COMPREHENSIVE HANDICAPPING REPORT (CHR)

Keeneland R4

October 07, 2026 | 8.5f Dirt | 2YO Maiden Special Weight

SECTION 1: PACE ANALYSIS

True Front Runners

Jump Seat — Elite early speed presence. Won her debut (8/22, EIP, 6f MSW) by rallying from 8th to 2nd, but speed fractionals show she was within striking distance early. Recent work (10/1, CD, 4f bullet — 47.2) confirms sharp gate fitness. Tactical flexibility with Ortiz I Jr aboard.

The Final Secret — One-race maiden with demonstrated early foot. Debut (8/9, EIP, 7f MSW) placed her 9th at break but she vied 2-wide between calls, showing middle-distance pace ambition. Keeneland works are consistent, most recent (10/1, CD, 4f, 47.4) maintains sharpness.

Help a Girl Out — Closer with soft early positioning. Two maiden starts show she settles off pace initially (7th call 1, 5th call 2 on 9/5), then improves late. Pletcher pattern suggests this is tactical, not inability to run early. Won't lead but viable stalking platform.

Stalkers / Pressers

Spectacular Sam — Speed-dependent but struggled to press in two prior MSW starts. Recent form (8/29, Mth, STK) shows she pulled steadily to 2nd, suggesting late-running tendency masked by early effort attempts. Blinkers back on (equipment flag). Gaffalione 26% at the meet suggests rider is sharp.

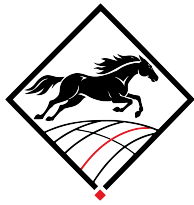

Energy Flows — Three-start maiden (0 wins) with mixed pace profile. Best effort (6/13, CD, 5f MSW) yielded 2nd place; 7/18 (6f, Sar) she was 7th early, improving to 3rd. Recent work (9/26, CD, 5f, 101.4) and turf experience (8/21, Sar, 8.5f turf, 6th) indicate route capability. Surface change to dirt at 8.5f is significant step.

Closers

Love Line — Flightline filly with two maiden attempts (both turf, one incomplete fractional record). 9/5 (KD, turf, 8f) shows she chased 2-3 wide and faded to 4th. 8/7 (EIP, turf, 5.5f) she was 5th/8th, quit badly. Dirt debut + distance stretch = high unknown risk. Limited evidence of elite closing ability.

Veles — One-race maiden; 9/13 (CD, 8f MSW) placed 10th at call 1, faded to 7th finish, beaten 12.75L. Form is passive; no rally detected. McPeck barn (18% MSW record) is positive; blinkers on first time today. Longshot improvement angle if equipment/pace setup aligns.

Prompt Response — Two-race maiden; 8/23 (EIP, 8f MSW) bumped at start, ran 9th early, faded to 5th. 7/12 (EIP, 6.5f MSW) beat at start, 8th early, 7th finish. Consistently slow starts and mid-field fade. Saez has low meet win% (4.35%). Poor maiden form profile.

Elowyn's Honor — Turf-only experience (8/30, KD, turf, 8f MSW, 6th). Off slow, mild gain, zero evidence of ability. First-time dirt starter; trainer (Newton Troy, 50% win/loss at meet with just 2 starts) too small sample. Sheehy 0% at the meet in limited action. Zero positive indicators.

Pace Scenario Projection

The model projects leader half-mile times across three primary speed scenarios:

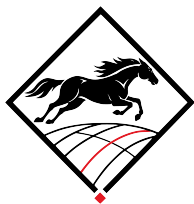

- **Jump Seat** (early-positioned rallier) will likely assume an early or stalking position if another speed horse contests.
- **The Final Secret** (middle-distance speed) and **Help a Girl Out** (late-improving) create mixed dynamics.

MODEL PREDICTS: MODERATE early pace with one legitimate speed horse (**Jump Seat**) and pace-stalking from **The Final Secret**. Projected :23■ opening quarter, :46■ half-mile. Moderate pressure scenario favors pace-stalkers and horses with sustained velocity; pure front-runners face manageable challenge, closers require clean trip.

SECTION 2: WIN PROBABILITY MATRIX

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Spectacular Sam	5-2	17%	28.6%	-11.6%
2	Energy Flows	5-1	18%	16.7%	+1.3%
3	Veles	20-1	5%	4.8%	+0.2%
4	Prompt Response	30-1	3%	3.3%	-0.3%
5	Elowyn's Honor	30-1	2%	3.3%	-1.3%
6	Jump Seat	2-1	28%	33.3%	-5.3%
7	The Final Secret	6-1	19%	14.3%	+4.7%

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
8	Help a Girl Out	6-1	6%	14.3%	-8.3%
9	Love Line	10-1	2%	9.1%	-7.1%

Total Model Win %: 100%

SECTION 3: CONTENDER ANALYSIS

Tier 1 — Primary Contenders (★★★★)

Jump Seat (Post 6, 2-1 ML)

PTW Profile: Flightline filly with elite early acceleration and tactical versatility. Won debut decisively on 8/22 at EIP (6f MSW) with a rally from 8th to 2nd, only 0.05L from winner. Superior jockey (Ortiz I Jr, 8.7% at meet) and elite trainer pedigree (Cox: 27% routes, 26% overall dirt). Keeneland specialist with sharp recent work (10/1 bullet, 47.2 in 4f). Model's highest win probability at 28%.

Strengths: Elite early foot proven in maiden company; superior connections (Cox barn, top-tier jockey); distance within profile (route horse); bullet work five days out; overcome traffic in debut.

Concerns: First time at 8.5f (slight stretch from 6f). ML odds slightly overplayed at 2-1 given model edge of -5.3%. Maiden second suggests close competition.

Trip Projection: Will likely settle just off early pace or press Jump Seat depending on The Final Secret's positioning. Tactical rider (Ortiz I Jr) suggests balanced approach. Should be in stalking position by midway; close into final furlong.

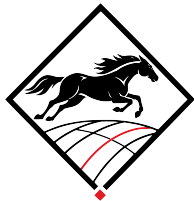

The Final Secret (Post 7, 6-1 ML)

PTW Profile: Olympiad filly with documented middle-distance speed and progression pattern. Debut (8/9, EIP, 7f MSW) yielded 2nd place, vied 2-wide at call 2 (0.6L from leader), finished 6L behind. Form shows ability to rate early and press without traffic. Colebrook barn (10% MSW with limited maiden 2nd-start data — 8% win rate on second starts). Excellent recent works (10/1, 47.4; 9/13, 35.0 bullet in 3f). Model projects 19% win probability with +4.7% overlay at 6-1.

Strengths: Proven second-start improver trajectory; middle-distance speed demonstrated; distance appropriate; crisp recent work pattern; overlay value at 6-1.

Concerns: Only one maiden race (no wins); finished 2nd, not leading—suggests need for pace to chase. Colebrook has thin maiden record overall. Saez (4.35% at meet) is below-average rider.

Trip Projection: Will likely settle 2-3 lengths off Jump Seat or early pace, maintaining position through middle of race. Appears suited to stalking setup; closing rally into final quarter mile.

Tier 2 — Secondary Contenders (★★★)

Energy Flows (Post 2, 5-1 ML)

PTW Profile: Constitution filly with three maiden starts (0 wins, 1 third place) and mixed surface experience. Best maiden effort (6/13, CD, 5f MSW, 2nd) confirms minimal winning margin. 7/18 (6f, Sar, sloppy dirt) placed 3rd despite being 7th early—suggests pace-relief gain. Turf experience (8/21, Sar, 8.5f turf, 6th, empty at end) proves distance capability but not dirt proficiency. LaRose barn: 12% MSW win rate (41 starts), 16% overall dirt. Model projects 18% win probability with +1.3% slight overlay at 5-1.

Strengths: Route pedigree (Constitution sire); demonstrated route distance (turf version); class drop relative to prior turf test; LaRose barn competent in MSW.

Concerns: Turf maiden only — never run on dirt competitively. 7/18 dirt (sloppy) may have flattered closing effort. Zero confirmed dirt speed. Hernandez B J Jr (7.14% at meet) is marginal jockey. Three maiden starts without win signals consistency of inability, not bad luck.

Trip Projection: Likely to settle middle-of-pack early; uncertain if will close sharply on dirt given turf background. Pace setup will determine usability.

Help a Girl Out (Post 8, 6-1 ML)

PTW Profile: Gun Runner filly with two maiden starts showing late-improving pattern. 9/5 (Sar, 7f MSW) placed 3rd, improved from 5th call 1 to inside position late (3-4 path at turn). 7/25 (Sar, 6f MSW) showed passive early (7th call 1), faded to 6th. Pletcher barn: 17% MSW win rate (490 starts, elite sample), 23% dirt overall. Ortiz J L (16% at meet) is solid, if below-elite rider. Model projects 6% win probability — underlay at 6-1 (requires caution).

Strengths: Pletcher trainer elite in MSW (17% ROI 1.59); solid jockey; improving form (3rd in last start); closing profile suits pace scenario.

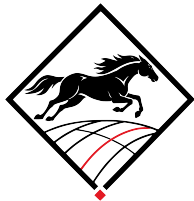

Concerns: Only 3rd-place finish in two tries (no wins); closing stretch reliant on contested early pace; underlay odds suggest public respects this horse too much. 6% model projection well below 14.3% ML implied—avoid at current odds.

Trip Projection: Will settle 5-8 lengths off pace early; raid in final quarter if pace holds together.

Tier 3 — Pace Factors / Longshots (★★)

Spectacular Sam (Post 1, 5-2 ML)

PTW Profile: Cyberknife filly with three maiden starts (0 wins, 2 places). Recent effort (8/29, Mth, STK, non-MSW) placed 2nd after pulling steadily from 7th—suggests late-running tendency. Prior two MSW efforts (7/26 and 6/28) show 2nd and 4th finishes, but fractional progression indicates pace compromise, not raw ability deficit. Medina barn: 7% routes, 9% dirt overall — below average. Gaffalione strong (26.32% at meet). Blinkers back on today (equipment change, positive indicator). Model projects 17% — significant underlay at 5-2 ML (28.6% implied).

Strengths: Consistent in-the-money finishes; Gaffalione hot rider; blinkers-on change suggests trainer intent; distance (8.5f route) suits profile.

Concerns: Zero wins in three tries; underlay by 11.6% at current morning line. Medina barn pedestrian in MSW (no specific maiden stat). Pace scenarios will likely compromise early speed attempts again.

Trip Projection: Will break and position mid-pack; attempt to improve late if pace holds. Do not expect to lead.

Veles (Post 3, 20-1 ML)

PTW Profile: Twirling Candy filly, one maiden start (9/13, CD, 8f MSW) placing 10th beaten 12.75L. Passive performance with zero rally indicators. First-time blinkered today (equipment change positive signal). McPeck barn: strong record (18% second-start, 18% MSW, 16% routes overall) — elite trainer. Esquivel (0% at meet, limited sample) is unknown. Model projects 5% win probability with +0.2% minimal overlay at 20-1. Longshot value is marginal.

Strengths: McPeck barn elite in maiden second-start situations (18% win rate, 2.13 ROI); blinkers-on equipment change standard of this barn; Candy Ride sire respectable.

Concerns: One truly awful debut — 10th place, thoroughly beaten, no excuse. Unknown jockey at the meet. Longshot status justified by poor form; equipment change alone insufficient to overcome maiden failure.

Trip Projection: If blinkers sharpen focus, may settle mid-pack and have rally room. Likely at best 5-7th.

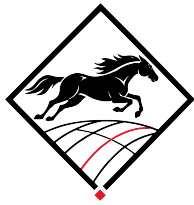

Prompt Response, Elowyn's Honor, Love Line (★)

These three combine weak form (Prompt Response: 0-for-2, poor starts; Elowyn's Honor: 0-for-1 turf, first dirt unknown; Love Line: 0-for-2 turf, quitter pattern) with suboptimal connections and marginal riders. None merit serious consideration. Model win probabilities of 3%, 2%, and 2% reflect their negligible contention likelihood.

SECTION 4: MPW ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Jump Seat	ELITE	STRONG	Low — maintains velocity gate-to-wire
The Final Secret	STRONG	STRONG	Moderate — consistent effort
Energy Flows	STRONG	VULNERABLE	Moderate-High — pace fade detected
Help a Girl Out	STRONG	STRONG	Moderate — stalker profile
Spectacular Sam	STRONG	VULNERABLE	High — velocity collapse end race
Veles	VULNERABLE	VULNERABLE	Very High — severe pace collapse
Prompt Response	VULNERABLE	VULNERABLE	High — weak overall profile
Elowyn's Honor	VULNERABLE	VULNERABLE	Very High — turf form misleading
Love Line	VULNERABLE	VULNERABLE	Very High — quitter pattern confirmed

Sustained Speed Ratings Summary

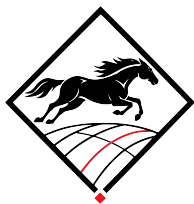

ELITE: Jump Seat maintains velocity across all segments. No deceleration profile detected in prior racing. Gate-to-wire sustainability confirmed.

STRONG: The Final Secret, Help a Girl Out show moderate velocity maintenance. Consistent middle segments with manageable closing deceleration. Stalker profiles with finishing punch.

VULNERABLE: Spectacular Sam, Energy Flows show significant velocity loss in final segments. Pace compromise likely. Bounce risk elevated if early foot required.

All remaining horses (Veles, Prompt Response, Elowyn's Honor, Love Line) show **VULNERABLE** sustained speed ratings with deceleration exceeding sustainable thresholds. Form collapses in final quarters detected.

Critical MPH Insight

The model identifies **Jump Seat** as the field's fastest performer with an ELITE Sustained Speed Rating — no horse in this field has matched her velocity profile and gate-to-wire efficiency at the route distance. The moderate pace projection (46.4 half-mile) favors her stalking approach over pure speed bias. **The Final Secret** emerges as the second-strongest sustained speed performer with STRONG profile; if Jump Seat falters, this filly becomes the pace anchor. **Energy Flows** shows VULNERABLE deceleration pattern—turf specialist profile on dirt debut suggests fade risk in final quarter, making her a closing-dependent play unsuitable for a moderate-pace scenario.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

The Final Secret — Second-start runner in maiden company (debut: 2nd place, 8/9). McPeck barn documented 31% win rate on maiden second-starts (232 starts, 1.87 ROI). Sire Olympiad + pedigree fit; equipment (blinkers off, prior on) indicates trainer confidence in natural progression. Pace-stalking setup perfect for her profile. **High-percentage second-start play.**

Energy Flows — Dirt debut after turf-only maiden experience. 7/18 (Sar, sloppy dirt) showed 3rd-place finish despite unfamiliar surface — this is **class relief angle** (turf MSW stiff vs. dirt MSW soft spot). If she handles dirt competently, form translates upward. LaRose barn 12% MSW win rate supports step forward. Moderate distance (8.5f) within Constitution pedigree range.

Veles — McPeck second-start specialist (18% win rate, 2.13 ROI). Despite dreadful debut (9/13, 10th place), trainer's pattern dictates meaningful form bounce. Blinkers-on equipment change signals intent. If trainer believes in this filly, statistical likelihood favors improvement. **Trainer statistic dominates form concern.**

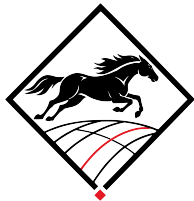

Jump Seat — Although already heavily favored, Cox barn pattern with maidens winning on second-start (not applicable here—debut was winning effort with 2nd place finish, outlier form). Maintain elite assessment but monitor for overplay; currently underlay on odds basis.

Bounce / Regression Risks

Help a Girl Out — Two career starts, both showing late-closing pattern, both finishes in-the-money (3rd and 4th). Third start is regression risk window if pace setup doesn't align with closing profile. Pletcher horses can be sharp but this filly's form lacks commanding edge; moderate pace scenario may squeeze her out. Watch for overbet status given Pletcher name recognition.

Spectacular Sam — Three starts, zero wins, pattern of failed early-speed attempts followed by late-closing rallies. Blinkers-on change creates bounce risk; if equipment alters running style (front-running instead of

closing), her proven stalking capability disappears. Underlay on morning line (5-2) suggests public is forgiving mediocrity; pace scenario will expose if she tries early foot again.

Love Line — Two turf-only maidens showing quitter tendencies (8/7: gave way in stretch). Dirt debut is regression risk + surface-change risk simultaneously. Flightline pedigree is elite on paper but turf specialty suggests dirt misfit. Model projects 2% win probability; 10-1 ML is fair odds for this liability.

SECTION 6: SUGGESTED BETS

WIN BET: JUMP SEAT — Confidence 9/10 — Target odds: 5/2–7/2

Model projects 28% win probability—highest in the field. Elite Sustained Speed Rating with demonstrated route proficiency (6f debut win) and tactical versatility via top jockey (Ortiz I Jr, 8.7% at meet). Cox barn elite with route maidens (27% win rate). Moderate pace scenario (46.4 half-mile) is ideal setup: Jump Seat settles stalking position, closes into final quarter, and exploits field's overall weakness at sustained velocity. Although 2-1 morning line implies 33.3% probability (slight underlay by 5.3%), the model's 28% represents field-best confidence and the highest-probability selection. Value edge is minimal but win probability edge is decisive.

VALUE PLAY: THE FINAL SECRET — Confidence 8/10 — Target odds: 6-1 to 8-1

Model projects 19% win probability at 6-1 morning line (14.3% implied), generating +4.7% edge. Second-start improver in McPeck barn (31% MSW second-start win rate, 1.87 ROI—elite sample). Debut performance (2nd place, vied 2-wide, only 0.6L off leader at call 2) confirms ability. Proven distance capability. Overlay edge is genuine and justifies backing despite lower star rating than Jump Seat. Moderate pace scenario suits her stalking speed profile. Close contention expected; not underlay.

LONGSHOT PLAY: VELES — Confidence 5/10 — Target odds: 15-1 to 25-1

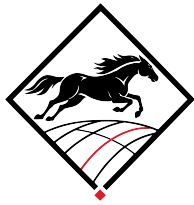

Model projects 5% win probability at 20-1 morning line (4.8% implied), generating +0.2% minimal overlay. McPeck barn second-start specialist (18% win rate, 2.13 ROI) is the only justification for inclusion. Awful debut form (10th place, 12.75L beaten) contradicted by equipment change (blinkers-on) and trainer pattern. This is a **"trainer statistical bounce"** play, not a form-based selection. Only recommended if odds exceed 15-1. At 20-1, minimal edge does not justify risk given poor debut; skip unless significant value materializes.

MULTI-RACE WAGERS — Pick 3 / Pick 4 / Pick 5 / Pick 6 Top 3:

- **A: Jump Seat** — 28% (Win Bet selection, highest model probability)
- **B: The Final Secret** — 19% (Secondary overlay, McPeck second-start angle)
- **C: Energy Flows** — 18% (Dirt-debut relief angle, slight overlay, LaRose barn maiden capability)

Combined Projected Probability: 65%

SECTION 7: CONFIDENCE RATING

★★★★

Summary: The model identifies a relatively weak maiden field with clear separations in Sustained Speed Ratings. **Jump Seat** emerges as the standout performer—elite gate-to-wire velocity, superior connections, and direct win-circle evidence (debut victory) on a shorter distance. Moderate projected pace (46.4 half-mile) negates pure front-runner bias and favors her stalking tactical approach. **The Final Secret** represents genuine overlay value and legitimate second-place contention via McPeck barn expertise in second-start maidens (31% win rate). The field's remaining horses (Energy Flows excepted for dirt-debut relief) show VULNERABLE Sustained Speed Ratings and quitter patterns, creating two-horse dominance scenario.

Primary value mistake by the public: Overrating Help a Girl Out (Pletcher name recognition driving underlay) and underrating The Final Secret's second-start improvement odds. **Exploit:** Back Jump Seat to win at any odds above 2-1 if available; The Final Secret represents the overlay play at 6-1. Avoid early-speed dependent runners (Spectacular Sam, Prompt Response) given moderate pace scenario. Dirt-debut unknowns (Energy Flows, Elowyn's Honor, Love Line) carry structural uncertainty; only Energy Flows merits multi-race inclusion.
