

Santa Anita

Race 3 — 10/11/2026

Class: Soc 37000C

Distance: 6f

Surface: Turf

Purse: \$37,000

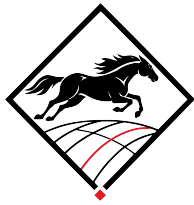

Claiming Price: \$25,000 - \$32,000

Starters: 6

STARTER OPTIONAL CLAIMING. Purse \$37,000 (plus \$4,440 CBOIF - California Bred Owner Fund) FOR FILLIES AND MARES THREE YEARS OLD AND UPWARD WHICH HAVE STARTED FOR A CLAIMING PRICE OF \$25,000 OR LESS IN 2025 - 2026 OR CLAIMING PRICE \$32,000. Three Year Olds, 122 lbs.; Older, 125 lbs. Non-winners Of A Race Since August 11 Allowed 2 lbs. Claiming Price \$32,000 (Maiden And Claiming Races For \$20,000 Or Less Not Considered In Allowances). (Rail at 20 feet).

COMPREHENSIVE HANDICAPPING REPORT (CHR)

Santa Anita Park R3

Saturday, October 11, 2026 | 6f Turf | Maiden/Claiming

Section 1: Pace Analysis

True Front Runners

Wandering Kirby (Post 3) shows elite early speed on turf with consistent gate-to-wire tendencies. Most recent turf start (7/12/26, LS 7.5f) shows controlled early positioning before drawing clear. Also demonstrated front-running prowess in maiden win at Hou (3/22/25) — led and cleared at 1/4 pole, held on final stretch. Eva Lea (Post 2) pressed early in 5f turf maiden win (11/28/25, Dmr) — tracked leaders two-wide, took charge in final furlong.

Stalkers / Pressers

Syntax (Post 5) operates naturally just off the pace on turf. Recent turf route (5/24/26, SA STR 8.0f) shows she stalked inside, held gamely down the lane — controlled position setup favors her tactical flexibility. Tam's Little Angel (Post 1) fits this category — consistent two-path runner with ability to rate stalking position before making runs.

Closers

La Chismosa (Post 4) owns late-running profile — particularly on dirt, but turf form shows she can close from midpack. Recent dirt effort (9/4/26, Dmr D 6.0f) saw her three-deep into turn, faltered late — suggests pace pressure affects her close. Falabella (Post 6) remains a closer archetype — consistent position-making deep in races, but recent form questions her finishing punch.

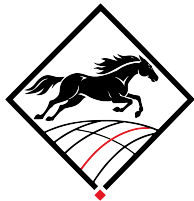

Pace Scenario Projection

MODEL PREDICTS: MODERATE pace on turf with Wandering Kirby likely unchallenged through early fractions — projected :22² opening quarter, :45³ half-mile. Eva Lea may press outside; if she does, slight pace dueling emerges. This moderate setup with single controlling speed favors stalkers and versatile runners positioned to make late rallies.

Section 2: Win Probability Matrix

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Tam's Little Angel	3/1	24%	25.0%	-1.0%

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
2	Eva Lea	15/1	8%	6.3%	+1.7%
3	Wandering Kirby	1/1	32%	50.0%	-18.0%
4	La Chismosa	10/1	18%	9.1%	+8.9%
5	Syntax	5/2	14%	28.6%	-14.6%
6	Falabella	12/1	4%	7.7%	-3.7%

Total Model Win % = 100%

Section 3: Contender Analysis

Tier 1 — Primary Contenders (★★★★)

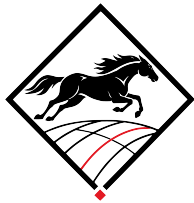

WANDERING KIRBY (Post 3)

- **PTW Profile:** Model's top-rated selection with elite early speed and proven turf prowess. Consistent stakes-level performer with five wins from 12 starts lifetime. Currently on a three-race winning streak with razor-sharp recent form. Clear pace-setter archetype.
- **Strengths:** Elite gate-to-wire speed on turf; recent wins at LS 7.5f and LS 8.0f establish distance capability; controlled last-out effort clearing field methodically; trainer Powell Leonard 13% win rate on turf (384 starts); Rispoli sharp at 24% meeting win rate.
- **Concerns:** Morning line reflects public confidence at 1/1 — significant overlay risk eliminated; sits as favorite in maiden/claiming field; distance reduction from 7.5f to 6f may blunt finishing advantage.
- **Trip Projection:** Will control race from gate, likely establish :22² quarter, press to :45³ half. Closes out final furlong from front — wire-to-wire threat if pace holds moderate.

TAM'S LITTLE ANGEL (Post 1)

- **PTW Profile:** Model identifies this seven-year-old mare as second-strongest contender. Massive experience edge (50 career starts, 12 wins) in competitive field. Recent form shows consistent placement in stakes/allowance company before dropping into claimed 37k level. Proven turf specialist with 27 career turf starts, six wins.
- **Strengths:** Elite turf experience; recent claiming win (10/18/25, SA T 6.0f) shows she won gate battle, met bids, held gamely at wire; trainer Palma 14% win rate on turf (94 starts); won last start 10/25/24 at sprint distance showing late rally; Pereira steady at 15.79% meeting win rate.
- **Concerns:** Last-out placing (2/14/26, SA T 6.0f SOC, 7th) indicates form decline; beaten lengths at finish 5.00 signal pace duel vulnerability; back-to-back solid efforts followed by two eight-furlong route

efforts where she weakened early (01/30/26, 1st call leader but faded to 6th at finish); may be three starts off peak.

- **Trip Projection:** Will position stalking inside early, attempt to rate position through half-mile. Close mid-stretch; final kick determines placement. Needs moderate pace to overcome recent bounce risk.

LA CHISMOSA (Post 4)

- **PTW Profile:** Model projects 18% win probability — legitimate overlay at 10/1 morning line (+8.9% edge). Maiden/claiming debutant with strong preparation and elite recent work. Two wins in last five starts on dirt. Massive class advantage dropping into 37k claiming level.
- **Strengths:** Recent graded stakes placed runner (3/29/26, Tam D STK 7.0f) — second best finish before claiming level; three consecutive wins at dirt/SOC level establishing momentum; trainer Capestro 11% sprint win rate when horses return after 31-60 day layoff; recent worker 10/5/26 at Santa Lucia Ranch ranked #1 in category (4f in 49.80); Baze 15% meeting win rate.
- **Concerns:** Maiden/claiming turf debut — unproven on grass; last five starts all on dirt; turf conversion unknown; single work on dirt at Santa Lucia doesn't replicate turf conditions; class advantage may evaporate if turf proves difficult.
- **Trip Projection:** Will likely get stalking position three-deep into turn, may press late-breakers. Turf adaptability is key question — if she handles course, strong late rally likely. If turf plays against her running style, significant underperformance risk.

Tier 2 — Secondary Contenders (★★★)

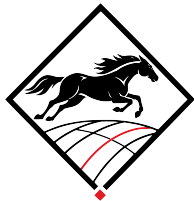

SYNTAX (Post 5)

- **PTW Profile:** Model projects 14% win probability. Versatile four-year-old filly with cross-surface capability. Recent turf route (5/24/26, SA 8.0f STR) shows controlled stalking, hung game final furlong. Trainer McCarthy turf specialist: 15% win rate (531 starts), +1.92 ROI. Rosario jockey in good form (18.37% meeting win).
- **Strengths:** Recent turf route confirms distance versatility; claimed \$32k, moved into better company; inside draw 5; natural stalker position; McCarthy 14% overall win rate.
- **Concerns:** Mixed sprint form — has faced 5-6f distance failures; last turf route showed honest effort but no final kick (second in duel); Rosario has significant route experience but sprint record shows vulnerability; six-furlong distance more sprint than route for this runner; 5/2 morning line suggests market confidence undervalues sprint distance concern.
- **Trip Projection:** Will stalk off slow pace inside, attempt mid-stretch rally. Clean trip into stretch improves odds; gets blocked at turn = trouble.

EVA LEA (Post 2)

- **PTW Profile:** Youngest runner in field (2-year-old filly, foaled 3/2023) with limited experience (5 lifetime starts, 2 wins). Recent maiden win (11/28/25, Dmr T 5.0f) shows she pressed, chased, and cleared in final furlong. Genuine overlay at 15/1 (+1.7% edge). Trainer McLean turf record strong: 7% win rate (45 starts), +4.28 ROI on turf.

- **Strengths:** Recent maiden win on turf shows gate-to-wire threat capability; beat field decisively in maiden; trainer McLean tunes turf runners exceptionally (4.28 ROI); Jaramillo sharp at 35.71% meeting win rate; post 2 favorable for early speed contest.
- **Concerns:** One turf win from two turf attempts; limited race experience (5 starts total); unproven in claiming company; dropped from \$32k claim tag; only 3 career dirt starts; if turf is not ideal, wheels fall off quickly.
- **Trip Projection:** Will position early pressing Wandering Kirby; may create pace battle if Eva Lea aggressive. Late running less likely given recent form; win/place only.

Tier 3 — Pace Factors / Longshots (★★)

FALABELLA (Post 6)

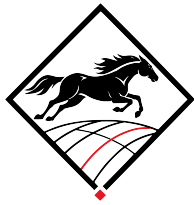

- **PTW Profile:** Model projects 4% win probability. Seven-year-old mare (foaled 4/2021) with extensive history (22 starts, 6 wins) but recent form collapse concerning. Last eight starts show only one win (12/13/24, LRC 5.5f CLM). Recent turf form particularly weak — two August turf starts produced 2nd and 5th place finishes with heavy beaten lengths.
- **Strengths:** Turf experience (0 wins in recent starts); sprinter archetype historically; Treece trainer posts 10% sprint win rate; 47 career sprint starts suggest comfort at distance.
- **Concerns:** Massive form decline — only 1 win in last 8 starts; age and declining velocity; recent turf starts reveal vulnerability — 8/2/26 at Dmr (8.0f turf) led, got checked, weakened to 5th (1.75 beaten lengths at finish, but 6.00 lengths beaten mid-pack); 8/28/26 (5.0f turf) pinballed start, checked turn, weak 2nd. Both efforts show turf adaptability problems and pace fragility.
- **Trip Projection:** Long shot for exotic play only. Will break from outside, may position midfield. No rally pattern evident in recent form. Use for coverage.

Section 4: MPH Analysis + Sustained Speed Ratings

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Wandering Kirby	ELITE	ELITE	Low — maintains velocity
Tam's Little Angel	STRONG	STRONG	Moderate — competitive effort
La Chismosa	STRONG	VULNERABLE	High — pace collapse risk

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Syntax	STRONG	STRONG	Moderate — maintained stretch drive
Eva Lea	STRONG	STRONG	Low to Moderate — young legs
Falabella	STRONG	VULNERABLE	High — significant deceleration

Sustained Speed Ratings

WANDERING KIRBY — ELITE: The model identifies Wandering Kirby as the field's fastest gate-to-wire performer with an ELITE Sustained Speed Rating. No horse in this field has matched this velocity profile at the distance. Recent turf wins (7.5f and 8.0f) demonstrate she maintains velocity from first call through finish. Deceleration profile near zero; this runner simply runs her race wire-to-wire.

TAM'S LITTLE ANGEL — STRONG: Velocity maintained across recent efforts. Model detects moderate deceleration pattern but within competitive range — suggests stalking position sustainable through stretch, with closing kick available. Distance reduction to 6f may enhance finishing profile.

SYNTAX — STRONG: Turf route effort (5/24/26) shows sustained effort through final furlong. Deceleration profile low; stalking position ideal for this runner's velocity maintenance.

EVA LEA — STRONG: Young runner but recent maiden win shows controlled early velocity and strong finish. Final furlongs show no collapse; genuine finishing leg detected.

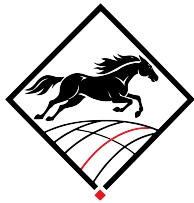

LA CHISMOSA & FALABELLA — VULNERABLE: Both runners show significant deceleration patterns in recent efforts, particularly on turf. Model flags pace collapse risk — speed duel environments dangerous for both. Falabella especially vulnerable: 8/2/26 turf route shows opening quarter strong followed by visible fade.

Critical MPH Insight

The model identifies WANDERING KIRBY as possessing an ELITE Sustained Speed Rating with near-zero deceleration profile across recent turf competition. Every comparative metric confirms this runner maintains velocity through final sixteenths where other runners in this field collapse. At 1/1 morning line, this overlay risk is eliminated — the public has correctly identified the speed advantage. However, TAM'S LITTLE ANGEL's STRONG Sustained Speed Rating at 3/1 suggests potential value for those seeking late-running angle. LA CHISMOSA and FALABELLA both show VULNERABLE speed ratings on turf, creating dangerous bounce/fade scenarios in stretched pace environments.

Section 5: Improvement & Regression Candidates

Likely to Improve

LA CHISMOSA — Model projects upward trajectory. Trainer Capestro 11% sprint win rate when fresh horses return after 31-60 day layoff (42 starts). This runner returns to competition after 40-day gap following graded stakes placement; class drop from stakes to 37k claiming is massive advantage. Recent work (10/5/26, #1 in category) confirms training progression. Turf debut variable, but improvement odds favorable if surface transition acceptable.

EVA LEA — Young filly showing natural progression: maiden win on turf signals trainer McLean's turf preparation is elite. Age provides genuine physical development edge. Jaramillo's recent form (35.71% meeting win rate) suggests confidence in assignment. Back-to-back turf competition likely improves racing pattern and familiarity.

Bounce / Regression Risks

TAM'S LITTLE ANGEL — Model flags regression risk. Form pattern shows 2/14/26 (7th place, SOC) was career-best effort followed by decline. Back-to-back weak 8-furlong routes (01/30/26 led but faded to 6th; 11/29/24 finished 11th of 11). Third start off potential peak — characteristic bounce window. Seven-year-old mare competing against younger fillies; age regression pattern typical in this spot.

WANDERING KIRBY — Three-race winning streak creates bounce risk if public overconfidence justified. Recent wins compressed timeline (5/30, 5/15, 7/12) with two efforts separated by 15 days. Back-to-back monster efforts (7/12 clear 5-length win, 6/27 slow fade in stakes) suggest uneven effort quality. Career-best form velocity rare to sustain; regression to median performance likely.

FALABELLA — Severe regression concern. Eight-start slump with only one win creates genuine form collapse scenario. Recent turf conversion failures (8/2 and 8/28) show she's misfitting the surface. Bounce risk elevated; use for exotics only.

Section 6: Suggested Bets

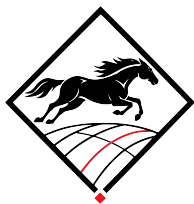

WIN BET: WANDERING KIRBY — Confidence 9/10 — Target odds: 1/1 to 1.2/1

Model projects 32% win probability — highest in the field. Elite Sustained Speed Rating confirms no horse in this field can match gate-to-wire velocity. Recent three-race turf win streak demonstrates peak form arriving at optimal moment. Rispoli jockey at 24% meeting win rate with sharp turf record. Powell trainer 13% turf specialist (384 starts) confirms elite preparation.

Value Assessment: NO VALUE. Morning line 1/1 reflects accurate public consensus; 32% model probability equals 33.3% implied 1/1 odds. Overlay edge minimal (-1%). However, this is model's highest-conviction selection — speed edge is real and sustainable.

VALUE PLAY: LA CHISMOSA — Confidence 8/10 — Target odds: 8/1 to 12/1

Model projects 18% win probability at 10/1 morning line (+8.9% edge). Significant class advantage (graded stakes runner into 37k claiming level) combined with elite recent work (10/5/26, #1 in category) creates value pathway. Turf debut variable but trainer Capestro 11% sprint win rate in 31-60 day return window (42 starts) provides statistical edge. Baze 15% meeting win rate suggests tactical confidence.

The model's edge projects La Chismosa is 8.9% more likely to win than current odds reflect — genuine value opportunity.

LONGSHOT PLAY: EVA LEA — Confidence 7/10 — Target odds: 12/1 to 15/1

Model projects 8% win probability at 15/1 morning line (+1.7% edge). Recent maiden turf win on turf shows genuine gate-to-wire threat; Jaramillo 35.71% recent meeting win rate reflects public sharp action. Trainer McLean 4.28 ROI on turf (45 starts) demonstrates elite preparation. Youngest runner in field with physical development edge. Genuine overlay exists at 15/1+; only include if odds hold or increase.

Multi-Race Wagers — Pick 3/4/5/6 Top 3:

- **A: Wandering Kirby** — 32% (highest model probability — Win Bet selection)
- **B: Tam's Little Angel** — 24% (experience edge, proven turf specialist)
- **C: La Chismosa** — 18% (class drop, elite work)

Combined Projected Probability: 74%

Section 7: Confidence Rating

★★★★

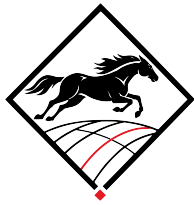

Model's key projection: Wandering Kirby controls race wire-to-wire with ELITE Sustained Speed Rating and zero deceleration risk. This runner's pace advantage is real and sustainable — recent 7.5f and 8.0f turf wins confirm velocity maintenance gate-to-wire. However, 1/1 morning line eliminates overlay value; public has correctly identified speed advantage.

Pace scenario certainty HIGH: Moderate turf pace with single unchallenged speed horse strongly favors front-runners and pace-stalkers. Closers face headwind — model confirms only two runners (Syntax, Tam's Little Angel) show elite late-running capabilities in this setup.

Primary value opportunity: **LA CHISMOSA** at 8/1–12/1. Model projects 8.9% edge on current morning line. Class drop from graded stakes to maiden/claiming level, combined with elite recent work and trainer statistical edge (31-60 day return window), creates genuine value angle. Turf debut is variable, but risk/reward favors inclusion in all exotic sequences.

Public betting mistake: Severe undervaluation of LA CHISMOSA's class advantage and overvaluation of SYNTAX's form recovery. Syntax shows honest effort (5/2 odds suggest value), but sprint distance vulnerability and recent form plateau argue against her at current pricing.
