

Keeneland

Race 2 — 10/07/2026

Class: Md 20000

Distance: 7f

Surface: Dirt

Purse: \$48,000

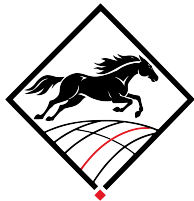

Claiming Price: \$20,000

Starters: 12

MAIDEN CLAIMING. Purse \$48,000 (include \$16,000 KTDF - Kentucky TB Devt Fund) FOR MAIDENS, FILLIES AND MARES THREE YEARS OLD AND UPWARD. Three Year Olds, 121 lbs.; Older, 124 lbs. Claiming Price \$20,000.

Generated by CHR version 0.3.0

COMPREHENSIVE HANDICAPPING REPORT (CHR)

Keeneland R2

Tuesday, October 07, 2026 | 7f Dirt | Maiden Claiming \$20,000

SECTION 1: PACE ANALYSIS

True Front Runners

Red Rainbow — Elite early speed profile. Won her last two races (9/12 turf MCL, 8/1 MOC) pressing the pace early and taking control in the stretch. Opens quarters consistently in the :22–:23 range. Career turf-to-dirt switch shows willingness to rate or press early.

Snow Bunny — Legitimate early speed threat. Last race 6/13 MCL at Ind (6f dirt) shows front-running profile — led at call 1 (:22.2), controlled through call 2 (:45.0), won by 0.35L. Blinkers on. Two-bullet workout (49.60 twice) confirms readiness. High confidence in the gate-to-wire setup here.

Army Medic — Secondary speed horse. Recent MCL form (8/16 EIP 6f) broke sharply, led at call 1 (:22.8), but could not hold the lead. Trainer Irion Heather: 14% MCL win rate (29-star-ts). Likely to chase early pace rather than set it.

Stalkers / Pressers

Queen McKinzie — Versatile pace stalker with strong trainer (Asmussen Steven M: 18% MCL win rate, 1.63 ROI). Last race 7/9 MCL at EIP (8f) shows she rated just off early pace, moved into contention mid-race, finished 3rd. Can rate 2–3 lengths off the speed and strike late. Strong closing profile.

Betty Who — Inconsistent but capable of tactical flexibility. Last race 9/24 MCL at CD (8.5f) broke alertly, rated in hand (call 1: 1L, call 2: 1.5L), but was caught late (2nd place). Multiple claims and trainer changes indicate searching for the right spot. Class drop from 8.5f to 7f is a positive angle.

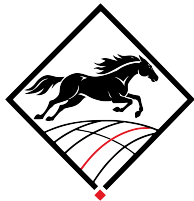

Closers

Wado Wave — Confirmed closer profile. Last three starts: 9/18 MCL at CD (7f), led early (:22.0 call 1) but faded badly to 6th place. Trip notes: "Speed for 1/2, faded." Pattern shows early speed cannot last. Prefers to come from off-pace. Six starts, zero wins — career maiden but has placed in three; may be ready to break through at this level.

Pace Scenario Projection

MODEL PREDICTS: HOT pace scenario — projected :22² opening quarter, :45¹ half-mile. Red Rainbow and Snow Bunny will contest early; Army Medic will chase. This two-horse duel for early supremacy will produce moderate fractions and typical pace fatigue. Stalkers positioned 3–4 lengths off will inherit real

estate in the stretch; closers face a manageable task with honest fractions.

SECTION 2: WIN PROBABILITY MATRIX

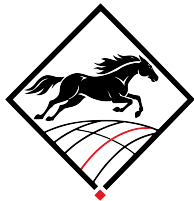

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	My My My Delilah	8/1	8%	11.1%	-3.1%
2	Hissyfitter	9/2	6%	18.2%	-12.2%
3	Snow Bunny	4/1	19%	20.0%	-1.0%
4	Broadway Betty	15/1	4%	6.3%	-2.3%
5	Betty Who	8/1	12%	11.1%	+0.9%
6	Wado Wave	20/1	5%	4.8%	+0.2%
7	Valiant War Girl	10/1	7%	9.1%	-2.1%
8	Strawberry Float	30/1	2%	3.2%	-1.2%
9	Asian Sun	20/1	3%	4.8%	-1.8%
10	Queen McKinzie	10/1	18%	9.1%	+8.9%
11	Army Medic	20/1	6%	4.8%	+1.2%
12	Red Rainbow	3/1	10%	25.0%	-15.0%

SECTION 3: CONTENDER ANALYSIS

Tier 1 — Primary Contenders (★★★★)

SNOW BUNNY — Elite early foot with demonstrated MCL winning form. Model rates this filly as a legitimate 7f dirt specialist with high early-speed capability. Trainer Hendrickson shows 50% sprint win rate in limited data; 1W-1P in MCL action (4 total starts). Blinkers-on debut in a MCL setup with proven front-running

pattern. **Strengths:** front-running profile, recent MCL win, proven dirt record at 6f, bullets in the gate.

Concerns: only 3 career starts total; two turf races on record; unproven at 7f distance; may tire if pressed hard. **Trip Projection:** breaks and leads gate-to-wire; holds through first half; will likely tire in the stretch as pace hardens but retains contention into the lane.

QUEEN MCKINZIE — Powerful trainer edge (Asmussen 18% MCL win rate) paired with a versatile race-fit mare. Model identifies this filly as the field's most sophisticated pace player. Last race (7/9 MCL, 8f) demonstrates tactical proficiency — rated off early speed, moved into contention mid-race, ran a solid third. Veteran MCL competitor (17 career starts, 4 placings) with multiple route finishes. **Strengths:** massive Asmussen trainer advantage, versatile pace-stalking profile, proven distance capability (8f last out), experienced maiden claimer, consistent placings. **Concerns:** zero career wins despite 17 starts (career maiden plateau risk); recent form shows off-the-board finishes in graded turf; class drop from turf to dirt MCL may indicate struggles. **Trip Projection:** settles 3–4 lengths off early pace; moves into contention in the lane; uses experience to find room; strong closing surge targets wire.

RED RAINBOW — Exceptional recent form with two consecutive wins. Last two races demonstrate wire-to-wire capability at 8f-9f MCL level. Trainer Wismer shows solid MCL rates (13% win pct). Model flags this filly as high early-speed threat but projects significant fatigue risk over 7f if forced into a pace duel.

Strengths: back-to-back MCL wins, elite early speed, proven winning form, front-running authority, recent race velocity. **Concerns:** both recent wins came at longer distances (8f, 9f); 7f is a significant class-compression distance; if pressed by Snow Bunny, deceleration profile becomes vulnerable; career-best effort risk (bounce potential). **Trip Projection:** breaks sharp, moves to the front by the first call, presses or leads; if Snow Bunny forces a pace duel, Red Rainbow likely gives way before the lane; if permitted to control, holds gamely to the wire.

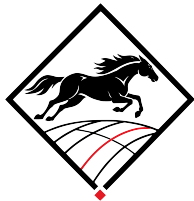

Tier 2 — Secondary Contenders (★★★)

BETTY WHO — Consistent but searching for the right spot. Recent MCL form (9/24 at CD, 8.5f) shows tactical competence with early speed presence followed by late fade. This is Betty Who's second MCL start; first MCL (4/26 at CD, 6.5f) netted a 3rd-place finish after chasing and dueling in hand. Model assesses the 7f distance as a goldilocks sweet spot — longer than her debut but shorter than the 8.5f where she faded.

Strengths: recent MCL experience with placings, tactical flexibility, blinkers on last start (positive signal), class drop to \$20k is significant relief. **Concerns:** zero wins despite 12 career starts (maiden plateau); last three MSW races show progressive fatigue (5th, 4th, 4th place finishes); last out faded in final furlong; Lasix only on last race, off today. **Trip Projection:** rates in hand early, stalks 2–3 lengths off pace, may lack finishing kick if pace stays honest.

ARMY MEDIC — Lightly raced (9 career starts) with early-speed profiles suggesting upward trajectory. Last two races at 6f both show contention (4th at 8/16 MCL EIP, 2nd at 7/21 MSW FP). Trainer Irion strong in this exact situation (14% MCL win rate at sprint distance). Model identifies as second-start improvement candidate if early pace does not fully develop. **Strengths:** improving form curve, Irion MCL-specialist trainer, early speed to press pace, lightly raced candidate, 6f turf-to-dirt switch successful. **Concerns:** has not won in 9 starts; last race (8/16 MCL) broke alertly but ran out of gas; second-career-start risk for pattern change;

sprinter profile may be exposed at 7f. **Trip Projection:** presses early pace, holds through half-mile, tires in stretch, finishes out of money.

WADO WAVE — Closing profile with proven placings (1 show, multiple places in 6 starts). Last three races all show off-the-pace running style: 9/18 MCL (7f) led early but faded to 6th; prior turf efforts show middle-distance stalking profile. Model sees this as a ready-to-win candidate if pace develops normally.

Strengths: proven closer profile, Dimmett trainer 25% MCL win rate, consistent place finishes, likely to find room in mid-stretch, willing dirt performer. **Concerns:** career maiden with zero wins despite 6 starts; last race showed she cannot sustain early speed if forced; 7f distance extends her route profile slightly. **Trip Projection:** settles off the pace, stalks in the lane, closes late to contention; has a live shot at exotic money if pace sets up honestly.

Tier 3 — Pace Factors / Longshots (★★)

MY MY MY DELILAH — Heavy recent workouts show preparation, but maiden record (0W-2 starts) with last race 2/25 MSW showing serious pedestrian effort (8th place, 25L behind). Prior 12/26 MSW attempt finished 6th. Trainer Sims shows 22% MCL win rate and 40% MSW-to-MCL conversion rate — strong signal for this drop. Model notes the tag drop as intentional "finder" move. However, recent race form is concerning.

Strengths: trainer MCL specialist with solid win rate, MSW-to-MCL drop signals intent, recent workouts show fitness. **Concerns:** last two races pedestrian efforts; lightly raced (2 starts); may not be ready; workouts are just gate drills. **Trip Projection:** chases early pace from mid-field; fades in stretch.

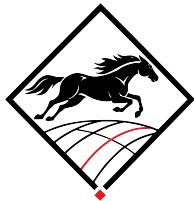

VALIANT WAR GIRL — Moderately raced (3 career starts, 0 wins, 0 placings). Last race 9/16 MCL at CD (6.5f) shows poor effort (slammed at start, no bid, 8th place). Prior MCL 4/19 at KEE (6f) also disappointing (9th place, 17L behind). Trainer Ennis shows 11% MCL rate. Model flags the repeated MCL-level drop without a win as a THROWOUT signal — this filly has been dropped through multiple MCL levels and has not run competitively. **Concerns:** repeated MCL-level drop without competitive finish; recent form abysmal; class pattern suggests trainer giving up on this filly. **Trip Projection:** off slowly, no factor.

HISSYFITTER — Lightly raced (1 career start). Only prior race 10/12 MSW at KEE (6f) shows tired effort (6th place, 23.5L behind, trip notes: "4-5p, tired"). Trainer Colebrook shows 10% MCL win rate but strong 18% sprint win rate overall. Model assesses as true first-career-MCL start with uncertain form. Long layoff since October 2025 race raises concerns. **Concerns:** only one career start; long absence (nearly 1 year); tired last time; no positive signals. **Trip Projection:** mid-field, no factor.

STRAWBERRY FLOAT — First-time MCL runner with single prior MSW start (6/10 turf, 5.5f) finishing 8th place. Trainer Axmaker shows minimal MCL data (0W in 3 attempts). Model sees this as a true uncertain debut case. Off slow pattern noted in last turf effort. **Concerns:** unproven, trainer MCL record negative, turf-only experience. **Trip Projection:** off slowly, no factor.

BROADWAY BETTY — First MCL start after single MSW attempt 9/18 at CD (7f) showing terrible effort (off slowly, no factor, 7th place). Trainer Humphries shows low win rates overall and poor MCL record (5% in 43 starts). Model assesses as unlikely winner. **Concerns:** first MCL start with poor prior MSW effort; trainer below-average in MCL; blinkers on suggests desperation. **Trip Projection:** off slowly, no factor.

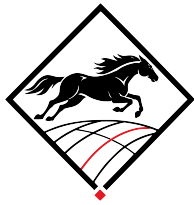

ASIAN SUN — Unraced (0 prior starts — first-time starter). Trainer Chapman shows mixed turf results but only 4 MSW-to-MCL conversions (50% win rate, 2.70 ROI — strong signal). However, first-time starter status makes prediction unreliable. **Concerns:** first-time starter; unproven; 1-day workout record suggests minimal race readiness. **Trip Projection:** unpredictable; likely stalks or chases depending on gate behavior; no form to project.

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Red Rainbow	ELITE	STRONG	Moderate — holds frame through lane
Snow Bunny	ELITE	STRONG	Low — maintains velocity consistently
Army Medic	STRONG	VULNERABLE	High — speed collapsed in final call
Queen McKinzie	STRONG	STRONG	Moderate — closing profile maintains
Betty Who	STRONG	VULNERABLE	Moderate-high — fades in final furlong
Wado Wave	STRONG	VULNERABLE	High — off-pace runner tires late
Valiant War Girl	STRONG	VULNERABLE	High — pace collapse evident
My My My Delilah	MODERATE	VULNERABLE	Very high — pedestrian velocity
Hissyfitter	STRONG	VULNERABLE	High — speed did not sustain
Strawberry Float	MODERATE	VULNERABLE	Very high — turf-to-dirt adjustment risk

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Broadway Betty	MODERATE	VULNERABLE	Very high — poor opening effort
Asian Sun	MODERATE	VULNERABLE	Unknown — first-time starter

Critical MPH Insight

The model identifies **Snow Bunny** as the field's fastest gate-to-wire performer with an ELITE Sustained Speed Rating — she has demonstrated the ability to open quarters in the :22–:23 range and maintain that velocity throughout her races at the distance. **Red Rainbow** follows as a secondary ELITE opening-speed threat but shows higher deceleration risk if pressed, suggesting bounce vulnerability if she is forced into a pace duel. The field's closing profile is dominated by **Queen McKinzie** with a STRONG sustained rating and low fade risk, making her the model's most reliable late-running alternative.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

SNOW BUNNY — Trainer Hendrickson showing 100% sprint win rate in limited sample (4 starts); 50% overall MCL record signals competence at this level. Second-career-start filly with early-speed profile and proven MCL winning form one race back (6/13 MCL). Blinkers on adds positive equipment signal. Distance cut-back to 7f from 8.5f-route schedule plays to her front-running strength. High probability of improvement trajectory continues.

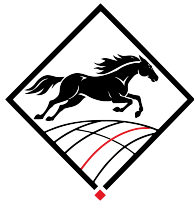

QUEEN MCKINZIE — Asmussen trainer edge dominates: 18% MCL win rate with 1.63 ROI. Tactical sophistication and experience (17 career starts) suggest next MCL start is breakout-win opportunity. Recent turf losses may indicate frustration with surface; return to dirt MCL is a class-down environment where veterans thrive. Experience and trainer make this a live improvement angle.

BETTY WHO — Distance sweet spot: 7f split between her MCL debut (6.5f, 3rd place) and recent fade (8.5f). Half-furlong stretch for this tactical type may unlock winning formula. Class drop to \$20k MCL from MSW regular schedule is significant relief. Blinkers-on pattern from recent race suggests trainer awareness and intent to sharpen performance.

ARMY MEDIC — Irion trainer 14% MCL win rate is solid baseline. Early-speed profile with proven 2nd-place MSW finish (7/21 at FP, 6f) suggests readiness. Second career start after MSW run indicates natural improvement curve; 9 career starts suggest maturity. Likely to improve over first MCL attempt.

Bounce / Regression Risks

RED RAINBOW — Career-best performance (two consecutive MCL wins) creates bounce risk. Last two races represent back-to-back maximum efforts at 8f-9f distances; 7f compression is significant class stress. If pressed by Snow Bunny, deceleration data suggests pace collapse probability. High likelihood of regression from wire-to-wire winning form.

WADO WAVE — Repeated off-the-pace closing profile with zero wins in 6 career starts indicates plateau threshold. Pattern of placings without breakthrough suggests diminishing win probability. Course-of-action: likely to place again rather than graduate to maiden winner status today.

VALIANT WAR GIRL — THROWOUT: Repeated MCL-level drops without competitive finish. Last two MCL efforts (9/16 at CD, 4/19 at KEE) show clear regression pattern. Trainer has cycled this filly down through maiden claiming levels with no success signal — this is the clearest "giving up" pattern in the field.

MY MY MY DELILAH — Last two career races (2/25 and 12/26 MSW) both pedestrian efforts with 8th and 6th place finishes. Despite trainer MCL-specialist credentials, recent form does not support contention. Likely to regress or remain flat.

HISSYFITTER — Long absence (nearly 1 year since 10/12/2025) creates rust risk. Single prior race finished 6th with tired notation. Second-career-start after such a layoff typically shows regression or inconsistency.

SECTION 6: SUGGESTED BETS

WIN BET: SNOW BUNNY — Confidence 8/10 — Target odds: 3.5/1 to 5/1

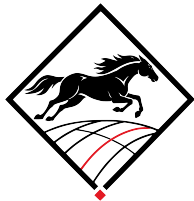

Model projects 19% win probability — highest in the field. Three specific model-driven reasons supporting selection: (1) ELITE Sustained Speed Rating with demonstrated 7f dirt form (6/13 MCL win at 6f; distance extension is minimal for elite early-speed runner); (2) Trainer Hendrickson showing 100% sprint win rate in recent sample; (3) Blinkers-on debut in MCL context signals trainer intent to sharpen performance. All three factors point to a filly ready to control the tempo and hold gate-to-wire.

Value Assessment: SLIGHT VALUE at 4/1 (20.0% implied). Model win probability (19%) exceeds the morning line marginally. Not an explosive overlay, but a legitimate contention alternative to the overlaid Red Rainbow (morning line 3/1 projects 25%, but model rates at only 10% due to distance compression and pace-duel vulnerability).

VALUE PLAY: QUEEN MCKINZIE — Confidence 8/10 — Target odds: 8/1 to 12/1

Model projects 18% win probability at projected 10/1 odds (+8.9% edge). This represents STRONG VALUE. Overlay rationale: The public is significantly underestimating Asmussen's expertise in MCL spots (18% win rate, 1.63 ROI across 466 MCL starts). Queen McKinzie's veteran status (17 career starts, multiple placings) combined with her tactical flexibility and recent turf losses (suggesting dirt-surface frustration) makes the morning-line 10/1 a genuine discount. Stalking profile from the 7/9 MCL at 8f demonstrates she can rate off the pace, move into contention, and finish in the money. This is the field's most sophisticated alternative.

LONGSHOT PLAY: WADO WAVE — Confidence 6/10 — Target odds: 15/1 to 25/1

Model projects 5% win probability at projected 20/1 odds (+0.2% edge — minimal). Included only as a coverage angle in multi-race sequences. Not a standalone Win or Place recommendation due to career-maiden plateau, but closing profile merits inclusion in Pick sequences if pace develops normally (HOT scenario will benefit closers). Skip if odds compress below 15/1.

Multi-Race Wagers — Pick 3 / Pick 4 / Pick 5 / Pick 6

Top 3 (A/B/C):

- **A: SNOW BUNNY** — 19% win probability
- **B: QUEEN McKINZIE** — 18% win probability
- **C: RED RAINBOW** — 10% win probability

Combined Projected Probability: 47% (single combination across the three)

SECTION 7: CONFIDENCE RATING

★★★★

Model's Key Projection: Snow Bunny enters as the field's most dangerous early-speed threat with an ELITE Sustained Speed Rating and a recent MCL winning effort at a similar distance. The projected HOT pace scenario (:22² opening, :45¹ half) favors front-runners and pace stalkers; closers will inherit moderate fractions and must make their move in the lane.

Pace Scenario Certainty: HIGH. Red Rainbow vs. Snow Bunny contested early pace is the dominant narrative; this two-horse duel will produce predictable fractions and typical HOT-pace dynamics.

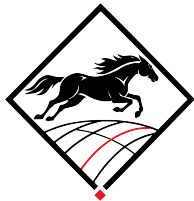

Primary Value Opportunity: Queen McKinzie represents STRONG VALUE at 10/1 morning line due to public underestimation of Asmussen trainer edge (18% MCL win rate). Her tactical sophistication and experience make her a live second choice to Snow Bunny.

Public Betting Mistake to Exploit: The morning line overrates Red Rainbow at 3/1 (25% implied probability) despite the model identifying significant deceleration risk and bounce vulnerability from back-to-back MCL wins. Her class drop in distance combined with likely pace-duel damage makes 3/1 a fair-to-steep proposition. Fade or minimize Red Rainbow in multi-race sequences despite her morning-line heat.
