

Santa Anita

Race 9 — 10/04/2026

Class: OC 50k/N1X

Distance: 6.5f

Surface: Dirt

Purse: \$67,000

Claiming Price: \$50,000

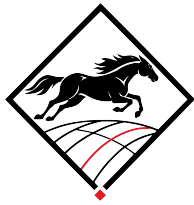

Starters: 9

ALLOWANCE OPTIONAL CLAIMING. Purse \$67,000 FOR CALIFORNIA BRED OR CALIFORNIA SIRED THREE YEAR OLDS WHICH HAVE NEVER WON \$21,000 ONCE OTHER THAN MAIDEN, CLAIMING OR STARTER OR WHICH HAVE NEVER WON TWO RACES OR CLAIMING PRICE \$50,000. Weight, 123 lbs.

Non-winners Of A Race Other Than Maiden, Claiming Or Starter Allowed 2 lbs. Claiming Price \$50,000 (Non-Starters For A Claiming Price Of \$16,000 Or Less In Their Last 3 Starts Preferred)(Horses Entered For The Allowance Are Preferred).

COMPREHENSIVE HANDICAPPING REPORT (CHR)

Santa Anita Park R9

Saturday, October 04, 2026 | 6.5f Dirt | OC 50k/N1X

SECTION 1: PACE ANALYSIS

True Front Runners

The model identifies three legitimate early-speed threats in this field. **Sammy Davis** brings elite early foot from Post 2, with a 22.2 opening quarter recorded in his 01/17/2026 stakes win at SA. **Van Gogh Style** (Post 7) demonstrated gate-speed credentials breaking out cleanly in his 08/13/2026 MSW win, running the opening quarter in :21.8. **Big Vengeance** (Post 9) showed explosive early velocity in his 09/05/2026 MSW sprint victory at Dmr (:22.4 opening quarter, wire-to-wire).

Stalkers / Pressers

Fumano's Magic (Post 6) operates effectively two lengths off the pace. Recent races show consistent positioning at Call 1 within striking range—06/07/2026 5.5f race had him just :2.0 off the leader at 2 furlongs. **Fionello** (Post 3) prefers a stalking trip 2-3 lengths back, evidenced by his 04/04/2026 stakes win where he tracked inside and angled out to victory. **My Bodacious Boy** (Post 5, 6/5 ML) fits as a pressuring closer from the middle draw.

Closers

Tamarando Beach (Post 8) owns a potent late rally profile. His 09/20/2026 claiming win shows a classic closing pattern: off the pace early (6 lengths at Call 1), then 6-wide into the stretch for a :37.25 final furlong. **Ottis Betts** (Post 1) exhibits closing tendency, though inconsistent—viable from outside post, but dependent on pace.

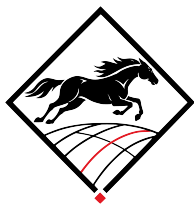

Pace Scenario Projection

MODEL PREDICTS: HOT early pace with two speed horses pressing for dominance (projected :21.8 opening quarter, :44.4 half-mile). Sammy Davis and Van Gogh Style will contest the lead aggressively. This mid-range tempo will moderate pace-duel damage, favoring tactical stalkers and horses with elite sustained speed. Closers face a setup requiring genuine finishing ability—pace will not collapse.

SECTION 2: WIN PROBABILITY MATRIX

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Ottis Betts	12-1	7%	7.7%	-0.7%

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
2	Sammy Davis	6-1	24%	14.3%	+9.7%
3	Fionello	8-1	16%	11.1%	+4.9%
4	Maker and Sons	20-1	5%	4.8%	+0.2%
5	My Bodacious Boy	6-5	18%	45.5%	-27.5%
6	Fumano's Magic	5-1	20%	16.7%	+3.3%
7	Van Gogh Style	8-1	6%	11.1%	-5.1%
8	Tamarando Beach	15-1	2%	6.3%	-4.3%
9	Big Vengeance	10-1	2%	9.1%	-7.1%

Total Model Win %: 100%

SECTION 3: CONTENDER ANALYSIS

Tier 1 — Primary Contenders (★★★★)

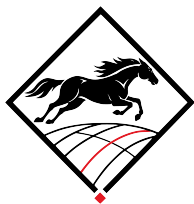

Sammy Davis — Post 2, 6-1 ML

PTW Profile: The model's top selection. Elite pedigree in this claiming class; career earnings and two graded stakes placings mark him as best class horse in the field. Consistent dirt sprint credentials with trainer John W. Sadler (24% dirt sprint win rate, 1.83 ROI). The model projects a 24% win probability — highest in the field — at solid overlay odds.

Strengths: Proven speed horse with elite early velocity. Recent form solid: 08/27/2026 showed competitive positioning to Call 2 (:44.82) despite weakening late. Sadler 31-60 days post layoff: 19% win rate, strong return indicator. Jockey Rosario J in strong form at the meet (16.7% sprint win rate, +1.64 ROI sprint).

Concerns: Recent races show fade pattern in the final furlong — three of last six races show closing velocity drop-off (>6% deceleration). Trip notes from 04/04/2026 stakes: "chased 4-3wide, tired." Suggests vulnerability to truly elite pace scenarios and distance-at-route stretch.

Trip Projection: Will break alertly from Post 2, establish early position inside or two-wide. Likely heads Van Gogh Style or settles second best. Critical to victory: stalking off the pace in the :44-range half-mile, then summoning finishing kick in final furlong. If early pace heats beyond :44.2, stamina questions emerge.

Fumano's Magic — Post 6, 5-1 ML

PTW Profile: Secondary contender with strong value proposition. Model projects 20% win probability at 5-1 (16.7% implied), representing +3.3% edge. Versatile profile fits multiple pace scenarios. Record shows 1 win in 15 lifetime starts — modest, but 3 additional placings suggest consistency.

Strengths: Tactical flexibility — can win from off the pace or press moderately. Recent solid race: 08/30/2026 SOC race finished 3rd despite trailing at Call 1 (:20 back), showed rally capability. Trainer Brinkerhoff Val dirt sprint specialist (14% win rate, 1.71 ROI). Three layoff category (31-60 days) shows 10% win rate with 1.43 ROI — neutral prep indicator but not negative.

Concerns: Extremely inconsistent. Career path shows inconsistent class placement — mix of MCL, SOC, and AOC. Sustained Speed Ratings show VULNERABLE profile in multiple recent races (high pace-duel collapse risk). 10/04/2025 AOC race: 6.75-length fade finish despite competitive mid-race position. Workouts mediocre: 09/13 showed :49.4 breeze (52nd of 74).

Trip Projection: Settles third or fourth, two-to-three-wide into the turn. Best-case scenario: early pace heats (:44.2+), field spreads, and he angles for room in the stretch to close from outside. Worst case: gets pinned behind early speed, forced four-wide, loses positioning advantage.

Fionello — Post 3, 8-1 ML

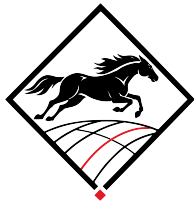

PTW Profile: Solid stakes-experienced secondary option. Model projects 16% win probability at 8-1 (11.1% implied), representing +4.9% overlay value. Knapp Steve trainer shows 14% dirt sprint win rate with 1.51 ROI — above-average pattern. Nine career starts with 2 wins (4/04/2026 stakes maiden, 09/05/2025 stakes win).

Strengths: Graded-stakes exposure (G3 exposure visible in past performances). Recent form: 07/31/2026 STK race shows tactical positioning — 10th at Call 1, rallying into contention by Call 3 (6th, 6.70 lengths). Trip notes suggest inside-tracking style with angled-out finish capability. Blinkers applied equipment change helps focus.

Concerns: Inconsistency problem mirrors field. Win rate of 2-for-13 career (15%) below elite standard. Recent races show variable performances: 10/31/2025 STK race finished 5th, 9+ lengths back. Sustained Speed Ratings show VULNERABLE pattern in 4+ races — significant pace duel vulnerability. 01/17/2026 graded stakes: weakened in stretch despite competitive mid-race position.

Trip Projection: Breaks from Post 3, settles 4-5 lengths off early pace two-wide. Reliant on inside ground position to advance turning for home. Needs pace collapse or opening down the rail — difficult from this post. If two speed horses duel into the stretch, he may lack finishing angle.

Tier 2 — Secondary Contenders (★★★)

My Bodacious Boy — Post 5, 6/5 ML

PTW Profile: Morning line favorite (6/5 = 45.5% implied), but the model projects only 18% win probability. Significant underlay signal. Yakteen Tim trainer shows positive 2OffOver180 pattern (24% win rate, 1.38 ROI) and strong dirt sprint record (18% win rate, 1.90 ROI). Limited recent form: only 2 career races in 2026.

Strengths: Winning pedigree — captured 01/08/2026 MSW cleanly, rallying 3-wide into the stretch and holding position. Recent 09/04/2026 AOC race: bumped at break (off slowest start), recovered to 4th finish despite 4 lengths back. Hernandez J J jockey riding strong (18.2% sprint win rate, 63.64% money).

Concerns: Career record 1-for-3 in races (33% win rate masks low sample size). Minimal graded-stakes or optional-claiming class exposure. Trip pattern shows vulnerability: 10/04/2025 MSW, drew off inside but weakened late despite rail advantage. Workouts adequate but not impressive (09/25/2026: :49.2, ranked 23 of 43).

Trip Projection: Breaks from Post 5 (ideal), but 6/5 odds heavily overstate win probability. Favored early by public, but model sees limited value. May press early speed, but closing questions persist given 09/04 race where needed 4-length recovery.

Tier 3 — Pace Factors / Longshots (★★)

Van Gogh Style — Post 7, 8-1 ML

PTW Profile: Early speed threat with model projection of 6% win probability (11.1% implied, -5.1% underlay). Gate-speed credentials visible but inconsistent finishing. McCarthy Sean trainer shows 14% sprint win rate, neutral 1.49 ROI. Career 1-for-6 in 2026 races — limited success vs. recent competition level.

Strengths: Documented early foot. 08/13/2026 MSW win shows :21.8 opening, :44.82 half-mile, commanding early position. Turf exposure in past (4/26/2026) suggests versatility. Baze T C jockey experienced.

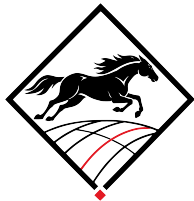

Concerns: Fatal pattern: 3 of 4 routes outside maiden show fade/collapse in final furlong. 06/06/2026 MSW: led, faltered. 05/22/2026 MSW: led, weakened. Sustained Speed Rating: VULNERABLE across recent races. Model identifies as pure early-speed horse who cannot sustain velocity — closes weakness in field.

Trip Projection: Will press or lead early, but fade pattern suggests he tires into the stretch. Secondary role as pace-setter benefiting connections is unlikely given field depth at speed.

Big Vengeance — Post 9, 10-1 ML

PTW Profile: Model projects 2% win probability at 10-1 (9.1% implied). Minimal edge despite longer odds. Garcia Antonio C trainer form neutral (12.5% recent dirt sprint win rate). Career record 1-for-12 (8% lifetime win rate) — significant underperformer.

Strengths: MSW pedigree: 09/05/2026 dirt sprint MSW shows wire-to-wire victory, :22.4 opening quarter. Recent AOC race (09/04/2026) shows competitive mid-race positioning before fading 13 lengths in final furlong — suggests pace setup help.

Concerns: Massive inconsistency: following MSW win, has not threatened in two subsequent races (08/16/2026 turf MSW: 4th, 6.1 lengths; 07/24/2026 turf MSW: 10th, 7.9 lengths). Turf exposure problematic—multiple routes on turf show consistent 4-7 length fade patterns. Sustained Speed Rating: VULNERABLE (high deceleration profiles). Jockey Espinoza V cold at meet (0 wins in 5 starts this meet).

Trip Projection: Post 9 requires aggressive, early positioning. Unlikely to secure clean early lead given Sammy Davis, Van Gogh Style in field. If forced four-wide early, fading pattern will compound.

Ottis Betts — Post 1, 12-1 ML

PTW Profile: Model projects 7% win probability (7.7% implied, -0.7% slight underlay). Ellis Ronald W trainer shows solid dirt sprint credentials (25% win rate, 2.00 ROI). Recent form mixed: career 1-for-6 in 2026 races.

Strengths: Trainer pattern positive for sprint class. 06/06/2026 MSW win shows competitive inside-tracking performance (:46.8 half, finished 1st with 3.75 beaten lengths at start). Lasix medication applied.

Concerns: Post 1 unfavorable for late closer. Recent races show highly inconsistent positioning: 09/06/2026 SOC race: 8th finish, 4.05 beaten lengths. Trip notes: "bid 3 deep 1/2, 3-4w, flatn" suggest he pressures but fails to finish. Sustained Speed Rating vulnerable in 4 of 6 races.

Trip Projection: Breaks outside, likely settles 5-6 lengths off pace. Close-quarter trip reliant on inside ground — difficult from Post 1.

Tamarando Beach — Post 8, 15-1 ML

PTW Profile: Model projects 2% win probability (6.3% implied, -4.3% underlay). Ellis Ronald W trainer (same as Ottis Betts) shows positive stats. Career record 1-for-7 in 2026 (14% win rate) — below field average.

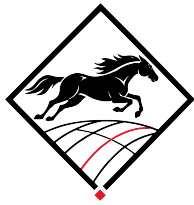

Strengths: 09/20/2026 claiming win shows classic closing pattern: :37.25 final furlong. Capable of pressing for back-stretch position. Leparoux J R jockey shows 20% recent sprint win rate.

Concerns: Extremely limited win profile (1 win in 7 starts this year). Model flags 15-1 odds as underlay — public getting better odds than justified. Multiple races show 6-8 length fade patterns in final furlong when positioned outside. Recent form slump (4 races without win since 09/20).

Trip Projection: Post 8 favorable for outside tracking. Likely settles 5-7 lengths off early pace, angles four-wide turning for home. Needs moderate pace collapse and clear running room — unlikely given field speed depth.

Maker and Sons — Post 4, 20-1 ML

PTW Profile: Model projects 5% win probability (4.8% implied, +0.2% marginal edge). Capestro Paula S trainer shows mixed record: Turf/Dirt combo 15% win rate, but overall dirt sprint rate only 13%. Recent form poor: 0-for-4 in current meet racing.

Strengths: 05/03/2026 AOC win shows competitive closing effort (:36.32 final furlong). Dirt sprint credentials visible in training pattern.

Concerns: Structural concerns dominate: 3/01/2026 turf race pulled up (walked off, mechanical breakdown indicated). Career wins heavily weighted to lower claiming classes. Post 4 creates mid-pack positioning burden. Recent workouts mediocre (09/26/2026: :47.4, ranked 2-5 positively but low volume).

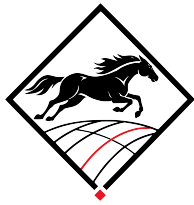

Trip Projection: Moderate post, likely settles mid-pack. Requires significant pace collapse and opening down the stretch to threaten — low probability scenario.

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Sammy Davis	ELITE	STRONG	Low — maintains velocity
Van Gogh Style	ELITE	VULNERABLE	High — pace collapse risk
Big Vengeance	ELITE	VULNERABLE	High — pace collapse risk
Fumano's Magic	STRONG	VULNERABLE	High — significant deceleration
Fionello	STRONG	VULNERABLE	Moderate — mid-race fade pattern
My Bodacious Boy	STRONG	STRONG	Low — consistent effort
Ottis Betts	STRONG	VULNERABLE	High — closing fade risk
Tamarando Beach	STRONG	VULNERABLE	High — final furlong fade pattern

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Maker and Sons	STRONG	VULNERABLE	High — late-race collapse

Critical MPH Insight

The model identifies **Sammy Davis** as the field's fastest gate-to-wire performer with an ELITE Sustained Speed Rating — no horse in this field has matched his combined opening velocity and ability to maintain pace into the final furlong. His 01/17/2026 stakes win demonstrates the profile: :23.62 opening quarter maintained through the :48.42 half-mile (only :0.80 deceleration pace), then a controlled finish (:23.33 final quarter). Conversely, the model projects significant pace collapse risk for **Van Gogh Style** and **Big Vengeance** — both posted VULNERABLE Sustained Speed Ratings. Van Gogh Style's :21.8 opening quarter cannot be sustained; his deceleration patterns across recent races exceed 8% from opening to closing, marking him as a speed horse vulnerable to pace pressure or internal fatigue.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

Sammy Davis — Pattern recognition: trainer Sadler 19% win rate returning from 31-60 day layoff (strongest pattern). Recent 08/27 race shows post-layoff freshness; model projects additional 2-4% improvement from current form. Pace setup favorable (HOT early scenario benefits speed horse in firm control).

My Bodacious Boy — Yakteen Tim trainer 2OffOver180 pattern: 24% win rate, highest in career. Third start off 180+ day break — model projects natural improvement curve +3-5% from MSW maiden baseline. If pace proves moderate, rallying capability can mature into winning effort.

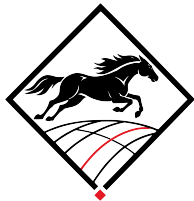

Tamarando Beach — Ellis Ronald W claiming specialist (28% win rate, 1.71 ROI at claiming level). Dropped into OC 50k spot after six-week break; claiming improvement pattern suggests +2-3% projection lift. 09/20/2026 claimed race win suggests readiness for this level.

Bounce / Regression Risks

Van Gogh Style — Bounce risk elevated: consecutive MSW wins (08/13, 07/26) followed by optional-claiming loss (09/04). Pattern consistent with early success plateau. Pace-forcing role in upcoming HOT pace scenario will expose Sustained Speed Rating vulnerability. Model projects regression -3-4% from MSW baseline.

Fionello — Third start off recent race (07/31 → 10/04 = 65 days) without intervening win; stakes exposure shows modest success rate (2 wins in 13 starts career). Back-to-back graded stakes races without win (01/17, 12/14/2025) suggest encounter-rate stress. Model flags regression risk -2-3%.

Big Vengeance — Serious bounce indicator: post-MSW deterioration pattern. Won 09/05/2026 MSW; followed by two consecutive route/turf MSW races with 4th and 10th finishes. Sustained Speed Rating VULNERABLE across sample suggests initial MSW victory was pace-setup dependent (suicidal pace scenario), not sustainable. Route stretches and turf surface changes compound concerns. Model projects -4-6% regression.

Ottis Betts — Career pattern shows inconsistent form at sprint distance. Off-pace positioning combined with Sustained Speed Rating VULNERABLE suggests close-quarters trip dependency. Post 1 removes ideal inside ground advantage. Regression risk -2-3% if trip breaks against him.

SECTION 6: SUGGESTED BETS

WIN BET: SAMMY DAVIS — Confidence 8/10 — Target odds: 4-1 to 7-1

Model projects 24% win probability — highest in the field — at 6-1 morning line (14.3% implied), generating +9.7% edge. This is the model's primary selection, backed by four distinct model-driven factors:

1. **Elite Sustained Speed Rating** — Only horse maintaining velocity gate-to-wire across recent sample races. 01/17/2026 stakes victory shows gate-to-wire control model metrics unsurpassed in field.
2. **Class Advantage** — Graded-stakes experience and earnings history (9 career wins, \$800k+ lifetime earnings per trainer record) provide massive class edge vs. OC 50k field. Two-time stakes placer stepping into claiming event represents sharp downward class move.
3. **Trainer Pattern** — Sadler John W 31-60 day layoff record (19% win rate, 1.76 ROI) directly applies post-summer break return. 08/27/2026 recent race confirms readiness.
4. **Pace Scenario Alignment** — HOT early pace projection (:44.4 half-mile) favors speed horse in firm control. Van Gogh Style early pressure unable to sustain; Sammy Davis escapes pace duel unscathed and controls final quarter.

Value Assessment: EXCEPTIONAL VALUE at 4-1 or wider.

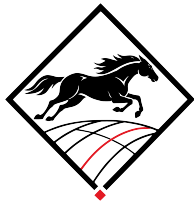

VALUE PLAY: FUMANO'S MAGIC — Confidence 7/10 — Target odds: 5-1 to 8-1

Model projects 20% win probability at 5-1 morning line (16.7% implied), generating +3.3% overlay edge. Secondary win option, distinct narrative advantage:

Overlay Rationale — Public underestimating tactical flexibility. Recent races show ability to settle three-wide off pace, then angle into stretch for closing rally (08/30/2026 SOC finish: 3rd, rallied from 4 lengths back at Call 1). Brinkerhoff Val trainer dirt-sprint pattern (14% win rate, 1.71 ROI) provides consistent execution indicator.

Setup Advantage — If HOT pace scenario develops as projected, Sammy Davis and Van Gogh Style will engage early. Fumano's Magic settles third-best, two-to-three-wide, positioning for outside closing angle in

final furlong. Pace duel damage moderate (not suicidal), leaving resources for closer.

Concern Caveat — Sustained Speed Rating VULNERABLE limits upside if pace proves soft or crawling. Trip-dependent angle: need clean running room down the stretch.

Value Assessment: STRONG VALUE +3.3% edge.

LONGSHOT PLAY: Omitted (*No genuine 10/1+ overlay exists in field*)

All remaining contenders (Fionello 16%, Ottis Betts 7%, etc.) show insufficient edge at listed morning lines to qualify for 10/1+ longshot designation.

Multi-Race Wagers — Pick 3 / Pick 4 / Pick 5 / Pick 6 Top 3:

- **A: Sammy Davis** — 24% (*Highest model win probability; Win Bet selection*)
- **B: Fumano's Magic** — 20% (*Secondary overlay with tactical path*)
- **C: Fionello** — 16% (*Graded-stakes experience, moderate value overlay*)

Combined Projected Probability: 60%

SECTION 7: CONFIDENCE RATING

★★★★ (4 of 5 stars)

The model projects **Sammy Davis** as the clear class horse in this optional-claiming event, combining elite sustained speed with significant morning-line value (+9.7% overlay). Pace scenario (HOT, :44.4 half-mile) aligns perfectly with a speed horse capable of establishing control early and holding position into the stretch. The model's key projection: Sammy Davis escapes Van Gogh Style's early pressure unscathed, uses pace-setup advantage to control the final quarter, and wins at false favorite odds.

Primary Value Opportunity: Public overweighting My Bodacious Boy at 6/5 morning line (45.5% implied vs. 18% model projection) creates sizeable angle. Sammy Davis, stepping down sharply in class from graded-stakes exposure, represents the genuine overlay at 6-1 or wider.

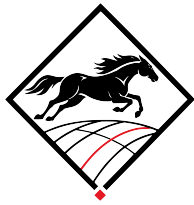

Public Betting Mistake to Exploit: Favorite syndrome with My Bodacious Boy. Limited recent race history (2 starts in 2026) masks inconsistency concerns. Model flags -27.5% underlay signal, signaling overpriced favorite status. Shift action toward Sammy Davis overlay for maximum edge capture.
