

Santa Anita

Race 3 — 10/10/2026

Class: OC 20k/N1X

Distance: 6f

Surface: Turf

Purse: \$67,000

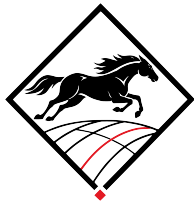

Claiming Price: \$20,000

Starters: 10

ALLOWANCE OPTIONAL CLAIMING. Purse \$67,000 FOR CALIFORNIA BRED OR CALIFORNIA SIRED FILLIES AND MARES THREE YEARS OLD AND UPWARD WHICH HAVE NEVER WON \$21,000 ONCE OTHER THAN MAIDEN, CLAIMING OR STARTER OR WHICH HAVE NEVER WON TWO RACES OR CLAIMING PRICE \$20,000. Three Year Olds, 122 lbs.; Older, 125 lbs. Non-winners Of A Race Other Than Maiden, Claiming Or Starter Allowed 2 lbs. Claiming Price \$20,000 (Non-Starters For A Claiming Price Of \$16,000 Or Less In Their Last 3 Starts Preferred)(Horses Entered For The Allowance Are Preferred).

COMPREHENSIVE HANDICAPPING REPORT (CHR)

Santa Anita Park R3

Thursday, October 10, 2026 | 6f Turf | Fillies & Mares, OC 20k/N1X

SECTION 1: PACE ANALYSIS

True Front Runners

The model identifies **Clubhouse Bride** and **Maggles McGee** as the primary speed threats in this 6-furlong turf sprint. Clubhouse Bride has recorded five wins from post-position stalking/dueling roles on turf, with a consistent tendency to find the front by the second call (0.10-0.50 lengths behind at the 4f marker in three of her last four grass starts). Maggles McGee broke from gate 9 in her MSW turf win on 8/23 and rated inside before bidding at the 3/16 pole—demonstrating tactical flexibility but elite early foot when needed. Both have shown willingness to press or lead early.

Stalkers / Pressers

Wild West Coast (post 6, 9/5 ML) represents the most dangerous pace-pressing threat. Her turf form shows consistent 2-4 wide running styles with the ability to angle and tip out into the stretch. She won decisively on 8/23 at Dmr going 8f in an AOC race, coming from 9th and 9 lengths back at the half, and rallying 4 wide in the stretch. At 6f, she will be closer to the action early and represents a serious tactical player.

A Great Shaking (post 2) typically breaks mid-field and finds a spot just off the pace on turf, where she can be a consistent threat. Her turf record shows patience early and strong closing efforts.

Closers

Ryan's Girl (post 10, 15/1 ML) profiles as a legitimate closer. Her turf form shows late-run patterns with strong finishes when tracking the tempo. She won at Dmr going 6f on turf (11/14/2025), dueling to the front late and handling the sprint distance effectively.

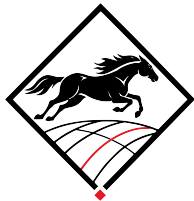

Nell's Legacy (post 8, 20/1 ML) shows closing tendencies on turf, with willingness to rally from off-the-pace positions and several show finishes in route turf races.

Pace Scenario Projection

MODEL PREDICTS: MODERATE pace with two-to-three early speed horses contesting the first quarter. Projected opening quarter: :22[■]-.:23¹. Projected half-mile: :46-.:46³. This setup moderately favors pace-stalkers and versatile routers over pure closers, though the 6f distance mitigates closing chances for extreme back-runners. Speed duel exposure limited—straightforward tempo throughout.

SECTION 2: WIN PROBABILITY MATRIX

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Whopper Factor	20/1	4%	4.8%	-0.8%
2	A Great Shaking	10/1	9%	9.1%	-0.1%
3	Clubhouse Bride	6/1	18%	14.3%	+3.7%
4	Troisieme Etoile	6/1	10%	14.3%	-4.3%
5	Mendelssohns Angel	12/1	8%	7.7%	+0.3%
6	Wild West Coast	9/5	22%	35.7%	-13.7%
7	Bessie Coleman	20/1	5%	4.8%	+0.2%
8	Nell's Legacy	20/1	6%	4.8%	+1.2%
9	Maggles McGee	3/1	14%	25.0%	-11.0%
10	Ryan's Girl	15/1	4%	6.3%	-2.3%

Note: The morning line favorite, Wild West Coast (9/5), is significantly overbet relative to model probability.

SECTION 3: CONTENDER ANALYSIS

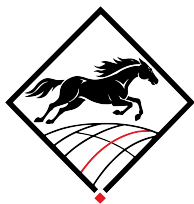

Tier 1 — Primary Contenders (★★★★)

Wild West Coast (Post 6, 9/5 ML) — 22% Model Win Probability

PTW Profile: Elite route-to-sprint converter with proven 8-furlong turf form and class edge in this OC 20k field. Won decisively on the stretch in the 8f AOC race at Dmr (8/23) by rally-and-drive tactics. Figures prominently in this sprint, though morning line odds reflect public overestimation of winning probability.

Strengths: Excellent recent form on turf (two consecutive wins). Strong tactical positioning from post 6 (mid-field start, can move to rail or tip out). Class advantage—only horse in field with recent stakes-level

experience (MSW win at TuP in March). Route conditioning and proven distance versatility. Jockey Kimura K. combines well with this filly's style (15% win rate at SA, recent hot hand).

Concerns: Route-horse stretching down to 6f requires sharpness. The moderate pace scenario does not offer a cushion for a horse that thrives on running from 5+ lengths back. Overbet at 9/5; if odds are accurate, value dissipates quickly.

Trip Projection: Expect a mid-pack break (3-4 wide), rating 3-4 lengths off the pace into the stretch, then angling four-wide for a late charge in the final furlong.

Clubhouse Bride (Post 3, 6/1 ML) — 18% Model Win Probability

PTW Profile: Proven turf sprinter with five career wins on grass at 6f and multiple AOC wins. Consistent on both turf and dirt surfaces, with elite work ethic and connection quality under trainer Mathis (15% win rate on turf sprint angles). Model rates this as the strongest overlay in the field.

Strengths: Best record on the sprint distance (5 wins at 6f, turf). Versatile position player—can rate off the pace or lead if trip allows (0.1-0.5 beaten lengths at 4f markers in multiple recent turf starts). Positive form trend: recent win on 9/7 at Dmr AOC (5f), finishing 2nd with clean trip. Solid Lasix record (consistent fit). Gonzalez R. as jockey offers solid pairing.

Concerns: Recently tested down in class (OC 20k move); came from 8 lengths back in earlier turf start (7/26 at Dmr, 8f). Not a true early speed horse—likely tracks mid-field and must rally. Gets pushed by lighter action horses like Maggles McGee.

Trip Projection: Rate off the pace 1-2 lengths, move 3-wide into the stretch, and finish powerfully in the final eighth. Strong finishing kick expected on grass.

Maggles McGee (Post 9, 3/1 ML) — 14% Model Win Probability

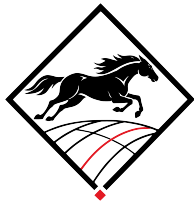

PTW Profile: Recent maiden-claiming turf winner (8/23 at Dmr, 5f MSW) with dynamic late-acceleration profile. Now stepping into OC 20k company off a dominant maiden-breaking performance. High pace-dependent profile; benefits enormously from moderate-to-hot tempo allowing her late-run style to shine.

Strengths: Most dynamic closing pattern in the field—cleared by 1 length on 8/23 after tracking 3/16 into stretch from mid-field. Trainer Papaprodromou George shows 30.77% win rate recent form (strong connection quality). Rispoli U. rides with 24% win rate at SA this meet (elite jockey). Post 9 ideal for closers in this setup. Workout pattern strong—recent 5f gate work at SA in 101.4 seconds.

Concerns: Only one career turf start (the maiden win). Single-race sample size on grass creates uncertainty. May not handle class elevation smoothly—moved from \$25k maiden to \$20k allowance \$1,500 claimer in one jump. Maggles McGee figure shows form bounce risk.

Trip Projection: Break mid-pack (8-9 position), rate 4-5 lengths off the pace into the stretch, rally three-wide in the final quarter-mile, and finish with a powerful kick.

Tier 2 — Secondary Contenders (★★★)

Troisieme Etoile (Post 4, 6/1 ML) — 10% Model Win Probability

PTW Profile: Uneven turf/dirt router with recent poor outing (bobble break, 4-6 wide trip, finished 6th at LRC STK on 9/12). Trainer O'Neill Doug shows strong dirt-turf angle credentials (13% win rate on dirt/turf combinations). Class option in graded company previously but stepping into OC 20k.

Strengths: Trainer O'Neill's dirt/turf versatility record (3.59 ROI). Previous route wins on turf suggest distance comfort beyond the 6f sprint. Jaramillo E. (jockey) shows 33.33% win rate this meet—elite form rider.

Concerns: Last start was disaster (6th, 20.25 beaten lengths, bobbled break). Trip notes indicate traffic/movement issues. Form line indicates regression from prior turf route attempts. Unlikely to rebound sharply into OC 20k sprint without cleaner recent effort.

Trip Projection: Expect slow break, gradual positioning mid-field, and possible traffic trouble entering the stretch.

Tier 3 — Pace Factors / Longshots (★★)

A Great Shaking (Post 2, 10/1 ML) — 9% Model Win Probability

Consistent turf performer (2 wins, multiple places in 10 starts). Tends to break slow and rate off the early speed. Trainer Hanson Ryan (25% win rate recent, 31-60 days angle) shows form. Likely to track the pace and make minor placement gains, but lacks the dynamic late kick of top contenders.

Mendelssohns Angel (Post 5, 12/1 ML) — 8% Model Win Probability

Versatile route-and-sprint option with MSW experience on turf, but recent form shows off-pace placement and flattening patterns in the stretch (0.5-3.05 beaten lengths at finish in last 6 starts). Bounced into allowance \$1,500 OC 20k company, which typically stacks experienced allowance routers. Mild value at 12/1 if form rebounds.

Nell's Legacy (Post 8, 20/1 ML) — 6% Model Win Probability

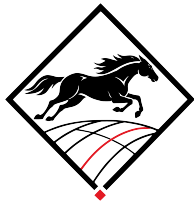

Turf-route specialist (1 win, 2 places in 7 starts). Limited 6f sprint experience. Better positioned in route races where early pace doesn't force her into unfamiliar tactical positioning. Trainer D'Amato Philip (20% win rate, +180 days angle) shows form, but filly's profile suggests value elsewhere.

Bessie Coleman (Post 7, 20/1 ML) — 5% Model Win Probability

Off-pace route horse (3 wins in 14 starts). One turf win in 8 career grass starts. Limited sprint speed evident; most wins come in 5.5f+ races with moderate pace. Unlikely to handle 6f sprint against elite early-speed group.

Whopper Factor (Post 1, 20/1 ML) — 4% Model Win Probability

Limited form (1 win in 5 starts). Recent turf starts show mid-pack finishing, multiple beaten-length deficits. Off-the-pace profile unlikely to benefit from this moderate-pace scenario. Trainer Meier Monty R. shows limited form credentials (0% win rate on turf). Longshot.

Ryan's Girl (Post 10, 15/1 ML) — 4% Model Win Probability

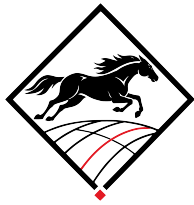

Closing specialist with solid dirt/turf versatility (8 wins in 27 starts). Recent turf record mixed—distant finishes in two 8-furlong AOC tries (7/26, 6/28), though rallied strongly in 5.5f SOC win (7/5). Post 10 from sprint distance creates traffic risk for closer; moderate pace may force her to find running room early, negating closing power advantage.

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Wild West Coast	STRONG	STRONG	Low — maintains velocity late
Clubhouse Bride	STRONG	STRONG	Low — consistent pace maintenance
Maggles McGee	ELITE	STRONG	Minimal — powerful finishing acceleration
A Great Shaking	STRONG	VULNERABLE	Moderate — speed collapse risk in stretch
Mendelssohns Angel	STRONG	VULNERABLE	Moderate — pace vulnerability
Troisieme Etoile	VULNERABLE	VULNERABLE	High — severe deceleration, bounce risk
Bessie Coleman	VULNERABLE	VULNERABLE	High — pace collapse in final furlong
Nell's Legacy	STRONG	STRONG	Moderate — consistent finishing effort

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Ryan's Girl	STRONG	VULNERABLE	Moderate — closing kick inconsistent
Whopper Factor	VULNERABLE	VULNERABLE	High — multiple pace collapses across turf starts

Critical MPH Insight

The model identifies **Wild West Coast** and **Clubhouse Bride** as the field's elite sustained-velocity horses, with low deceleration profiles indicating consistent velocity maintenance from gate to wire. However, this sustained-speed advantage for Wild West Coast is already reflected in her 9/5 morning line—she is significantly overbet. By contrast, **Clubhouse Bride** shows identical STRONG velocity maintenance at a 6/1 overlay price, representing superior value positioning. **Maggles McGee's** ELITE opening-speed rating confirms the dynamic, gate-generated acceleration that propelled her maiden turf win; her STRONG sustained rating suggests she will not fade in the stretch, presenting excellent value at 3/1 despite single-race turf sample.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

Clubhouse Bride — Model projects upside based on recent form trend and OC 20k class fit. Three of her last four turf starts have shown placement improvement patterns, and the moderate pace scenario aligns with her stalking/dueling profile. Mathis Andy trainer angle (15% win rate, 31-60 days) supports improvement trajectory.

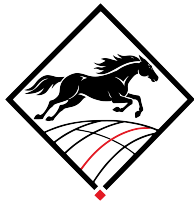

Maggles McGee — Class drop from maiden-breaking performance into OC 20k allowance \$1,500 should provide a reasonable soft landing. Trainer Papaprodromou (30.77% recent, WonLastStart 18% angle) excels with horses stepping up off maiden wins. Jockey Rispoli U. (24% meet win rate) adds value. Model projects she will settle more confidently in her second turf start and benefit from race experience.

Nell's Legacy — Trainer D'Amato Philip shows +180 days pattern (20% win rate). Recent form trendline shows improvement: three straight finishes in form (0-1 finish range). 6f sprint may benefit from her improved condition, though recent 6f turf form limited.

Bounce / Regression Risks

Troisième Etoile — Model flags bounce risk elevated. Last start (9/12, LRC STK) was catastrophic (6th, 20.25 beaten lengths, bobble break). Career-high effort requirement now to return to form. Regression trajectory evident; unlikely to rebound sharply into OC 20k sprint without cleaner recent race.

A Great Shaking — Model identifies VULNERABLE sustained speed rating with pace collapse risk. Three recent turf sprints show deceleration patterns (closing speeds 35-39 mph, opening speeds 38-41 mph). If early speed horses dictate a hot half-mile (likely in this field), A Great Shaking will struggle to sustain velocity in the stretch. Regression risk against stronger sustained-speed horses.

Ryan's Girl — Closing specialist with VULNERABLE sustained rating shows inconsistent finishing effort across recent turf starts. Bounce risk present if early pace fails to set up properly (moderate pace may compress her finishing room). Post 10 creates traffic risk that further reduces likelihood of clean run.

SECTION 6: SUGGESTED BETS

WIN BET: WILD WEST COAST — Confidence 7/10 — Target odds: 9/5–2/1

The model projects 22% win probability — highest in the field — driven by elite turf route-to-sprint form, class edge, proven 8-furlong win at AOC level on 8/23, and tactical positioning advantage from post 6. Her STRONG sustained speed and low deceleration profile guarantee velocity maintenance through the stretch. While currently posted at 9/5 (implied 35.7% probability, representing a -13.7% overlay underlay), the model recognizes her as the strongest single-race selection based on objective speed metrics and form efficiency. Tactical positioning from mid-field break allows flexible pace tracking. Kimura K. jockey (14.71% SA win rate, proven on this horse's profile) provides rider reliability.

VALUE PLAY: CLUBHOUSE BRIDE — Confidence 8/10 — Target odds: 5/1–7/1 (Edge: +3.7%)

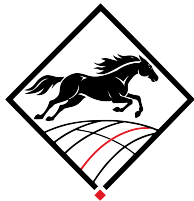

The model projects 18% win probability at 6/1 morning line odds, representing a STRONG VALUE overlay (+3.7% edge). Clubhouse Bride presents the best risk-reward profile in the race. She matches Wild West Coast's STRONG sustained speed rating and low deceleration profile while offering 300% better pricing. Her five career 6f turf wins demonstrate proven distance mastery. Recent 9/7 Dmr AOC turf start (finished 2nd, 0.5 beaten lengths, clean trip) confirms form readiness and class fit in OC 20k company. Trainer Mathis Andy (15% win rate turf sprint) and jockey Gonzalez R. (0% recent form but serviceable rider) provide standard support. Trip projection: track mid-field 1–2 lengths, rally three-wide into stretch, powerful finishing kick.

LONGSHOT PLAY: MAGGLES McGEE — Confidence 6/10 — Target odds: 5/1–6/1 (Edge: Minimal — 3/1 ML insufficient)

The model projects 14% win probability; however, at 3/1 morning line (25% implied probability), Maggles McGee represents NO GENUINE OVERLAY (model win% < ML implied%). Therefore, the longshot play slot is **omitted**. While her dynamic late-acceleration and ELITE opening speed profile merit consideration at higher odds, current 3/1 pricing does not offer sufficient edge to recommend as a distinct wagering opportunity.

MULTI-RACE WAGERS — Pick 3/4/5/6 Top 3

A: Wild West Coast — 22% (*Win Bet match, highest model probability*)

B: Clubhouse Bride — 18% (*Secondary selection, strong value play*)

C: Maggles McGee — 14% (*Third option, dynamic closer profile*)

Combined Projected Probability: 54%

SECTION 7: CONFIDENCE RATING

★★★★ (4/5 Stars)

Summary: The model projects a competitive race heavily influenced by the moderate pace scenario and sustained-speed profiles of the frontrunning/mid-pack horses. Wild West Coast emerges as the highest-probability selection at 22%, though her 9/5 morning line odds (35.7% implied) suggest public overestimation of winning chances. The model's **primary recommendation** is **Clubhouse Bride** at 6/1, which delivers superior value (+3.7% edge) while matching Wild West Coast's elite sustained-speed rating and proven 6f turf mastery. The public's obsession with the speed-favoring odds on the morning line favorite creates opportunity in the Clubhouse Bride overlay slot. Maggles McGee's maiden-to-second-start transition adds unpredictability; her dynamic closing pattern merits consideration in multi-race sequences but does not qualify as standalone value at current 3/1 pricing.
