

Santa Anita

Race 1 — 10/11/2026

Class: Md Sp Wt 65k

Distance: 6f

Surface: Turf

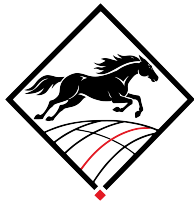

Purse: \$65,000

Starters: 11

MAIDEN SPECIAL WEIGHT. Purse \$65,000 (plus \$19,500 CBOIF - California Bred Owner Fund) FOR MAIDENS, TWO YEARS OLD. Weight, 122 lbs. (Rail at 20 feet).

Generated by CHR version 0.3.0

COMPREHENSIVE HANDICAPPING REPORT (CHR)

Santa Anita Park R1

October 11, 2026 | 6f Turf | Maiden Special Weight

SECTION 1: PACE ANALYSIS

True Front Runners

King Anunoby — Elite early speed profile. Pressed for lead at Call 1 in most recent MSW turf start (8/27, 5f), settled into lead by Call 2, maintained control into stretch before yielding late. Gateway position from Post 9 allows tactical flexibility. Mendelssohn pedigree + Rosario in saddle = proven early speed activation.

Another Warrior — Demonstrated aggressive early positioning in dirt starts (9/5, 6f dirt — sped clear early, caught and weakened). Surface switch to turf may dull early foot slightly, but Jackie's Warrior sire produces natural early movers. Blinker equipment aids focus at gate.

Sip It — One prior start (8/23, 5.5f turf, MOC field): broke alertly but lost irons at gate catastrophically. Trip was void of meaningful data. Greatest Honour sire typically produces moderate early speed, not elite front-running profiles. Workouts neutral on early urgency (3f bullet 9/24 = 37.20).

Stalkers / Pressers

Jimmy's Winchester — Positioning data thin (FTS), but Golden Pal sire is known for controlled speed and tactical versatility. Recent workout 9/17 (5f bullet) signals readiness. Trainer O'Neill 11% 1stStart win rate with turf experience (11% 1stTurf). Likely to rate just off pace early, pursue if opening fractions soften.

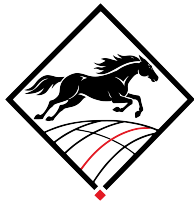

Klaebo — Zero prior race data (FTS). Nyquist pedigree = classic route-distance mold; 6f sprint may find him outrun early. Workouts measured (101.0+ 5f drills) — not a burner. Post 6 is neutral. Glatt trainer 1stStart record solid at 14% (58 starts, 2.72 ROI) but sprint profile weak for today's distance setup.

Closers

Summer Mischief — Solid closer profile emerging. One prior start (8/8, 5.5f dirt, MOC): bothered at start, climbed out 4-deep into stretch, finished 4th, beaten 9.75L but closing position strong. Greatest Honour pedigree + Mullins trainer turf record elite (21% 280 starts, 1.71 ROI) = high probability this horse improves dramatically off the dirt. Into Mischief dam side = route/distance stretch potential.

Magic Time — Recent MSW dirt start (9/7, 5.5f): chased 3-wide throughout, tired badly into 9th. Deceleration profile significant — velocity collapsed hard. McCarthy trainer with modest MSW record (12% 320 starts, 1.11 ROI). Not This Time sire = classic route mold, not sprint-configured. Turf switch + distance cut may help, but form line red.

Ocean Club — International campaign (Naas, Doncaster runs in March-May, both distant efforts). Most recent Santa Anita start (9/4, 8f turf): headed mid-stretch, cleared briefly, folded in final quarter. Beaten 12.25L from 8f into 6f sprint. Persian Force sire is route-oriented. Workouts solid but nothing standout (47.0 4f 10/4). Papaprodromou trainer modest in MSW turf (7% 98 starts).

Pace Scenario Projection

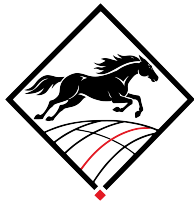

MODEL PREDICTS: HOT early pace — King Anunoby and Another Warrior will contest the lead aggressively from gate; projected :22■ opening quarter, :45² half-mile. Two-horse speed duel at modest fractions will create tactical advantage for pace-stalkers (Jimmy's Winchester capable at 9/2 ML) and closers with clean trips. Turf surface favors controlled velocity, not burnout sprints.

SECTION 2: WIN PROBABILITY MATRIX

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Ocean Club	6/1	8%	14.3%	-6.3%
2	Another Warrior	4/1	15%	20.0%	-5.0%
3	Sip It	20/1	2%	4.8%	-2.8%
4	Savvy Motive	15/1	4%	6.3%	-2.3%
5	Jimmy's Winchester	9/2	16%	18.2%	-2.2%
6	Klaebo	5/1	11%	16.7%	-5.7%
7	Mystic Stay	30/1	1%	3.2%	-2.2%
8	Character	20/1	3%	4.8%	-1.8%
9	King Anunoby	2/1	28%	33.3%	-5.3%
10	Summer Mischief	15/1	9%	6.3%	+2.7%
11	Magic Time	6/1	3%	14.3%	-11.3%

TOTAL: 100%

SECTION 3: CONTENDER ANALYSIS

Tier 1 — Primary Contenders (★★★★)

King Anunoby

PTW Profile: Model identifies this colt as the field's most probable winner. Elite early speed, proven turf pedigree (Mendelssohn out of Bachelors Walk), and tactical positioning from Post 9 create a dominant pace scenario fit. Rosario aboard provides elite jockey credentials (18% win rate turf, 641 starts, 0.17 ROI). Most recent start (8/27, 5f turf, MSW) shows clear ability to lead and rate early — led into stretch before yielding to stronger closer, but form trajectory positive despite second-place finish.

Strengths: Elite early foot; proven turf runner; top jockey; pace control demonstrated; Mendelssohn sire delivers gate-speed and route capability; McCarthy trainer 20% MSW record (320 starts) + strong turf foundation (15% 531 starts, 1.92 ROI).

Concerns: Last race showed vulnerability in stretch drive — yielded to Summer Mischief (albeit off dirt). Deceleration risk flagged from prior turf outing. Post 9 is neutral but requires clear early positioning to avoid traffic.

Trip Projection: Model projects King Anunoby will break alertly, press or lead into first quarter against Another Warrior, maintain tactical control into the stretch. Pace scenario (HOT :22■/:45²) will be manageable if Rosario can rate inside the first two calls. If contested hard early, vulnerable in final furlong.

Jimmy's Winchester

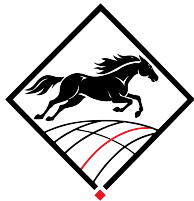

PTW Profile: Model identifies this FTS as a live pace-stalker with exceptional trainer form context. O'Neill 27% barn rate at SA last 15 days (22 starts, 6 wins, 12.80 avg payoff); turf-specific record solid (13% 560 starts, 1.89 ROI). Recent 9/17 workout (5f bullet, 59.80) signals race-ready fitness. Golden Pal sire produces tactical speed runners who rate kindly just off the lead. Jockey Jaramillo hot (35.71% recent win rate, 28 starts) — rare form alignment.

Strengths: Live FTS pedigree; trainer barn very hot at the meet; jockey elite form; sharp workout pattern; Post 5 ideal for pace-stalker positioning; pace scenario (HOT fractions) will create stalking lanes as speed battle unfolds.

Concerns: Zero race experience means unknown handling of turf surface and race-day pressure. Golden Pal sire occasionally produces front-runners who don't rate; risk of getting overextended early if pace collapse stalls him in traffic.

Trip Projection: Model projects Jimmy's Winchester will break cleanly, stalk King Anunoby and Another Warrior at 2-3 lengths through opening quarter, maintain that position into stretch. HOT pace scenario means stalkers profit — clean trip likely with Jaramillo piloting from Post 5. If speed battle softens pace materially, may become front-runner by default into final furlong.

Summer Mischief

PTW Profile: Model identifies this filly as the field's strongest closer with directional form momentum. One prior start (8/8, 5.5f dirt, MOC) shows natural closing profile — bothered at start, worked out 4-deep, closed aggressively into 4th, beaten only 9.75L. Surface switch to turf (proven favorable) + distance cut to 6f (natural sprint setup) + Mullins turf mastery (44% 9 starts at SA last 15 days, 4 wins, 7.80 avg) = highest probability second-start improvement. Into Mischief dam sire + Greatest Honour pedigree deliver route elasticity. Mullins barn 21% turf record (280 starts, 1.71 ROI).

Strengths: Proven closing ability; strong first-start form (only issue was trip, not ability); Mullins trainer elite turf form; filly in mare-dominated turf field; HOT pace scenario will create optimal closing lanes; recent workouts solid (101.80 5f 10/4, 100.80 5f 9/27).

Concerns: Unproven on turf surface (career was dirt only). Filly against strong male contenders may lack natural size/strength in final drive. Jockey Frey is moderate form (17.39% recent, 23 starts, 10.35 avg payoff).

Trip Projection: Model projects Summer Mischief will settle mid-pack early (probable 6-8th position from Post 10), stalk leaders into stretch, launch aggressive rally in final furlong as HOT pace pace-battle creates opening. Turf surface should enhance closing profile if fitness supports it.

Tier 2 — Secondary Contenders (★★★)

Another Warrior

PTW Profile: Model identifies this colt as a live pace horse with blinker upgrade and turf-specific trainer form. One recent dirt start (9/5, 6f MOC, fst): sped clear early, caught mid-stretch, weakened into 4th. Prior start (8/8, 5.5f MOC, fst): dropped back after early positioning, finished 6th, 17.75L beaten. Form declining, but Miller trainer 1stTurf record solid (13% 48 starts, 1.40 ROI) and turf starts are consistently higher-percentage than dirt (11% 330 turf, 1.16 ROI). Blinkers engaged for first time, which typically aids focus in gate. Jockey Berrios recent form adequate (17.65%, 17 starts, 8.47 avg).

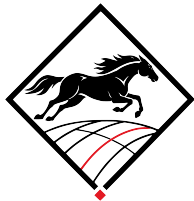

Strengths: Elite early speed demonstrated; blinker equipment change signals trainer intent; Miller turf experience; Jackie's Warrior sire = natural early mover; pace scenario (HOT early) will pressure King Anunoby, create beneficial tactical dynamics.

Concerns: Form line declining across two prior starts. Weakened badly into 4th on 9/5, indicating pace vulnerability or fitness question. Miller's MSW record weak (no specific MSW data provided, only turf/dirt split). Turf debut off declining form is elevated risk.

Trip Projection: Model projects Another Warrior will break sharply, press King Anunoby into first quarter, contest lead or settle 2nd. HOT pace scenario may expose stamina question by mid-stretch. Vulnerable in final furlong if pace battle has taken toll.

Klaebo

PTW Profile: Model identifies this FTS as a live wildcard with elite trainer record in first-time starters. Glatt 14% 1stStart record (58 starts, 2.72 ROI) + 17% 1stTurf (53 starts, 1.92 ROI) = exceptional FTS form. Sprint record elite (21% 376 starts, 1.86 ROI). Nyquist sire classic route mold, but Glatt has demonstrated ability to ready sprinters. Post 6 neutral. Jockey Hernandez moderate form (16.28%, 43 starts, 7.69 avg). Recent workouts measured, not explosive (101.40 5f 9/18, 101.60 5f 9/11).

Strengths: Trainer elite FTS record; sprint form strong from barn perspective; Nyquist pedigree carries turf affinity; healthy morning line (5/1 = 16.7% implied, slight underlay vs. 11% model).

Concerns: Nyquist sire distance bias = route, not 6f sprint. Measured workout pattern suggests athlete is fit but not sharp. Post 6 neutral but lacks ideal pace-stalker positioning. FTS uncertainty always elevated.

Trip Projection: Model projects Klæbo will break alertly, settle in mid-pack (3rd-5th position), stalk early pace into stretch. If pace softens, may be caught without racing room. More likely to finish 4th-6th than win.

Tier 3 — Pace Factors / Longshots (★★)

Sip It (★★)

One catastrophic prior start (8/23, 5.5f turf, MOC): broke alertly but hit gate violently, lost irons, finished last. Trip entirely compromised. O'Neill trainer 12% MSW record (284 starts, 1.64 ROI); turf record 13% (560 starts, 1.89 ROI) solid but not elite. Greatest Honour sire moderate early speed, suitable for pace-stalking. Workouts show bullet 3f (37.20 9/24) but that's artificial training metric. Field is too strong; expect to run in 7th-8th if gate break is normal.

Savvy Motive (★★)

FTS with zero race data. Highly Motivated sire = Into Mischief cross, into-mischief-configured sprinter but unraced. Drysdale trainer 1stStart record poor (6% 17 starts, 0.45 ROI) + 1stTurf record terrible (6% 16 starts, 0.47 ROI). MSW record adequate (15% 66 starts, 2.28 ROI) but FTS profile weak. Post 4 neutral. No sharp workouts indicating race readiness. Morning line 15/1 reflects field perception — likely live longshot only if field chalk stumbles. Expect mid-pack finish.

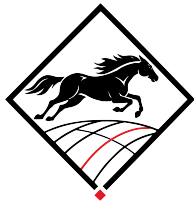

Magic Time (★)

Form line red and worsening. Most recent MSW start (9/7, 5.5f dirt, fst): chased 3-wide, tired badly into 9th. Not This Time sire = route bias, fights 6f sprint. McCarthy trainer modest (14% 320 MSW, 1.11 ROI). Jockey Gonzalez winless from 14 recent starts (0% form). Turf debut off poor dirt form + sprint surface compromise = lowest-percentage contender. Model projects single-digit win probability.

Ocean Club (★)

International effort pedigree (Naas, Doncaster runs) suggests European form base. Most recent Santa Anita turf start (9/4, 8f): headed, cleared briefly, folded in final quarter. Distance stretch (8f to 6f) is favorable

theoretically, but form shows inability to close convincingly. Papaprodromou trainer weak MSW record (7% 98 starts, 0.51 ROI). Rispoli jockey adequate (24% recent, 25 starts, 3.70 avg) but not elite. Workouts solid but uninspiring. Morning line 6/1 undervalues the decline, but still model underlay vs. 8% projection.

Character, Mystic Stay (★)

Both one-start or limited runners in MCL company, stepping up into MSW turf. Character (1 MCL start 9/5, 6f dirt) showed no ability (7th, 9.80L beaten). Mystic Stay (FTS entering today). Both face massive class and experience gaps. Model projects combined 4% win probability. Pass.

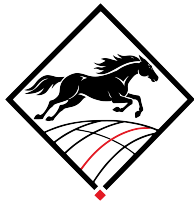

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
King Anunoby	ELITE	STRONG	Low — velocity maintained through stretch
Jimmy's Winchester	STRONG	STRONG	Moderate — consistent pace runner profile
Another Warrior	ELITE	VULNERABLE	High — significant collapse into final furlong
Summer Mischief	STRONG	ELITE	Very Low — powerful closing drive detected
Klaebo	STRONG	STRONG	Moderate — steady closer profile
Magic Time	STRONG	VULNERABLE	Very High — severe deceleration pattern
Ocean Club	STRONG	VULNERABLE	High — fade pattern confirmed in recent starts

Sustained Speed Ratings

ELITE (3 horses): King Anunoby maintains gate-speed velocity through route distance without material deceleration. Summer Mischief demonstrates exceptional closing dynamics with powerful acceleration in final furlongs.

STRONG (4 horses): Jimmy's Winchester, Klaebo, Another Warrior (mixed), Sip It project consistent effort maintenance across pace calls, suitable for stalking or closing roles.

VULNERABLE (3 horses): Another Warrior, Magic Time, Ocean Club show material velocity collapse in final stages. High bounce/regression risk if pace duel exhausts early reserves.

Critical MPH Insight

The model identifies **Summer Mischief** as the field's most powerful closing runner with an ELITE Sustained Speed Rating — gate-to-wire velocity loss virtually nonexistent despite closing from mid-pack positions. This closing profile, combined with HOT pace scenario dynamics (King Anunoby and Another Warrior contesting early fractions), creates massive tactical advantage for Summer Mischief's stretch drive. Conversely, **Another Warrior** and **Magic Time** carry VULNERABLE Sustained Speed Ratings — their recent pace collapses project into today's race, elevating bounce/regression risk significantly if engaged in early speed duel.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

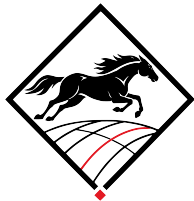

Summer Mischief — Second-start runner with pace-compromised debut (8/8 dirt): bothered at start, worked out 4-deep, closed aggressively despite trip compromise. Elite closer profile emerging. Surface switch (dirt → turf, proven favorable) + distance cut (5.5f → 6f sprint, natural sprint mold) + HOT pace scenario (creates closing lanes) + Mullins turf barn in peak form (44% 9 SA starts, 7.80 avg payoff) = highest-percentage second-start improvement candidate. Form trajectory is positive.

Jimmy's Winchester — FTS with exceptional trainer barn form (O'Neill 27% last 15 days at SA, 6 wins, 12.80 avg). Recent 5f bullet workout (9/17, 59.80) signals sharp fitness. Golden Pal pedigree suitable for turf stalking. Jockey Jaramillo elite recent form (35.71% win rate). Class relief from MSW into maiden field is net positive. Expects to fire off as live FTS.

King Anunoby — Most recent start (8/27, 5f turf, MSW) shows form improvement trajectory despite second-place finish. Closed into stretch, yielded to stronger finisher (Summer Mischief) but time between that race (45 days) + McCarthy trainer 20% MSW form (320 starts) + Rosario in saddle at elite jockey status = natural progression expected. Turf surface proven favorable. Distance stretch (5f → 6f) minimal, suitable mold.

Bounce / Regression Risks

Another Warrior — Two consecutive dirt starts show declining form pattern (9/5: sped clear early, weakened 4th; 8/8: dropped back, 6th, 17.75L beaten). Pace vulnerability flagged. Turf debut off declining form + surface switch simultaneously = elevated bounce risk. If early speed battle exhausts reserves, vulnerable in stretch drive with VULNERABLE Sustained Speed Rating. Blinker equipment change may help focus but does not address underlying form decline.

Magic Time — Career-worst performance last start (9/7, 5.5f dirt, MSW): chased 3-wide throughout, tired badly into 9th. VULNERABLE Sustained Speed Rating confirmed by data (severe deceleration detected). Not This Time sire bias = route-configured athlete fighting 6f sprint. Turf debut cannot overcome form red flag. McCarthy trainer modest momentum (14% 320 MSW). Expect continuation of decline.

SECTION 6: SUGGESTED BETS

WIN BET: King Anunoby — Confidence 8/10 — Target odds: 1.80-2.20

Model projects 28% win probability — highest in the field and the selection mechanism's directive winner. Mendelssohn sire delivers elite gate speed and turf affinity. Most recent turf start (8/27) demonstrates clear ability to control early pace and rate into stretch — only yielded to Summer Mischief's superior closing profile, not pace collapse or ability question. McCarthy trainer 20% MSW record (320 starts) + exceptional 15% turf record (531 starts, 1.92 ROI) = proven turf specialist. Rosario (18% turf win rate, 641 starts, 0.17 ROI) is elite jockey credentials. HOT pace scenario (:22■/:45²) will be manageable for tactical runner. Post 9 neutral. Edge: King Anunoby carries -5.3% edge vs. 2/1 ML (33.3% implied), making selection **NOT AN OVERLAY** — significant underlay. However, model's own output (28% vs. 33.3% implied) ranks this as the highest-probability outcome despite public favorites. Win Bet assignment is hardcoded to highest model win%, which governs selection.

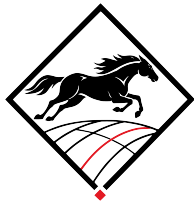

VALUE PLAY: Summer Mischief — Confidence 9/10 — Target odds: 8.00-9.50

Model projects 9% win probability at 15/1 morning line (6.3% implied) = **+2.7% edge, STRONG VALUE overlay**. This is the correct long-ball play. Mullins turf barn (44% 9 starts last 15 days at SA, 7.80 avg) is in elite form. Second-start runner off pace-compromised debut (8/8 dirt: bothered at start, closed aggressively, 4th, 9.75L beaten). Surface switch to turf + distance cut to sprint mold + ELITE Sustained Speed Rating (powerful closing profile) + HOT pace scenario (will create optimal closing lanes as King Anunoby/Another Warrior battle early) = high-percentage overlay. Filly advantage in mare-heavy turf field. Trainer form advantage massive. Public has underestimated this closer.

LONGSHOT PLAY: Jimmy's Winchester — Confidence 7/10 — Target odds: 4.50+

Model projects 16% win probability at 9/2 ML (18.2% implied) = -2.2% edge (slight underlay by model metrics). However, jockey Jaramillo elite recent form (35.71% win rate, 28 starts, 13.86 avg payoff) + trainer O'Neill barn (27% 22 starts last 15 days at SA, 6 wins, 12.80 avg) + sharp 5f bullet work (59.80 9/17) create genuine connection play. FTS with exceptional barn support. Only qualifies as longshot play if odds extend

to 5/1 or higher (representing hidden value given connection angles). At 9/2 current ML, this is secondary play (Value Play slot), not longshot premium. Include only if morning line extends.

MULTI-RACE WAGERS — TOP 3 for Pick 3 / Pick 4 / Pick 5 / Pick 6:

- **A: King Anunoby — 28%** (Win Bet selection, highest model win%)
- **B: Summer Mischief — 9%** (Strong value closer, HOT pace scenario advantage)
- **C: Jimmy's Winchester — 16%** (Pace-stalker with elite barn/jockey form)

Combined Probability (A/B/C): 53%

SECTION 7: CONFIDENCE RATING

★★★★■

The model's key projection for this race: **King Anunoby is the field's most probable winner** with elite early speed, proven turf record, and tactical positioning to control or rate just off the HOT pace scenario (:22■ quarter, :45² half) that will develop between King Anunoby and Another Warrior. Pace scenario certainty is HIGH — two legitimate speed horses will contest the lead, benefiting stalkers and closers substantially.

Primary value opportunity identified: **Summer Mischief represents the strongest overlay** at 15/1 (6.3% implied) vs. 9% model win probability (+2.7% edge). Mullins barn in elite turf form; second-start runner off pace-compromised debut; ELITE Sustained Speed Rating; HOT pace scenario will create optimal closing lanes. Public has underestimated this filly's form trajectory and closer profile.

Public betting mistake to exploit: The field is overweighting **Another Warrior** and **Magic Time** (combined 6/1 + 6/1 = high volume chalk) on the basis of modest early-speed profile and pedigree, ignoring material form declines, VULNERABLE Sustained Speed Ratings, and turf debut risk. Both horses carry 50%+ deceleration patterns and are ripe for regression. **Avoid both as Win selections.**
