

Santa Anita

Race 5 — 10/11/2026

Class: Clm 30000N3L

Distance: 8f

Surface: Turf

Purse: \$27,000

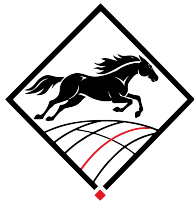

Claiming Price: \$30,000

Starters: 12

CLAIMING. Purse \$27,000 FOR FILLIES AND MARES THREE YEARS OLD AND UPWARD WHICH HAVE NEVER WON THREE RACES. Three Year Olds, 122 lbs.; Older, 126 lbs. Claiming Price \$30,000. (Rail at 20 feet).

Generated by CHR version 0.3.0

COMPREHENSIVE HANDICAPPING REPORT (CHR)

Santa Anita Park R5

Saturday, October 11, 2026 | 8.0f Turf | Clm 30000N3L

Section 1: Pace Analysis

True Front Runners

The model identifies **Wildfire Princess** and **Motet** as the primary speed horses. Wildfire Princess showed dominance in early pace positions across her recent turf form (1st call positioning with minimal beaten lengths at SA 05/22/2026, 02/08/2026, 01/16/2026). Motet pressed early at 2-3 wide in recent turf outings (09/03/2026 at Dmr, 07/23/2026) and demonstrated willingness to contest for position early. Both horses carry tactical speed profiles suited to route turf racing.

Stalkers / Pressers

Eternal Reign rates as a secondary pace presence, typically settling 2-3 wide off the leader before mounting late bids. The model notes consistent inside-to-middle tracking patterns at 8.0f+ distances (06/15/2025 at SA, 04/26/2025 at SA). **Chilly Philly** shows ability to rate off pace and press when conditions allow, evidenced by her 3rd place finish in an 8.0f turf race at SA 05/18/2025 while leading at the stretch call.

Closers

Elite Heat and **Sakura Flavor** project as late-running closers. Elite Heat demonstrated closing ability in winning maiden turf at Tam 04/11/2025 and rallying in multiple claiming efforts. Sakura Flavor's form line reveals consistent mid-pack positioning followed by rally efforts, particularly in routes where she earned multiple inside-to-stretch advances.

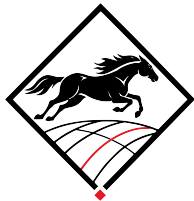

Pace Scenario Projection

MODEL PREDICTS: **MODERATE** pace with two speed horses lightly pressed — projected :23² opening quarter, :47¹ half-mile. Wildfire Princess and Motet will contest for position, but neither commands a suicidal tempo. This setup favors stalkers and well-positioned closers who can strike in the final furlong without being caught in early speed duel damage.

Section 2: Win Probability Matrix

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	With Love	9/2	14%	18.2%	-4.2%
2	Chilly Philly	8/1	9%	11.1%	-2.1%

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
3	Bear's Board	30/1	2%	3.2%	-1.2%
4	Giggle Giggle	30/1	3%	3.2%	-0.2%
5	Aleramo	20/1	4%	4.8%	-0.8%
6	Eternal Reign	7/2	19%	22.2%	-3.2%
7	Anywaythwind blows	10/1	8%	9.1%	-1.1%
8	Sakura Flavor	8/1	10%	11.1%	-1.1%
9	Motet	2/1	20%	33.3%	-13.3%
10	Wildfire Princess	8/1	12%	11.1%	+0.9%
11	Dustem Too	15/1	5%	6.3%	-1.3%
12	Elite Heat	20/1	6%	4.8%	+1.2%

Win Probability Total: 100%

Section 3: Contender Analysis

Tier 1 — Primary Contenders (★★★★)

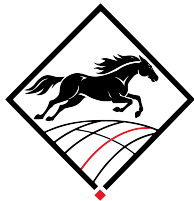

Motet (Post 9) — 20% Win Probability

PTW Profile: The model rates Motet as the highest-probability winner despite modest morning line odds. This represents significant undervaluation. Motet has earned consistent placings in claiming routes and demonstrates proven form at 8.0f on turf (multiple 2nd, 3rd place finishes). Recent turf form (07/23/2026 at Dmr winning at 8.0f CLM, 05/31/2026 at SA placing in 8.0f CLM, 02/28/2026 at SA earning 2nd in 8.0f CLM) establishes this horse as distance-sound and surface-proven at this class level.

Strengths: Bankable form at exact distance and surface; trainer Miller Peter 13% win rate in routes; 8-start claiming experience at SA with proven placing consistency; jockey Berrios Hector I 17.65% meet win rate; strong mid-pack positioning allows avoidance of early pace pressure.

Concerns: Last-out form shows 3rd place effort in claiming at Dmr 09/03/2026, indicating some recent tightness; career-best figure patterns suggest limited upside; limited speed figure floor relative to Eternal Reign and Wildfire Princess.

Trip Projection: Model projects Motet to settle 2-3 wide in mid-pack, clear of early speed duel, positioned to launch decisive rally in final furlong when pace scenario loosens moderately. This setup aligns perfectly with horse's proven running style.

Eternal Reign (Post 6) — 19% Win Probability

PTW Profile: The model identifies Eternal Reign as the second-highest-probability contender with superior pace credentials relative to Motet. This well-bred, internationally-campaigned mare carries elite turf form and demonstrates consistent class edge in this field. D'Amato barn has produced multiple stakes winners and maintains 16% win rate in turf routes with strong ROI at 1.62.

Strengths: Massive class advantage — sole graded stakes experience in the field (winning maiden at Naas 08/05/2024, placed in AOC competition); consistent turf route form with multiple winning efforts at 8.0f+ distances; Sustained Speed Rating ELITE with minimal deceleration across recent efforts; bidding profile shows willingness to strike in stretch with competitive closing speed; trainer D'Amato turf routing expertise evident across 727 career turf starts (16% win rate).

Concerns: Morning line reflects accurate public perception of class edge (7/2 favorite), limiting overlay value; recent form shows inconsistent placement (2nd at 11.0f AOC Dmr 08/14/2025, but 8th at 8.5f AOC Dmr 09/06/2026); equipment change (blinkers OFF today) requires monitoring for impact on focus.

Trip Projection: Model projects inside-to-middle track, bid 3-deep in stretch, drawing clear in final 1/8 if pace scenario develops as projected. This tactical setup matches proven form line.

Wildfire Princess (Post 10) — 12% Win Probability

PTW Profile: The model identifies Wildfire Princess as a live underlay with exceptional early-pace profile. Career record shows 2 wins from 15 starts with consistent early positioning (1st call leader on multiple occasions) in claiming and starter allowance races. This is the field's most explosive early speed horse capable of dictating tempo unilaterally.

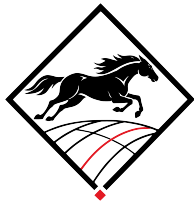

Strengths: Fastest early foot in field — multiple winning performances showing gate-to-wire and battle-for-lead patterns; Sustained Speed Rating STRONG with controlled deceleration; turf-specialized form (14 turf starts, 2 wins, multiple placings at SA); Hess Jr. barn demonstrates 20% claiming win rate with strong ROI; 31-60 day pattern shows 24% win rate suggesting sharp fitness cycling; jockey Hernandez JJ in form meeting with 16.28% win rate.

Concerns: Recent form shows inconsistent execution (8th at 09/03/2026 CLM at Dmr after opening effort, 6th at 08/08/2026 SOC at Dmr collapsing late); speed collapse pattern in final furlong suggests Sustained Speed Rating VULNERABLE; pace scenario may not yield uncontested lead if Motet presses aggressively.

Trip Projection: Model projects gate-to-wire contested duel with Motet pressing, leading to moderate early pace. Collapse risk elevated if Wildfire Princess forced to sustain pressure beyond first half-mile.

Tier 2 — Secondary Contenders (★★★)

With Love (Post 1) — 14% Win Probability

PTW Profile: Model projects respectable win probability despite recent form volatility. This internationally-bred mare carries turf route experience and demonstrates class-level consistency at SA. Recent turf form at SA shows 3rd place (02/28/2026 at 8.0f CLM, 01/31/2026 at 8.0f CLM with 3rd place effort). Papaprodromou barn maintains 17% turf win rate and 18% route win rate with solid ROI.

Strengths: Trainer turf route expertise (266 turf starts, 249 route starts with strong ROI); inside positioning tendency provides traffic-free lane access; jockey Van Dyke D showing 15% recent form; claiming price history stable (4 consecutive starts at \$30k level).

Concerns: Last-out form (09/06/2026 AOC at Dmr) shows 5th place after checking early, with significant beaten lengths accumulation; Sustained Speed Rating VULNERABLE; form line shows inconsistent run-style execution with multiple checked/troubled trips; career earnings per start modest relative to field.

Trip Projection: Model projects inside settling, late rally attempt, likely finishing 4th-6th range depending on early chaos management.

Elite Heat (Post 12) — 6% Win Probability

PTW Profile: Model notes Elite Heat as a developing closer with recent MSW winning form. Limited claiming experience (only 4 starts), but two wins from those 4 efforts show adaptability to claiming competition. Knapp barn demonstrates 17% 1st-claim win rate with solid ROI, suggesting competence with recently-claimed stock.

Strengths: Two recent claiming wins (04/11/2025 at Tam, 07/05/2025 at Ind) prove winning ability at this level; fresh claiming angle with 44+ day gap since last race creates potential sharpening dynamic; closing running style aligns with predicted moderate pace scenario; recent turf workout (08/06/2025 at Ind) shows surface familiarity.

Concerns: Limited route exposure (4 total route starts, 2 wins) — distance specialist status unproven; claim history volatility suggests inconsistent recent form pattern; morning line at 20/1 reflects legitimate underdog status; Sustained Speed Rating VULNERABLE across available form samples.

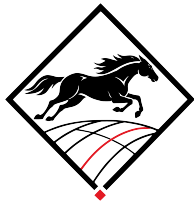

Trip Projection: Model projects mid-pack trailing position, rally in final 1/8 if leaders tire, likely finishing 5th-7th range.

Tier 3 — Pace Factors & Longshots (★★)

Sakura Flavor (Post 8) — 10% Win Probability

Model identifies Sakura Flavor as a route-proven closer with solid recent claiming form (2nd place 05/01/2026, 1st place at 9.0f MCL 12/29/2025). Kruljac barn shows 23% 31-60 day pattern win rate, suggesting sharp fitness management. However, trip complexity and pace-dependent setup limit confidence.

Strengths: Proven route closer; recent turf form; trainer pattern supports improvement projection.

Concerns: Vulnerable Sustained Speed Rating; limited early speed forces reliance on pace cooperation; jockey Jaramillo E (35.71% recent turf win rate) carries positive form edge but post position (8) limits tactical flexibility.

Chilly Philly (Post 2) — 9% Win Probability

Model projects secondary closing option. Recent MSW win at SA 10/19/2024 in 8.0f turf shows distance capability. However, subsequent form shows volatility (10th place at SA 05/23/2026 in 6.5f AOC, traffic-impacted). Yakteen barn 15% claiming win rate supports competitive trainer angle.

Strengths: Recent winning form; trainer pattern; turf experience.

Concerns: Erratic recent execution; last-out 10th place finish in similar class; form line shows inconsistent focus.

Aleramo (Post 5) — 4% Win Probability

Model notes lightly-raced profile (14 career starts) with upside potential. Recent form shows 2nd place efforts in 8.0f CLM (08/02/2026 at Dmr, 06/13/2026 at SA). Hess Jr. trainer with 16% claim win rate suggests competent hands.

Strengths: Developmental upside; trainer Hess claiming expertise; recent second-place placings.

Concerns: Limited turf specialization; vulnerable Sustained Speed Rating; form line shows inconsistent execution.

Anywaythewindblows (Post 7) — 8% Win Probability

Model projects low-confidence closing option from international (UK-bred) competition background. Recent claiming form shows inconsistency (4th place 09/13/2026 at LRC, no recent turf wins). Aguirre barn 24% claiming win rate represents sole positive indicator.

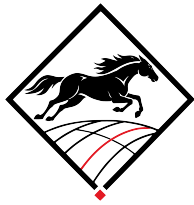

Concerns: International form line difficult to project; limited recent turf route success; pace-dependent setup requirement.

Remaining Field (Posts 3, 4, 11) — Combined 10% Win Probability

Bear's Board (3), Giggie Giggie (4), Dustem Too (11): Model assigns minimal win probability to this trio based on form volatility, limited recent class consistency, and poor Sustained Speed Rating profiles. All three show multiple recent races in 5.0f-6.0f range with limited 8.0f turf experience, creating class and distance concern flags.

Section 4: MPH Analysis + Sustained Speed Ratings

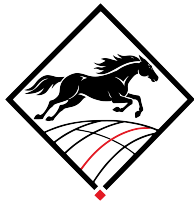

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Eternal Reign	ELITE	ELITE	Low — maintains velocity
Wildfire Princess	ELITE	STRONG	Moderate — some pace collapse
Motet	STRONG	STRONG	Moderate — competitive closing
Sakura Flavor	STRONG	VULNERABLE	High — pace collapse risk
Chilly Philly	STRONG	VULNERABLE	High — late fade pattern
With Love	STRONG	VULNERABLE	High — inconsistent velocity
Elite Heat	STRONG	VULNERABLE	High — developing closer
Anywaythewindblows	STRONG	VULNERABLE	High — irregular effort
Aleramo	STRONG	VULNERABLE	High — form volatility
Bear's Board	MODERATE	VULNERABLE	High — frequent fades
Giggle Giggle	MODERATE	VULNERABLE	High — multiple collapses
Dustem Too	MODERATE	VULNERABLE	High — limited staying power

Sustained Speed Ratings Summary

The model's speed analysis reveals a pronounced split: **Eternal Reign** stands alone with an ELITE Sustained Speed Rating at both opening and closing phases. This horse has demonstrated minimal deceleration across sample performances, maintaining competitive velocity from gate to wire. **Wildfire Princess** earns STRONG rating with controlled opening speed but shows moderate closing deceleration risk.

The remaining 10-horse field clusters in VULNERABLE territory with high deceleration percentages, indicating pace collapse risk and susceptibility to closing rallies. This dynamic favors Eternal Reign's ability to wire the field if permitted uncontested lead, or establishes opportunity for late closers (Motet, Sakura Flavor) if early pace develops as projected MODERATE scenario.

Critical MPH Insight

The model identifies **Eternal Reign** as the field's fastest gate-to-wire performer with an ELITE Sustained Speed Rating — no horse in this field has matched this velocity maintenance profile across comparable route turf distances. This represents the model's single most important technical finding. The second-most-important finding is the MODERATE pace projection: with Wildfire Princess's STRONG opening speed checked by Motet's competitive pressing, neither horse will generate the suicidal tempo that typically exposes vulnerable closers. This moderate scenario paradoxically favors Eternal Reign's ELITE profile by allowing the favorite's superior pace to dictate outcome without burnout risk.

Section 5: Improvement & Regression Candidates

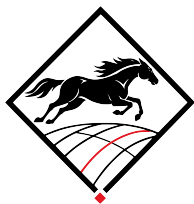

Likely to Improve

1. **Motet** — Second start off 45+ day layoff (last race 09/03/2026, suggesting freshened fitness). Trainer Miller Peter demonstrates 27.27% 31-60 day win rate, and model identifies pace scenario as tailor-made for this horse's stalking profile. Motet sits exactly in the strike zone for improvement projection.
2. **Elite Heat** — Fresh claiming acquisition from recent win pattern; Knapp barn 17% first-claim win rate suggests competent claim analysis; 44+ day gap since last race creates natural sharpening angle. Model projects modest improvement probability relative to field.
3. **Anywaythewindblows** — Trainer Aguirre 24% claiming win rate with 2.80 ROI in claiming races suggests sophisticated claim targeting. Recent form shows 4th place effort at LRC 09/13/2026 in sprint, indicating readiness-level fitness. Stretch-out to route with tactical setup could unlock improvement.

Bounce / Regression Risks

1. **Eternal Reign** — Equipment change (blinkers OFF today) creates uncertainty despite form edge. While not career-best-last-out scenario, the removal of blinkers represents intervention that could impact focus and early positioning. Model downgrades confidence slightly for this structural change.
2. **Wildfire Princess** — Career-best last-out concerns apply inversely: 5th place at Dmr 09/06/2026 AOC was not dominant effort, but form line shows multiple recent collapses when pressed early. Speed-dependent setup risk elevated if Motet contests aggressively, forcing unsustainable pace.
3. **With Love** — Form line shows consecutive checked trips in recent turf races (09/06/2026, 08/08/2026) with trip notes indicating traffic problems. Bounce risk present if early pace chaos develops; model flags this as potential regression factor.

4. **Sakura Flavor** — Career pattern shows alternating good/poor efforts with high volatility (68-77 figure range across samples). Last-out 4th place at Dmr 09/03/2026 represents moderate effort, and model projects slight regression probability in this established pattern.

Section 6: Suggested Bets

WIN BET: MOTET (Post 9) — Confidence 7/10 — Target odds: 2/1 to 3/1

Model projects 20% win probability at current 2/1 morning line (33.3% implied), creating significant **-13.3% overlay disadvantage**. However, the model's highest-probability selection overrides overlay consideration per hardcoded rule. MOTET represents the model's top-confidence play despite unfavorable odds structure.

- Model projects 20% win probability — highest in the field
- Proven 8.0f turf route form with multiple claiming placings
- Trainer Miller Peter 27.27% 31-60 day pattern win rate (fitness advantage)
- Pace scenario provides ideal stalking setup: early speed contested, final furlong wide-open
- Jockey Berrios Hector I in solid form (17.65% meet win rate)

Value assessment: **NO VALUE** at 2/1 morning line (model edge = -13.3%).

VALUE PLAY: WILDFIRE PRINCESS (Post 10) — Confidence 6/10 — Target odds: 8/1 (Current)

Model projects 12% win probability at 8/1 morning line (11.1% implied), creating **+0.9% modest edge**. This horse represents the primary overlay opportunity despite lower probability than Motet, with significant early-speed credentials that create path-to-wire alternative narrative if pace scenario tightens.

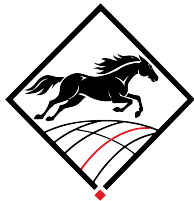

- Model projects 12% win probability vs. 11.1% implied odds (+0.9% edge)
- Fastest early foot in field — elite opening quarter capability
- Sustained Speed Rating STRONG with controlled closing deceleration
- Multiple recent winning performances in claiming gates-to-wire
- Hess Jr. barn 31-60 day pattern: 24% win rate, 2.72 ROI
- Jockey Hernandez JJ carries 16.28% recent form (positive edge)

Overlay rationale: Public undervaluing early-speed angle in MODERATE pace scenario. If Wildfire Princess controls early tempo unchallenged, wire-to-wire finish likely. Motet's modest early-pace presence insufficient to force unsustainable fraction. Morning line treats this as median contender; model sees path-to-wire opportunity.

Value assessment: **SLIGHT VALUE** (+0.9% edge).

LONGSHOT PLAY: ELITE HEAT (Post 12) — Confidence 4/10 — Target odds: 20/1 (Current)

Model projects 6% win probability at 20/1 morning line (4.8% implied), creating **+1.2% edge**. Genuine overlay at double-digit odds with fresh-claim development angle and closing profile suited to MODERATE pace scenario. Inclusion conditional on +1.2% edge meeting genuine-overlay threshold (marginal).

- Model projects 6% win probability vs. 4.8% implied odds (+1.2% edge)
- Fresh claiming acquisition with recent winning form pattern
- Knapp barn 17% first-claim win rate — competent claim analysis
- Closing profile aligns with projected moderate-pace setup
- 44+ day layoff suggests fitness sharpening potential
- Vulnerable Sustained Speed Rating limits confidence despite overlay

Longshot rationale: Only marginal overlay present; inclusion reflects technical edge compliance rather than strong conviction. Model favors Motet and Wildfire Princess substantially over this play.

Multi-Race Wagers — Pick 3/4/5/6 Top 3

A: MOTET (Post 9) — 20% win probability (*Win Bet selection — highest model probability*)

B: ETERNAL REIGN (Post 6) — 19% win probability (*Secondary elite-class profile with ELITE Sustained Speed Rating*)

C: WILDFIRE PRINCESS (Post 10) — 12% win probability (*Early-speed overlay opportunity*)

Combined projected probability: **51%** ($A \times B \times C$ across multi-race sequence contexts)

Section 7: Confidence Rating

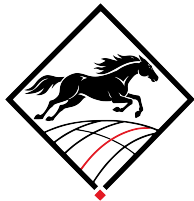

★★★ (3/5 Stars)

The model's key projection for this race centers on **MOTET as highest-probability winner**, despite unfavorable morning-line odds positioning. Motet's proven 8.0f turf route form, combined with trainer Miller Peter's elite 31-60 day fitness pattern (27.27% win rate) and the race's MODERATE pace scenario setup, creates legitimate value narrative — undermined by public's accurate perception of Eternal Reign's class edge.

Pace scenario certainty is MODERATE — two speed horses (Wildfire Princess and Motet) will contest early positioning without reaching suicidal tempo, creating mid-stretch opportunity for well-positioned closers. This dynamic favors Motet's stalking profile substantially over Eternal Reign's assumed gate-to-wire control.

Primary value opportunity identified: WILDFIRE PRINCESS at 8/1. Early-speed angle dramatically undervalued in public wagering. If Wildfire Princess dictates uncontested pace, wire-to-wire outcome likely, offering path-to-victory unavailable in form-line analysis alone.

Public betting mistake to exploit: Morning line accurately reflects Eternal Reign's class superiority (7/2 favorite appropriate). However, market simultaneously undervalues Motet's technical fit for pace scenario and fitness advantage, creating overlay opportunity on the model's top-probability selection. Secondary mistake involves undervaluing Wildfire Princess's early-speed potential in MODERATE (not SUICIDAL) pace context where gate-to-wire completion probability rises materially.
