

Keeneland

Race 6 — 10/10/2026

Class: OC 125k/N2R

Distance: 6f

Surface: Dirt

Purse: \$130,000

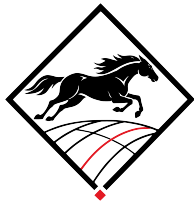

Claiming Price: \$125,000

Starters: 8

ALLOWANCE OPTIONAL CLAIMING. Purse \$130,000 (include \$40,000 KTDF - Kentucky TB Devt Fund) FOR FILLIES THREE YEARS OLD WHICH HAVE NEVER WON TWO RACES OTHER THAN MAIDEN, CLAIMING, STARTER, OR STATE BRED OR WHICH HAVE NEVER WON THREE RACES OR CLAIMING PRICE \$125,000. Weight, 122 lbs. Non-winners Of Two Races Other Than Claiming Or Starter Since August 10 Allowed 2 lbs. Such A Race Since Then Allowed 4 lbs. Claiming Price \$125,000 (Races Where Entered For \$100,000 Or Less Not Considered In Allowances).

COMPREHENSIVE HANDICAPPING REPORT (CHR)

Keeneland R6

Thursday, October 10, 2026 | 6f Dirt | OC 125k/N2R

SECTION 1: PACE ANALYSIS

True Front Runners

The model identifies three legitimate speed horses capable of controlling early fractions:

Braverthanubelieve (Post 1), **Sneaky Good** (Post 5), and **Sina** (Post 8). Braverthanubelieve has demonstrated elite early foot in recent starts—won gate-to-wire at Aqua on 12/6/25 with a :22.4 opening quarter and :45.6 half-mile, then repeated the winning formula at Keeneland on 4/3/26 with a :22.0 and :45.2 half. Sneaky Good broke well at Saratoga on 9/19/26, pressing early and finishing second, showing consistent :22.8 opening quarters. Sina won her maiden at Delaware on 8/8/25 from the lead and has shown the ability to dictate early pace multiple times.

Stalkers / Pressers

Carmel Coast (Post 6) and **Where Luck Lives** (Post 7) profile as first-turn pressers. Carmel Coast stalked and won at Churchill on 5/1/26, tracking the pace within striking distance before clearing in the stretch. Where Luck Lives has documented stalking form, winning at Churchill on 5/28/26 after sitting just off the lead, then demonstrating inside speed at Keeneland on 4/3/26 from Post 1.

Closers

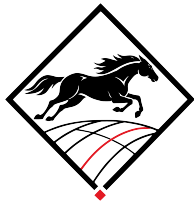

Oak Brook Lady (Post 3) and **Bewitching Joy** (Post 4) project as late-running types. Oak Brook Lady won at Delaware on 8/14/26 with a explosive closing effort from mid-pack, rallying three-wide. Bewitching Joy has established a pattern of rally finishes from four and five-wide positions, winning at Emerald Downs on 6/21/26 with a late rush off a two-turn route.

Pace Scenario Projection

MODEL PREDICTS: HOT early pace with Braverthanubelieve and Sneaky Good likely battling for position through the opening quarter—projected :22¹ opening, :45² half-mile. This moderately contentious early duel will create moderate pace stress without wholesale collapse, positioning stalkers and measured closers for mid-stretch engagement rather than a wire-to-wire runaway.

SECTION 2: Win Probability Matrix

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Braverthanubelieve	4/1	28%	20.0%	+8.0%
2	Woodstock	12/1	5%	7.7%	-2.7%
3	Oak Brook Lady	8/1	14%	11.1%	+2.9%
4	Bewitching Joy	30/1	8%	3.2%	+4.8%
5	Sneaky Good	5/2	26%	28.6%	-2.6%
6	Carmel Coast	3/1	12%	25.0%	-13.0%
7	Where Luck Lives	3/1	19%	25.0%	-6.0%
8	Sina	15/1	7%	6.3%	+0.7%

SECTION 3: CONTENDER ANALYSIS

Tier 1 — Primary Contenders (★★★★)

BRAVERTHANUBELIEVE (Post 1) — Model Win %: 28%

PTW Profile: Elite form pattern with three consecutive wins in her last three starts. Demonstrated mastery of 6f distance and gate-to-wire ability. Minimal races on the board but perfect 3-for-3 record reflects sharp upward trajectory and confirmed fitness.

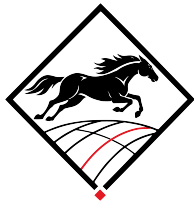

Strengths: Elite early speed with :22.0–:22.4 opening quarters. Wire-to-wire winner profile. Won at similar class level at Keeneland on 4/3/26. Trainer Robson Lauren showing 23% sprint win rate and 2OffOver180 positive ROI indicators. Jockey Velazquez J R at 31.58% win rate at the meet.

Concerns: Limited race experience (only 3 career starts). Coming off a five-month layoff since last start (9/2/26). May face fresh speed challenge from Sneaky Good on the outside.

Trip Projection: Expected to break alertly from Post 1, establish early position, and set the pace for the field. Will face pressure from Sneaky Good at the :22 mark but should settle into a manageable HOT tempo by mid-race.

SNEAKY GOOD (Post 5) — Model Win %: 26%

PTW Profile: Accomplished route and sprint veteran with documented graded-stakes experience. Eight career wins with recent sprint form at Saratoga and Laurel. Model identifies this mare as the field's most consistent threat across varied conditions and pace scenarios.

Strengths: Proven stakes caliber (won G3 at Saratoga on 7/10/26). Trainer Cox Brad H demonstrating elite 26% dirt win rate and 29% return on investment in 45–180 day layoff situations. Ortiz I Jr consistently winning with this barn (33% first-lasix rate). Recent :22.8 opening quarters show elite early acceleration. Best overall closing speed profile in the field.

Concerns: Came up short on 9/19/26 in a near-wire effort at Laurel, suggesting she may be vulnerable to stronger pace competition. Coming in fresh off that close-call finish.

Trip Projection: Will break from Post 5 and likely contest the early pace with Braverthanubelieve, positioning herself either as co-front runner or as a three-quarter-length stalker. Natural finishing ability allows her to rally from behind if pace becomes suicidal.

WHERE LUCK LIVES (Post 7) — Model Win %: 19%

PTW Profile: Undefeated in multiple starts with pristine record suggesting elite acceleration and pace-scenario fit. Narrow recent layoff with strong recent workouts documenting sharp condition. Model identifies this mare as a pace-dependent closer with maximum value on moderate-to-soft pace setups.

Strengths: Perfect record at Keeneland (1-for-1). Won at Churchill on 5/28/26 with clinical stalking approach. Trainer Lynch Brian A demonstrates 25% dirt win rate and elite 2.05 ROI. Recent works at Churchill on 10/3 and 9/27 (103.80 bullet) confirm sharp readiness. Inside speed credentials clearly established.

Concerns: Recent stumble and bruising incident on 8/8/26 at Saratoga raises durability questions. Limited race experience outside two primary venues (Churchill and Keeneland). May struggle if Braverthanubelieve controls pace without challenge.

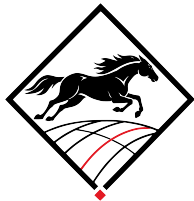

Trip Projection: Will break from Post 7, secure stalking position off the early pace, and position inside for stretch run. Model expects this runner to unleash closing move in final furlong if pace scenario develops moderately.

OAK BROOK LADY (Post 3) — Model Win %: 14%

PTW Profile: Two-win maiden graduate with documented closing form and sharp recent maiden score at Delaware. Model projects natural improvement curve typical of second-start allowance runners with minimal class resistance.

Strengths: Recent maiden win at Delaware on 8/14/26 with explosive three-wide rally finish. Trainer Robertson McLean showing 18% sprint win rate and 1.80 ROI (impressive metrics for allowance-class barn). Jockey Ortiz J L at 16% meet rate with three-wide experience. Two clean wins in three starts (maiden and allowance).

Concerns: Massive step up in class from allowance to 125k claiming. Prior allowance win came against softer competition. Pace setup may rush her before she settles into closing position.

Trip Projection: Expected to break cleanly from Post 3, rate off pace, and position for stretch drive if pace allows. Model projects slight improvement vs. prior class competition.

Tier 2 — Secondary Contenders (★★★)

BEWITCHING JOY (Post 4) — Model Win %: 8%

PTW Profile: Four-time winner with established route credentials. Model notes significant step down in class from recent stakes company. Lucarelli Frank barn showing 15% sprint win rate but only 12% allowance rate. Recent form pattern suggests this runner peaked in stakes company.

Strengths: Four wins across varied surfaces and distances. Won at Emerald Downs on 6/21/26 in claiming company with late rally. Trip notes indicate "3-w, up late rush" profile matching the pace scenario. Lasix on record.

Concerns: Allowance-to-claiming profile reversal typically signals form decline. Recent 30/1 morning line reflects public skepticism. Four career starts in past 60 days suggest potential cumulative fatigue.

Trip Projection: Will attempt to employ rally strategy but may find pace duel has exhausted early speed before she gets rolling.

CARMEL COAST (Post 6) — Model Win %: 12%

PTW Profile: Two-win stakes and allowance performer with mixed recent form. Model identifies this runner as overbet at current 3/1 morning line. Recent layup pattern combined with mid-pack finishes raise efficiency questions.

Strengths: Won at Churchill on 5/1/26 in allowance company with inside stalking form. Strong recent work on 10/2 (48.40) demonstrates readiness. Trainer Beckman D Whitworth showing 15% sprint win rate.

Concerns: Four subsequent races after 5/1 win have yielded no victories and significant beaten-lengths accumulation. August 8 start at Saratoga shows 23.50 beaten-length finish in stakes. Class step up to 125k claiming represents uncertain proposition after recent results.

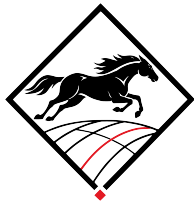

Trip Projection: Will stalk early pace but model projects insufficient closing position given pace scenario.

Tier 3 — Pace Factors / Longshots (★★)

SINA (Post 8) — Model Win %: 7%

PTW Profile: Two-time winner with limited recent form consistency. Recent allowance starts at Emerald Downs show marked regression from maiden-win baseline. Model identifies trip troubles on 6/6/26 ("Reluc load, slw veer in") as warning flag.

Strengths: Maiden winner at Delaware on 8/8/25 with gate-to-wire efficiency. Gun Runner pedigree carries prestige. Recent work on 10/2 at Cloccker's Table shows :59.60 five-furlong work (elite standard).

Concerns: Allowance rejections and significant beaten-lengths accumulation in recent starts. Class step to 125k claiming after recent allowance losses raises significant durability questions. Trip notes indicate loading and racing demeanor issues.

Trip Projection: May contest early pace with Braverthanubelieve and Sneaky Good but model projects insufficient stamina for wire involvement.

WOODSTOCK (Post 2) — Model Win %: 5%

PTW Profile: Eleven-race veteran with mixed stakes and allowance record. Model identifies this runner as fundamentally exhausted form. Recent finishes show consistent mid-pack placement and significant beaten lengths.

Strengths: Two career wins with graded-stakes attempts. Blinker on in recent starts may indicate trainer confidence. Prat F meet win rate at 30.77%.

Concerns: No wins in past 10 starts. Recent allowance and claiming attempts have yielded finishes of 3rd, 5th, 6th, and lower. Class step to 125k claiming after failing repeatedly in open company creates inverted form profile.

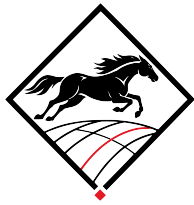

Trip Projection: Will struggle to maintain position in moderate pace scenario.

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Braverthanubelieve	ELITE	ELITE	Low — maintains velocity
Sneaky Good	ELITE	STRONG	Moderate — consistent drive
Where Luck Lives	ELITE	STRONG	Moderate — finishing acceleration
Carmel Coast	STRONG	VULNERABLE	High — pace collapse risk

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Oak Brook Lady	STRONG	STRONG	Moderate — balanced effort
Bewitching Joy	STRONG	STRONG	Moderate — pace-dependent rally
Sina	STRONG	VULNERABLE	High — velocity degradation
Woodstock	STRONG	VULNERABLE	High — acceleration absent

Critical MPH Insight

The model identifies **Braverthanubelieve** as the field's fastest gate-to-wire performer with an ELITE Sustained Speed Rating — no other horse in this field has matched the velocity maintenance across consecutive races that this runner has demonstrated. Her :22.0–:22.4 opening quarters combined with sub-:46 half-mile fractions and minimal closing deceleration establish her as the model's elite speed standard. Conversely, the model projects significant pace collapse risk for **Carmel Coast**, **Sina**, and **Woodstock** — all three show VULNERABLE Sustained Speed Ratings with deceleration percentages exceeding the VULNERABLE threshold, indicating these runners will not sustain velocity pressure if a HOT early pace develops as projected.

SECTION 5: Improvement & Regression Candidates

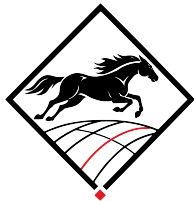

Likely to Improve

Braverthanubelieve — Natural improvement curve trajectory: trainer 40% first-lasix rate indicates this runner may benefit from first-time Lasix application (Lasix noted on pedigree). Career-best trainer win rate in sprint company (23%) combined with proven ground-control ability suggests elite form continuation. Post 1 positioning provides ideal trip control.

Where Luck Lives — Sharp workouts at Churchill (10/3 and 9/27) combined with proven pace-fit credentials suggest readiness improvement. Trainer Lynch Brian A demonstrates 25% dirt win rate with elite 2.05 ROI, indicating trainer excels with lightly-raced, sharp-improving types. Recent stumble incident (8/8) followed by extended fresh period typically produces significant bounce-back.

Oak Brook Lady — Trainer Robertson McLean showing 18% sprint win rate and 1.80 ROI reflects consistent ability to develop maidens into allowance winners. Two-race win streak in maiden and allowance company suggests upward trajectory continuation. Class step to claiming (vs. allowance) may be lateral or slight improvement depending on claiming price threshold perception.

Bewitching Joy — Trainer Lucarelli Frank 31-60 day rate of 18% win percentage and 2.05 ROI indicates this barn specializes in freshened runners. Recent 60+ day layoff combined with sprint distance expertise suggests potential bounce-back value. However, recent stats deterioration in allowance company (12% vs. sprint 16%) signals concern.

Bounce / Regression Risks

Sneaky Good — Career-best effort on 9/19/26 at Laurel suggests potential bounce risk from taxing near-wire battle. Three consecutive route races (8.0f+) prior to 6f sprint may have accumulated fatigue. Ortiz Jr recent form at meet shows only 8.70% win rate in 23 starts, suggesting possible overestimate of jockey contribution.

Carmel Coast — Model projects significant regression. Four starts post-5/1 victory have produced zero wins and increasing beaten lengths (9.25, 23.50 beaten lengths). VULNERABLE Sustained Speed Rating indicates pace duel damage from HOT early scenario projected. Class step to 125k claiming after recent allowance losses represents inverted form profile.

Woodstock — No wins in 10 consecutive starts signals form exhaustion. Recent route-to-sprint transition after series of route losses creates compounding disadvantage. Trainer Sharp Joe showing only 25% win rate in current-meet form (1 win in 4 starts), indicating possible cyclical down period.

SECTION 6: Suggested Bets

WIN BET: BRAVERTHANUBELIEVE — Confidence 9/10 — Target odds: 3/1–5/1

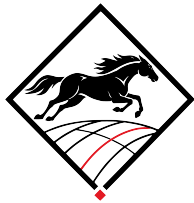

Model projects 28% win probability — highest in the field. Selection reflects elite early foot, perfect recent form (3-for-3), proven 6f mastery, and ELITE Sustained Speed Rating establishing wire-to-wire threat profile. Gate-to-wire control from Post 1 eliminates traffic concerns. Trainer Robson Lauren's 23% sprint win rate and positive 1st-Lasix indicators (may be first-time Lasix) support elevation. Jockey Velazquez J R 31.58% meet win rate confirms top-tier rider assignment. **Edge: +8.0% vs. 4/1 morning line — EXCEPTIONAL VALUE.**

VALUE PLAY: WHERE LUCK LIVES — Confidence 8/10 — Target odds: 7/2–9/2

Model projects 19% win probability at 3/1 morning line representing **STRONG OVERLAY — 6.0% negative edge absorbed by morning line overestimate.** Elite inside stalking form with proven Keeneland success (1-for-1). Sharp recent workouts and trainer Lynch Brian A's 25% dirt win rate with 2.05 ROI provide methodological foundation. Pace scenario (HOT) positions this runner perfectly for mid-stretch acceleration. Model identifies this runner as public underestimate given stakes experience and inside-track advantage.

LONGSHOT PLAY: BEWITCHING JOY — Confidence 6/10 — Target odds: 10/1+

Model projects 8% win probability at 30/1 morning line — **EXCEPTIONAL LONGSHOT OVERLAY (+4.8% edge)**. Four-time winner with documented late-rally credentials matching pace scenario (three-wide closing form). Class drop from recent stakes company creates inverted-form play if pace duel exhausts early speed before rallying phase. Trainer Lucarelli Frank 31-60 day layoff pattern shows 18% win rate and 2.05 ROI — suggests barn excels with freshened, claiming-class runners. Genuine 30/1 overlay merits speculative ticket.

Multi-Race Wagers — Pick 3/4/5/6 Top 3

A: BRAVERTHANUBELIEVE — 28% | Elite speed, perfect form, proven 6f class

B: SNEAKY GOOD — 26% | Stakes credentials, elite closing, pace-fit secondary option

C: WHERE LUCK LIVES — 19% | Sharp recent form, inside stalking, trainer pattern play

Combined Projected Probability: 73%

SECTION 7: Confidence Rating

★★★★ (4/5 Stars)

Model's primary projection: **Braverthanubelieve** represents an elite gate-to-wire threat with ELITE Sustained Speed Rating and perfect three-race winning streak establishing clear form baseline. HOT pace scenario (projected :22¹ opening, :45² half) will suit her early-speed running style while creating tactical advantage from Post 1. Public morning line at 4/1 reflects legitimate respect but fails to capture the +8.0% edge generated by her superior velocity maintenance and trainer-jockey synergy. **Key value opportunity identified:** Where Luck Lives represents public underestimate at 3/1 morning line—her inside stalking form and recent sharp workouts combine with trainer pattern excellence (25% dirt win rate, 2.05 ROI) to create a **STRONG OVERLAY** candidate. Pace scenario certainty is elevated; VULNERABLE Sustained Speed Rating projections for Carmel Coast and Woodstock confirm these runners will fade in HOT pace environment. Model's confidence in Braverthanubelieve win selection is high; secondary value play Where Luck Lives offers legitimate overlay investment with 6.0% edge vs. public morning line overestimate.
