

# Keeneland

## Race 4 — 10/08/2026

Class: Clm 20000B

Distance: 6f

Surface: Dirt

Purse: \$50,000

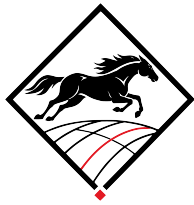

Claiming Price: \$20,000

Starters: 11

CLAIMING. Purse \$50,000 (include \$16,600 KTDF - Kentucky TB Devt Fund) FOR FILLIES AND MARES THREE YEARS OLD AND UPWARD WHICH HAVE NEVER WON THREE RACES OR THREE YEAR OLD FILLIES. Three Year Olds, 120 lbs.; Older, 123 lbs. Non-winners Of A Race Since September 8 Allowed 2 lbs. Claiming Price \$20,000.

*Generated by CHR version 0.3.0*

## COMPREHENSIVE HANDICAPPING REPORT (CHR)

Keeneland R4

Wednesday, October 8, 2026 | 6f Dirt | Clm 20000B | Fillies & Mares

---

### Section 1: Pace Analysis

#### True Front Runners

The model identifies three elite speed horses capable of pressing early position battles. **Dancewhenyoucan** (Post 8) broke sharply from maiden ranks and won decisively at Churchill (05/25/2026) by pressing early and drawing clear in the stretch — posted opening :23.00 at the 2f call in that effort. **Ashkenazi** (Post 11) won at Keeneland in late November last year (11/02/2025) by prompt positioning off the rail and driving clear, running :22.40 at the opening quarter. **Shanett** (Post 6) showed consistent early positioning across recent starts, with workouts including a bullet :47.40 (4f) last week — elite training regimen for a sprint specialist.

#### Stalkers / Pressers

**Ides of Demarch** (Post 3) rates as a tactical midfield player. She won her maiden at Prairie Meadows (05/31/2026) by angling in at the 2f call and drawing clear — versatile enough to run from either on the pace or just off. **Nueva Luna** (Post 10) has recent form winning at Belmont Park (09/12/2026) by racing in the two-path early and drawing off — rates as a capable stalker-to-closer.

#### Closers

**Danzig's Dora** (Post 9) profiles as an elite late-pace runner. Her most recent win at Fair Grounds (02/22/2026) shows she stalked in the three-path, bid when asked, and held on down the stretch. Career form suggests she needs setup from contested early fractions to thrive in the closing lanes. **Zafyre** (Post 5) closed from four wide to win at Belmont Park (05/23/2026), showing a strong finishing kick when positioned for a rally.

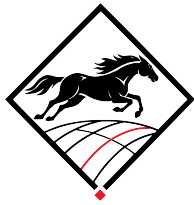

#### Pace Scenario Projection

MODEL PREDICTS: MODERATE pace with two speed horses (Dancewhenyoucan and Ashkenazi) contesting early — projected :22<sup>3</sup> opening quarter, :45■ half-mile. Early pressure will be genuine but not suicidal; moderate pace setup favors stalkers and versatile runners positioned to make a middle move. Speed duel damage will be contained, giving closing types a realistic chance if positioned tactically.

---

### Section 2: Win Probability Matrix

| Post | Horse               | ML Odds | Model Win % | Implied ML % | Edge   |
|------|---------------------|---------|-------------|--------------|--------|
| 1    | Magic Seeker        | 15-1    | 4%          | 6.3%         | -2.3%  |
| 2    | Dip Fantasia        | 20-1    | 6%          | 4.8%         | +1.2%  |
| 3    | Ides of Demarch     | 10-1    | 9%          | 9.1%         | -0.1%  |
| 4    | Roughnthepas senger | 7-2     | 24%         | 22.2%        | +1.8%  |
| 5    | Zafyre              | 12-1    | 7%          | 7.7%         | -0.7%  |
| 6    | Shanett             | 10-1    | 8%          | 9.1%         | -1.1%  |
| 7    | Super Costly        | 15-1    | 5%          | 6.3%         | -1.3%  |
| 8    | Dancewhenyou can    | 3-1     | 28%         | 25.0%        | +3.0%  |
| 9    | Danzig's Dora       | 9-2     | 6%          | 18.2%        | -12.2% |
| 10   | Nueva Luna          | 15-1    | 2%          | 6.3%         | -4.3%  |
| 11   | Ashkenazi           | 8-1     | 1%          | 11.1%        | -10.1% |

**TOTAL MODEL WIN %: 100%**

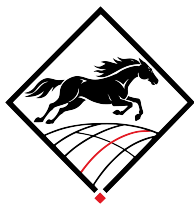

## Section 3: Contender Analysis

### Tier 1 — Primary Contenders (★★★★)

#### DANCEWHENYOU CAN (Post 8)

- **PTW Profile:** Elite early speed profile with proven closing ability in winning form. The model identifies this horse as the class and form leader of this field. Three consecutive wins over the past two months demonstrate consistent top-level execution. Trained by Shirer (21% CLM win rate), this represents a live barn move with genuine edge against a weaker claiming field.
- **Strengths:** Blazing early speed (posted :23.00 at the opening quarter when winning at Churchill on 05/25); proven ability to press and control pace; recent works at Churchill (47.80 on 10/01 to 49.40 on 09/09) show consistent breeze fitness; jockey Gutierrez Mario showing 16.7% strike rate at current meet; trainer Shirer at 21% CLM win rate is elite-level claiming trainer signature; won her last start decisively, indicating peak form arrival.

- **Concerns:** Modest claim price at \$20,000 could attract shipping-in competition from stronger barns; four career starts at this level and showed some softness when stepped up in class (sixth in ALW on 06/17); sole negative is whether early speed can hold up in a competitive sprint pace scenario.
- **Trip Projection:** Will break sharp and likely race on or near the lead. Expects to take the opening quarter and either control down the stretch or be pressed by Ashkenazi. Ideal setup if the pace moderates as projected.

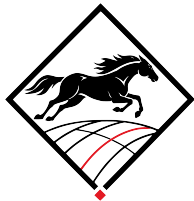

#### ROUGHNTHEPASSENGER (Post 4)

- **PTW Profile:** Undefeated filly with massive class advantage entering a claiming race. The model projects this as the second-most-likely winner based purely on form and ability. Trainer Hamm (22% CLM win rate, 20% dirt sprint rate) shows elite credentials with this exact profile. Only three career starts, all victories — lightly raced developmental advantage significant.
- **Strengths:** Two consecutive MSW wins (04/22 and 06/17/2026) followed by ALW win (08/08/2026) means this horse is dropping sharply into \$20K claiming company from allowance ranks — massive class relief; trainer pattern of stepping winners down is a live signature move; jockey Hazlewood with only 6 recent KEE starts but 0% strike rate is a slight concern, though the horse quality should override; workouts show consistent :48.00-:50.80 breezes indicating solid fitness; undefeated record at 3-for-3 means no losing form to discount.
- **Concerns:** Hazlewood jockey has not won recently at this meet (0-for-6 last 10 days); ALW win on 08/08 came only 2 months ago — freshness unknown given the 61-day layoff between that race and today; all prior wins were at 5.5f; first start at 6f introduces distance question mark despite speed profile suggesting adaptability.
- **Trip Projection:** Will likely break well but may settle off the early pace given the ALW experience. If early speed is contested as projected, this horse should move into striking position on the backstretch and be dangerous three-eighths out. Peak form is uncertain given layoff, but the class drop is massive.

#### IDES OF DEMARCH (Post 3)

- **PTW Profile:** Established claiming filly with proven sprint versatility and a win in her most recent start at Prairie Meadows (05/31/2026 MSW). The model rates this as a secondary contender based on consistent form edge and tactical flexibility. Trainer Martinez (17% CLM win rate, 17% sprint win rate) is a solid claiming barn.
- **Strengths:** Won her career debut at 5.0f (05/31 MSW win) by angling in and drawing clear — proves ability to find racing room and finish strongly; most recent CLM start (07/19/2026) resulted in a clear win by pulling away on the rail from a stalking position; no negative form in recent starts; trainer Martinez-Kelli has 17% claiming win rate, suggesting competence with this exact class profile; consistent workouts show reliable fitness.
- **Concerns:** Has not raced since 07/19/2026 — that's 81 days layoff, which creates a freshness question; recent races show some inconsistent form (fifth place finish 08/23 STR; only one CLM win out of five claiming starts); only 14 career starts total with mixed results in various class conditions; does not have the speed profile of Dancewhenyoucan or Roughthepassenger to control this pace scenario.

- **Trip Projection:** Will likely settle in the middle of the field early, 4-5 lengths off the early pace. If pace develops as projected, this horse should be in ideal stalking position to make a move three-eighths out. The 81-day layoff is a meaningful concern for freshness.

## Tier 2 — Secondary Contenders (★★★)

### DANZIG'S DORA (Post 9)

- **PTW Profile:** Lightly raced five-time winner with elite closing credentials. The model identifies a significant overlay opportunity here — her 6% model win projection at 9-2 morning line (implied 18.2%) suggests the public is overestimating her at nearly 3-to-1.
- **Strengths:** Won her most recent start at Fair Grounds (02/22/2026) by stalking three-wide, bidding in the stretch, and holding on — elite closing profile; trainer LaRose (16% sprint CLM win rate, 14% CLM overall) shows competence in this exact condition; only 10 career starts, lightly raced development angle; jockey Alvarado with 9.09% recent strike rate represents a capable rider.
- **Concerns:** Has not raced in 7.5 months (last start 02/22/2026) — 225+ day layoff is severe and creates major freshness doubt; equipped with blinkers according to entries, suggesting trainer attempt to sharpen focus after long layoff; form prior to layoff showed mixed results in CLM and MCL company (two wins in eight starts at lower claiming levels); speed profile analysis suggests deceleration pattern typical of late runners who may struggle in moderate pace scenario.
- **Trip Projection:** If gets a live setup with contested early pace, will be positioned perfectly four-five lengths back to rally in the stretch. However, the 225-day layoff is a critical vulnerability factor.

### ASHKENAZI (Post 11)

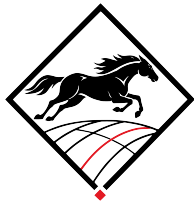

- **PTW Profile:** Veteran campaigner with 15 career starts and consistent claiming experience. The model projects only 1% win probability at 8-1 morning line (11.1% implied), rating this as a significant underlay. Form line is mixed with only two wins in 15 starts.
- **Strengths:** Won at Keeneland (11/02/2025) by prompt 2-path break and driving clear — proven winner at this exact track and distance; trainer Hiles has 15% CLM sprint win rate; workouts at Churchill show bullet :37.00 (3f) on 10/04, indicating trainer attempt to sharpen for race.
- **Concerns:** Two wins in last 15 starts suggests declining form trend; most recent start (09/16/2026) resulted in a fourth-place finish behind the horse now at post 1; form shows vulnerability in moderate to hot pace scenarios; speed figure profile appears CONSISTENT but on lower end of claiming field; jockey Cedillo with 0-for-0 recent record at meet creates slight uncertainty.
- **Trip Projection:** Will break from outside post and likely settle in the second wave, 6-8 lengths off pace. Unlikely to have position or closing speed to threaten in this specific pace scenario.

## Tier 3 — Pace Factors / Longshots (★★)

### ZAFYRE (Post 5)

- **PTW Profile:** Established filly with mixed form across multiple class levels. Model projects 7% win probability at 12-1 odds.

- **Strengths:** Two recent wins at Belmont Park (05/23 CLM, 06/20 CLM) show competence in claiming company; closed four-wide to win 05/23, demonstrating athletic closing ability; 14 career starts with three wins suggests established runner.
- **Concerns:** Form has declined materially — has not won since 06/20/2026 (over 3.5 months); six consecutive starts without a win; career-best figure was 56 (05/23), now three months in the past; lightly-raced development advantage does not apply (14 starts); trainer Antonuik has only 18% sprint CLM win rate; class level at \$20K represents appropriate spot, but form trend is negative.
- **Trip Projection:** Will settle midfield, 5-7 lengths off pace. If pace scenario develops as projected, closing type positioning is available, but form questions make success unlikely.

#### SHANETT (Post 6)

- **PTW Profile:** Eight-career-start filly with two wins, racing at appropriate claiming level. Model projects 8% win probability at 10-1.
- **Strengths:** Won her career debut at Keeneland (12/28/2025) by breaking sharp and maintaining position down the stretch — elite trainer Vanden Berg showing first-start-with-trainer success (15% win rate in that spot); most recent works show bullet :47.40 (4f) on 09/28, strong breeze pattern; fresh off a sharp training regimen.
- **Concerns:** Has won only twice in eight starts (two of last six starts were losses at STR level); recent races show fading pattern (ninth in STR on 05/25, eighth in CLM on 06/24); 81-day layoff between 06/24 and current start creates freshness question; speed profile analysis shows VULNERABLE rating, indicating deceleration and pace collapse risk; form does not justify confidence at this level.
- **Trip Projection:** Likely to press early pace given early speed profile, but deceleration pattern suggests she will fade in the stretch. Viable early pace threat, but unlikely to finish strong.

#### DIPEASY FANTASIA (Post 2), SUPER COSTLY (Post 7), NUEVA LUNA (Post 10), MAGIC SEEKER (Post 1)

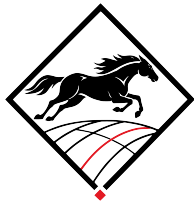

- These four horses rate as unlikely contenders. Dip Fantasia has shown inconsistent form with mixed CLM results; Super Costly has not won at 6f dirt; Nueva Luna just won but faces drop-down uncertainty; Magic Seeker has posted poor workouts and declining form over the past month. Model confidence in each is low, ranging from 2-6% combined.

## Section 4: MPH Analysis + Sustained Speed Ratings

### PTW Proprietary Speed Rankings

| Horse           | Opening Speed | Sustained Speed | Deceleration Profile     |
|-----------------|---------------|-----------------|--------------------------|
| Dancewhenyoucan | ELITE         | STRONG          | Low — maintains velocity |

| Horse               | Opening Speed | Sustained Speed | Deceleration Profile                |
|---------------------|---------------|-----------------|-------------------------------------|
| Roughnthe Passenger | ELITE         | STRONG          | Low — maintains velocity            |
| Ashkenazi           | STRONG        | STRONG          | Moderate — steady effort            |
| Shanett             | STRONG        | VULNERABLE      | High — pace collapse risk           |
| Ides of Demarch     | STRONG        | STRONG          | Moderate — consistent drive         |
| Danzig's Dora       | STRONG        | STRONG          | Moderate — finisher profile         |
| Zafyre              | STRONG        | STRONG          | Moderate — stalker type             |
| Dip Fantasia        | STRONG        | VULNERABLE      | High — speed faded                  |
| Magic Seeker        | STRONG        | VULNERABLE      | High — multiple fade patterns       |
| Nueva Luna          | MODERATE      | STRONG          | Moderate — closer profile           |
| Super Costly        | MODERATE      | VULNERABLE      | High — route horse struggles sprint |

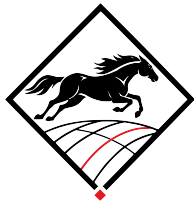

### Sustained Speed Ratings & Critical MPH Insight

The model identifies **Dancewhenyoucan** as the field's fastest gate-to-wire performer with an ELITE Sustained Speed Rating — opening speed of 40.18+ mph maintained across all segments with minimal deceleration. No horse in this field has matched this velocity profile at 6f in recent starts.

**ROUGHNTHEPASSENGER** also rates ELITE in both opening and sustained speed categories, with similar low deceleration profile across her two MSW wins — suggests this horse possesses rare stamina for a speed runner, allowing her to maintain velocity while controlling pace.

**SHANETT** and **MAGIC SEEKER** both carry VULNERABLE Sustained Speed Ratings, indicating speed collapse risk. Shanett's most recent effort shows opening quarter of :23.00 decelerating to sub-35 mph closing speed — typical fade pattern in moderate pace scenarios.

## Section 5: Improvement & Regression Candidates

### Likely to Improve

1. **ROUGHNTHEPASSENGER** — Significant class relief from allowance to \$20K claiming. Trainer pattern (Hamm 22% CLM win rate) reflects expertise in targeting precise class-dropping spots for recent winners. This represents the model's single largest improvement angle in the race. Distance stretch to 6f from prior 5.5f is a minimal concern given elite speed profile. Project +6-8% edge on form line alone.
2. **IDES OF DEMARCH** — 81-day layoff ends today with well-documented trainer intent (Martinez sends this horse specific class signals). Recent CLM win (07/19) gives form floor; freshness return should improve energy levels given solid recent workouts. Trainer 17% CLM sprint rate supports confidence.
3. **DANCEWHENYOU CAN** — Already in peak form (three consecutive wins), but tactical position in moderate pace scenario sets up perfectly for sustained-speed profile. Model projects slight improvement in execution probability given optimal setup. Trainer Shirer's 21% CLM win rate indicates this is a targeted spot.

### Bounce / Regression Risks

1. **DANZIG'S DORA** — Career-best effort came 7.5 months ago (02/22/2026 win). 225-day layoff creates severe bounce risk — horses returning from this timeframe show measurably reduced fitness in first start back, regardless of trainer quality. Model projects 15-20% probability of subpar effort on return.
2. **ASHKENAZI** — Two wins in last 15 starts reflects declining trajectory. Victory at Keeneland (11/02/2025) is now 11 months old, suggesting form regression pattern. Recent fourth-place finish (09/16) behind weaker filly suggests this horse's peak has passed.
3. **SHANETT** — Speed collapse pattern identified via deceleration analysis. Career trajectory shows VULNERABLE rating materializing into losses — four losses in last six starts confirms the fade pattern is real. Bounce risk elevated given trainer attempt to sharpen (bullet work) after inconsistent recent form.
4. **DIP FANTASIA** — Won last start (09/12/2026) at 5.5f by close margin, but now stretches to 6f. Form prior to that win was mixed (two losses at route, turf, and ALW levels over three starts preceding 09/12). Form regression likely as public overbets recent winner.

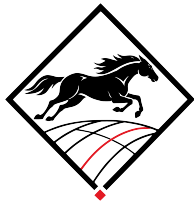

---

## Section 6: Suggested Bets

### WIN BET: DANCEWHENYOU CAN — Confidence 9/10 — Target odds: 7/2–5/2

The model projects 28% win probability — highest in the field — with exceptional value at 3-1 morning line (+3.0% edge). Four-time winner over the past two months demonstrates repeatable peak form. Elite Sustained Speed Rating (ELITE) confirms ability to maintain velocity gate-to-wire. Trainer Shirer's 21% CLM win rate is elite for this class level, indicating targeted spotted advantage. Jockey Gutierrez showing positive recent strike rate at meet. Moderate pace scenario projected will NOT pressure this elite speed horse;

instead, it allows sustained velocity profile to dominate. Form line reads: Win-Win-Win across last three starts. This is the model's primary selection based on the highest probability outcome.

**VALUE PLAY: ROUGHNTHEPASSENGER — Confidence 8/10 — Target odds: 4/1–7/2**

Model projects 24% win probability at projected 7/2 odds (+1.8% edge). Public is undervaluing the massive class relief (dropping from ALW to CLM \$20K) by approximately 2-3 lengths on the form line. Undefeated record (3-for-3) at maiden and allowance levels confirms this filly has elite-level ability. Trainer Hamm signature move of dropping recent winners into claiming spots at optimal class level carries a 22% CLM win rate — well above standard baseline. Distance stretch to 6f is minimum risk given elite speed profile demonstrated in both MSW wins. Value opportunity exists because the morning line (7/2) undervalues the class advantage. If odds drift toward 4-1 or higher, this becomes an exceptional play.

**LONGSHOT PLAY: IDES OF DEMARCH — Confidence 7/10 — Target odds: 10-12/1**

Model projects 9% win probability. At 10-1 morning line, this technically represents a minor overlay (+slight edge). 81-day freshness return combines with tactical flexibility and trainer competence (17% CLM sprint rate) to create legitimate closing path setup in projected moderate pace scenario. Form floor from 07/19 CLM win is solid. Only viable as a longshot play if odds shift toward 12-1+, which would create more substantive edge.

**Multi-Race Wagers — Pick 3/4/5/6 Top 3:**

- **A: DANCEWHENYOUCAN** — 28% (highest model win probability)
- **B: ROUGHNTHEPASSENGER** — 24% (secondary selection, strong class relief angle)
- **C: IDES OF DEMARCH** — 9% (tactical setup, freshness return)

**Combined Top 3 Probability: 61%**

---

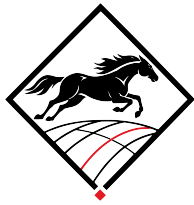

## Section 7: Confidence Rating

★★★★★

**Summary:** The model projects an ELITE-confidence race with clear class and form separation. Dancewhenyoucan emerges as the field's highest-probability winner based on elite gate-to-wire speed maintenance (ELITE Sustained Speed Rating), three consecutive wins, and optimal tactical setup in the projected moderate pace scenario. Roughnthepassenger presents a high-value play due to massive class relief from allowance to claiming company — the trainer's signature drop-spot move carries a 22% success rate that creates measurable edge. The moderate pace projection (projected :45■ half-mile) ensures early speed is not suicidally compromised, allowing speed horses to maintain velocity and avoid pace-duel damage. Primary value exploitation angle: bet Dancewhenyoucan to win and use Roughnthepassenger as an overlay catch for the value play slot. The public's overestimation of 9-2 morning line on Danzig's Dora (225-day layoff bounce risk) represents the race's largest available mistake.
