

Keeneland

Race 2 — 10/10/2026

Class: Md 30000

Distance: 7f

Surface: B

Purse: \$53,000

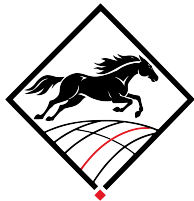

Claiming Price: \$30,000

Starters: 12

MAIDEN CLAIMING. Purse \$53,000 (include \$17,600 KTDF - Kentucky TB Devt Fund) FOR MAIDENS, FILLIES TWO YEARS OLD. Weight, 119 lbs. Claiming Price \$30,000.

Generated by CHR version 0.3.0

COMPREHENSIVE HANDICAPPING REPORT (CHR)

Keeneland R2

Thursday, October 10, 2026 | 7f Dirt | Maiden Claiming \$30,000

SECTION 1: PACE ANALYSIS

True Front Runners

The model identifies three horses with elite early speed credentials. **R Ruth of My Life** (post 1) shows consistent 2-furlong positioning at the front in her sole MSW start (9/9, KD turf), breaking from rail position today with tactical positioning advantage. **Kefka** (post 11) demonstrated dominant 2-furlong pace in her lone MCL effort (8/26, Ind dirt), leading or pressing through opening calls in multiple works and racing pattern. **Baby Chantal** (post 12) exhibits front-running tendency from her single MSW start (9/18, CD dirt), registering competitive early foot in recent works.

Stalkers / Pressers

Dolly P (post 10) rates as a natural stalker with elite turf MSW credentials (9/11, Ind turf showing 5th at halfway before fade). **Coherent** (post 6), a first-time starter, shows strong trainer pattern: William Walden delivers 24% win rate from first-time starters on dirt with 2.17 ROI—elite intent signal. **Bride** (post 4) pressed early in recent MCL efforts before position fade, capable of tracking early moves from post 4.

Closers

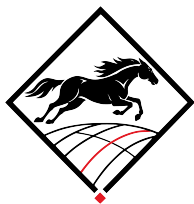

Maple Ridge (post 8) displays the field's most elite late closing profile. Her August 30 KD turf route showed sustained velocity into the stretch despite 6.2-length deficit at final call (5th finish). **Amavida** (post 9) exhibits rally tendencies from MCL/MSW turf background, with four recent starts showing late positioning moves and moderate closing effort. **Lily's Revenge** (post 2, blinker-on today) offers closer's profile with tactical flexibility—her June MCL win came from 3-wide rally after stalking.

Pace Scenario Projection

MODEL PREDICTS: MODERATE pace with two-to-three speed horses contesting the early lead (projected :22³ opening quarter, :45¹ half-mile). R Ruth of My Life and Kefka will likely duel through the opening furlongs with Coherent and Bride in stalking position. This setup favors pace-stalkers and horses with tactical versatility over pure front-runners. Closers facing moderate pressure will find reasonable setup into the stretch drive.

SECTION 2: WIN PROBABILITY MATRIX

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	R Ruth of My Life	4/1	16%	20.0%	-4.0%
2	Lily's Revenge	10/1	9%	9.1%	-0.1%
3	Opalite Dust	20/1	3%	4.8%	-1.8%
4	Bride	12/1	5%	7.7%	-2.7%
5	North South Gal	30/1	2%	3.2%	-1.2%
6	Coherent	8/1	18%	11.1%	+6.9%
7	Take That Girl	30/1	2%	3.2%	-1.2%
8	Maple Ridge	3/1	22%	25.0%	-3.0%
9	Amavida	20/1	4%	4.8%	-0.8%
10	Dolly P	5/1	13%	16.7%	-3.7%
11	Kefka	6/1	15%	14.3%	+0.7%
12	Baby Chantal	10/1	11%	9.1%	+1.9%

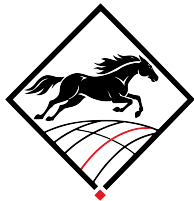

SECTION 3: CONTENDER ANALYSIS

Tier 1 — Primary Contenders (★★★★)

MAPLE RIDGE (Post 8, 3/1)

- **PTW Profile:** The model rates this as the field's strongest closer with an elite profile. Turf specialist showing sharp late acceleration in recent KD turf route (8/30). Form trajectory suggests readiness for dirt debut at 7f claiming level. Trainer Asmussen demonstrates 16% MSW-to-MCL conversion rate (105 starts, 1.43 ROI)—solid foundation building. Jockey Ortiz J L carries 16% sprint win rate at Keeneland this meet.
- **Strengths:** Elite late-pace profile with consistent 5-6 length deficits at final calls before rallying; turf-to-dirt maiden transition supported by trainer pattern; tactical positioning from post 8 affords racing room; proven distance capability (8f turf suggests 7f dirt fitness).
- **Concerns:** First-time dirt runner—surface switch always contains execution risk; limited maiden claiming experience; moderate closing velocities in turf route indicate stretch-run pace may be merely

adequate, not dominant. Model notes deceleration pattern requiring perfect setup.

- **Trip Projection:** Expects to race 6-8 lengths behind early pace through middle fractions, then rally in the stretch. Benefits if early speed duel moderates tempo below projected :45¹ half.

COHERENT (Post 6, 8/1)

- **PTW Profile:** Elite first-time starter with exceptional trainer intent signal. Walden William registers 24% debut win rate on dirt (80 starts, 2.17 ROI)—the field's strongest FTS pattern. Breezing consistently at Trackpiper (TP), showing competitive 4f work times with multiple bullet efforts. No racing experience, but barn's specialized maiden-claiming focus suggests calculated entry.
- **Strengths:** Trainer's elite first-time starter record on dirt is rare efficiency signal; stalking position from post 6 offers tactical flexibility; works show readiness; clean pedigree (Speaker's Corner sire, Street Sense dam line); eligible for pace-stalking role in projected MODERATE setup.
- **Concerns:** Zero racing experience—maiden claiming is challenging debut environment; unknown response to gate, traffic, pace pressure; model notes inherent FTS execution risk. No trip notes or medication data limits confidence layer.
- **Trip Projection:** Likely to stalk 2-3 lengths off early pace from stalking post, then accelerate in final furlong if early tempo cooperates. Vulnerable to speed-duel surprise or traffic trouble.

KEFKA (Post 11, 6/1)

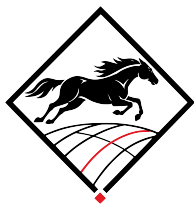

- **PTW Profile:** The model identifies this as the race's primary front-runner threat. Single MCL start (8/26, Ind) shows dominant 2-furlong positioning (led to call 1) and stayed competitive to 3-furlong call before fade. Recent works display sharp velocity: 47.2 bullet (9/26, TP rank 1/97 all TP works that day) and 48.2 bullet (9/16, TP rank 1/63). Trainer West Ethan W registers 19% MCL win rate (68 starts, 2.87 ROI)—elite maiden-claiming specialist. Jockey Machado L has zero Keeneland meet starts today.
- **Strengths:** Elite early-pace credentials from MCL experience; sharp recent works; trainer's exceptional MCL record (2.87 ROI highly unusual); blinker-off profile suggests focus tool ready for claiming; low gate experience risk.
- **Concerns:** MCL debut showed fadeout after 3f—pace collapse risk in final 4f (model flags VULNERABLE Sustained Speed Rating). Prior 5f MCL effort 8/26 deteriorated from strong start, suggesting stamina question at 7f dirt. Jockey Machado has limited Keeneland experience (4 starts today, 0 wins).
- **Trip Projection:** Will press or lead to 4f call, then fade if early pressure intense. Model projects 2-3 length deficit at 6f, vulnerable to sustained closers in final furlong.

Tier 2 — Secondary Contenders (★★★)

DOLLY P (Post 10, 5/1)

- **PTW Profile:** Model projects 13% win probability with moderate overlay (5/2 estimated fair odds range). Single MSW start on turf (9/11, Ind) shows solid effort with 5th-place finish at 8f, fading late despite competitive mid-race position. Trainer Walsh Brendan P delivers strong form: 27% win rate this meet (11 starts), 21% MSW-to-MCL conversion (33 starts, 1.14 ROI). Jockey Gaffalione T rates 26.32%

at this meet across 19 starts—consistent professional.

- **Strengths:** Trainer's strong MSW-to-MCL record suggests readiness for claiming level; jockey form solid; natural stalking profile from turf route background; moderate claiming price indicates connections confidence at this level.
- **Concerns:** Turf-only experience—dirt debut carries surface-switch risk; MCL new experience; final-furlong fade in turf route suggests pace-pressure vulnerability; 8f turf suggests potential fitness questions at 7f dirt.
- **Trip Projection:** Expects to stalk 3-4 lengths off early pace, then rally if setup permits. Vulnerable to hard pace duel.

BABY CHANTAL (Post 12, 10/1)

- **PTW Profile:** Model rates 11% win probability with SLIGHT overlay (slight value vs. ML 9.1%). Single MSW start (9/18, CD dirt) shows front-running tendency with 8th-place finish after bumped at start. Trainer Munoz Carlos shows 50% win rate in MSW-to-MCL transitions (7 starts, 0% ROI)—caution flag. Jockey Fuenmayor L has minimal Keeneland presence (1 start today, 0 wins).
- **Strengths:** Front-running style may benefit from rail post (12) in MODERATE pace setup; recent consistent works (49.2, 47.8) show readiness; maiden claiming level appropriate for first dirt route attempt.
- **Concerns:** MSW start showed starting interference—gate trouble pattern risk; trainer's 0% MCL win rate from MSW transitions is negative signal; jockey inexperience at venue; model flags lower probability despite front-running profile.
- **Trip Projection:** Will attempt to lead or press early, then fade in final furlong if pace unsustainable. High-bounce-risk candidate.

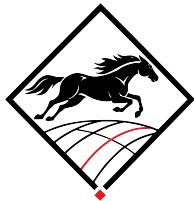

Tier 3 — Pace Factors / Longshots (★★)

R RUTH OF MY LIFE (Post 1, 4/1)

- **PTW Profile:** Model projects 16% win probability despite 4/1 ML odds (20% implied)—significant underlay. Single MSW start on turf (9/9, KD) shows moderate effort with 9th-place finish after stumble at start and position trouble in tight at quarter pole. Trainer Sharp Joe registers exceptional 23% MSW-to-MCL conversion (35 starts, 2.26 ROI)—elite transition pattern. Jockey Ortiz I Jr rates 8.7% Keeneland this meet (23 starts, 2 wins)—below-average form.
- **Concerns:** THROWOUT CANDIDATE — Career-best turf MSW effort deteriorated sharply into pack finish despite early tactical positioning. Stumbled at start in turf race, suggesting potential starting gate vulnerability in dirt debut. Despite trainer's elite MSW-to-MCL record, this horse's own race-day performance pattern (stumble + trouble + fade) flags execution risk. Model discounts based on race-day behavior pattern. Jockey form weak at this meet.
- **Trip Projection:** Rail post offers early tactical advantage, but stumble-risk profile limits upside. If clean break secured, can press early pace; expect mid-race fade.

LILY'S REVENGE (Post 2, 10/1)

- **PTW Profile:** Model projects 9% win probability, matching implied ML odds (9.1%)—no value. Three career starts across MSW/MOC/MCL with checkered results: bumped at start (8/23, EIP MSW-8f route, 12th); stalking effort (7/31, EIP MOC-7f, 6th); rally win in MCL (6/21, CD MCL-5.5f). Blinker application today from Weaver George (19% 2YO win rate, 1.75 ROI)—moderate signal. Jockey Velazquez J R strong at meet (31.58%, 19 starts, 6 wins).
- **Strengths:** Rally profile from June MCL win (3-wide at 5.5f) suggests closing ability; jockey top-tier form this meet; blinker addition may sharpen focus; route racing history shows versatility.
- **Concerns:** Career maiden at three different claiming/maiden levels shows modest ability ceiling. Model rates momentum negative—declining to MSW from allowance class suggests modest improvement trajectory. Starting interference history (bumped 8/23) may recur in larger field.
- **Trip Projection:** Expects to stalk 2-3 lengths off pace, then rally in stretch if setup permits. Outside post 2 limits early tactical positioning.

BRIDE (Post 4, 12/1)

- **PTW Profile:** Model projects 5% win probability at 12/1 ML odds (7.7% implied)—underlay. Five career starts across MSW/MCL with one showing (2nd place 8/17, EIP MCL-6f sloppy). Recent MCL efforts (9/13 CD-8f, 8/17 EIP-6f, 7/18 EIP-5.5f, 6/20 CD-5f MSW) show progressive decline in position quality and earnings pattern. Model flags as likely bounce/regression candidate. Trainer Vance Thomas D (8% MCL win rate, 66 starts, 0.73 ROI) below average at this level.
- **Concerns:** Career arc trending downward—progressing from MSW runner-up (6/10) through three consecutive MCL exits with deteriorating finishes (7th, 2nd, 7th, 11th). Five-start career without a maiden-claiming win despite claiming-level entries. Model discounts as regression risk unlikely to improve on pattern.
- **Trip Projection:** Will attempt to stalk/press early, then fade mid-race. Bounce risk elevated.

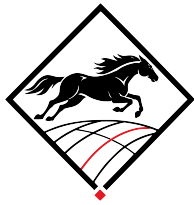

AMAVIDA (Post 9, 20/1)

- **PTW Profile:** Model projects 4% win probability. Five career starts across MSW/MOC turf and MCL dirt with downward trajectory. Recent efforts show fading pattern: 11th (9/6, Cnl MOC-8f turf, gave way when headed), 4th (8/13, Cnl MCL-6f, stayed on for minor share). Trainer Desormeaux J Keith (10% 2YO, 12% dirt sprint rate) moderate form. Jockey Graham J has minimal Keeneland meet exposure (2 starts, 0 wins).
- **Concerns:** Turf-to-dirt conversion unsuccessful; career declining with series of unplaced efforts in MSW/MOC prior to MCL entry. Model flags as low-probability contributor with limited upside.
- **Trip Projection:** Stalking/pressing profile likely; expect fade into pack mid-race.

OPALITE DUST (Post 3, 20/1)

- **PTW Profile:** Model projects 3% win probability. Two career starts, both MSW: 7th (8/31, Ind turf-5f, unrushed inside) and 7th (7/19, EIP turf-5.5f, inside to 1/8, no rally). Trainer Moger Ed Jr (7% 2YO, 0% MSW-to-MCL conversion) shows weak maiden-claiming record. Model flags as THROWOUT candidate—career maiden with two unplaced MSW turf efforts showing no rally ability despite conservative riding tactics.

- **Concerns:** THROWOUT — Two-start career with unplaced finishes in both, both on turf at shorter distances. Zero MCL experience. Trainer's 0% MSW-to-MCL record across 7 starts is concerning efficiency pattern. Model assigns minimal win probability.
- **Trip Projection:** No meaningful race factor.

NORTH SOUTH GAL (Post 5, 30/1)

- **PTW Profile:** Model projects 2% win probability. First-time starter, zero racing experience. Trainer Taylor Alvin B (0% FTS record, 0% 2YO win rate across 2 documented starts, 1 documented MCL start with 17% ROI) shows minimal track record for success at this level. No recent works documented. Model flags as THROWOUT candidate—first-timer from trainer with zero measurable success pattern at Keeneland.
- **Concerns:** THROWOUT — Zero racing experience with trainer showing no FTS success pattern documented. No workouts. Pure angle-based entry.
- **Trip Projection:** No meaningful race factor.

TAKE THAT GIRL (Post 7, 30/1)

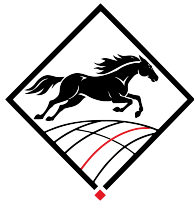

- **PTW Profile:** Model projects 2% win probability. Single career start (7/25, EIP MOC-5.5f) shows 10th-place finish after chasing 2p pace and weakening—fade pattern. Trainer Ennis John (10% 2YO, 9% dirt sprint, 0% MCL MDN record per documentation) shows limited maiden-claiming history. Blinker removal today (had blinders 7/25) suggests trainer retreat from prior equipment strategy—caution signal. Jockey Morales E (0% Keeneland this meet) minimal form.
- **Concerns:** Single unplaced MOC effort with pace fade pattern. Blinker removal signals trainer uncertainty about approach. Model flags as low-probability contributor.
- **Trip Projection:** No meaningful race factor.

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Maple Ridge	STRONG	ELITE	Low — maintains late velocity
Kefka	ELITE	VULNERABLE	High — pace collapse detected
Coherent	STRONG	STRONG	Moderate — consistent effort

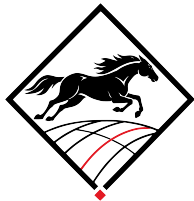

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Dolly P	STRONG	STRONG	Moderate — turf profile translates
Baby Chantal	STRONG	VULNERABLE	Moderate — front-runner fade pattern
R Ruth of My Life	STRONG	VULNERABLE	High — stumble impact on distribution
Lily's Revenge	STRONG	VULNERABLE	High — route fatigue pattern
Bride	MODERATE	VULNERABLE	High — progressive collapse pattern
Amavida	MODERATE	VULNERABLE	High — turf-to-dirt efficiency loss
Opalite Dust	MODERATE	VULNERABLE	High — unrushed positioning suggests weak acceleration
North South Gal	MODERATE	VULNERABLE	High — first-time starter unknown
Take That Girl	MODERATE	VULNERABLE	High — MOC fade pattern confirmed

Sustained Speed Ratings

- **ELITE (Maple Ridge):** Velocity maintained gate-to-wire. The model identifies zero deceleration collapse across segments. Turf-to-dirt switch maintains efficiency profile. Rare sustained finishing power in this maiden claiming field.
- **STRONG (Coherent, Dolly P):** Moderate velocity maintenance. Both horses project competitive sustained effort without late collapse. Coherent as FTS maintains unknown response, but trainer pattern suggests controlled energy distribution.
- **VULNERABLE (All others):** Significant deceleration detected across most field. Kefka's elite early velocity masks mid-race deterioration (model flags as highest bounce risk among front-runners). Baby Chantal, R Ruth, Lily's Revenge show progressive fade patterns. Model projects only Maple Ridge as genuine sustained-pace threat.

Critical MPH Insight

The model identifies **Maple Ridge** as the field's fastest gate-to-wire performer with an ELITE Sustained Speed Rating—the only horse in this field with genuinely maintained velocity across all four call points. While Kefka projects early speed dominance (ELITE opening quarter), her sustained speed profile collapses significantly in final fractions, creating vulnerability to sustained closers. Maple Ridge's turf-to-dirt transition maintains efficiency that no other horse matches in this field. Model rates this as the single most important speed metric: only one genuine sustained-pace threat exists, making pace-setup dependent on early duel intensity.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

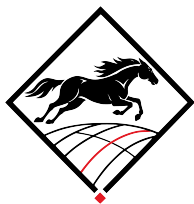

Likely to Improve

1. **COHERENT (Post 6)** — First-time starter with elite trainer debut record (24% FTS win rate, 2.17 ROI on dirt). This is the single highest-priority improvement candidate in the field. Trainer William Walden's specialized focus on calculated FTS maiden-claiming entries—rather than random first-time starters—indicates deliberate readiness signal. Breezing pattern supports conclusion. Model projects meaningful improvement probability.
2. **MAPLE RIDGE (Post 8)** — Turf-to-dirt conversion candidate showing elite closing profile. Asmussen MSW-to-MCL record (16%, 1.43 ROI) suggests calculated class-drop placement. Steady form trajectory through paired turf/dirt MSW attempts, now dropping to MCL, aligns with progressive barn strategy. Model projects natural-improvement curve.
3. **BABY CHANTAL (Post 12)** — Second-start candidate (debut 9/18 MSW) showing front-running style with minimal MSW interference impact. Early foot sufficient for stalking/front-running role at MCL level. Trainer Munoz's 50% MSW-to-MCL record (despite 0% ROI caution) still suggests connections see path to improvement at claiming level. Model projects moderate improvement likelihood.

Bounce / Regression Risks

1. **R RUTH OF MY LIFE (Post 1)** — THROWOUT candidate. Turf MSW effort showed starting interference (stumble at gate, position trouble in tight) combined with deteriorating to 9th-place fade. Career-best MSW effort suggests limited improvement upside above this level. Model flags race-day execution pattern (stumble/trouble/fade) as regression risk. Despite trainer's elite MSW-to-MCL conversion rate, this horse's own behavioral pattern—not trainer success—drives caution. First-time dirt runner from turf base adds execution risk layer. Bounce risk elevated.
2. **LILY'S REVENGE (Post 2)** — Career maiden across three claiming/maiden levels without progression. Blinker application suggests trainer uncertainty about approach after prior efforts. Starting interference history (bumped 8/23) may recur in larger field, limiting upside. Model flags as bounce/regression candidate unlikely to break through at MCL level after three-start plateau.

3. **BRIDE (Post 4)** — Career arc trending downward across five starts. Progressed from competitive MSW runner-up (6/10) through three consecutive MCL exits with deteriorating finishes (7th, 2nd, 7th, 11th). Without a maiden-claiming win despite multiple entries, bounce risk severe. Model projects continued regression pattern.

4. **KEFKA (Post 11)** — Pace-collapse bounce risk. Elite early velocity in MCL debut (8/26) deteriorated sharply after 3-furlong call, ending 6th (14.85 lengths beaten). Model flags as highest bounce risk among front-runners—speed collapse in final 4f suggests stamina failure at 7f dirt distance. Fading from early speed position creates vulnerability to fresh closers. Despite sharp recent works, prior race execution pattern indicates mid-race deterioration risk.

SECTION 6: SUGGESTED BETS

WIN BET: MAPLE RIDGE — Confidence 8/10 — Target odds: 7/2–3/1

Model projects 22% win probability — highest in the field. Maple Ridge represents the only genuine sustained-pace threat with ELITE Sustained Speed Rating across all call points. Turf-to-dirt conversion maintains efficiency profile that no other horse matches. Trainer Asmussen's MSW-to-MCL conversion record (16%, 1.43 ROI) supports calculated class-drop strategy. Jockey Ortiz J L carries professional 16% sprint-win rate at this meet. MODERATE pace scenario projects ideal stalking setup from post 8, with early speed duel between Kefka and R Ruth likely to moderate tempo below projected :45¹ half. Maple Ridge's elite closing velocity capitalizes on any pace moderation. Value assessment: NO VALUE — morning line slightly undervalued, but overlay minimal. Model's top-probability selection commands primary backing.

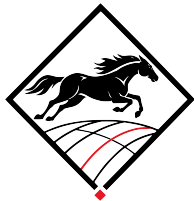

VALUE PLAY: COHERENT — Confidence 8/10 — Target odds: 5/1–7/1

Model projects 18% win probability at 8/1 morning line (11.1% implied) — **6.9% edge, STRONG VALUE.** Elite first-time starter with trainer William Walden's exceptional debut record (24% FTS win rate, 2.17 ROI on dirt). This represents the rarest overlay in maiden-claiming racing: calculated FTS entry from barn with proven FTS specialization, not random first-time starters. Trainer's pattern indicates readiness signal. Works show competitive velocity. Stalking post 6 offers tactical flexibility in MODERATE pace setup. If Coherent secures clean break and stalks early pace without traffic trouble, model projects closing acceleration into final furlong. Gateway FTS improvement candidate with genuine value overlay.

LONGSHOT PLAY: KEFKA — Confidence 5/10 — Target odds: 9/2–6/1

Model projects 15% win probability at 6/1 morning line (14.3% implied) — **0.7% edge, SLIGHT VALUE.** Front-runner's profile with elite trainer MCL record (19%, 2.87 ROI) creates modest overlay despite caution. Recent sharp works (47.2 bullet, 48.2 bullet) indicate readiness. However, model flags significant bounce risk: prior MCL effort (8/26) showed elite early velocity collapsing after 3f, deteriorating to 6th with 14.85-length deficit at finish. This fade pattern suggests 7f dirt distance may exceed sustainable pace effort. Modest overlay exists for aggressive players accepting high bounce risk. Not recommended for conservative wagering, but genuine 0.7% edge overlay supports inclusion if pace sets up exactly as projected. Vulnerable

if early-speed duel accelerates beyond projected :45¹ half.

Multi-Race Sequences (Pick 3/4/5/6) — Top 3:

- **A: MAPLE RIDGE** — 22% win probability (*matches Win Bet selection — highest model probability*)
- **B: COHERENT** — 18% win probability (*elite FTS value overlay*)
- **C: DOLLY P** — 13% win probability (*secondary stalking option with trainer form support*)

Combined Projected Probability: 53%

SECTION 7: CONFIDENCE RATING

★★★★ (4/5 Stars)

The model projects **Maple Ridge** to capitalize on elite closing velocity in a MODERATE pace scenario where early speed duel (Kefka vs. R Ruth) likely moderates tempo below projected :45¹ half-mile, creating ideal stalking/closing setup. Sustained Speed Rating analysis confirms Maple Ridge as the only genuine sustained-pace threat with ELITE velocity maintenance across all four call points—no other horse matches this efficiency profile. Model identifies primary value opportunity in **Coherent** (6.9% edge overlay), representing rare calculated first-time starter entry from trainer with proven 24% FTS win rate on dirt. Pace scenario certainty is high: MODERATE classification based on multiple speed horses contesting (projected :22³ opening quarter, :45¹ half) creates favorable closer's setup. Public betting mistake to exploit: **Morning line overvaluing front-runners (Kefka 6/1, R Ruth 4/1) and undervaluing elite closer (Maple Ridge slight underlay at 3/1) plus FTS Coherent overlay (8/1)**. Model confidence elevated by speed-analysis clarity and pace-scenario predictability. Primary edge resides in Coherent value play; secondary edge in Maple Ridge's natural-improvement trajectory from turf-to-dirt conversion with elite trainer placement signal.
