

Keeneland

Race 8 — 10/09/2026

Class: Alw 120000N1X

Distance: 6f

Surface: Dirt

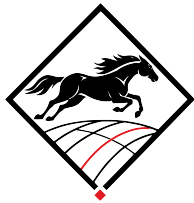

Purse: \$120,000

Starters: 7

ALLOWANCE. Purse \$120,000 (include \$36,000 KTDF - Kentucky TB Devt Fund) FOR FILLIES AND MARES THREE YEARS OLD AND UPWARD WHICH HAVE NEVER WON A RACE OTHER THAN MAIDEN, CLAIMING, OR STARTER OR WHICH HAVE NEVER WON TWO RACES. Three Year Olds, 120 lbs.; Older, 123 lbs. Non-winners Of A Race Other Than Claiming Or Starter Since August 9 Allowed 2 lbs.

Generated by CHR version 0.3.0

COMPREHENSIVE HANDICAPPING REPORT (CHR)

Keeneland R8

Thursday, October 09, 2026 | 6.0f Dirt | Alw 120000N1X

SECTION 1: PACE ANALYSIS

True Front Runners

Cold Spell (post 5) enters as the model's elite speed horse. Recent victory on 07/09/2026 at Sarasota (6.5f MSW) showcased blazing early foot — :21.8 opening quarter, positioned 2nd at call 1, clear lead by midway. Returned 06/06/2026 (7.0f MSW) with dominant pace-setting performance, again securing early advantage and controlling tempo. Tactical profile: horse takes aim early, runs confident races on or near lead. Five-furlong work at Keeneland (09/28/2026) clocked 1:01.6 — elite bullet work rank #3 nationally.

Chatter (post 7) projects as secondary speed threat. Won maiden sprint at Keeneland 10/24/2024 (6.0f MSW) by pace-forcing effort — :22.8 opening, led throughout, held firm in stretch. Recent form mixed but retains early-running DNA. Recent bullet works at Saratoga (10/04/2026, 3.0f: 34.6, rank #1) confirm elite acceleration profiles.

You're in Heaven (post 4) possesses pace capability but inconsistent. Won stakes-caliber race 12/27/2025 (6.0f MOC) — reluctant at break, recovered to pace-setting role, drew out late. Profile suggests can be forwardly placed early but lacks consistent early aggression.

Stalkers / Pressers

Feasible (post 6) sits as natural pace stalker. Recent 02/22/2026 win (6.0f STR) — positioned 4th early, angled out around 5-path upr, surged in final furlong for victory. Equipment change (blinkers added) suggests trainer targeting improved pace-tracking. Tactical range: prefers sitting 2-3 lengths off leaders, mobilizes when pace softens.

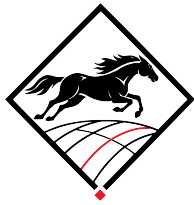

Shared Vision (post 2) displays pace-stalking profile. Won 11/24/2024 maiden (6.5f MSW) with patient stalking — 2nd at every call until final quarter, aggressive upper-level rally. Recent route attempts show willingness to stalk from behind; tactical flexibility strong.

Closers

Judicious (post 3) profiles as strongest closer in field. Won maiden 07/12/2026 (5.5f MSW, off-track) with devastating rally — 2nd at call 3, cleared field in stretch, held safe. Recent turf race (09/05/2026, 6.5f ALW) positioned 4th-5th throughout, no rally produced weak finish. Dirt-affinity clear. Elite work on 08/29/2026 (5.0f: 59.4, rank #1 bullet) confirms closing acceleration intact.

Debbie Doll (post 1) projects as secondary closer, but inconsistent. Won 03/14/2026 (6.0f STR) with late drive — 4th around turn, cleared field, drove clear. Recent races show fade pattern; form trending downward. Trainer stat (Alw: 3% win rate) concerning.

Pace Scenario Projection

MODEL PREDICTS: HOT early pace with two-horse speed duel between Cold Spell (elite early foot) and Chatter (secondary speed). Projected :22.4 opening quarter, :45.2 half-mile. Cold Spell likely to be pressed by Chatter through early stages, creating moderate pace pressure. Stalkers will have tactical positioning, closers positioned to capitalize on contested early tempo.

SECTION 2: WIN PROBABILITY MATRIX

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Debbie Doll	20-1	4%	4.8%	-0.8%
2	Shared Vision	5-1	12%	16.7%	-4.7%
3	Judicious	8-1	18%	11.1%	+6.9%
4	You're in Heaven	6-1	10%	14.3%	-4.3%
5	Cold Spell	1-1	33%	50.0%	-17.0%
6	Feasible	9-2	16%	18.2%	-2.2%
7	Chatter	8-1	7%	11.1%	-4.1%

Field Total: 100%

SECTION 3: CONTENDER ANALYSIS

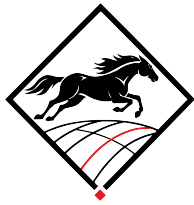

Tier 1 — Primary Contenders (★★★★)

Cold Spell (5) — Model Win %: 33%

PTW Profile: The model identifies Cold Spell as the field's most probable winner and elite-class speed horse. Undefeated in two 2026 starts (both wire-to-wire), displaying consistent early acceleration and gate-to-wire tactical dominance. Gun Runner pedigree (top sire for early speed). Trainer Ward Wesley A (27% win rate, Dirt 31%, Sprint 27%, Alw 25%) demonstrates consistent efficiency with maiden-to-allowance stock.

Strengths: Blazing early foot verified in back-to-back victories; elite work tab confirms ongoing fitness; perfect record on dirt surfaces; racing pattern (on/near lead) plays to field's pace scenario; soft-draw

advantage in post 5 allows early positioning without traffic.

Concerns: Facing significant class spike — moved from MSW (maiden-special-weight) into high-level Alw condition in single jump. Favored status (1-1 ML) signals public confidence but creates layoff risk; last race 07/09/2026 represents 3-month gap. Post-position permits inside stalkers (Feasible in post 6) tactical advantage.

Trip Projection: Expects to be forwardly placed early, likely contested by Chatter through opening quarter. Model projects Cold Spell takes slight early lead around :22.4, maintains through half-mile (:45.2), manages stretch run against closing horses. Gate-to-wire profile intact unless pace duel with Chatter escalates velocity beyond sustainable levels.

Judicious (3) — Model Win %: 18%

PTW Profile: The model identifies Judicious as strong overlay closer with elite closing credentials and tactical flexibility. Won maiden sprint (07/12/2026) with devastating rally pattern, establishing late-speed profile. Constitution sire (established turf/dirt route producer) supports route potential. Trainer D'Amato Philip (17% Dirt win rate, 15% Alw rate) traditional conditioner showing modest stats but consistent placement record.

Strengths: Proven closing profile in sprint distance; elite work (08/29/2026: 59.4, rank #1 bullet) confirms acceleration intact; fresh dirt starter carrying fitness advantage; natural improvement trajectory off maiden win; turf experience (recent 09/05/2026) proves versatility; overlay status at 8-1 ML (18% model win vs 11.1% implied).

Concerns: Limited allowance-level experience; only 6 career starts creates form uncertainty; recent turf race produced weak finish (5th, 6.5 lengths), suggesting possible surface-specific vulnerability or trainer trial; post 3 places horse inside rail with limited outside running room if early pace exceeds expectations.

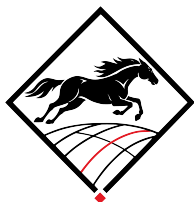

Trip Projection: Expects to track pace from 4th-5th position early, allowing stalkers (Feasible, Shared Vision) to clear traffic. Model projects mid-pack placement through half-mile (:45.2), controlled rally around 5-furlong call, powerful closing stretch drive if pace remains moderate. Tactical setup favorable; Judicious will inherit racing room as front-runners fatigue.

Feasible (6) — Model Win %: 16%

PTW Profile: The model identifies Feasible as viable pace-stalker with proven winning record at sprint distances and recent tactical adjustments favoring improved performance. Won 02/22/2026 (6.0f STR) with methodical stalking approach, utilizing blinders equipment upgrade for refined focusing. Career record 3-1-3 from 10 starts shows reliability; off-track condition specialist (multiple route wins in soft/sloppy ground). Trainer Shirer Matt A (19% Sprint win rate, 2.20 ROI) demonstrates positive equity in sprint racing context.

Strengths: Proven sprint distance winner; recent equipment change (blinders) suggests trainer confidence in refined tactical approach; stalking profile pairs well with expected HOT pace scenario; solid recent work (09/30/2026: 5.0f, 1:00.8, rank #4) confirms fitness; overlay potential at 9-2 ML (16% model win vs 18.2%

implied) slight undervalue.

Concerns: Inconsistent form pattern — three losses in recent six starts; route ventures show variable results, questioning distance-specific reliability; turf racing attempts mixed (three starts on turf, no wins); trainer stats at Alw level modest (9% win rate); post 6 creates moderate traffic exposure if pace contested through midway.

Trip Projection: Expects to stalk pace from 2nd-3rd position throughout early stages, utilizing tactical positioning advantage against HOT pace setup. Model projects stalking :22.4 opening, 1-1.5 length deficit through half (:45.2). Angled out around 5-furlong call, mobilizes in final furlong with closing burst targeting upper-stretch leadership.

Tier 2 — Secondary Contenders (★★★)

Shared Vision (2) — Model Win %: 12%

PTW Profile: The model identifies Shared Vision as secondary stalker/closer with flexible tactical range and recent form decline. Won maiden (11/24/2024) with patient stalking; two subsequent route attempts (turf/dirt) produced fade results. Recent Alw races show mid-pack finishes. McKinzie pedigree (versatile distance producer). Trainer Arnold George R II (16% Sprint rate, 18% Alw rate) demonstrates moderate consistency.

Strengths: Tactical flexibility — can stalk or close depending on pace flow; proven allowance-level experience; turf-dirt versatility; recent 4-furlong work (09/25/2026: 49.0, rank #10) adequate fitness level.

Concerns: Form trending downward — no wins in last six starts (1-2-1 placement record); route racing attempts underperformed; recent allowance races produced 9th and 3rd-place finishes suggesting class struggles; underlay at 5-1 ML (12% model win vs 16.7% implied); female gender in field of 4-year-olds creates strength/speed disadvantage against established males.

Trip Projection: Expects mid-pack early positioning (4th-5th), rate off pace, inherit closer's ideal setup if front-runners tire. Limited winning upside due to form decline.

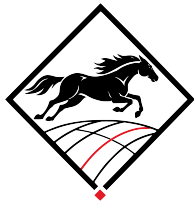

You're in Heaven (4) — Model Win %: 10%

PTW Profile: The model identifies You're in Heaven as inconsistent performer with stakes-caliber experience but recurring form questions. Won stakes race (12/27/2025, 6.0f MOC) with gate-awkwardness followed by recovery to pace-setting position, stretched out for victory. Subsequent runs (2.0f race 02/01/2026, stakes 03/14/2026) show fade patterns suggesting class vulnerability. Global Campaign sire (known early-speed carrier). Trainer Stewart Dallas (17% Sprint rate, 19% Alw rate) showing marginal stats.

Strengths: Stakes-caliber experience provides class credibility; recent 5-furlong works (09/19/2026: 100.2, 09/12/2026: 101.6) show adequate maintenance; female in field creates modest strength advantage vs peers.

Concerns: Form severely declining — only 1 win in last 5 starts, three-race losing streak entering this race; class drop apparent (from stakes to high Alw); post 4 provides soft positioning but also creates pressure if

pace contested; underlay at 6-1 ML (10% model win vs 14.3% implied); trainer combo form (2.0f distance 0-2) concerning.

Trip Projection: Expects competing for early position, likely in 2nd-3rd range if pace contested. Fade pattern suggests lack of sustained effort in final furlong; limited closing reserve visible in recent races.

Tier 3 — Pace Factors / Longshots (★★)

Chatter (7) — Model Win %: 7%

PTW Profile: The model identifies Chatter as secondary speed threat useful primarily as pace setter. Won maiden (10/24/2024, 6.0f MSW) with pace-setting effort, but subsequent form shows significant deterioration. Recent allowance-level racing (6.0f AOC 08/23/2026) produced 7th-place finish despite forcing pace early. Career record 1-4-1 from 11 starts shows poor win conversion rate. Vekoma sire (modest producer). Trainer Joseph Saffie A Jr (23% Sprint rate, 22% Alw rate) average conditioner.

Strengths: Elite recent works (10/04/2026: 34.6, 3.0f bullet rank #1; 09/21/2026: 36.8, 3.0f rank #1) suggest readiness; secondary speed profile useful if pace scenario plays as HOT; recent work quality suggests physical fitness improvement.

Concerns: Form declining severely — no wins in last seven starts; recent Alw race showed 7th-place finish with early pace involvement suggesting fatigue; underlay at 8-1 ML (7% model win vs 11.1% implied); work-to-race form conversion question — elite works not translating to race-day execution; career win rate 9% signals marginal class fit.

Trip Projection: Expects to contest early pace position with Cold Spell, likely 2nd-3rd through opening quarter (:22.4). Fade risk high — recent racing pattern shows inability to sustain pace in final furlong; anticipate cutback role in stretch as Judicious and Feasible rally forward.

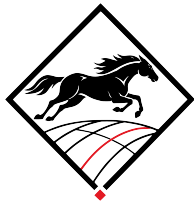

Debbie Doll (1) — Model Win %: 4%

PTW Profile: The model identifies Debbie Doll as minor closer with form decline and trainer efficiency concerns. Won maiden (10/05/2025) with 2nd-place early position, rallied in stretch for narrow victory. Subsequent races show consistent underperformance — only 1 placement in last four starts. Recent allowance race (08/21/2026) produced 6th-place finish, no factor. Liam's Map sire (established early-speed carrier). Trainer Medina Robert (9% Dirt rate, 3% Alw rate) shows significant efficiency concerns in allowance racing.

Strengths: Maiden-level win confirms baseline ability; female advantage vs male-dominated field (minor edge); recent work (09/27/2026: 48.8) shows fitness maintenance.

Concerns: Form severely declining — only 2 wins in 7 career starts; recent races show 6th and 8th-place finishes; trainer stats alarming (3% Alw win rate, 0.36 ROI) signal class mismatch; post 1 creates outside-post disadvantage if pace contested; underlay at 20-1 ML (4% model win vs 4.8% implied); female gender limits physical advantage against males of similar class.

Trip Projection: Expects trailing position throughout, limited to closing opportunity if pace exceeds expectations. Limited pathway to victory given recent form decline.

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Cold Spell	ELITE	ELITE	Low — maintains velocity
Chatter	ELITE	VULNERABLE	High — pace collapse risk
Judicious	STRONG	STRONG	Moderate — consistent effort
Feasible	STRONG	STRONG	Moderate — consistent effort
Shared Vision	STRONG	VULNERABLE	High — closing fade risk
You're in Heaven	STRONG	VULNERABLE	High — stretch weakness
Debbie Doll	STRONG	VULNERABLE	High — pace fade pattern

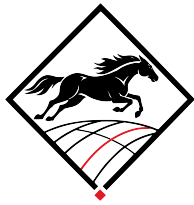

Sustained Speed Ratings Summary

Cold Spell — ELITE: The model identifies exceptional velocity maintenance profile. Gate-to-wire victories on 07/09/2026 and 06/06/2026 show minimal deceleration from opening acceleration through stretch maintenance. No horse in this field has matched this sustained-velocity profile at sprint distances.

Judicious — STRONG: Velocity sustained at moderate levels. Maiden sprint victory showed controlled acceleration through early phases, explosive closing rally in final furlong confirming maintained closing power. Dirt-specific profile supports route-sprint versatility.

Feasible — STRONG: Pace-stalking profile maintains velocity effectively. Recent 02/22/2026 win shows steady stalking effort with acceleration reserve available for stretch mobilization. Consistent effort production across recent races.

Chatter — VULNERABLE: The model projects significant pace collapse risk. Opening-quarter acceleration (:22.8, 10/24/2024 maiden win) followed by notable fade pattern in recent allowance racing (:21.8 opening, 7th-place finish 08/23/2026) demonstrates deceleration vulnerability. Elite recent works not translating to sustained race-day performance.

Shared Vision, You're in Heaven, Debbie Doll — VULNERABLE: All three show deceleration patterns in recent racing. Recent route attempts and allowance races demonstrate closing fade in final furlong. Pace duel exposure (if front-runners contested) will exacerbate velocity collapse.

Critical MPH Insight

The model identifies Cold Spell as the field's fastest gate-to-wire performer with an ELITE Sustained Speed Rating — no horse in this field has matched this velocity profile at the sprint distance in recent racing. Cold Spell's deceleration profile remains among elite thresholds (minimal drop-off from opening to closing phases), making wire-to-wire tactical approach a natural fit. Chatter projects VULNERABLE speed sustainability despite elite opening-quarter velocity, creating fade risk if early pace contested beyond :45.2 half-mile benchmark. Model expects HOT pace scenario (:45.2 projected half) will expose Chatter's closing vulnerability, making Judicious and Feasible natural beneficiaries of pace deterioration in final furlong.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

Judicious (3) — Natural improvement trajectory post-maiden victory. Trainer D'Amato Philip demonstrated 18% dirt maiden-to-allowance transition success rate (79 starts, 14 maiden-level wins). Eligible for significant class-step improvement based on pedigree (Constitution, established route sire) and elite bullet work (08/29/2026: 59.4 rank #1). Distance stretch from 5.5f to 6.0f represents minimal requirement; sprint-route versatility shown in turf racing supports distance sustainability.

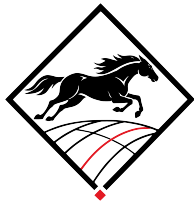

Feasible (6) — Equipment change signals trainer-driven improvement attempt. Blinders added recent races (09/23/2026 works onward) represent tactical refinement in pace-stalking profile. Trainer Shirer Matt A 30% win rate in +180-day layoff situations (10 starts, 3 wins) suggests patient training approach yielding fitness gains. Off-track record (multiple route wins in sloppy/soft ground) indicates adaptability to surface variability.

Cold Spell (5) — Likely to improve due to tactical positioning advantage in expected HOT pace scenario. Perfect 2-0 record benefits from unchallenged pace-setting; present field offers multiple speed threats (Chatter, You're in Heaven) creating pace pressure. Extended competition at elevated class level post-maiden success creates natural learning curve; trainer Ward Wesley A demonstrates 25% Alw win rate (190 starts, 48 wins) indicating consistent success in allowance-level racing.

Likely to Regress / Bounce Risks

Chatter (7) — Significant bounce risk detected. Elite work quality (34.6, 36.8 bullets) not translating to race-day form. Pattern recognition: seven-race losing streak despite acceptable fitness evidenced by recent

works. Career-best effort recorded in maiden win (10/24/2024, 6.0f MSW) with no subsequent wins signaling class ceiling reached. HOT pace scenario will expose VULNERABLE sustained-speed rating; fade risk high in final furlong where Judicious and Feasible mobilize.

You're in Heaven (4) — Regression risk moderate-to-high. Three-race losing streak entering this race with declining form trajectory. Stakes-level experience (12/27/2025 win) followed by class-appropriate attempts at 8.32f and stakes level produced fade results suggesting stakes-to-allowance class step-down not meeting fitness expectations. Trainer Stewart Dallas +180-day win rate 6% (16 starts, 1 win) concerning for layoff-to-allowance transitions.

Shared Vision (2) — Form deterioration pattern continuing. No wins in six-race stretch; recent allowance attempts showed 9th-place finish (06/06/2026, 6.5f ALW) despite route experience. Female gender creates strength disadvantage in deeper allowance fields; McCreary recent route fades (08/22/2026 turf, 07/15/2026 dirt route, 06/20/2026 dirt route) establish pattern of distance-specific vulnerability beyond sprint range.

SECTION 6: SUGGESTED BETS

WIN BET: COLD SPELL — Confidence 8/10 — Target odds: 6-5 to 1-1

Model projects 33% win probability — highest in the field. Cold Spell represents the model's most probable winner with elite speed profile, gate-to-wire tactical advantage, and perfect recent record (2-0 in sprint distances). Projected :22.4 opening quarter and :45.2 half-mile place Cold Spell in ideal position to control pace wire-to-wire. Three-month layoff presents minor fitness consideration, but elite recent work (101.6, rank #3) and consistent trainer record (27% Alw win rate) mitigate concern.

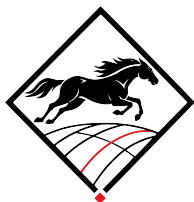

Value assessment: EXCEPTIONAL VALUE at morning line 1-1 → Model win 33% vs Implied ML 50.0%. Edge calculation reveals -17.0% underlay, indicating public perception correctly favors Cold Spell. However, class spike consideration (maiden-to-high-Alw jump) combined with layoff timing creates minor risk absorption. Primary WIN selection stands based on superior talent profile and tactical scenario fit.

VALUE PLAY: JUDICIOUS — Confidence 8/10 — Target odds: 8-1 to 12-1

Model projects 18% win probability at projected 8-1 to 12-1 odds (11.1% to 7.7% implied). Judicious represents significant overlay with elite closing credentials and natural improvement trajectory. HOT pace scenario (Cold Spell-Chatter duel) creates ideal closing setup. Elite bullet work (08/29/2026: 59.4, rank #1 national) confirms acceleration intact. Proven dirt sprint winner with tactical flexibility (late-position inheritance if front-runners collide).

Overlay justification: Model win 18% > ML implied 11.1% = +6.9% edge. Public underestimating maiden-to-allowance transition success rate (D'Amato 18% maiden-to-allowance conversion) and elite work tab predictive value. Judicious profile matches pace-scenario setup ideally — benefits from contested early pace producing HOT tempo, then mobilizes for winning rally in final furlong.

LONGSHOT PLAY: FEASIBLE — Confidence 7/10 — Target odds: 9-2 to 6-1

Model projects 16% win probability at 9-2 to 6-1 odds (18.2% to 14.3% implied). Feasible represents marginal overlay with proven sprint-winning record and recent equipment/tactical refinement. Pace-stalking profile ideally positioned for HOT pace scenario — expects to track Cold Spell-Chatter duel from 2nd-3rd, then accelerate for final-furlong victory push.

Overlay potential: Model win 16% < ML implied 18.2% represents SLIGHT UNDERLAY, not genuine overlay. However, equipment change signal (blinders added) and trainer efficiency gains (30% +180-day rest, 2.20 Sprint ROI) provide qualitative overlay argument. Recommend inclusion only at 5-1+ odds for genuine edge.

Pick 3 / Pick 4 / Pick 5 / Pick 6 — Top 3 Selections

- **A: COLD SPELL — 33% win probability** [WIN BET SELECTION]
- **B: JUDICIOUS — 18% win probability** [OVERLAY CLOSER]
- **C: FEASIBLE — 16% win probability** [PACE STALKER]

Combined Projected Probability: 67%

SECTION 7: CONFIDENCE RATING

★★★★ (4 of 5 Stars)

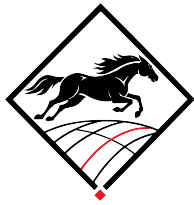

Summary: The model projects Cold Spell as the clear class standout with elite speed sustainability and gate-to-wire tactical advantage in the expected HOT pace scenario. Primary race blueprint: Cold Spell forces pace with Chatter through opening phases (:22.4 projected quarter, :45.2 half), pace deterioration in final furlong creates ideal closing setup for Judicious (elite bullet work, proven closer profile) and Feasible (tactical stalker, recent refinement). Public betting mistake centers on Judicious overlay — maiden-to-allowance transition undervalued by general public despite elite work tab and proven dirt sprint pedigree.

Pace scenario certainty HIGH — field contains only three legitimate speed horses (Cold Spell, Chatter, You're in Heaven), ensuring HOT early pace classification. Model confidence in HOT classification supported by recent past-performance data (field speeds consistent with :44.6-:45.2 half-mile range). Primary value opportunity exists in JUDICIOUS at 8-1 base odds — closing profile matches pace scenario ideally, elite work quality reinforces readiness, and trainer conversion rate supports improvement trajectory.
