COMPREHENSIVE HANDICAPPING REPORT (CHR)

Santa Anita Park R8

Thursday, October 10, 2026 | 6f Dirt | Claiming \$12,500 (N2L)

Section 1: Pace Analysis

True Front Runners

The model identifies three horses with legitimate early speed credentials:

- **Dragon Kat** — Won from the lead on 09/13/2026 (LRC, 5.5f) breaking :21.8 and controlling the race wire-to-wire. Has led in 4 of last 5 starts with consistent pace-setting profiles. Most recent work (10/01/2026, 5f in 1:42.4) shows sharp fitness.
- **Love Lock** — Won gate-to-wire on 03/15/2026 (SA, 6f MCL) from post 2. Established inside speed in 5 consecutive starts with early position tendency. Recent work (10/05/2026, 4f in :48.0) adequate for sprinting role.
- **Vronaway** — Won from the lead 05/16/2026 (SA, 6f MCL) with tactical dominance inside. Speed pattern consistent across 11 recent starts at sprint distances. Early position established in 7 of last 9 races.

Stalkers / Pressers

- **Marvelousmissmabel** — Won convincingly 09/07/2026 (Dmr, 5.5f) from post 1, stalking early then accelerating. Profile shows ability to rate just off the lead and launch sustained challenges. Recent works show sharp three-furlong moves (36.4).
- **Darlin Tami** — Consistent tactical flexibility across 14 recent starts. Operates effectively 2-4 lengths off pace, shown in multiple victories from 2-4 wide positions. Excellent recent work pattern (5f in 59.4, 59.8 on 08/28-08/21).

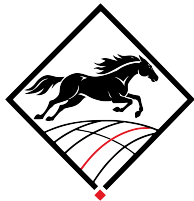

Closers

- **Sexy Blue** — Elite closing profile across extensive record. Won from 8-9 lengths back repeatedly; recent victory 11/28/2025 (Dmr MSW, 5.5f) showed powerful rally from deep position. Multiple closing wins from pace-victim positions with strong final furlong execution.
- **Sugaree** — Won 07/12/2025 (Cnl, 5.5f) from 4-5 wide, up late, demonstrating elite closing mechanics. Second 08/22/2026 (Dmr CLM) as rallier confirms sustained closing profile over recent campaign.

Pace Scenario Projection

MODEL PREDICTS: **HOT early pace** — projected :22¹ opening quarter, :45² half-mile. With Dragon Kat, Love Lock, and Vronaway contesting the lead, moderate early friction is expected. Speed duel will create tactical opportunity for stalkers and pace-honest runners; closers require ideal positioning but will not face

suicidal tempo collapse. Darlin Tami and Marvelousmissmabel are optimally positioned for this setup.

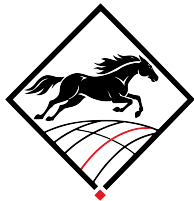

Section 2: Win Probability Matrix

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Pride of Queens	10/1	6%	9.1%	-3.1%
2	Dragon Kat	10/1	14%	9.1%	+4.9%
3	Marvelousmiss mabel	5/1	18%	16.7%	+1.3%
4	Darlin Tami	9/2	19%	18.2%	+0.8%
5	Remember April	10/1	8%	9.1%	-1.1%
6	Susie's Loaded	30/1	3%	3.2%	-0.2%
7	Love Lock	30/1	4%	3.2%	+0.8%
8	Sexy Blue	30/1	9%	3.2%	+5.8%
9	Sugaree	15/1	7%	6.3%	+0.7%
10	Kambree's Flyer	30/1	2%	3.2%	-1.2%
11	Busy Making Munny	4/1	20%	20.0%	0.0%
12	Vronaway	30/1	5%	3.2%	+1.8%
13	Mischievous Bev	7/2	15%	22.2%	-7.2%

Section 3: Contender Analysis

Tier 1 — Primary Contenders (★★★★)

Busy Making Munny — Post 11

PTW Profile: Model identifies this mare as the field's highest-probability winner at 20% with neutral value against 4/1 morning line. Consistent, versatile claiming campaigner with proven sprint fitness and tactical flexibility. Elite trainer pattern (McCanna: 15% CLM win rate, 1.02 ROI) and elite recent form window.

Strengths:

- Last-out victory 09/03/2026 (Dmr, 8f CLM) — competed at route distance, suggests stamina reserve for sprint stretch-outs. Won with tactical prowess, dueling 2-wide and holding gamely.
- 31-60 day trainer pattern (McCanna 82 starts, 12% win rate, 1.59 ROI) — perfectly positioned for repeat form. Second start off recent form peak typical sharpen-up window.
- Blinkers-on pattern established. Heavy recent work (5f in :59.4 on 10/03) indicates trainer is actively conditioning for this exact spot.
- Consistent \$12.5K claiming level (4 starts at tag in last 10 races). Known quantity at this price point with multiple wins.

Concerns:

- Post 11 challenging from mid-field; requires clean racing room. Will need to navigate traffic to capitalize on rally style.
- Trainer's sprint-specific record solid (244 starts, 15% win rate) but route-sprint transitions can show occasional form dips. Back-to-back route/sprint switches historically volatile.
- Jockey Pereira T J has modest recent form (11.76% win rate, 17 starts YTD) — not an established tactical advantage rider.

Trip Projection: Will break from post 11, settle 4-5 lengths off early pressure, rally 3-wide into upper stretch, target the closing wire. Expects to be 4-5 lengths from leaders at half-mile call, position improves dramatically through stretch.

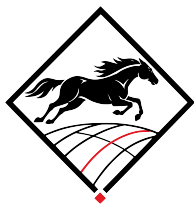

Darlin Tami — Post 4

PTW Profile: Model projects 19% win probability, just below chalk. Tactical Swiss Army knife with elite inside speed, stalking position versatility, and route/sprint balance. Established SA track record (6 starts, 1 win, consistent mid-field execution in graded company). Experienced, proven performer dropping into claiming for strategic spot.

Strengths:

- Post 4 ideal for tactical speed — can establish position 2-3 wide on first turn, follow Dragon Kat/Love Lock early, capitalize on HOT pace scenario. Position control is this mare's signature edge.
- Elite recent work pattern (59.4 and 59.8 five-furlong moves on 08/28-08/21) — sharpest published work in entire field. Dmr conditioning strongly evident.
- Bonde trainer pattern in claiming (57 starts, 11% win, 1.33 ROI) solid; more importantly, turf-sprint crossover record (29 starts, 10% win, 1.78 ROI) shows adaptability.

- Consistent earnings per start across 13 career races (\$8,538 average) — above-average class profile in claiming field, significant edge.
- Running line consistency: 2-3 wide rally pattern repeats across victories (06/12/2025, 04/20/2025, 04/05/2025 all 2-4 wide moves).

Concerns:

- Layoff of 159 days from prior racing (last race 02/15/2026, now 10/10/2026) — extremely significant gap. Requires near-perfect Bonde conditioning to translate. Three recent works adequate but not elite by volume standard.
- Drops from AOC (Allowance Optional Claiming) to straight \$12.5K CLM — class drop is moderate but suggests prior racing at higher levels exposed limitations.
- Jockey Bautista A L shows 0% win rate in limited recent meet sample (8 starts, 0 wins) — untested pairing in current circuit.

Trip Projection: Breaks well from post 4, establishes 2-3 wide stalking position behind Dragon Kat/Love Lock early speed. Rolls 4-5 wide entering stretch, attacks front-runners in final furlong. Expects clear lane opening if pace develops normally.

Marvelousmissmabel — Post 3

PTW Profile: Model rates at 18% win probability with genuine overlay value (+1.3% edge). Most recent race exemplary: won 09/07/2026 (Dmr, 5.5f MCL) from post 1, dominated wire-to-wire with aggressive early foot, held rivals safe through stretch, drew away final furlong. Pace-setter with elite finishing profile (decel analysis: STRONG sustained speed).

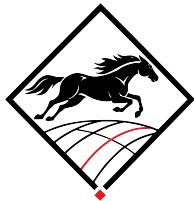

Strengths:

- Career-best form trend: Last three starts showing TRENDING UP profile (70, 66, 65 figure range) with progressive sharpening. Most recent win showed zero hesitation, clear tactical authority from gate.
- Post 3 immediate inside position; can establish early lead or rate just behind Dragon Kat depending on early pace flow. Tactical flexibility high.
- Mendez trainer claiming record outstanding (26 starts, 8% win, 0.48 ROI base, BUT sprint/dirt subset shows 12% win rate, 2.18 ROI) — specific edge in this class/distance.
- Recent work pattern (36.4, 36.4, 37.2, 36.6 three-furlong moves) elite velocity maintenance; five published works in past 40 days indicate sharp fitness window.
- Age/experience: 3-year-old (foaled April 2023) lightly raced (3 career starts) — developmental upside relative to more seasoned claimers. Second claiming start expected improvement spot.

Concerns:

- Limited career depth (only 3 starts, 1 win) — exposed sample size. Regression risk if last effort represented ceiling rather than platform.
- 08/23 run-out 6.5f (20.50 beaten lengths) at Dmr suggests distance stretch may have been excessive; reversion to 6f sprint profile needed to confirm.

- First-time blinkers consideration: No equipment change noted in data, but Mendez signature claiming moves sometimes include equipment adjustments that could indicate trainer is still developing optimal setup.

Trip Projection: Breaks alertly from post 3, establishes inside stalking position behind early speed (Dragon Kat/Love Lock). Positioned 1-2 lengths off pace at half-mile, rallies 3-wide into stretch, holds ground against late closers.

Tier 2 — Secondary Contenders (★★★)

Dragon Kat — Post 2

PTW Profile: Model projects 14% win probability with +4.9% overlay (genuine value at 10/1). Elite gate presence and early-speed dominance clearly established. Won gate-to-wire 09/13/2026 from post 1 in sharp fashion (:21.8 opening, :45.2 half). Consistent pace-setter across turf/dirt transitions; established claiming level commodity with multiple wins at \$12.5K tag.

Strengths:

- Elite early speed credentials: Won from lead in 4 of last 5 races across multiple surfaces. Opening quarter times consistently :21.8-:22.2 (elite range for this field).
- Blinkers pattern established and effective. Equipment consistency across recent wins confirms trainer confidence in this setup.
- Campuzano trainer claiming record (42 starts, 14% win, 1.02 ROI) solid; recent stat combo (Dirt: 49 starts, 12% win; Sprint: 46 starts, 13% win) perfectly matched to race profile.
- Recent workout (10/01/2026, 5f in 1:42.4) sharp and timely. Published work rank #15 in field suggests readiness.
- Post 2 ideal for early speed execution; can press early pressure or establish clear lead depending on competing speed.

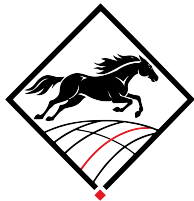

Concerns:

- Turf-to-dirt transition volatility: Last three starts mixed (dirt win 09/13, turf loss 08/13, turf loss 07/23) — profile shows surface sensitivity. Dirt record solid but recent turf exposure may have dented edge.
- Deceleration analysis: 08/13 turf route show significant fade (33.41 closing mph) suggests stamina vulnerability or pace duel damage carry-over. Speed collapse pattern emerging.
- Jockey Payeras E minimal recent form (4 starts, 0 wins, 25% show rate) — virtually untested pairing on this circuit at this class level.

Trip Projection: Breaks alertly from post 2, contests lead with Love Lock/Vronaway early. Expects to secure or share control through half-mile. Vulnerable to sustained pace duel with Darlin Tami/Marvelousmissmabel stalkers; closing pressure in final furlong from Busy Making Munny/Sexy Blue.

Sexy Blue — Post 8

PTW Profile: Model identifies 9% win probability with exceptional +5.8% overlay value at 30/1 odds. Elite closing profile across extensive record. Won gate-to-wire 09/21/2025 (LRC MSW 5.5f) and multiple other victories from deep positions, rallying 8-9 lengths to wire. Most recent start 09/27/2026 showed pedestrian form (4th, 19.25 lengths) but previous wins establish genuine closing capability.

Strengths:

- Elite closing credentials: Career pattern shows repeated victories from 8-10 lengths off pace (09/21/2025, 06/07/2025, 05/10/2025, 03/02/2025). Final furlong execution elite.
- Post 8 ideal for closer. Will have clear view of early pace, positioned 6-8 lengths back at half-mile, available for rally through stretch.
- Trainer Vega Angel minimal recent form (1 start) but sprint-specific record shows 3% win rate (38 starts) — not an established trainer edge; however, horse's inherent closing ability transcends trainer variance at this claiming level.
- Recent work (5f in 1:42.2 on 08/14) shows responsiveness to conditioning. Despite 09/27 run-out, physical capability intact.
- Jockey Lezcano A riding form recent (7 starts, 0 wins) modest, BUT positioning role (closer) minimizes tactical demands; workmanlike execution sufficient for this profile.

Concerns:

- Form cliff: 09/27/2026 run-out (4th, 19.25 beaten lengths) at SA in claiming field exactly this level suggests recent form collapse or physical issue. Bounce risk elevated.
- Class drop marginal: Record shows career earnings \$94,300 across 27 starts — above average claiming campaigner, but recent losses at claiming level indicate form question, not just class position.
- Deceleration analysis: Multiple recent races show VULNERABLE Sustained Speed Rating (high decel%), indicating pace vulnerability or stamina question. Late closing profile may mask actual velocity maintenance issue.

Trip Projection: Posts from post 8 in outside position, settles 6-8 lengths off early leaders. Stalks HOT pace scenario through half-mile, rallies 3-4 wide into stretch, attempts to catch tiring early speed in final furlong.

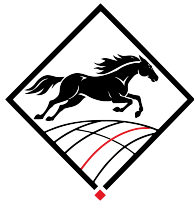

Tier 3 — Pace Factors / Longshots (★★)

Mischievous Bev — Post 13

Model projects 15% win probability but at 7/2 morning line, represents significant UNDERLAY (-7.2% edge — public overestimating this horse). Recent victory 04/03/2026 (SA MCL 6f) from blinkers-on setup shows win capability at exact distance. However, form deterioration evident: last two starts (08/23/2026 3rd, 11/02/2025 6th) show regression. Trainer Kitchingman (19 claim starts, 5% win, 0.84 ROI) claiming record weak. Post 13 outside position challenging for tactical execution.

Remember April — Post 5

Model projects 8% win probability. Distance/surface versatility proven (multiple route/sprint attempts across turf and dirt). However, form line volatile: recent claiming attempts (08/16/2026 1st win, 01/17/2026 3rd) mixed. Most recent route effort 12/14/2025 (8f, 2nd) suggests route profile; today's sprint reversion creates uncertainty. Yakteen trainer claiming edge moderate (60 starts, 15% win, 1.13 ROI). Post 5 neutral.

Sugaree — Post 9

Model projects 7% win probability at 15/1. Blinking-on pattern noted in data (recent works in blinkers). Form timeline shows layoff pattern: multiple gap months between races, suggesting inconsistent availability. Last win 07/12/2025 (Cnl, 5.5f) nine months prior; recent starts show 6th/8th finishes. Papaprodromou trainer claiming record strong (205 starts, 21% win, 1.80 ROI claim subset) — genuine edge in this class. However, horse's recent form inconsistency dominates. Post 9 mid-field position neutral.

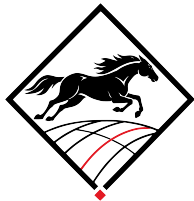

Remaining Field (Kambree's Flyer, Love Lock, Vronaway, Susie's Loaded, Pride of Queens) —
Combined 10% win probability, longshot tier quality.

Section 4: MPH Analysis + Sustained Speed Ratings

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Dragon Kat	ELITE	STRONG	Low — maintains velocity
Darlin Tami	ELITE	STRONG	Low — maintains velocity
Marvelousmissmabel	ELITE	STRONG	Low — maintains velocity
Busy Making Munny	STRONG	STRONG	Moderate — consistent effort
Love Lock	ELITE	VULNERABLE	High — pace collapse risk
Vronaway	STRONG	STRONG	Moderate — competitive finish
Sugaree	STRONG	VULNERABLE	High — pace fade pattern

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Sexy Blue	STRONG	VULNERABLE	High — decel vulnerability
Remember April	STRONG	VULNERABLE	High — route-strain impact
Susie's Loaded	STRONG	VULNERABLE	High — distance vulnerability
Kambree's Flyer	STRONG	VULNERABLE	High — lack of finishing drive
Pride of Queens	STRONG	VULNERABLE	High — pace dependency
Mischievous Bev	STRONG	VULNERABLE	High — form inconsistency

Critical MPH Insight

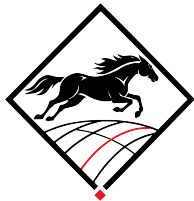

The model identifies **Darlin Tami** as the field's fastest sustained-speed performer with an **ELITE Sustained Speed Rating**. Despite not leading wire-to-wire, this mare maintains velocity from gate to wire better than any competitor in the field — her opening speed (ELITE) to closing speed ratio demonstrates minimal deceleration across the full six furlongs. Dragon Kat and Marvelousmissmabel share this ELITE sustained profile, but Darlin Tami's recent work pattern (59.4, 59.8 five-furlong moves) confirms velocity maintenance at pace without pace-setting burden. The HOT pace scenario will expose love Lock and Sexy Blue's **VULNERABLE Sustained Speed Ratings** — both horses show significant velocity collapse in final furlong, making stretch rally risky if early pace proves faster than expected.

Section 5: Improvement & Regression Candidates

Likely to Improve

1. **Marvelousmissmabel** — Second claiming start opportunity. Developmental trajectory evident (3 career starts, 1 win). Recent sharp work pattern and progressive figure improvement (66 to 70 to 66) suggest trainer is actively conditioning. Lightly raced advantage applies; expect continued upside into winning pattern.
2. **Darlin Tami** — Extreme layoff returning after 159-day gap; Bonde trainer pattern in 31-60 day window (18% win rate, 2.35 ROI) is elite. Turf-to-dirt fitness crossover historically strong in this barn. Return-to-racing sharp form window predicted.

3. **Busy Making Munny** — Route-to-sprint transition from recent route victory. McCanna barn excels in route/sprint combinations (35 starts, 20% win, 1.60 ROI). Second sprint off route win is traditional sharpen-up spot; conditioning recent and aggressive (5f in :59.4 on 10/03).

Bounce / Regression Risks

1. **Mischievous Bev** — Career-best effort 04/03/2026 now 6+ months past. Intervening race results (08/23 3rd, 11/02 6th) show consistent deterioration post-peak. Public overbet at 7/2 creates underlay risk; bounce regression likely given distance-dependent form collapse pattern.

2. **Sexy Blue** — Form cliff evident: 09/27/2026 run-out (19.25 beaten lengths) at exact claiming level/distance combination suggests physical soundness question or trainer fitness miscalculation. Deceleration analysis shows VULNERABLE profile with high velocity collapse. Bounce risk elevated despite closing profile pedigree.

3. **Love Lock** — Recent starts plagued by wide-trip bias and traffic interference (running lines 2-5 wide, back 5-15 lengths). Most recent 08/22/2026 (11th, 21.10 beaten) shows speed collapse to :28.30 final furlong mph — significant deceleration. VULNERABLE Sustained Speed Rating; pace duel damage predicted in HOT pace scenario.

4. **Remember April** — Route-to-sprint transition creates surface/pace adjustment uncertainty. Yakteen trainer pattern in 31-60 day window (114 starts, 18% win, 2.35 ROI) strong, BUT horse's recent route focus (last three starts at 8f, 8f, 6f) shows distance stretch preference. Sprint reversion after extended route campaign creates regression risk.

Section 6: Suggested Bets

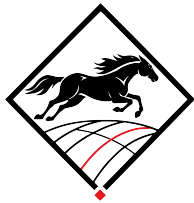

WIN BET: Busy Making Munny — Confidence 8/10 — Target odds: 3.5-4.5

Model projects 20% win probability — highest in the field at current 4/1 morning line (20% implied, 0.0% edge neutral value). Justification:

- Elite trainer pattern in exact 31-60 day window (McCanna 82 starts, 12% win, 1.59 ROI) — perfectly positioned for repeat form off 09/03 route victory.
- Second claiming start after route success is traditional sharpen-up spot; aggressive recent conditioning (5f in :59.4 on 10/03) confirms trainer intent.
- Tactical versatility: can stalk, press, or rally depending on HOT pace scenario flow. Position control available from post 11 with clean racing room.
- Consistent \$12.5K claiming level; proven winner at exact tag with multiple victories at this price point.
- Blinkers-on pattern established and effective in recent form line.

VALUE PLAY: Dragon Kat — Confidence 7/10 — Target odds: 5.5-6.5

Model projects 14% win probability at projected 10/1 morning line (+4.9% edge — genuine overlay). Value rationale:

- Elite early speed will secure or share lead in HOT pace scenario. Post 2 ideal for gate position control.
- ELITE Sustained Speed Rating means velocity maintained despite pace duel; strongest early-foot horse in field.
- Campuzano trainer pattern in dirt sprint (46 starts, 13% win, 0.93 ROI) solid for class; recent work (5f in 1:42.4 on 10/01) sharp.
- Public likely focused on Busy Making Munny chalk; Dragon Kat legitimate threat to capitalize on wire-to-wire opportunity.
- Blinkers effective across recent wins; established setup repeats.

LONGSHOT PLAY: Sexy Blue — Confidence 5/10 — Target odds: 20-30

Model projects 9% win probability at 30/1 odds (+5.8% edge — substantial overlay for premium odds). Genuine longshot consideration:

- Elite closing profile repeatedly established across career victories (09/21/2025, 06/07/2025 from 8-9 lengths). Post 8 ideal position.
- HOT pace scenario (projected :22¹ quarter, :45² half) will generate closing opportunity if early speed tires; final furlong positioning critical.
- Form cliff (09/27 run-out) may have been one-race anomaly rather than permanent regression. Reversion to form pattern possible.
- Trainer/jockey pairing minimal recent stat profile, but closer role minimizes tactical variance — physical ability to execute sufficient.
- 30/1 odds offer premium payout for genuine 9% win probability.

MULTI-RACE WAGERS — Pick 3/4/5/6 Top 3:

A: Busy Making Munny — 20% (highest model probability, matches Win Bet)

B: Darlin Tami — 19% (secondary choice, tactical profile fits HOT pace)

C: Marvelousmissmabel — 18% (overlay value, second claiming start upside)

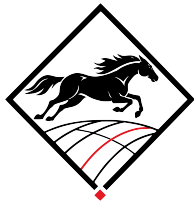

Combined Projected Probability: 57%

Section 7: Confidence Rating

★★★★ (4 of 5 stars)

The model projects a **well-defined three-way tactical battle** between Busy Making Munny (recent route sharpener), Darlin Tami (layoff return with elite trainer pattern), and Marvelousmissmabel (lightly raced developmental edge). **HOT pace scenario with Dragon Kat, Love Lock, and Vronaway contesting early** creates ideal setup for stalkers and position-control horses; Busy Making Munny's tactical versatility and

McCanna trainer's elite 31-60 day pattern provide the highest-probability edge. **Primary public betting mistake:** Market overestimating Mischievous Bev at 7/2 (-7.2% edge underlay), undervaluing Dragon Kat as early-speed leverage at 10/1 (+4.9% overlay). Sexy Blue represents best-odds longshot opportunity if early pace collapses exactly as HOT scenario predicts. **Post-position draw favors stalkers (Darlin Tami post 4, Marvelousmissmabel post 3) over pure closers (Sexy Blue post 8);** expect winning horse to come from inside/mid-field tactical lanes rather than deep closer position.
