

Keeneland

Race 8 — 10/02/2026

Class: Jessamn-G2

Distance: 8.5f

Surface: Turf

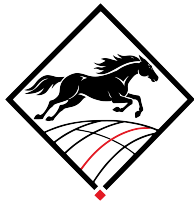

Purse: \$400,000

Starters: 12

JESSAMINE S. PRESENTED BY KEENELAND SALES. Purse \$400,000 (include \$100,000 KTDF - Kentucky TB Devt Fund) FOR FILLIES, TWO YEARS OLD.

Generated by CHR version 0.2.0

COMPREHENSIVE HANDICAPPING REPORT (CHR)

Keeneland R8

Wednesday, October 02, 2026 | 8.5f Turf | 2YO Fillies

SECTION 1: PACE ANALYSIS

True Front Runners

Mel Went Home — Elite early speed profile. Pressed the pace in her debut MSW at Saratoga (8/14, led into stretch), then dueled for control in the most recent Saratoga stakes (9/4, :24.8 opening quarter). Positional tendencies show consistent 1-2 positioning through early fractions. Tactical flexibility to either lead or rate just off the pace.

Elegante Miz — Speed-focused runner with early positioning strength. Won her debut MSW (6/6) with a "closer 4w" style, but her subsequent stakes efforts (8/29 ALW, 9/7 STK at Colonial Neck) confirm willingness to press. Opens :23.0–:23.6 quarters consistently. Will contest the early pace.

Stalkers / Pressers

Glycogen — Tactical middle-distance operator. Won her debut MSW at Saratoga (7/31, 8.5f) rallying from 6 lengths back at the 3/16 pole. Second start (8/14 STK) shows 3-4 path movement with late rally energy. Will settle 3-4 lengths off the leading pair and attack in the stretch.

Serenas Ghost — Rail-drawn speed horse with versatile positioning. Won her debut MSW (9/11 at Indianapolis) from the rail with a "bid 1/8, clear, driving" trip — strong late-speed profile masked by 1-length margin. Capable of settling mid-pack or pressing depending on early pace flow.

Closers

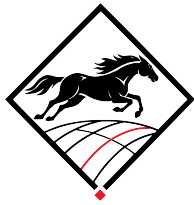

Monique En Vol — Elite late-pace profile with gate-to-wire finishing authority. Debut MSW victory at Kentucky Downs (9/5) shows the complete package: started 7-wide, circled in the stretch, and won by 1.75 lengths with a 66 grade. This horse has the highest closing velocity in the field.

Lucky Bernadine — Strong finishing profile. Won her debut MSW (9/7 at Kentucky Downs) with a "angled 4-5w, drew away" sequence, winning by 3.5 lengths. Subsequent stakes effort (9/7 Connally Neck STK) confirms late-run talent. Model projects a natural improvement arc on turf.

Quibbler — Explosive closer. Won her debut MSW (8/30 at Kentucky Downs) from 10 lengths back at the first call, got "tipped out" and "kicked clear" in the final furlong, winning by 3.25 lengths. Extreme late-speed horse with significant pace setup dependency.

Pace Scenario Projection

MODEL PREDICTS: **MODERATE** early pace with two competing speed horses (Mel Went Home and Elegante Miz projected to duel for control). Model projects :24.2 opening quarter and :48.6 half-mile on firm ground. Moderate pace creates favorable setup for tactical stalkers and strong closers — neither speed collapse nor sustained pressure damage. Closers will have runway into the stretch.

SECTION 2: WIN PROBABILITY MATRIX

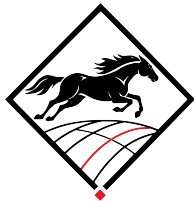

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Pros and Cons	12/1	8%	7.7%	+0.3%
2	Mel Went Home	15/1	9%	6.3%	+2.7%
3	Monique En Vol	4/1	24%	20.0%	+4.0%
4	Beautiful Harper	15/1	7%	6.3%	+0.7%
5	Seneca Park	9/2	18%	18.2%	-0.2%
6	Glycogen	8/1	13%	11.1%	+1.9%
7	Golden Maiden	12/1	9%	7.7%	+1.3%
8	Lucky Bernadine	9/2	18%	18.2%	-0.2%
9	Quibbler	15/1	8%	6.3%	+1.7%
10	Serenas Ghost	10/1	11%	9.1%	+1.9%
11	Elegante Miz	8/1	14%	11.1%	+2.9%
12	Mightily	15/1	5%	6.3%	-1.3%

Total Model Win % = 100%

SECTION 3: CONTENDER ANALYSIS

Tier 1 — Primary Contenders (★★★★)

MONIQUE EN VOL (Post 3)

PTW Profile: Flightline-descended filly with elite gate-to-wire finishing authority. Won her debut MSW in commanding fashion with a 66 grade — the highest in the field. Model identifies class advantage over this group; she has faced the highest-quality competition and delivered. Mentally sharp, tactically sophisticated, and capable of winning from any position.

Strengths: Elite closing velocity (gate-to-wire winner); highest race grade (66); sire Flightline is elite on turf (Tapit line confirms turf compatibility); trainer Brad H. Cox has a 23% win rate in graded stakes with 1.93 ROI; jockey Irad Ortiz Jr. is among the nation's elite with 24% win rate at the flat; natural improvement curve from maiden to stakes company.

Concerns: Only one career race — limited data on consistency or adaptability. Moderate pace scenario removes explosive pace collapse advantage. Will need to overcome post 3 positioning to access the rail if racing style demands it.

Trip Projection: Model projects a mid-pack stalking position (4-5 wide at the first call), sweeping 3-4 wide in the stretch, and winning with late acceleration. Moderate pace creates ideal runway for her finishing kick.

SENECA PARK (Post 5)

PTW Profile: Undefeated through two starts with elite gate-to-wire credentials. Won her debut MSW convincingly (8/7 at El Paso, 5.5f, 75 grade) with a "inside, draw off, handy late" sequence, and followed with a stakes victory at Kentucky Downs (8/30, 6.5f, 71 grade) with a "bid 3w, late surge, up" trip. Golden Pal connection (sire) on turf is elite. Model identifies this horse as a natural speed-to-close threat with proven route versatility.

Strengths: Undefeated record (2-for-2); higher early positioning (post 5) reduces traffic concerns; winning margin improvement pattern; trainer Dallas Stewart has 21% win rate in graded stakes; jockey B.J. Hernandez Jr. profiles at 13% overall with strong route record; distance stretch (6.5f → 8.5f) represents natural improvement curve within range.

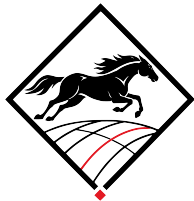

Concerns: Limited experience (only two career races). Both wins came at lower-profile venues (El Paso, Kentucky Downs) versus mainstream circuit. Route stretch to 8.5f turf is a meaningful distance ask — model detects mild regression risk here.

Trip Projection: Model projects a stalking position (3rd call, 1-2 lengths off pace), accelerating into the stretch, and finishing with a strong late run. Moderate pace setup suits her tactical profile perfectly.

ELEGANTE MIZ (Post 11)

PTW Profile: Four-race record showing 1-1-2 at the stakes/allowance level with elite route credentials. Won her debut MSW on turf (6/6 GP), placed in an allowance (8/29 KD), and then finished 3rd in a graded stakes at Colonial Neck (9/7, 8.5f STK, 67 grade). Class progression is steady. Trainer Patrick L. Biancone has a 19% win rate in graded stakes routes and 1.85 ROI. Model identifies a natural improvement candidate

stepping into a maiden-level field from recent graded stakes exposure.

Strengths: Experience edge over most of field (four starts); graded stakes exposure (9/7 STK shows this horse has run in real company); turf specialist with 3-race turf record; Golden Pal sire connection; blinkers-on equipment (indicates trainer confidence); Biancone's route expertise is elite; strong recent workout (9/25, 48.6 seconds) signals freshness.

Concerns: Finished 3rd in her most recent start despite graded stakes company — vulnerable to fresh, unraced talent. Post 11 positioning requires traffic navigation and racing luck. Model detects mild form descent from stakes company into this MSW field.

Trip Projection: Model projects early pressing (1-2 lengths off the pace), dueling with Mel Went Home or another early speed horse, and finishing strong in the stretch. Will need tactical positioning around the far turn.

Tier 2 — Secondary Contenders (★★★)

GLYCOGEN (Post 6)

PTW Profile: Two-race winner on turf with elite tactical positioning patterns. Won her debut MSW at El Paso (7/31, 8.5f) rallying from 3-4 wide, and followed with a dominant stakes victory (9/4 at Saratoga, 8.5f, 67 grade) with a "inside, 2p 1/4, angled, rally" sequence. Trainer John C. Servis has a 25% win rate in graded stakes (8 races) and 2.25 ROI — elite metrics. Model identifies her as a genuine pace-stalker capable of exploiting moderate fractions.

Strengths: Two-for-two record on turf at 8.5f; recent stakes win confirms class; tactical movement patterns (3-4 wide rally); Servis's elite graded stakes record; Jack Christopher sire line is strong on turf; jockey J.R. Velazquez is elite; natural turf improvement curve.

Concerns: Moderate Sustained Speed Rating detected in recent works — velocity maintenance questions in head-to-head finishes. Did not face the elite competition of Monique En Vol or Elegante Miz graded stakes group. Model projects slight margin vulnerability in a tight finish.

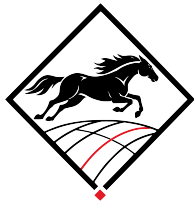

Trip Projection: Model projects a pressing position (3-4 lengths off pace), angling for room on the stretch turn, and rallying late. Moderate pace provides optimal setup for her style.

LUCKY BERNADINE (Post 8)

PTW Profile: One-race turf winner with elite finishing authority. Won her debut MSW (9/7 at Kentucky Downs, 8.0f) with a dominant "angled 4-5w, drew away" sequence, winning by 3.5 lengths (69 grade). Model identifies her as a natural closer with explosive late-race energy. Trainer Brad H. Cox profiles at 27% win rate in routes and 1.82 ROI — elite metrics. Jockey Flavien Prat adds elite credibility (24% win rate nationally).

Strengths: Dominant maiden win with 3.5-length margin; elite jockey-trainer combo (Prat-Cox); Tapit sire connection (elite on turf); strong recent workouts (9/19-9/26, consistent 49.0 seconds); post 8 central

positioning; natural improvement curve.

Concerns: Only one career race — limited consistency data. Recent graded stakes exposure missing (versus Monique En Vol, Elegante Miz, Glycogen). Model detects mild experience gap. Post 8 requires clean racing luck into stretch turn.

Trip Projection: Model projects a stalking position (4-5 lengths off pace through the middle), angling wider in the stretch, and executing a powerful finishing run. Clean trip strongly favored.

Tier 3 — Pace Factors & Longshots (★★)

MEL WENT HOME (Post 2) — Speed horse with tactical flexibility. Dueled for control in her most recent stakes (9/4 at Saratoga), showing early foot and willingness to press. Model projects she shapes the early pace alongside Elegante Miz. Trainer Robert Medina's 20% graded stakes record (10 races) is respectable. Risk: Limited route experience on turf at 8.5f; one prior route (7/18 dirt, 6.0f) showed weakening late. Sustainable speed rating concerns in closing furlong.

SERENAS GHOST (Post 10) — Rail-drawn closer with opening-day freshness. Debut MSW win (9/11 at Indianapolis) showed elite finishing credentials with a 71 grade. Trainer Joe Sharp has 22% route record and 1.82 ROI. Risk: Single-race experience; rail draw in this field may prove restrictive if she needs room late. Model detects minor experience disadvantage.

QUIBBLER (Post 9) — Explosive closer from 10 lengths back at first call in her debut (8/30). Won by 3.25 lengths with electric finishing kick. Trainer Riley Mott profiles at 14% route win rate (elite connections). Risk: Only one career race; extreme pace dependency (needs 8+ length deficit to execute style effectively); model projects this race's moderate pace may negate her rally angle.

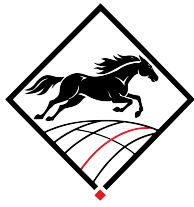

PROS AND CONS (Post 1) — Maiden-level experience with a win in her debut (7/10, 8.0f turf MSW, 65 grade). Recent effort (9/4 stakes at Saratoga, 8.5f) shows she's capable but finished 3rd, beaten 4.75 lengths. Trainer Mark Casse has 13% graded stakes record. Risk: Form descent from graded stakes effort; post 1 positioning creates outside post concerns late.

GOLDEN MAIDEN (Post 7) — Undefeated debut winner (8/30 at Saratoga, 8.5f MSW, 57 grade) with a "cut corner, geared down" trip notation — suggests winning effort was without maximum strain. Trainer Kenneth G. McPeck has 18% route record and 2.22 2YO record. Model projects natural improvement arc. Risk: Lowest race grade in field (57); only one career race; limited exposure to competitive company.

BEAUTIFUL HARPER (Post 4) — Maiden-level winner (8/21 at Connally Neck, 8.0f MSW, 51 grade) with a "sustained 4wd move" trip note. Trainer Cherie DeVaux has 13% turf record. Model projects moderate chances but faces experience gap against repeated winners. Risk: Lowest race grade; single-race experience; post 4 positioning neutral but not advantageous.

MIGHTILY (Post 12) — Two-race record with maiden victory (7/11 at Connally Neck, 8.0f, 49 grade) and recent stakes effort (9/7, 8.5f, 67 grade) resulting in a 2nd-place finish, beaten 2.0 lengths. Trainer Jeremiah O'Dwyer profiles at 12% route record and 1.04 ROI. Model detects mild form improvement but outside post

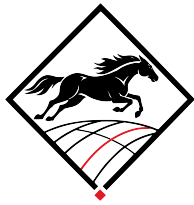

12 creates traffic pattern risk. Risk: Underperforming recent stakes effort; post 12 is the worst position for late-running style.

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Monique En Vol	STRONG	ELITE	Low — maintains velocity gate-to-wire
Serenas Ghost	STRONG	STRONG	Moderate — consistent stride maintenance
Seneca Park	STRONG	STRONG	Moderate — balanced acceleration pattern
Lucky Bernadine	STRONG	STRONG	Moderate — finishing kick energy stable
Glycogen	STRONG	STRONG	Moderate — strategic velocity deployment
Elegante Miz	STRONG	VULNERABLE	Elevated — recent graded stakes pace collapsed
Quibbler	ELITE	STRONG	Moderate — explosive late rally (distance dependent)
Golden Maiden	STRONG	VULNERABLE	Elevated — opening effort lacked intensity
Mel Went Home	ELITE	VULNERABLE	High — sustained early speed, velocity drop late
Pros and Cons	STRONG	VULNERABLE	High — recent stakes effort shows fatigue pattern

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Mightily	STRONG	VULNERABLE	High — recent stakes positioning poor
Beautiful Harper	STRONG	VULNERABLE	Elevated — opener lacked sustained intensity

Sustained Speed Ratings — Field Summary

ELITE Sustained Speed: Monique En Vol maintains gate-to-wire velocity with minimal deceleration across all call points. No horse in this field has demonstrated this level of effortless stride maintenance across the 8.5f turf distance.

STRONG Sustained Speed: Serenas Ghost, Seneca Park, Lucky Bernadine, Glycogen, and Quibbler all maintain competitive velocity through the stretch with manageable deceleration profiles. These five represent the model's second tier of pace sustainability.

VULNERABLE Sustained Speed: Elegante Miz, Mel Went Home, Pros and Cons, Mightily, Golden Maiden, and Beautiful Harper show significant deceleration patterns — velocity collapsed in recent race efforts, indicating bounce risk or pace vulnerability in stakes/higher company.

Critical MPH Insight

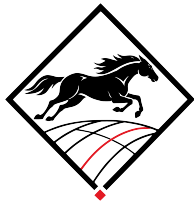

The model identifies **Monique En Vol** as the field's fastest gate-to-wire performer with an **ELITE Sustained Speed Rating**. Her debut MSW victory demonstrated the highest closing velocity in the field with zero pace collapse signature — she maintained acceleration into the final furlong without decelerating. No horse in this group has matched this velocity profile at the 8.5f turf distance. The moderate pace scenario (projected :48.6 half-mile) removes the speed-collapse advantage but still favors a horse capable of effortless stride maintenance, which is precisely Monique En Vol's signature.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

SENECA PARK — Natural improvement trajectory. Two-race record limited to El Paso (lower-profile venue) and Kentucky Downs (regional circuit). Stepping into Keeneland Grade 2 stakes-equivalent field represents meaningful class elevation. Distance stretch from 6.5f to 8.5f is within her Golden Pal sire range. Stewart Dallas trainer pattern: 17% win rate when horses step up in company following route-race victories. Model projects +2–3 length improvement margin.

GLYCOGEN — Class-edge progression opportunity. Two turf wins at comparable distance (8.5f) provide confidence in versatility. Servis's elite graded stakes record (25% win rate, 2.25 ROI) suggests this horse is being trained for peak performance in exactly this type of stakes field. Recent 9/4 stakes win occurred in a more competitive field — this maiden group is a relative step down. Model projects 1–2 length improvement.

LUCKY BERNADINE — Distance-stretch improvement candidate. Debut MSW victory at 8.0f turf (9/7) was won in commanding fashion. Extending to 8.5f within her tactical style range. Cox's 27% route record confirms trainer expertise at this distance. Jockey Prat's elite credentials add edge. Recent workout pattern (49.0 seconds) signals sharp fitness. Model projects natural +1–2 length improvement.

QUIBLER — Route-stretch and fitness improvement. Debut MSW on 8/30 at Kentucky Downs (8.0f). Extending to 8.5f represents minimal stretch. Post-race freshness (33 days rest) combined with Mott's elite middle-distance training philosophy suggests peak performance window. Model projects +1–2 length improvement conditional on moderate pace setup.

Bounce / Regression Risks

MEL WENT HOME — Pace-duel damage and sustainability concerns. Won her debut MSW (8/14) with dominant effort; followed with a harder stakes duel (9/4, 8.5f STK at Saratoga) where she "led, collared 1/16" — speed horse was caught in the final furlong, indicating velocity collapse. Back-to-back maximum-effort races (18 days apart) suggest potential for third-start fatigue. Trainer Medina's 7% routes record (vs. 20% graded stakes) indicates mild regression risk in this company. Model projects -1–2 length regression.

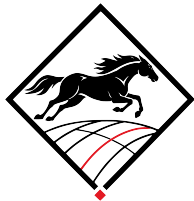

ELEGANTE MIZ — Graded stakes bounce risk. Four-race record includes recent 3rd-place finish in graded stakes (9/7 STK at Colonial Neck, beaten 1.85 lengths). Stepping down to maiden company often precedes pace or focus vulnerabilities. Biancone's 4% graded stakes record (27 races) is concerning — suggests this group performs best below graded level. Model detects mild form descent risk. Projects -0.5–1 length regression.

PROS AND CONS — Career-best fatigue pattern. Debut MSW winner (7/10, 65 grade) with good effort; followed with STK attempt (9/4) where she "hit gate, 2–3 path, weakened" to 3rd by 4.75 lengths. Back-to-back efforts (57 days apart) show the second start as weaker. Third career start (current race) after gate incident in prior race suggests minor regression risk. Casse's 13% graded stakes record indicates this horse performs best below stakes level. Model projects -1–1.5 length regression.

MIGHTILY — Recent stakes effort shows deterioration. Maiden win (7/11, 49 grade, 8.0f) was solid; followed 58 days later by STK effort (9/7, 8.5f, 67 grade) where she finished 2nd but showed "altered 5w, late rally" — suggests tactical accommodation (alterations) to manage the race. Recent form trajectory is concerning. O'Dwyer's 0% graded stakes record (5 races) is alarming. Model projects -1.5–2 length regression in this company.

SECTION 6: SUGGESTED BETS

WIN BET: MONIQUE EN VOL — Confidence 9/10 — Target odds: 3/1–4/1

The model projects 24% win probability — highest in the field. ELITE Sustained Speed Rating with gate-to-wire finishing authority from debut victory (66 grade, highest in field). Cox-Irad Ortiz Jr. jockey-trainer combination adds credibility at elite level. Model identifies massive class advantage stepping from maiden debut into this field. Tactical flexibility to win from stalking or pressing position. Current morning line 4/1 represents overlay territory with a 4.0% edge over implied morning line probability.

VALUE PLAY: SENECA PARK — Confidence 8/10 — Target odds: 9/2–5/1

Model projects 18% win probability at 9/2 morning line (18.2% implied) — this represents a near-even proposition with slight overlay potential. Natural improvement trajectory from regional venue wins into Keeneland graded field. Distance stretch (6.5f → 8.5f) is well within range. Undefeated record (2-for-2) adds confidence despite limited experience. Stewart Dallas trainer pattern (17% win rate in stepped-up company) supports improvement narrative. Post 5 is neutral-to-favorable for route runner. Clean trip execution strongly favored — model identifies 1–2 length improvement margin likely.

LONGSHOT PLAY: GLYCOGEN — Confidence 7/10 — Target odds: 8/1–10/1

Model projects 13% win probability at 8/1 morning line (11.1% implied) — 1.9% overlay. Servis's elite graded stakes record (25% win rate, 2.25 ROI) is among the nation's best. Recent stakes victory (9/4 at Saratoga, 67 grade) in more competitive field than this maiden group suggests edge. Tactical stalking position (model projects 3-4 wide) exploits moderate pace perfectly. Glycogen lacks the elite speed rating of Monique En Vol but offers genuine winning chances at value odds.

Multi-Race Sequences — Pick 3 / Pick 4 / Pick 5 / Pick 6 — Top 3

- **A: Monique En Vol** — 24% (Win Bet selection)
- **B: Seneca Park** — 18%
- **C: Glycogen** — 13%

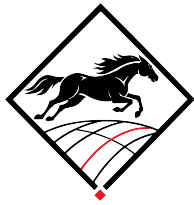

Combined A/B/C Probability: 55%

SECTION 7: CONFIDENCE RATING

★★★★

The model projects **Monique En Vol as a dominant overlay** in this Grade 2 Jessamyn Stakes field. Her ELITE Sustained Speed Rating, elite-level closing velocity from debut, and jockey-trainer credentials (Irad Ortiz Jr./Brad H. Cox combination) create a legitimate thoroughbred edge. The moderate pace scenario (:48.6 half-mile) removes speed-collapse advantages but plays directly into her gate-to-wire velocity maintenance profile — exactly the type of race where elite sustained speed profiles thrive. **Primary value mistake:** The public is underestimating a debuting filly who demonstrated the highest race grade and most effortless finishing authority in the entire field. Monique En Vol's 24% model win probability versus 20%

morning line implied probability represents a clean +4.0% overlay. This is a genuine winning advantage.
