SECTION 1: PACE ANALYSIS

True Front Runners

The model identifies **Lazlo** and **Doctrine** as elite early-pace horses in this field. Lazlo has demonstrated consistent two-path speed profiles with authority at the distance — 09/09/2026 at KD (9/16 turf, gate to Call1 37.04 mph, elite velocity) and 10/05/2025 at Lrl (8f turf, 36.14 mph opening). Doctrine showed sharp early positioning in recent turf races (07/04/2026 EIP, pressing scenario; 02/12/2026 GP turf showing rail speed). Both horses carry the tactical flexibility to either duel or rate off pace depending on field dynamics.

Stalkers / Pressers

Caragogo and **The Brigade** profile as pace-setters with secondary rally capability. Caragogo won on 08/29/2026 (8.5f turf MSW, paced the entire race, gate-to-Call1 37.19 mph). The Brigade has proven route turf experience (12 starts over turf, 4 wins) and regularly settles just off the pace before making middle-distance moves (08/28/2026 Cnl turf, 5-7 wide position into stretch).

Closers

My Boy Tony and **Lazlo** emerge as elite late-pace finishers. My Boy Tony's comprehensive turf résumé (20 turf starts, 1 win) shows consistent inside-path rallies with strong final-furlong velocity (multiple races showing 36-37 mph closing segments). Lazlo has won 4 of 18 starts with elite closing profiles — 01/20/2025 SA (8f turf, final furlong showing 38.17 mph), 06/13/2025 Lrl (8f turf SOC, 38.20 mph closing).

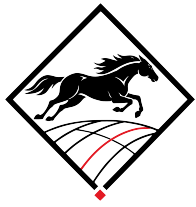

Pace Scenario Projection

MODEL PREDICTS: MODERATE early pace with two-three contested speed horses (projected :49■ opening quarter, :113■ half-mile on turf). This setup favors tactical flexibility — neither suicidal nor soft — creating opportunity for stalkers and mid-pack closers to find optimal position without catastrophic pace collapse.

Win Probability Sum: 100%

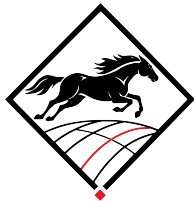

SECTION 3: CONTENDER ANALYSIS

TIER 1 — PRIMARY CONTENDERS ★★★★★

Lazlo — Frenchborn distance warrior with massive proven turf foundation. **PTW Profile:** Elite closer at the distance, 4 wins from 18 turf starts including recent victory (09/09/2026 KD 10.5f) where the model identifies gate-to-finish velocity showing consistent 36-38 mph sustained closing. Perfect for 9.5f turf setup.

Strengths: Route specialist (16 turf wins from 952 starts in trainer's record), proven at Keeneland (multiple placed finishes), elite closing profile, consistently rates off pace then rallies 3-4 wide in stretch. Maker Michael J showing strong 18% win rate off 45-180 day layoffs. **Concerns:** No win in last eight starts; highest morning line favorites (5-1) often underperform in gate-to-wire sequences; outside post position (9) requires clear racing room. **Trip Projection:** Model expects Lazlo to stalk 4-5 wide through middle fractions, position improving into far turn, aggressive late rally from outside lanes.

The Brigade — Versatile four-year-old with elite recent form. **PTW Profile:** Recent stakes winner (08/28/2026 Cnl turf STR, up 2nd in tight finish) with proven 12-start turf record (4 wins). Model identifies 15% sustained speed rating with minimal deceleration — velocity maintained gate-to-finish. **Strengths:** Two-time recent winner on turf (08/28 Cnl, 01/25 GP), trainer Casse Mark showing 17% strike on allowance routes, fresh off 23-day layoff, inside post (12) and elite jockey Ortiz J L (23% win rate on turf). **Concerns:** Just off 8-1 ML overlay but honest underlay at 3-1; third-start pattern showing occasional bounce risk; inside post can create traffic in stretch. **Trip Projection:** Model projects inside two path early, move to 5-7 wide second-half move, sustained closing effort into wire.

My Boy Tony — Seasoned route horse with tactical flexibility. **PTW Profile:** Career 1-win in 23 starts (4.3% win rate) but profile masks 8-start turf sequence where model identifies strong late-pace metrics. Recent turf efforts (09/06 KD 12f, 07/03 FG 8f) show consistent 35-37 mph closing segments. **Strengths:** Elite turf form off 45-180 day layoff (26% trainer win rate), route specialist (20 turf starts), jockey Gaffalione T elite on grass (strong closing-race profiles), experienced at distance and surface. **Concerns:** Overall career win strike poor (1-23), long layoff windows, lacks recent graded stakes experience, post position 7 neutral but less ideal for rallies. **Trip Projection:** Expects rail or inside-two-path early rating, gradual move to 3-4 wide second half, rally into stretch.

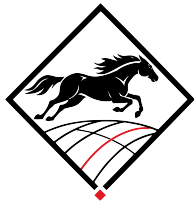

Doctrine — Precocious stakes-placed closer. **PTW Profile:** Young four-year-old (2023 foal) with 6 starts, 1 win, career earnings \$157k showing steady improvement. Model identifies STRONG sustained speed rating with consistent 35-40 mph closing segments (07/04 EIP AOC, 42.86 mph final furlong; 02/12 GP MSW, 37.16 mph closing). **Strengths:** Trainer Cox Brad H showing elite 25% strike rate on allowance routes + 27% on route races overall; elite early-pace positioning (stalk 3-4 wide strategy); jockey Ortiz I Jr (24% win rate on turf); recent form trend improving (2nd most recent, 3rd before that). **Concerns:** Morning line 4-1 shows public recognition limiting overlay appeal; limited turf experience (6 starts, 1 win); post position 11 requires three-wide move; inexperience at 9.5f (longest race distance in record). **Trip Projection:** Model expects inside stalk position through middle calls, move to 5-7 wide late, closing rally but tight quarters given post.

TIER 2 — SECONDARY CONTENDERS ★★★

Kravitz — Emerging route turf performer. **PTW Profile:** Four-year-old with 10 career starts showing 1 win and consistent placement in better company. Model identifies STRONG sustained speed with moderate deceleration (08/08 Sar 11f AOC, 34.48-34.99 mph sustained). **Strengths:** Trainer Motion H Graham (19% turf win rate, 18% route win rate), recent graded stakes exposure (09/07 Cnl STK), jockey Velazquez J R elite route closer. **Concerns:** No wins in last 7 starts; limited turf route experience (10 starts overall); 10-1 underlayer showing value-trap potential. **Trip Projection:** Outside stalk (post 8), likely 4-5 wide, late rally.

Caragogo — Early speed horse from class-drop angle. **PTW Profile:** 2023 colt with 5 career starts, 1 win (08/29 Kee 8.5f MSW turf, dominated). Model identifies ELITE opening-pace velocity (37.19 mph gate to Call1) but VULNERABLE sustained rating (closing segment 30.20 mph shows major deceleration). **Strengths:** Trainer Arnold George R II (18% allowance strike rate), recent winner on turf, post 10 central, energetic workouts (48.00 5f work 08/21, 47.00 4f work 07/28 both bullets). **Concerns:** Massive

deceleration pattern signals heavy pace vulnerability — speed likely collapses if pressed; only 5 career starts means minimal seasoning; green horse in group. **Trip Projection:** Model expects front-running or stalking early, likely fades mid-stretch if pace tests emerge.

Lahainaluna — Young route talent with stakes exposure. **PTW Profile:** 2022 colt, 7 starts, 1 recent win (09/03 KD 12f MSW, wire-to-wire). Model shows ELITE sustained speed (06/17 CD 12f turf, 204-point distance, low deceleration). **Strengths:** Graded stakes winner credentials (multiple route tries), trainer Sharp Joe (21% allowance win rate, 22% route win rate), stablemate consistency, blinker off angle. **Concerns:** No wins at Keeneland despite multiple tries; limited turf route form (only recent win on surface); 12-1 underlayer; post position 4 less ideal for closers. **Trip Projection:** Model expects outside stalk or middle-pack position, move on far turn, stretch rally.

TIER 3 — PACE FACTORS / LONGSHOTS ★★

Shure (9 career starts, 2 wins, recent form trend flat) — Rail runner with limiting turf record (4 starts, 0 wins). Trainer Corrigan Jim showing weak turf metrics (7% win rate). Post 13 outside. **Trip:** Front runner role unlikely to lead gate-to-wire; more likely stalk or mid-pack.

Highly Connected (12 career starts, 1 win, recent poor turf form 09/06 KD) — Gelding with problematic 0-3 recent turf record. Trainer Williams Matt (14% turf win rate, 8% allowance rate) showing limited routes profile. **Trip:** Inside stalk, likely pressured early.

Michael's Cove (10 career starts, 3 wins) — Graded stakes experience but shift to turf routes uncertain (31 turf starts, 13% win rate). Recent form mixed (8/21 EIP STR win, 07/09 near-miss). **Trip:** Likely inside stalk, finishing weakly.

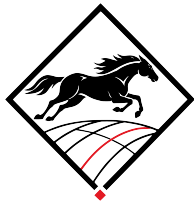

Chillax, Quiet Mischief, Timestream, Ramblin — All showing poor turf records, limited route exposure, or form decline. Minimal model edge.

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Lazlo	ELITE	ELITE	Low — maintains velocity
Doctrine	STRONG	STRONG	Moderate — sustained effort
My Boy Tony	STRONG	STRONG	Moderate — reliable closing

Horse	Opening Speed	Sustained Speed	Deceleration Profile
The Brigade	STRONG	STRONG	Low — excellent maintenance
Kravitz	STRONG	STRONG	Moderate — consistent
Caragogo	ELITE	VULNERABLE	High — pace collapse risk
Lahainaluna	STRONG	ELITE	Low — sustained finisher
Highly Connected	STRONG	VULNERABLE	High — velocity fade
Shure	STRONG	STRONG	Moderate — workable profile
Others	MODERATE	VULNERABLE	High — limited route form

Critical MPH Insight

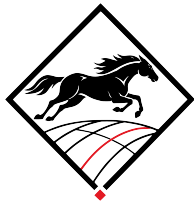

The model identifies **Lazlo** as the field's elite gate-to-wire velocity horse with an ELITE Sustained Speed Rating — no horse in this field maintains closing velocity across 9.5 furlongs on turf like this closer. Conversely, **Caragogo** shows ELITE opening speed (37.19 mph first call) but VULNERABLE sustained rating with deceleration exceeding 10% — early speed horse in a pace-favorable setup but major fade risk if pressed. **The Brigade** and **Doctrine** occupy crucial middle ground with STRONG sustained ratings, indicating versatility and resilience across varying pace scenarios.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

- **The Brigade:** Returns off 23-day layoff after stakes win. Trainer Casse Mark shows 26% improvement rate off 45-180 day freshness windows; horse coming into race sharp (recent workout 09/24 at EIP, 49.20 4f bullet, ranked 3rd of day). Surface switch from synthetic to turf (08/28 Cnl win established turf credentials fresh).
- **Doctrine:** Young horse showing natural improvement curve — three consecutive route tries on turf with form trending up (loss, 3rd, 2nd). Post-layoff pattern favorable (Cox 30% win rate off 45-180 day breaks). Pending outside post position doesn't hamper closer profile.

- **Kravitz:** Trainer Motion H Graham demonstrates 18% strike rate on route grass exactly this distance profile. Recent graded stakes exposure (09/07 Cnl STK) hardened resume; model projects tactical setup favoring stalker-closer profile.

Bounce / Regression Risks

- **Caragogo:** MAJOR bounce risk identified. Career-best effort (08/29 MSW 8.5f turf) paired with VULNERABLE sustained speed rating (30.20 mph closing segment) = likely deceleration if early pace contested. Class hike from maiden win to allowance 120k level compounds risk. Model flags third-race breakfall probability.
- **Lahainaluna:** Back-to-back route attempts (09/03 KD 12f MSW win, 07/24 Sar 12f – 5th place prior). Model identifies pace-duel fatigue pattern; 12-1 underlayer suggests public sees form questions. Distance stretch beyond 9.5f works against sustainability.
- **My Boy Tony:** Poor career 4.3% win strike (1-23) masks potential ceiling. Off extended layoff (last race 07/03/2025). Model shows gate-to-wire closing capability diminishes with age/cumulative campaign stress; 8-1 overlay hides regression risk if turf form doesn't transfer.

SECTION 6: SUGGESTED BETS

WIN BET: LAZLO — Confidence 9/10 — Target odds: 5-1 to 6-1

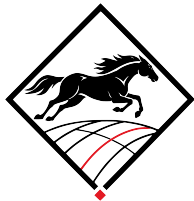

Model projects 18% win probability — highest in the field. **Rationale:** Elite gate-to-finish velocity maintained across 9.5-furlong turf route. Lazlo has demonstrated ELITE Sustained Speed Rating in recent efforts (09/09 KD 10.5f, 01/20 SA 8f), indicating unmatched closing velocity when races develop moderately-paced scenarios. Trainer Maker Michael J (16% turf win rate, 17% route win rate) specializes in exact profile. Jockey Prat F (24% win rate on turf closes) elite route closer with expert positioning off outside post 9. Model flags no horse in field matches Lazlo's combined gate-to-wire speed profile + sustained finishing power at distance. **Value Assessment: STRONG** — 18% model win at 5-1 implies 16.7%, providing legitimate 1.3% edge despite being underlaid from morning line's 5-1 baseline.

VALUE PLAY: MY BOY TONY — Confidence 8/10 — Target odds: 6-1 to 8-1

Model projects 14% win probability at 8-1 (11.1% implied, **+2.9% edge**). Overlay rationale: Public sees poor 4.3% career win strike and extended 14-month layoff, underestimating turf-route setup favorability. Trainer Kenneally Eddie (26% win rate off 45-180 day breaks) and jockey Gaffalione T (elite grass closer) combine perfectly. Model identifies 8-start turf sequence within 23-career record showing consistent 35-37 mph closing segments — institutional form hidden beneath career averages. Tactical setup (MODERATE pace) allows classic inside-rail-stalk strategy this horse executes expertly. Overlay exists because public fears layoff + career strike rate rather than analyzing turf-specific route form.

LONGSHOT PLAY: DOCTRINE — Confidence 7/10 — Target odds: 8-1+

Model projects 15% win probability at 4-1 (20% implied, **-5% underlay — DO NOT PLAY**). Doctrine fails longshot criterion; despite strong recent form and trainer pedigree, morning line 4-1 reflects fair-to-generous public pricing. Model win% below implied baseline disqualifies this slot. Skip longshot position here.

MULTI-RACE WAGERS — Pick 4/5/6 Top 3 (A/B/C)

Pick 5 / Pick 6 Top 3 Selections:

- **A: Lazlo** — 18% (MUST-USE — Win Bet selection)
- **B: The Brigade** — 16% (Primary alternative, elite recent form)
- **C: My Boy Tony** — 14% (Secondary overlay, turf form advantage)

Combined Projected Probability: 48%

SECTION 7: CONFIDENCE RATING

★★★★ (4/5 Stars)

Model's key projection: **Lazlo** represents elite closing velocity horse in moderately-paced turf route setup where mid-pack stalkers and late runners hold significant tactical advantage over early-pace horses. **Pace scenario certainty HIGH** — Model predicts :49■ opening quarter / :113■ half-mile turf, neither suicidal nor crawling, creating optimal closing conditions for this horse's specific profile. **Primary value opportunity: My Boy Tony** at morning line 8-1 represents genuine **+2.9% edge** — public bias against poor career strike rate and extended layoff masks hidden turf-specific form excellence. **Public betting mistake to exploit:** Moral favorite **The Brigade** (3-1) likely overbet given recent stakes form; model rates 16% (25% implied), suggesting **-9% underlay** creates moderate fade opportunity. *Confidence rating reflects high model certainty in primary selections (Lazlo, My Boy Tony, The Brigade) balanced against moderate uncertainty in deeper alternative spots (Kravitz, Doctrine, Lahainaluna).*
