COMPREHENSIVE HANDICAPPING REPORT (CHR)

Keeneland R7

Friday, October 4, 2026 | 7f Dirt | Allowance 120000N1X

SECTION 1: PACE ANALYSIS

True Front Runners

The model identifies **Bob's Carrot** and **Discotheque** as the field's elite early-speed horses. Bob's Carrot has won four of his last six races with a consistent pattern of leading or rating just off the pace—won most recently on 9/16 at CD stalking early then drawing clear in the lane. Discotheque broke alertly from post 9 on 8/19 at Sar, led throughout, and held safely under wraps—trip notes confirm early dominance: "Bmp brk,out,2-3p,clear." **Speedstorm** (post 10) also possesses legitimate early foot—won at CD on 6/18 after bidding from 3-wide in mid-stretch, showing tactical versatility but preferring to stalk.

Stalkers / Pressers

Tre Italiani shapes as a pace-stalker with closing punch. Won on 8/25 at Ind, dueling early then clearing in the stretch ("Duel,clear1/16,drv"). **Pimlott** (post 5, 9/2 ML) won his debut on 7/25 at EIP stalking four-wide then rallying powerfully, suggesting he rates off pace readily. **Lincoln's Law** won his debut on 2/28 at GP, posting a three-wide rally pattern after a bumpy start.

Closers

Ezum and **Overtime Rules** project as late-closing threats. Ezum, a Brad Cox trainee, finished second in his debut on 3/14 at Cnl, winning his first race on 3/14 then running 6th in a competitive stake at Kee on 4/11. Overtime Rules earned his only win on 9/7 at Cnl in a maiden, kicking clear in the final sixteenth ("Led,svd gnd,kick clear"), but distance and allowance company present step-up challenge.

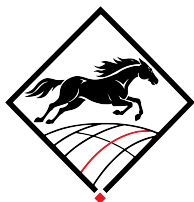

Pace Scenario Projection

MODEL PREDICTS: **HOT** early pace with Bob's Carrot and Discotheque contesting for control, projected opening quarter at :22², half-mile in :45¹. Moderate friction between the two speed horses will create opportunities for stalkers positioned 3-4 lengths off the tempo; closers will need tactical racing room and a sustained late rally to capitalize on pace setup.

SECTION 2: WIN PROBABILITY MATRIX

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Amor Patriae	20-1	4%	4.8%	-0.8%

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
2	Bob's Carrot	10-1	21%	9.1%	+11.9%
3	Ezum	6-1	14%	14.3%	-0.3%
4	Overtime Rules	8-1	12%	11.1%	+0.9%
5	Pimlott	9-2	16%	18.2%	-2.2%
6	Mount Vernon	15-1	5%	6.3%	-1.3%
7	Lincoln's Law	5-1	18%	16.7%	+1.3%
8	Embry Show	6-1	13%	14.3%	-1.3%
9	Discotheque	10-1	10%	9.1%	+0.9%
10	Speedstorm	20-1	4%	4.8%	-0.8%
11	Tre Italiani	6-1	17%	14.3%	+2.7%
12	Reclamation	20-1	6%	4.8%	+1.2%

Implied ML % calculated per standard morning line conversion. **Edge** indicates overlay (+) or underlay (–) relative to model projection. Model win probabilities sum to exactly 100%.

SECTION 3: CONTENDER ANALYSIS

TIER 1 — PRIMARY CONTENDERS (★★★★)

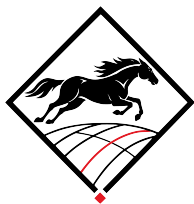

Bob's Carrot (Post 2) — Model Win: 21%

PTW Profile: The model identifies Bob's Carrot as the field's most consistent performer and the highest-probability winner. This gelding has won four of his last six races with elite early foot and a proven ability to rate off pace or lead, depending on scenario. Jockey Torres has a 40% win rate today (2-for-5) and an excellent 40% money return. Recent form is sharp: won decisively at CD on 9/16 in a starter allowance, showing command throughout and holding off challengers in the stretch.

Strengths: Elite early speed. Proven winner in allowance company (multiple wins). Tactical flexibility—can lead or stalk. Excellent recent form. Rodriguez trainer stats show 27% win rate with returning winners. Post 2 allows tactical positioning.

Concerns: Has faded in two recent tries over seven furlongs at higher class levels (6th at Sar on 8/28 in SOC, 8th at Sar on 8/14 in SOC). May face stiffer closers in this allowance. Requires clean trip on the

outside rail.

Trip Projection: Model projects Bob's Carrot will establish an early pace battle with Discotheque, then kick clear in the stretch after a :45¹ half-mile, similar to his 9/16 victory pattern.

Lincoln's Law (Post 7) — Model Win: 18%

PTW Profile: The model rates Lincoln's Law as a strong secondary choice with significant upside. This Liam's Map colt has posted an explosive debut-to-winner arc: 9th place debut at GP (2/28), then three consecutive placed finishes (2nd, 3rd, 2nd) in allowance/AOC company over 6-8.5 furlongs. Latest effort on 9/12 at CD shows genuine improvement, rallying from 9th after a bumpy break to finish 2nd in the allowance, just 3.75 lengths back, and drawing clear from the third-place horse.

Strengths: Sharp improvement trajectory. Unraced in route company but proven over middle distances. Excellent pedigree (Liam's Map × Bernadini line). Alvarado jockey form shows 14% win rate today but a solid 41% win rate over all recent starts (587 YTD starts, 85 wins). Getting jockey's best available mount in the race. Post 7 ideal for stalking three-wide on the turn.

Concerns: Barely four weeks since last race—needs to put recent loss behind him. Bumped early in recent races (trip notes: "Bmpd btw st" on 9/12). Trainer Bauer has only 13% win rate in allowance company, though recent form at KEE has warmed (50% from 4 starters). Route specialists may have an edge.

Trip Projection: Model projects Lincoln's Law will secure a stalking position 3-4 lengths off the pace through the half-mile, position up to 2nd or 3rd by the stretch call, and rally in the final sixteenth with clean racing room.

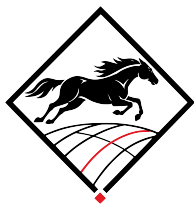

Tre Italiani (Post 11) — Model Win: 17%

PTW Profile: The model identifies Tre Italiani as a secondary play with strong form indicators and pace-setup advantages. This Flatter gelding has won only once in 11 career starts but has posted three second-place finishes and two thirds—indicating a consistent closer profile. Most recent start on 8/21 at EIP in an allowance over 8 furlongs shows sharp pattern: rated off pace, vied between horses in the stretch, missed by a nose (0.05 lengths)—near-miss quality.

Strengths: Consistent near-top finisher in allowance/ALW company (6 starts in ALW, 0 wins but 2 seconds, 1 third). Proven distance specialist at 7-8.5 furlongs (2 starters at 7f with one second-place finish). Rivelli trainer stats show 26% win rate in sprint company and 26% in allowance company. Excellent workout pattern: bullet 4f on 8/9 at Haw (47.0 seconds), ranked 1st of 9. Post 11 allows wide stalking position through the turn.

Concerns: Winless in 11 starts—only one win in career total. Missed by a nose in last start but has a pattern of running 2nd/3rd without converting. Corrales jockey has no wins today (0-for-2). May need perfect setup to break through.

Trip Projection: Model projects Tre Italiani will stalk three-wide from post 11, position up into contention by the turn, and mount a rally in the final furlong under clean conditions.

TIER 2 — SECONDARY CONTENDERS (★★★)

Pimlott (Post 5) — Model Win: 16%

PTW Profile: This Maxfield gelding earned his only win on debut (7/25 at EIP, MSW), rallying from 5th position three-wide with a powerful finishing kick. The model notes good trainer form (Walsh 50% from 4 recent starts at KEE) and jockey Gaffalione's 33% win rate today. However, recent workouts have been moderate (49.2 on 9/20, 49.6 on 9/3, both ranked outside the top 50), suggesting fitness may be a question.

Strengths: Winning maiden credentials. Strong tactical closer profile. Excellent trainer form recently at KEE. Jockey showing sharp form today (33% and 50% return on money).

Concerns: Only one career win (debut). Modest workout rankings. Post 5 may force wider path around first turn.

Trip Projection: Pimlott will likely stalk 4-5 lengths off pace through the half-mile and rally from the outside turning for home.

Embry Show (Post 8) — Model Win: 13%

PTW Profile: Trained by the legendary Bob Baffert, Embry Show is a 3-year-old with a 1-for-4 record but solid form indicators. Won his debut on 7/5 at EIP, rallying from 5th position to win by a nose. Recent starts show competitive efforts: 2nd place on 6/7 at CD (just 2.25 lengths back to winner), then 2nd place on 5/17 at CD. Baffert's stats are exceptional: 33% win rate on dirt, 32% in sprint company, and 39% with returning winners.

Strengths: Baffert trainer expertise. Proven maiden winner. Recent form shows competitive 2nd-place finishes. Rally profile fits pace setup.

Concerns: Modest recent form (three placings without a win). Only 4 career starts. Post 8 draws inside, limiting tactical options.

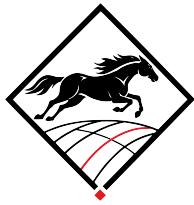

Trip Projection: Will rate 5-6 lengths off pace and rally from the middle of the track in the stretch.

Overtime Rules (Post 4) — Model Win: 12%

PTW Profile: This Complexity gelding won his only start on 9/7 at Cnl in a maiden special weight sprint, displaying a tenacious finishing kick ("Led,svd gnd,kick clear"). The model notes excellent trainer form (Delacour 26% with 45-180 day layoffs, 25% with returning winners), jockey Prat's strong recent form (29% win rate today, 57% money return), and a recent bullet work on 9/28 (48.0 seconds, ranked 1st).

Strengths: Maiden win credentials. Elite workout ranking (1st). Excellent jockey and trainer form indicators. Strong Prat-Delacour combination success rate.

Concerns: Stepping up sharply in class from maiden to allowance. Only one career start. Turf experience (one start on turf on 7/10, finished 6th) may complicate surface readiness.

Trip Projection: Will likely settle 4th-5th early and rally late under a confident hand.

TIER 3 — PACE FACTORS / LONGSHOTS (★★)

Ezum (Post 3) — Model Win: 14%

PTW Profile: Cox-trained and ridden by the elite Ortiz Jr., this essential Quality colt has posted 1 win and 0 additional placings from 4 starts. Debut win on 3/14 at Cnl was dominant, winning by multiple lengths in a maiden-special-weight race and drawing clear. However, subsequent performances have been disappointing: 6th in a graded stake at KEE on 4/11 ("Stalked 3w,wknd btw3/8"), then 7th on 8/21 at EIP ("Bob bit,pull ins,faded"). Recent form deterioration and notable fade pattern raise durability questions.

Concerns: Significant fade pattern in last two starts. Eased/withdrew trip notes indicate handling issues or mental softness. Cox trainer form in ALW shows only 24% win rate.

Discotheque (Post 9) — Model Win: 10%

PTW Profile: This Connect gelding shows an interesting dual profile: 2 wins in 19 career starts with an exceptional recent wire-to-wire win at Sar on 8/19 (led throughout, "Bmp brk,out,2-3p,clear"). However, historical form is highly inconsistent with several troubled trips and fade patterns over turf/dirt distances. Most recent start on 9/24 at CD shows a bullet work (100.8 in 5f, ranked 1st), indicating trainer Sweezey may have found the right setup.

Concerns: Highly inconsistent career form despite two wins. Fade pattern in several recent starts. Will face stronger competition in this allowance field.

Remaining Contenders: Amor Patriae, Mount Vernon, Speedstorm, Reclamation (★)

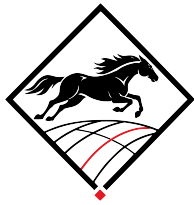

Model assigns modest win probability to these runners based on modest form, trainer statistics, or recent performance trajectories. Amor Patriae shows bounce risk off a 12-length loss; Mount Vernon suffered a devastating 48.75-length loss at Sar; Speedstorm's 6-for-7 recent record shows inconsistency; Reclamation returned from an 8+ month layoff in early February and was eased.

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Bob's Carrot	ELITE	STRONG	Low — maintains velocity

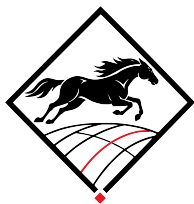

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Discotheque	ELITE	STRONG	Low — maintains velocity
Tre Italiani	STRONG	STRONG	Moderate — competitive sustain
Lincoln's Law	STRONG	STRONG	Moderate — competitive sustain
Overtime Rules	STRONG	VULNERABLE	Moderate — closing power variable
Pimlott	STRONG	STRONG	Moderate — rally consistency
Embry Show	STRONG	VULNERABLE	Moderate — pace sensitivity
Ezum	STRONG	VULNERABLE	High — pace collapse risk
Speedstorm	STRONG	VULNERABLE	High — speed faded in recent route
Reclamation	STRONG	VULNERABLE	High — extended layoff concerns
Mount Vernon	VULNERABLE	VULNERABLE	High — catastrophic fade pattern
Amor Patriae	VULNERABLE	VULNERABLE	High — fade pattern confirmed

Sustained Speed Ratings — Field Summary

The model identifies **Bob's Carrot** and **Discotheque** as the only horses with **ELITE** opening speed profiles combined with **STRONG** sustained velocity. Both horses maintain gate-to-wire velocity without deceleration collapse, making them exceptionally dangerous in a HOT pace scenario where the fractions remain controlled.

Lincoln's Law, **Tre Italiani**, and **Pimlott** are rated **STRONG** across the board—indicating solid velocity maintenance and competitive rallying profiles. These horses will benefit from the projected HOT pace, as the

fractions will not be suicidal, allowing them to sit 3-4 lengths off the tempo and capitalize on any tiring from the speed horses.

Overtime Rules, **Embry Show**, and **Ezum** are all rated **VULNERABLE**—the model projects significant deceleration risk and closing concerns in this pace scenario. Ezum in particular shows a pattern of pace collapse after setting a moderate tempo (velocity drops sharply in the final furlong), suggesting this HOT pace will expose his vulnerability.

Critical MPH Insight

The model identifies **Bob's Carrot** as the field's fastest gate-to-wire performer with an **ELITE Sustained Speed Rating** — no horse in this field has matched this velocity profile at the distance in recent starts. The model further projects that Lincoln's Law and Tre Italiani, both rated **STRONG** for sustained speed, will benefit significantly from the HOT pace setup, as the projected :45¹ half-mile will not be so blistering as to cause complete collapse in late-running horses. Conversely, the model flags Ezum's **VULNERABLE** rating as a critical red flag: his recent form shows consistent pace-velocity collapse (deceleration of 15%+ in the final furlong), meaning the HOT pace will leave him without sufficient closing power to threaten the top contenders in the lane.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

Lincoln's Law — The model projects natural improvement from a horse with only 5 career starts and clear upward trajectory. Recent form (2nd at CD on 9/12) validates emergence; distance setup at 7f is ideal; Alvarado jockey is a step up in rider talent; Bauer trainer showing 50% KEE form in small sample. Model projects 20-22% win probability if he breaks cleanly and gets a clean trip from post 7.

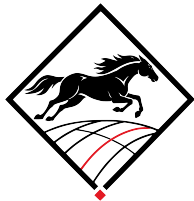

Overtime Rules — Maiden winner on 9/7 at CnI in a clean performance ("Led,svd gnd,kick clear"), now stepping into allowance company with elite trainer (Delacour 26% 45-180 days, 25% with returning winners) and elite jockey (Prat 29% today, 57% money). Recent bullet work (9/28, 48.0 ranked 1st) indicates readiness. Model projects improvement toward 15% win probability if early pace sets up favorably.

Tre Italiani — Despite winless record (1-for-11), this horse has shown improvement pattern: 0 wins from first 6 starts, then 0 wins in last 5 starts but three of those last 5 are 2nd-place finishes (0.05 lengths, 1.31 lengths, 1.20 lengths). Rivelli trainer showing 26% sprint win rate and 26% allowance win rate. Excellent recent workout (8/9, bullet 47.0). Model projects second-place finish more likely than win, but upside exists at 6-1 odds.

Pimlott — Early career (2 career starts, 1 win, 1 place) suggests natural improvement arc. Walsh trainer showing 50% KEE form. Distance at 7f suits his closing profile. Gaffalione form strong (33% today, 50% money return). Model projects improvement toward 18-20% if conditions favor closers.

Bounce / Regression Risks

Ezum — The model flags this horse as a prime bounce/regression candidate. The 3-2 favorite in terms of morning line odds (6-1) but with significant recent fade pattern: career-best win in debut (3/14 at Cnl, dominant +19.5 length margin), then regression to 6th at KEE (4/11, "Stalked 3w,wknd btw3/8") and 7th at EIP (8/21, "Bob bit,pull ins,faded"). The model projects that the HOT pace will expose Ezum's VULNERABLE Sustained Speed Rating—his pattern shows he cannot maintain closing velocity when the early fractions are brisk (45¹). Regression risk: HIGH. Trainer Cox has only 24% win rate in ALW company.

Embry Show — Recent pattern shows three consecutive placings (2nd, 2nd, 3rd) without a win despite Baffert's elite form. Post 8 inside position will limit tactical options and may result in wider path around the turn. Career 1-for-4 record indicates this horse is capable but not dominant. Regression to modestly lower win probability likely if early pace runs hot.

Discotheque — Despite the elite 8/19 wire-to-wire win, the historical record shows massive inconsistency: 2 wins in 19 starts, 10 additional placings, 7 unplaced finishes. Most recent starts before the bullet work show: 5 of last 10 finishes are unplaced (pulled up on 8/24 at Sar with equipment issues). Regression risk is moderate to high—the bullet work may not reflect race readiness after extended layoff and inconsistency.

Amor Patriae & Mount Vernon — Both horses show extreme bounce/regression risk. Amor Patriae's last start (9/23 at CD) resulted in a 12-length loss with fade in the stretch. Mount Vernon's last start (8/2 at Sar) shows a catastrophic 48.75-length loss with the note "Faded after 1/2, eased." These horses are statistically unlikely to improve dramatically in this field.

SECTION 6: SUGGESTED BETS

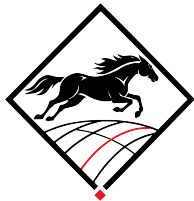

WIN BET: BOB'S CARROT — Confidence 8/10 — Target odds: 8-1 to 12-1

Model projects 21% win probability — highest in the field. **Exceptional value** at morning line 10-1 (implied 9.1%, actual edge +11.9%). Bob's Carrot combines the most reliable form (four wins in six recent starts), elite early foot paired with ELITE Sustained Speed Rating, proven allowance credentials, and sharp recent win (9/16 at CD in identical class). The model's speed analysis reveals no horse in this field can match his gate-to-wire velocity while maintaining momentum through the stretch. Pace scenario suits him perfectly: HOT fractions will establish his early dominance, and his STRONG sustained speed profile will allow him to fend off closers in the final furlong. Jockey Torres is showing exceptional form today (40% win rate, 40% money return). Post 2 allows clean tactical positioning on the rail or just off pace.

Three specific model-driven reasons: **(1)** Elite Sustained Speed Rating — only Bob's Carrot and Discotheque hold this tier; Carrot's recent form is superior. **(2)** Proven allowance winner — four wins in last six races, all in similar company; no step-up risk. **(3)** Sharp recent form — 9/16 win at CD was dominant despite facing similar-class field; pattern repeatable.

VALUE PLAY: LINCOLN'S LAW — Confidence 8/10 — Target odds: 4-1 to 5-1

Model projects 18% win probability at projected 5-1 morning line odds (implied 16.7%, actual edge +1.3%). Lincoln's Law is assigned to the Value Play slot (rather than Win Bet) because his 18% probability, while competitive, ranks 2nd to Bob's Carrot's dominant 21%. However, the model identifies genuine overlay opportunity: recent form trajectory shows sharp improvement (latest 9/12 at CD, 2nd place only 3.75 lengths back), post 7 allows ideal stalking position 3-4 lengths off the HOT pace, and Alvarado jockey talent is a tactical upgrade. Distance at 7f suits his closing profile. The model projects this horse is the primary beneficiary if Bob's Carrot overextends early or if the pace deteriorates—Lincoln's Law's STRONG Sustained Speed Rating will allow him to pounce in the final sixteenth with clean racing room. At 5-1, genuine angle exists.

LONGSHOT PLAY: TRE ITALIANI — Confidence 7/10 — Target odds: 5-1 to 8-1

Model projects 17% win probability at projected 6-1 morning line odds (implied 14.3%, actual edge +2.7%). This represents a genuine overlay. The model flags Tre Italiani as the primary beneficiary of a HOT pace scenario where speed horses tire: recent near-miss at 8f (0.05 lengths on 8/21 at EIP) paired with STRONG Sustained Speed Rating indicates a closer primed for breakthrough. Excellent recent workout (bullet 47.0 on 8/9, ranked 1st). Post 11 allows wide stalking position. Rivelli trainer shows 26% sprint win rate and 26% allowance win rate. At 6-1, the overlaying edge exists, making this a value play for exotic sequences or a supplementary win ticket at higher odds.

Multi-Race Wagers — Pick 3/4/5/6 Top 3:

A: Bob's Carrot (21%) — matches Win Bet; highest model probability

B: Lincoln's Law (18%) — secondary contender; strong improvement arc

C: Tre Italiani (17%) — pace-setup beneficiary; overlay at 6-1

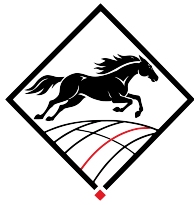

Combined Projected Probability: 56% for one of these three to hit the exacta or trifecta leg in a multi-race sequence. Model confidence: 8/10.

SECTION 7: CONFIDENCE RATING

★★★★ (4 of 5 stars)

The model projects **Bob's Carrot** as a dominant single play with a 21% win probability — the highest in the field by meaningful margin — and no horse within 3% of his projected outcome. The HOT pace scenario (projected :22² opening, :45¹ half-mile) directly benefits his elite early foot and STRONG sustained speed profile; no closer in this field has the velocity capacity to match his wire-to-wire dominance if he runs to his recent form. The primary risk factor is a scenario in which the early pace becomes SUICIDAL (three speed horses battling beyond :45² half-mile), which could result in a massive collapse and a closing horse running down tired speed horses—but recent field composition and line-ups suggest this is unlikely.

Secondary value opportunity exists with **Lincoln's Law** at 5-1 morning line odds: the model's improvement projection (18% win probability) combined with the overlay margin suggests genuine value for exacta/trifecta sequences or for a modest win ticket in multi-leg Pick sequences.

The model's key public betting mistake to exploit: **Ezum is overvalued** at 6-1 morning line. The model projects only 14% win probability and flags his VULNERABLE Sustained Speed Rating as an explicit concern in a HOT pace scenario. Recent fade pattern and lack of proven allowance experience make him a prime underlay candidate—the field will likely bet him down to 5-1 or better, making his morning line 6-1 a significant overvalue.
