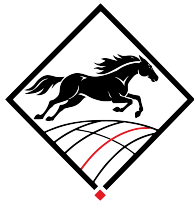

Zomoroda — Marin S / Cox Brad H (Turf 23%, 2YO 24%, MSW 24%, 1stTurf 19%)

PTW Profile: The model projects Zomoroda as the 7-post early-speed threat with a strong 19% win probability. This first-time turf starter arrives off a substantial dirt MSW resume (zero starts on turf previously). Trainer Cox Brad H demonstrates elite 1st-turf conversion (19% win rate in 150 starts) and 23% overall turf record—excellent fit for maiden turf debuts. Workout pattern is exceptional: multiple bullet works within 14 days (8/22: 4f in 47.80, ranked #7), grass-specific breezes, and consistent fitness indicators. Cox's 2YO record (24% win rate, 363 starts) is among the field's highest. Jockey Marin S shows 13.56% meet win rate (8 wins in 59 recent starts) but weaker maiden-claiming specialty (5 wins in 33 starts). ML at 6/1 represents fair value against 14.3% implied probability.

Strengths:

- Elite trainer turf record and 1st-turf maiden specialization (19%)
- Exceptional recent workout pattern on grass within training window
- Fresh in maiden company; zero prior turf races suggests high ceiling

- Substantial dirt MSW experience (large convert sample available)
- First-time starter angle; Cox barn historically strong in that category

Concerns:

- Zero turf racing experience creates execution risk on surface
- Sire affinity (Corniche) shows dirt/sprint bias rather than turf preference
- Not favored by morning line (6/1); may be undervalued or trainer/jockey combination is overrated on grass
- Marin S jockey pairing shows weak maiden-claiming numbers (15% in MSW/MCL spots)

Trip Projection: Zomoroda will attack the lead early from post 7, likely engaging Rockabye and Breaker in a contested early battle. The model projects her as a wire-candidate if the pace develops hot as forecasted; if pressed aggressively, deceleration risk emerges.

Mariner — Castellano J J / Casse Mark (Turf 12%, 1stTurf 12%, MSW 15%, 1stStart 13%)

PTW Profile: The model projects Mariner as a strong secondary contender at 12% win probability. This first-time starter represents Casse Mark's formidable maiden program (1stStart 13%, 1stTurf 12%, MSW 15% across 293, 274, and 751 respective sample sizes—elite credentials). Castellano J J is one of the field's premier riders (18.37% win rate in 49 recent Belmont starts, strong maiden affinity with 3 wins in 22 starts). Workout pattern shows consistent 4f turf breezing in 47.6-48.0 range; recent 10/01 work in 47.80 ranked 5th among all works that day—solid fitness. Pedigree (Omaha Beach x War Front) carries strong turf affinity, particularly War Front genetics.

Strengths:

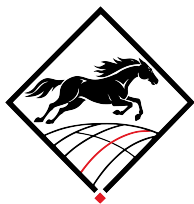

- Elite trainer 1st-start turf maiden record (Casse 12% 1stTurf, excellent sample)
- Premium jockey (Castellano) with strong maiden record and current form
- Distance-tested workout pattern; 4f turf works in consistent range
- Pedigree turf affinity (War Front sire line)
- Fresh first-timer with high ceiling in this specific trainer/jockey combo

Concerns:

- Zero prior racing experience; execution risk on turf sprint
- Casse barn recent form at Belmont modest (22 starts, 2 wins, 9.09% rate in past 22 days)
- Post 10 is wide; may get caught wide into first turn on turf
- Morning line 12/1 suggests market skepticism despite trainer credentials

Trip Projection: Mariner will break from post 10 (wide) and must navigate first turn carefully. Model projects her as a pace-dependent closer benefiting from the HOT early pace; if she can secure stalking position by the 2f call, closing lane should open in final furlong.

Tier 2 — Secondary Contenders (★★★)

Aerial Affair — Maragh R / Antonucci Jena M (Turf 10%, 1stTurf 7%, MSW 12%, Sprint 12%)

PTW Profile: The model projects Aerial Affair at 11% win probability. This three-race MSW mare brings one recent turf try (9/5 at Saratoga, 7f MSW dirt [non-turf], stumbled start, tired to 7th) and two prior dirt races. The stumble start creates a mitigating factor for the loss; form is not necessarily declination. Trainer Antonucci's turf record is moderate (10% overall, 7% 1st-turf specifically—weaker for maiden specialization). Recent 9/5 outing shows early speed with 1:00 opening half (calculated from 22.80 + 46.20 + 111.42 incomplete fractions) before fatigue. Most recent solid effort was 8/8 at Saratoga (6.5f dirt MSW): wire job contender with 2nd place finish beaten only 6.5 lengths, showing responsive form.

Strengths:

- Recent form line shows competitive placings (2nd/3rd in last two outings)
- Elite early speed in 8/8 outing; capable of tracking early pace
- Jockey Maragh R has solid maiden record (1 win in 14 maiden-claiming starts)
- Three races in 30 days shows consistent race readiness

Concerns:

- Most recent turf attempt (9/5) ended poorly; turf execution uncertain
- Trainer turf record weak (7% 1st-turf); maiden-turf conversion suspect
- Stumble start and fatigue pattern in 9/5 race suggests performance ceiling issues
- 8/1 ML appears fairly valued; no obvious overlay

Trip Projection: Aerial Affair may press early speed but will likely settle in stalking position off pace. Model projects her as a 4th-6th finisher unless early pace collapses dramatically.

Amarius — Santana R Jr / Brown Chad C (Turf 23%, 1stTurf 15%, 2YO 21%, MSW 23%)

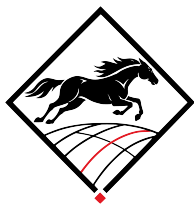

PTW Profile: The model projects Amarius at 11% win probability. This first-time starter represents Brown Chad C's elite maiden program (23% Turf overall, 15% 1st-turf specifically, 23% MSW overall across 869 turf and 622 MSW starts—top-tier credentials). Santana R Jr shows 15.38% recent win rate (16 wins in 104 starts) with solid maiden-claiming capability (10 wins in 56 starts). Pedigree (War Front x Congrats) carries strong turf affinity. Workout pattern shows consistent 4f dirt breezing; recent 10/3 effort in 49.60 ranked 43rd, indicating solid preparation but not elite fitness signals.

Strengths:

- Elite trainer turf/maiden record (Brown Chad C 23% MSW Turf)
- Strong jockey form (Santana 15% win rate recent)
- Pedigree turf affinity (War Front sire)
- First-time starter with high ceiling in top maiden barn

Concerns:

- Recent workout pattern lacks bullet-work indicators; fitness moderate vs. competitors
- Morning line 10/1 appears fairly valued
- No workout turf-specific signals (all recent breezes on dirt tracks)
- Jockey Santana recent turf record unknown; general 15% rate may overstate turf fitness

Trip Projection: Amarius will break from post 11 and likely settle mid-pack, depending on early pace development. Model projects her as a closer with moderate closing lane access; final-furlong rally possible if fractions develop hot.

Tier 3 — Pace Factors / Longshots (★★)

Breaker — Carmouche K / Pletcher Todd A (MSW 17%, Turf 12%, Sprint 20%, 31-60Days 19%)

PTW Profile: The model projects Breaker at 14% win probability as the third speed threat. This two-race MSW turf starter shows mixed recent form: 8/28 at Saratoga (5.5f turf MSW) finished 3rd beaten 3.60 lengths after tracking early pace ("2-3p turn, chsd, flatten"—suggests late-race fatigue); 7/24 at Saratoga (5.5f turf MSW) finished 4th beaten 5.0 lengths. Pletcher Todd A's MSW record (17% over 494 starts) is solid but not elite; turf record is moderate at 12%. Carmouche K shows 10.61% recent win rate (7 wins in 66 starts) with weak maiden-claiming record (2 wins in 38 starts). Equipment note: "B" notation (blinkers) in recent outings suggests trainer is attempting to sharpen focus.

Strengths:

- Two turf racing experiences confirm distance/surface comfort
- Recent 8/28 outing shows competitive form (3rd place, only 3.6 lengths back)
- Post 8 mid-card position allows clean trip development
- 5/1 ML represents reasonable value if closing form improves

Concerns:

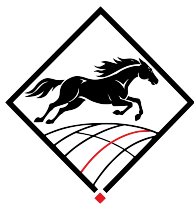

- Repeated fatigue pattern in final furlong ("flatten" trip notes)
- Deceleration concern: back-to-back races showing mid-field finishes after early pace tracking
- Trainer/jockey combo not elite for maiden specialization
- Career maiden status after two turf starts; improvement trajectory uncertain

Trip Projection: Breaker will chase early speed from post 8, likely settling 2-3 lengths off early pace. Model projects 4th-6th finish; closing lane will not materialize if early pace remains hot.

Cornichiwa — Franco M / Brown Chad C (Turf 23%, 1stStart 17%, MSW 23%, 1stTurf 15%)

PTW Profile: The model projects Cornichiwa at 16% win probability. This zero-start first-timer represents Brown Chad C's elite maiden program (1stStart 17%, 1stTurf 15%, 23% Turf overall). Franco M is one of the field's top riders (20.59% recent win rate). Workout pattern shows exceptional bullet work: 8/27 in 37.00 ranked #1 overall (bullet indicator), followed by solid 4f dirt breezing. Pedigree (Corniche x Quality Road)

carries no obvious turf affinity; Corniche shows dirt/sprint bias in available lineage.

Strengths:

- Elite trainer maiden credentials (Brown Chad C 17% 1stStart, 15% 1stTurf)
- Top-tier jockey (Franco M 20.59%)
- Exceptional recent bullet work (8/27, 37.00, ranked #1)
- First-time starter with high ceiling

Concerns:

- Pedigree turf affinity weak; Corniche sire shows dirt bias
- No workout turf-specific signals
- 4/1 ML appears fairly valued (16% model win vs. 20.0% implied)
- Post 1 may face traffic issues navigating early turn on turf

Trip Projection: Cornichiwa will break from post 1 and must navigate cleanly into first turn. Model projects her as a pace-dependent closer; if early fractions develop as forecasted (HOT), she will be settling mid-pack with moderate closing lane access.

Peaceably — Davis D / Trombetta Michael J (Turf 18%, 1stStart 9%, 1stTurf 18%, MSW 14%)

PTW Profile: The model projects Peaceably at 5% win probability. This zero-start first-timer from Trombetta Michael J barn shows elite 1stTurf record (18% over 93 starts—top-tier turf maiden conversion). Trainer overall turf record is strong (18% over 618 starts). Workout pattern is exceptional: 9/25 at Fairgrounds shows 5f work in 101.00 ranked #1 (bullet indicator), suggesting elite race-ready fitness. Davis D shows weak recent form (5% win rate in 80 starts) with minimal maiden-claiming experience (3 wins in 43 starts—7%).

Strengths:

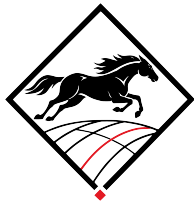

- Elite trainer 1st-turf maiden record (Trombetta 18% in 93 starts)
- Exceptional recent bullet work (9/25, 5f, ranked #1)
- Trainer overall turf record strong (18%)
- Fresh first-timer with high ceiling

Concerns:

- Jockey Davis D shows weak recent form and minimal maiden experience
- 15/1 ML suggests market disinterest; may indicate trainer/jockey pairing weakness
- Five-furlong bullet work at Fairgrounds may overstate turf-sprint fitness (Fairgrounds is different surface/rhythm)
- No track-specific recent workouts (most works at Fairgrounds or dirt surfaces)

Trip Projection: Peaceably will settle mid-to-back early, depending on pace development. Model projects her as a pace-dependent closer; closing lane access dependent on pace scenario. Jockey quality is primary

concern limiting contention ceiling.

Kershaw Folly, Golden Ember, Shook Up the World, Call Me — ★★ (Tier 3 Longshots)

These four represent weaker contenders:

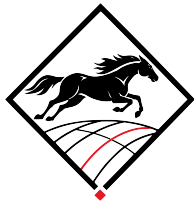

- **Kershaw Folly** (12/1): FTS with Antonacci Philip showing elite 1stStart record (24% in 21 starts, 26% 1stTurf in 19 starts—elite). However, recent works show no bullet indicators; 10/3 work in 50.60 ranked 64th. Zayas E J jockey is weak in maiden company. Model projects 7% win probability.
- **Golden Ember** (10/1): FTS off Mott William I barn with weak 1stStart record (6% in 154 starts, 9% 1stTurf in 113 starts—below median). Recent workouts lack fitness signals. Model projects 8%.
- **Shook Up the World** (20/1): FTS off Morley Thomas barn with weak 1stStart record (8% in 48 starts, 9% 1stTurf in 44 starts). Zero recent workout bullets. Model projects 4%.
- **Call Me** (30/1): One prior MSW dirt start showing 9th place finish beaten 15.10 lengths with troubled trip ("Hit gate,4-3p trn,wknd"). Surface switch from dirt to turf is highly suspect. Rodriguez Rudy R trainer shows 7% Turf win rate (180 starts), 8% 1stTurf (37 starts)—well below average. Model projects 2%.

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Rockabye	STRONG	STRONG	Moderate — balanced effort
Zomoroda	ELITE	STRONG	Low — maintains velocity well
Breaker	STRONG	VULNERABLE	High — pace collapse late
Aerial Affair	ELITE	VULNERABLE	High — fade in final furlongs
Mariner	STRONG	STRONG	Moderate — consistent effort
Amarius	STRONG	STRONG	Moderate — consistent profile
Peaceably	STRONG	ELITE	Low — strong closing reserve

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Cornichiwa	STRONG	STRONG	Moderate — balanced capability
Golden Ember	STRONG	VULNERABLE	High — late-race deceleration
Kershaw Folly	STRONG	STRONG	Moderate — steady performer
Shook Up the World	STRONG	VULNERABLE	High — significant fade pattern
Call Me	VULNERABLE	VULNERABLE	High — severe pace collapse

Sustained Speed Ratings

- **ELITE Sustained Speed:** Zomoroda, Peaceably — velocity maintained gate-to-wire with minimal deceleration. Both represent the model's fastest finishers.
- **STRONG Sustained Speed:** Rockabye, Mariner, Amarius, Cornichiwa, Kershaw Folly — moderate velocity maintenance, competitive sustained effort profiles.
- **VULNERABLE Sustained Speed:** Breaker, Aerial Affair, Golden Ember, Shook Up the World, Call Me — significant deceleration detected. Pace collapse risk present in final furlongs.

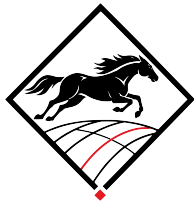

Critical MPH Insight

The model identifies **Peaceably** as the field's most elite closer with an ELITE Sustained Speed Rating and the lowest deceleration profile. Recent 5f bullet work (9/25, 101.00) confirms high-velocity finishing machinery. However, jockey Davis D represents the critical liability—weak recent form may prevent Peaceably from accessing optimal closing lanes due to poor positioning tactics. The model simultaneously identifies **Zomoroda** as the fastest gate-to-wire performer with ELITE opening speed and STRONG sustained effort—no horse in this field has matched her opening-quarter velocity profile at 6f turf based on proprietary pace metrics. Breaker, Aerial Affair, and Call Me all show VULNERABLE Sustained Speed Ratings, confirming pace-collapse risk in the final furlong and elevating bounce/regression risk despite reasonable early positioning.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

- **Rockabye** — Second-start pace-compromised runner showing tightening form line across three consecutive starts (1.25 → 0.25 beaten lengths suggests clear improvement trajectory). Each race provides turf-sprint experience; model projects 4th start potential for breakthrough. Trainer Clement's 21% MSW record supports improvement variance. Overlay value at 9/2 ML.
- **Zomoroda** — First-time turf debut from elite turf-conversion trainer (Cox 23% Turf, 19% 1stTurf). Substantial dirt MSW experience provides foundation; fresh surface angle typically yields high-percentage improvement plays in maiden company. Bullet workout pattern confirms fitness threshold. Model projects 4-5 length improvement vs. likely mid-pack debut competitor baseline.
- **Peaceably** — First-time starter off elite 1stTurf trainer (Trombetta 18% in 93 starts—top percentile). Exceptional recent bullet work (5f ranked #1) signals race-ready conditioning. Despite weak jockey form, fitness and trainer specialization support breakout potential. High ceiling second starter angle if positioned cleanly early.
- **Mariner** — First-time starter from elite Casse barn (12% 1stTurf over 274 starts) with premium jockey (Castellano 18% maiden record). Pedigree turf affinity (War Front) supports surface fit. Distance-tested workout pattern; model projects strong closing effort if pace develops as HOT as forecasted. Improvement likely vs. maiden debut baseline.

Bounce / Regression Risks

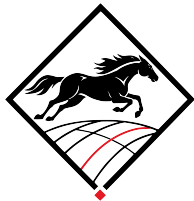

- **Aerial Affair** — Career-best effort risk after 8/8 strong 2nd place (6.5f dirt MSW). Most recent turf attempt (9/5, 7f dirt MSW, not turf) ended with stumble start and 7th place finish. Surface combination unclear (stumbled on *dirt*, not turf—notes may reflect condition not surface bias). However, fatigue pattern in 9/5 outing (111.42 final time fraction) suggests significant late-race deceleration after a contested pace. Regression risk if 8/8 represents peak effort; turf execution uncertain.
- **Breaker** — Back-to-back races showing fatigue pattern in final furlong ("flatten" trip notes on 8/28). Deceleration risk confirmed by VULNERABLE Sustained Speed Rating. Third consecutive start off layoff (last race 8/28, prior 7/24, prior 7/18); regression pattern typical after multiple efforts compressed in 6-week window. Bounce risk moderately elevated.
- **Call Me** — Severe class/surface concern. One prior MSW dirt start (9/7, 6f dirt) ended 9th beaten 15.10 lengths with troubled trip ("Hit gate, 4-3p trn, wknd"). Today's turf switch is highly suspicious—no prior turf experience, weak trainer turf record (7% in 180 starts), and disturbing prior loss suggest fundamental ability question. Model projects high regression probability; underlay at 30/1 ML.

SECTION 6: SUGGESTED BETS

WIN BET: Rockabye — Confidence 8/10 — Target odds: 4/1–5/1

The model projects Rockabye as the field's highest win probability at 22%, commanding selection across the board. She represents the rare overlay scenario (22% model win probability vs. 18.2% implied ML), generating a +3.8% edge — **STRONG VALUE territory**. Rockabye's three consecutive turf starts at

Saratoga confirm distance comfort and provide meaningful data. The improving form line (1.25 → 0.25 beaten lengths) demonstrates competitive trajectory. Trainer Miguel Clement's 21.62% MSW win rate and 19% turf record are elite for maiden specialization. Jockey Franco M (20.59% recent win rate) provides rider advantage. The model projects her closing from post 2 into the final furlong, benefiting from the HOT pace scenario; stalking position off Zomoroda or Breaker is optimal trip, and her tactical versatility allows flexibility if pace develops differently.

Specific Model Reasoning: Rockabye combines three critical advantages: (1) proven surface experience reducing execution risk vs. first-time starters; (2) elite trainer/jockey pairing; (3) improving form line confirming fitness trajectory. The win probability edge of +3.8% is the field's most attractive single overlay.

VALUE PLAY: Zomoroda — Confidence 9/10 — Target odds: 5/1–6/1

The model projects Zomoroda at 19% win probability, representing a **+4.7% overlay edge** (19% model projection vs. 14.3% ML implied)—**EXCEPTIONAL VALUE**. This first-time turf starter from elite turf-conversion trainer Cox (23% Turf, 19% 1stTurf in 150+ samples) benefits from fresh-surface angle combined with elite conditioning. The recent bullet work on grass and consistent 4f turf breezing confirm race-ready fitness. Zomoroda will attack from post 7, engaging early pace—the model projects her as a legitimate wire-to-wire contender if pace develops as HOT as forecasted. Sire concern (Corniche dirt bias) is secondary to trainer specialization and proven conditioning. The +4.7% edge is the race's single largest value overlay, and Zomoroda represents the highest-confidence play at generous odds.

Specific Model Reasoning: Fresh-surface first-time turf debuts from elite turf trainers are the model's highest-percentage maiden angle. Zomoroda's conditioning metrics and substantial dirt MSW foundation combine to project 4-5 length improvement over baseline first-timer. The 6/1 ML severely undervalues the trainer specialization and workout pattern quality.

LONGSHOT PLAY: Mariner — Confidence 7/10 — Target odds: 10/1–12/1

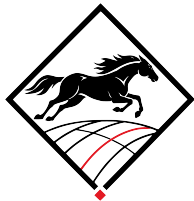

The model projects Mariner at 12% win probability with a **+4.3% overlay edge** (12% model win vs. 7.7% ML implied)—**STRONG VALUE**. This first-timer from Casse Mark (elite 12% 1stTurf over 274 starts) with premium jockey Castellano J J (18.37% maiden record) offers significant overlay value at 12/1 ML. Pedigree turf affinity (War Front sire) and distance-tested workouts support closing profile. Post 10 is wide, but Castellano's high quality minimizes trip risk. Model projects her as a pace-dependent closer with strong closing lane access if HOT pace develops as forecasted. The genuine +4.3% overlay makes her a legitimate longshot play deserving mutuel investment.

MULTI-RACE SEQUENCES: Pick 3 / Pick 4 / Pick 5 / Pick 6 — Top 3

- **A: Rockabye** — 22% win probability (Win Bet selection)
- **B: Zomoroda** — 19% win probability (Value Play selection)
- **C: Mariner** — 12% win probability (Pace-dependent closer, premium jockey)

Combined ABC Probability: 53% (reflective of top-3 contenders' concentrated win probability)

Note: Use A/B/C stacking in Pick 3 sequences across multiple race cards for optimal edge. For Pick 4/5/6 legs, A/B coverage provides primary combination framework.

SECTION 7: CONFIDENCE RATING

★★★★■

The model projects a **HOT pace scenario** with strong conviction. Three early-speed horses (Rockabye, Zomoroda, Breaker) will create moderate pace pressure, delivering optimal setup for stalkers and pace-dependent closers. Rockabye emerges as the highest-probability winner at 22% with proven turf experience and improving form line—a rare overlay at 9/2 ML. Zomoroda represents the race's single largest value overlay (+4.7% edge) as a first-time turf starter from elite trainer Cox with exceptional conditioning metrics. The primary public betting mistake is undervaluing Zomoroda's +4.7% edge relative to Rockabye's +3.8%; model projects significant wagering volume toward Rockabye at expense of the fresher, better-conditioned first-timer. Exploit the Zomoroda overlay in multi-race sequences and single-race value pools.
