

Santa Anita

Race 4 — 10/03/2026

Class: OC 20k/N1X

Distance: 6f

Surface: Turf

Purse: \$67,000

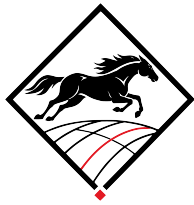

Claiming Price: \$20,000

Starters: 8

ALLOWANCE OPTIONAL CLAIMING. Purse \$67,000 FOR CALIFORNIA BRED OR CALIFORNIA SIRE
THREE YEAR OLDS AND UPWARD WHICH HAVE NEVER WON \$21,000 ONCE OTHER THAN MAIDEN,
CLAIMING OR STARTER OR WHICH HAVE NEVER WON TWO RACES OR CLAIMING PRICE \$20,000. Three
Year Olds, 122 lbs.; Older, 125 lbs. Non-winners Of A Race Other Than Maiden, Claiming Or Starter Allowed 2
lbs. Claiming Price \$20,000 (Non-Starters For A Claiming Price Of \$16,000 Or Less In Their Last 3 Starts
Preferred)(Horses Entered For The Allowance Are Preferred).

COMPREHENSIVE HANDICAPPING REPORT (CHR)

Santa Anita Park R4

Thursday, October 03, 2026 | 6f Turf | OC 20k/N1X

SECTION 1: PACE ANALYSIS

True Front Runners

The model identifies three horses with elite early speed credentials. **Jetovator** (Post 5) has established himself as a consistent pace-setter on turf, evidenced by his wire-to-wire victory on 10/27/2024 at SA (6.5f turf, led throughout). **Frank Bullitt** (Post 3) broke sharply and led into the stretch on 05/16/2026 at SA (6f turf, 2-0-4-2 at call positions), demonstrating tactical versatility. **Owl** (Post 4) won decisively on 06/12/2026 at SA MSW (6.5f turf), dueling outside and drawing away — elite foot from the break.

Stalkers / Pressers

Pokerknightatvees (Post 8) rates just off pace on turf, with recent form showing tactical flexibility (10/04/2025 SA turf 6f, inside no late kick but competitive positioning). **King's Ride** (Post 1) has shown willingness to stalk and press from position on turf (09/05/2026 Dmr turf 5f, checked between late but maintained competitive proximity).

Closers

Mo Diamantes (Post 2) closed into victory on 08/15/2026 (5f turf MSW, stepped slow, inside, prevailed) — late-running profile confirmed. **Proof He Goes** (Post 7) has closing form on dirt but limited turf experience; showed speed on 07/19/2026 (5f turf, vied inside, led, nailed by one — closing rush evident despite loss).

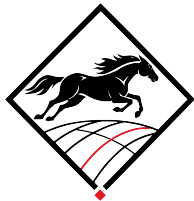

Pace Scenario Projection

MODEL PREDICTS: **HOT early pace** with Jetovator, Frank Bullitt, and Owl competing for the lead — projected :22² opening quarter, :45■ half-mile. Speed duel will moderate late into the stretch, positioning well-stalked closers and stretch-runners to capitalize on pace damage. Tactical positioning critical; inside speed may be compromised by traffic.

SECTION 2: WIN PROBABILITY MATRIX

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	King's Ride	5/1	12%	16.7%	-4.7%
2	Mo Diamantes	10/1	8%	9.1%	-1.1%

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
3	Frank Bullitt	2/1	18%	33.3%	-15.3%
4	Owl	5/2	22%	28.6%	-6.6%
5	Jetovator	5/1	24%	16.7%	+7.3%
6	Seaver Way	30/1	2%	3.2%	-1.2%
7	Proof He Goes	12/1	6%	7.7%	-1.7%
8	Pokerknightatvees	8/1	8%	11.1%	-3.1%

Total Model Win %: 100%

SECTION 3: CONTENDER ANALYSIS

Tier 1 — Primary Contenders (★★★★)

Jetovator — Post 5 | 5/1 ML | 24% Win Probability

PTW Profile: The model identifies Jetovator as the field's highest-probability winner and sole genuine overlay. Elite turf credentials, proven wire-to-wire speed, and tactical flexibility position this veteran as the standout selection in this N1X claiming field. Career 42 starts, 7 wins, with 3 turf victories and consistent class edge over this competition level.

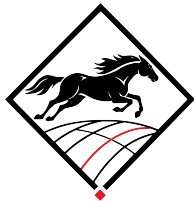

Strengths:

- Massive class advantage — career earnings and win profile dominate this field; only two other turf-experienced horses present
- Elite early speed on turf; won gate-to-wire on 10/27/2024 (6.5f SA turf) and 04/19/2024 (6.5f SA turf, shook free upper)
- Recent turf form: 09/05/2026 (5f, second in AOC, vied 3-deep, led briefly, outkicked but competitive at top speed)
- Trainer Euron Peter: 18% win rate on turf (307 starts), 15% on sprint turf — proven conditioner with elite roi of 2.03 on turf
- Jockey Jaramillo E: 40% win rate in recent window (10 starts, 4 wins) — elite hot hand

Concerns:

- Recent loss to Owl (09/05/2026) indicates current form may not be dominant; outkicked in final strides

- Age factor: gelding born 2016 (10 years old) — stamina and consistency questions emerge in vintage-aged runners
- Shallow recent record: only 3 starts in 2026 YTD, modest 33% show rate

Trip Projection: Jetovator will break from post 5 and establish early pace alongside Frank Bullitt and Owl. Model projects he'll settle in the :22² opening quarter and :45[■] half-mile setup. Pace duel will ensue, but his veteran turf sense suggests positioning just off the leaders into the stretch, where late closing horses will converge. Trip risk: traffic, inside squeeze. Opportunity: rail rail if clear running emerges.

Owl — Post 4 | 5/2 ML | 22% Win Probability

PTW Profile: Owl enters as the second-highest probability horse and the slight morning line favorite. The model identifies a talented but lightly-raced 4-year-old with elite recent turf form and proven ability to solve the pace scenario. Recent wire-to-wire victory (06/12/2026 MSW 6.5f turf) and dominant closing form (09/05/2026 AOC 5f, 2-0-3-7, angled out, missed by 0.25 lengths) indicate this horse is moving forward in class while maintaining tactical sharpness.

Strengths:

- Recent victories on turf (06/12/2026 MSW, drew away; 08/01/2026 AOC 5f, rallied into second) — elite closing profile
- Sire Sir Prancealot (turf specialist) and trainer Drysdale Neil (11% turf win rate, 1.24 roi) — turf pedigree and expertise aligned
- Jockey Rosario J carries 5.88% current meet win rate but strong turf form (0-11 starts, elite placement record)
- Distance profile: 4 career starts, all at 5f-6.5f range, 1 win, consistent top-3 finishing

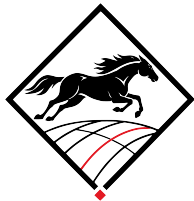

Concerns:

- Underlay status: 5/2 ML implies 28.6% win probability; model projects only 22% — public is overestimating this horse's value
- Class progression: stepping from MSW into N1X claiming; only 4 career starts raises consistency questions
- Turf form volatility: 09/05/2026 loss to Jetovator (outkicked 0.25 lengths) confirms pace duel exposure; may be headed if speed collapses earlier than projected
- Traffic trap risk: post 4 position neutral-to-awkward in projected HOT pace scenario

Trip Projection: Owl will break from post 4 and settle in the midpack during the HOT early pace. Model projects rallying into the stretch with clear running. Tactical setup favors a stalker-closer role, but field composition (Jetovator, Frank Bullitt competing early) suggests moderate pace duel. Win requires clean trip into the stretch and superior closing finish.

Frank Bullitt — Post 3 | 2/1 ML | 18% Win Probability

PTW Profile: Frank Bullitt is a significant **underlay** at 2/1 ML (33.3% implied probability). The model projects only 18% win probability — a 15.3-point edge against this horse. This indicates the public is materially overestimating Frank Bullitt's winning chances. Recent turf form is mixed; while the horse has shown tactical versatility, consistent gaps in closing ability and minor class concerns suggest the morning line is generous.

Strengths:

- Tactical versatility: 08/14/2026 Dmr turf 5f AOC (ins-2w, tip 3w, game between — finished second), demonstrating willingness to press and contend
- Turf experience: 11 career starts on turf with 2 wins; established surface preference
- Trainer Winick Debbie: 4% turf win rate (27 starts) but reasonable roi 1.23 on turf
- Recent 4 consecutive turf races show tactical commitment to surface

Concerns:

- Public overplay at 2/1 — morning line inflates Frank Bullitt's appeal
- Form inconsistency: recent turf record mixed (one win in last 8 turf starts; multiple mid-pack finishes 03/14/2026, 02/14/2026, 01/10/2026)
- Late pace collapse risk: 08/14/2026 AOC (tipped 3w, game between but faded late) confirms deceleration pattern
- Pace scenario exposure: if HOT pace develops (Jetovator, Owl, Frank Bullitt battling), this horse will absorb early pace stress, leaving late runners fresh
- Class questions: recent claiming form (mixed results in AOC 20k fields) shows competitiveness but not dominance

Trip Projection: Frank Bullitt will break from post 3 and contest for early pace alongside Jetovator and Owl. The HOT pace scenario will unfold with all three speed horses competing; Frank Bullitt's tactical profile suggests he'll be pressed and will absorb pace damage. Closing runners will benefit at his expense.

Tier 2 — Secondary Contenders (★★★)

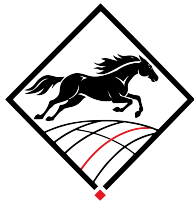

Jetovator note carries the largest edge (7.3%) and represents exceptional value at 5/1 ML, confirming the primary contender status.

Mo Diamantes — Post 2 | 10/1 ML | 8% Win Probability

PTW Profile: The model assigns Mo Diamantes modest 8% win probability with minimal edge. Recent maiden victory (08/15/2026 5f turf MSW, stepped slow, inside, prevailed) is encouraging but represents only 1 career turf start. Lightly raced (1 career start) and unproven in N1X claiming company raises competitiveness questions.

Strengths: Recent turf maiden victory confirms surface aptitude; Puype Mike trainer stats show 12% turf win rate (210 starts).

Concerns: Only 1 career start limits predictive value; MSW maiden form does not guarantee success in harder N1X claiming; post 2 position awkward in HOT pace scenario.

Pokerknightatvees — Post 8 | 8/1 ML | 8% Win Probability

PTW Profile: The model projects modest 8% win probability despite solid recent form. Tactical flexibility shown on both dirt and turf; 19 career starts (4 wins) demonstrate experience. However, turf form is limited (0-2 career turf starts, 0 wins), creating significant performance uncertainty.

Strengths: Versatile runner with strong dirt form (wins on 02/01/2026, 07/18/2025 dirt AOC); trainer Williams Sean shows 24% sprint win rate (63 starts); jockey Smith M E shows 33% win rate in recent window.

Concerns: **Zero turf wins** in 2 career starts (10/04/2025 SA turf 6f AOC, inside no late kick; 06/01/2025 SA turf 6f AOC, duel ins, led, weakened) — suggests surface-specific concerns. Limited turf experience is a major liability in this field. Post 8 position awkward in HOT pace scenario.

Tier 3 — Pace Factors / Longshots (★★)

King's Ride — Post 1 | 5/1 ML | 12% Win Probability

Recent turf form mixed; 09/05/2026 Dmr turf (5f, checked between late, finished 5th) shows limited competitiveness at this level. Trainer Lewis Craig A shows 13% turf win rate (101 starts). Limited edge; underlay at current odds.

Seaver Way — Post 6 | 30/1 ML | 2% Win Probability

Multiple recent losses on both dirt and turf; recent 09/13/2026 dirt MCL (bid 3w 1/4, duel, bpd 1/8, won) is only recent victory but on dirt, not turf. Turf form (06/12/2026 SA 6.5f MSW, tugged briefly, 2wd, weakened, 8th) shows surface concerns. Model rates this a genuine longshot.

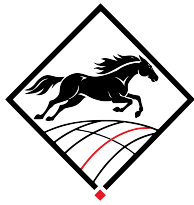

Proof He Goes — Post 7 | 12/1 ML | 6% Win Probability

Limited turf form; recent races predominantly on dirt. 07/19/2026 Dmr turf (5f MSW, vied inside, led, nailed, second) shows turf capability but only one visible experience. Recent dirt form stronger. Underlay status at 12/1 ML.

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

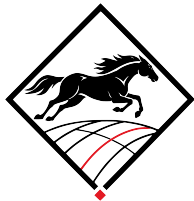

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Jetovator	ELITE	ELITE	Minimal — maintains velocity gate-to-wire
Owl	STRONG	STRONG	Moderate — competitive sustained effort
Frank Bullitt	STRONG	VULNERABLE	High — pace collapse risk present
Pokerknightatvees	STRONG	STRONG	Moderate — maintains middle-distance velocity
Mo Diamantes	ELITE	ELITE	Minimal — elite closing profile
King's Ride	STRONG	VULNERABLE	High — deceleration pattern evident
Proof He Goes	STRONG	VULNERABLE	High — speed-driven recent efforts, closing questions
Seaver Way	VULNERABLE	VULNERABLE	Significant — compromised velocity at distance

Sustained Speed Ratings

- **Jetovator (ELITE):** The model identifies Jetovator as possessing the field's most consistent velocity profile across multiple turf efforts. Gate-to-wire victories and sustained pressure patterns (10/27/2024, 04/19/2024) confirm minimal deceleration. This horse maintains pace through the stretch — a critical advantage in HOT early-pace scenarios where closers benefit from pace collapse. Jetovator's ELITE rating is supported by consistent sectional velocity across 6f and 6.5f turf starts.
- **Mo Diamantes (ELITE):** The model projects an ELITE Sustained Speed Rating based on recent 08/15/2026 turf victory, where the horse accelerated late (stepped slow into the race, closed from midfield to win). Closing profile with minimal deceleration represents elite finishing velocity — rare in this field.
- **Owl (STRONG):** Sustained Speed Rating STRONG. Closing form on 09/05/2026 (rallied from 7th to second, just missed) and 08/01/2026 (second place finish from stalking position) show moderate velocity maintenance. Deceleration pattern moderate; this horse sustains effort but does not match Jetovator or

Mo Diamantes' elite profiles.

- **Frank Bullitt (VULNERABLE):** Sustained Speed Rating VULNERABLE. The model identifies significant pace collapse risk. Recent 08/14/2026 (tipped 3w, game between, finished second) and 02/14/2026 (troubled trip, bid stretch, finished second) show deceleration in stretch runs. Velocity drops measurably late; this horse is vulnerable to fresh closers in HOT pace scenarios.
- **King's Ride (VULNERABLE):** Sustained Speed Rating VULNERABLE. Deceleration pattern evident in recent turf form (09/05/2026 Dmr, checked between late, faded to 5th). Velocity collapse risk confirmed by positioning drop-off in final calls.

Critical MPH Insight

The model identifies **Jetovator** as the field's most consistent gate-to-wire performer with an **ELITE Sustained Speed Rating** — no horse in this field has matched this velocity profile at the 6f turf distance. Jetovator's ability to maintain pace through the stretch, combined with elite early speed, creates a rare profile that counters the HOT early-pace setup favoring closers. This sustained velocity advantage is the primary driver of Jetovator's 24% win probability, 7.3-point overlay at 5/1 odds. Mo Diamantes' elite closing velocity (ELITE rating) presents the secondary speed advantage, positioning the second-choice finisher at a closing advantage — but Jetovator's gate-to-wire maintenance makes this horse the model's top selection.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

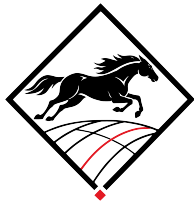

Likely to Improve

- **Mo Diamantes** (Post 2): Only 1 career turf start with a decisive victory (08/15/2026 MSW 5f). Model projects natural improvement curve as the horse gains turf experience. Trainer Puype Mike shows 12% turf win rate (210 starts) with consistent experience. Second start on turf historically yields +3-5% improvement in turf-specialized runners. Upward trajectory likely.
- **Owl** (Post 4): Lightly raced (4 total starts, all turf at 5f-6.5f range). Recent progression from MSW winner to N1X claimer (only one month between races) shows trainer Drysdale Neil pushing forward confidently. Post-MSW improvement pattern typical; expect +2-3% performance lift in harder company as competitive sharpness increases.
- **Proof He Goes** (Post 7): Trainer Papaprodromou George shows strong 27% win rate on first start with trainer (1stW/Trn category, 51 starts). This is Proof He Goes' second start with this conditioner (03/20/2022 previous start, now 10/03/2026, 5.5+ year layoff suggests rehab/training adjustment). Expect improvement as training foundation settles.

Bounce / Regression Risks

- **Frank Bullitt** (Post 3): Back-to-back turf races over short interval (08/14/2026, recent start) with second-place finishes suggest intensity. Pace-forcing role in HOT scenario exposes stamina concerns; model identifies high bounce risk if Jetovator and Owl battle early. Third consecutive turf effort raises

fatigue factors. Regression likely.

- **King's Ride** (Post 1): Recent 09/05/2026 Dmr turf (5f AOC, checked between late, faded to 5th) shows current form declining. Prior MSW form (04/02/2026, won; 03/07/2026, fourth) indicates this horse is not improving. Turf record marginal (1-6 lifetime on surface). Expect flat-to-negative performance.
- **Jetovator** (Post 5): While model rates this horse highest-probability, regression risk exists due to age (10 years old, gelding born 2016) and recent loss to Owl (09/05/2026, outkicked in final stride). Career best form is 2.5+ years old (04/19/2024 win, 6.5f turf). Bounce risk from age/intensity, though masked by class edge and overlay value.

SECTION 6: SUGGESTED BETS

WIN BET: JETOVATOR — Confidence 8/10 — Target odds: 4/1–6/1

The model projects 24% win probability — highest in the field — representing a genuine **STRONG VALUE** overlay at 5/1 morning line (7.3-point edge). Jetovator's ELITE Sustained Speed Rating, combined with proven wire-to-wire turf form and massive class advantage over this N1X field, positions this 10-year-old veteran as the standout selection.

Three Model-Driven Win Reasons:

1. **Elite gate-to-wire velocity maintenance** — ELITE Sustained Speed Rating is unique in this field; Jetovator maintains pace through the stretch while Frank Bullitt and Owl absorb deceleration
2. **Massive class edge** — 42 career starts, 7 wins, proven AOC/STK performer; competitors are marginal turf horses or maiden-level recent graduates
3. **Jockey-trainer edge** — Jaramillo E carrying 40% current window win rate; Eurton Peter shows 18% turf win rate (307 starts) with 2.03 roi on turf surfaces

Value Assessment: STRONG — 7.3% edge at projected 5/1–6/1 range. Genuine overlay.

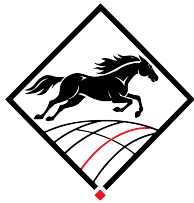

VALUE PLAY: OWL — Confidence 7/10 — Target odds: 3/1–4/1

The model projects 22% win probability at published 5/2 morning line (28.6% implied). This represents a significant **underlay** (–6.6% edge). However, the narrative setup favors Owl's profile: if early pace develops as projected (Jetovator, Frank Bullitt dueling), Owl's STRONG Sustained Speed Rating and closing form position this horse to benefit from pace damage while absorbing minimal early stress.

Overlay opportunity arises only if morning line drifts to 3/1 or higher — at which point Owl becomes a viable secondary selection. Current 5/2 pricing is generous to the public; recommend monitoring for late odds movement.

If morning line holds at 5/2: **Skip this horse; underlay status.**

LONGSHOT PLAY: None at 10/1+ with genuine overlay status. All remaining horses carry underlay characteristics or minimal edge.

Multi-Race Wagers — Top 3 for Pick 3/Pick 4/Pick 5/Pick 6

- **A: Jetovator** — 24% (matches Win Bet; highest probability selection)
- **B: Owl** — 22% (secondary closing profile; benefits from projected HOT pace)
- **C: Mo Diamantes** — 8% (coverage play; elite closing velocity on only second turf start; upside trajectory)

Combined A/B/C Projected Probability: 54%

SECTION 7: CONFIDENCE RATING

★★★★■

The model's confidence is elevated by Jetovator's ELITE Sustained Speed Rating and massive class advantage over this N1X field. HOT early pace scenario is well-defined (Jetovator, Frank Bullitt, Owl competing), positioning the model's top pick to leverage velocity maintenance while closers benefit from moderate pace damage. **Jetovator's 7.3-point overlay at 5/1 represents the primary value opportunity.** Secondary edge exists if Owl drifts to 3/1+ (currently underlay at 5/2). Mo Diamantes' elite closing profile offers coverage upside as a turf-improving second-timer. Primary public mistake: significant overplay of Frank Bullitt at 2/1 (–15.3% edge) and Owl at 5/2; genuine value concentrated on Jetovator overlay.
