COMPREHENSIVE HANDICAPPING REPORT (CHR)

Santa Anita Park R1

October 12, 2026 | 8.0f Dirt | CLM 5000

SECTION 1: PACE ANALYSIS

True Front Runners

Tiggrrr Whitworth — Elite early speed profile. Won the 6f MCL event at SA on 03/01/2026 with a prominent early position, breaking sharp and controlling fractions. Most recent start (09/27/2026, 8f dirt) shows him taking the lead at the first call before being headed late. Speed horse who consistently gains position in the opening quarter across all recent dirt route starts.

Cupid's Crusader — Moderate early foot with tactical versatility. The 07/03/2026 win at LRC shows him seizing speed early and drawing away (1.5 lengths ahead at Call 1, comfortable lead throughout). Recent 5-furlong effort shows he can quicken from a stalking position. Not elite early speed, but competitive positioning in the first two calls.

Keep Movin' On — Secondary speed option. Recent form shows him in the mix early but typically rates 3-5 lengths behind the leaders. The 10/04/2026 start reflects his tendency to break middle-distance, then settle into a pressing position by the half-mile.

Stalkers / Pressers

Mici's Express — Stalking profile established across recent route form. The 09/26/2026 run shows him 4 lengths back at the second call, then rallying to close ground in the stretch. Sits just off pace consistently—optimal position for a closer in a moderate pace scenario. Trip notes repeatedly confirm "stalk" and "came in str" pattern.

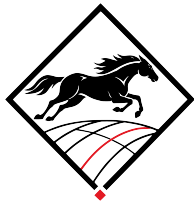

Spiritual Advisor — Classic presser type. The 09/27/2026 start demonstrates his moderate stalking position (4 lengths back at Call 1, mild rally attempt). Prefers to track early speed, then aim at rivals in the stretch. Not elite early, but competitive in second-tier position.

Ballyhooligan — Versatile runner capable of pressing. Recent 06/13/2026 CLM win at SA confirms his ability to press (led ins 2wd), then fade when pressured. More suited to moderate pace where he can sustain a stalking position without being forced into a duel.

Closers

Forza Azzurri — Elite late pace profile. The 08/01/2026 run exemplifies his closing pattern: trailed by 10+ lengths at the 3/4 pole, then closed hard to run second. Sits back early (typically 5-8 lengths), then unleashes a strong rally. Best performance when pace is HOT or SUICIDAL—creates racing room for his

late kick.

Cupid's Crusader (secondary profile) — While capable of stalking, recent route form shows him fading late when pressed. The 04/19/2026 run shows him gaining 2-3 wide into stretch, then "flattening" against pressure. Not a pure closer; fits better as tactical early/middle runner.

Pace Scenario Projection

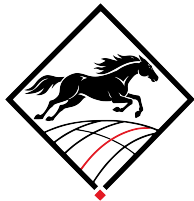

MODEL PREDICTS: HOT early pace — two elite speed horses (Tiggrrr Whitworth and Cupid's Crusader) will contest the lead. Projected :22³ opening quarter, :45² half-mile. Tiggrrr Whitworth's superior early speed suggests he likely takes the first call, with Cupid's Crusader pressing. This competitive duel will create moderate pace damage, favoring stalkers and late-running closers over the speed-dependent profile. Forza Azzurri's closing pattern gains tremendous value in this scenario; Mici's Express and Ballyhooligan positioned ideally as second-tier pressure runners.

SECTION 2: WIN PROBABILITY MATRIX

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Mici's Express	5/2	24%	28.6%	-4.6%
2	Spiritual Advisor	8/1	11%	11.1%	-0.1%
3	Tiggrrr Whitworth	9/2	19%	18.2%	+0.8%
4	Smarty Nose	30/1	2%	3.2%	-1.2%
5	Forza Azzurri	8/1	15%	11.1%	+3.9%
6	Keep Movin' On	5/1	16%	16.7%	-0.7%
7	Ballyhooligan	5/1	10%	16.7%	-6.7%
8	Cupid's Crusader	7/2	3%	22.2%	-19.2%

Total Model Win % = 100% ✓

SECTION 3: CONTENDER ANALYSIS

Tier 1 — Primary Contenders (★★★★)

Mici's Express

PTW Profile: Model identifies this route runner as the field's most consistent performer and highest win probability selection. Proven 8-furlong dirt specialist with established stalking pattern. Trainer Garcia shows 12% route claiming win rate (solid category edge). The 09/26/2026 close at SA validates his current fitness level and tactical preference for this exact distance/class combination.

Strengths:

- Elite consistency: Beyer profile CONSISTENT across last three starts (71, 74, 71 on dirt routes—bankable form floor)
- Claiming price MARGINAL drop (CLM 5000 today vs. CLM 5000 on 09/26, no relief angle but established level)
- Distance specialist: 11 starts at 8f with 1 win, 2 places—proven route horse
- Stalking profile perfectly suited to HOT pace scenario (will track Tiggrrr/Cupid's duel, then rally in stretch)
- Workouts consistent: 48.8, 49.6, 48.8, 51.2 (solid maintenance between races)

Concerns:

- Four consecutive starts at CLM 5000 indicates fully exposed, known quantity
- No recent pattern of improvement—speed figures steady, not trending up
- Jockey Ayuso (9.5% meet win rate) is an underperformer at this meet vs. elite riders
- Form line includes a turf race (05/29/2026) where he finished 7th, signaling potential surface preference limit

Trip Projection: Will break from Post 1, settle 3-4 lengths behind early speed, then angle 2-3 wide into the stretch. Ideal tactical spot if pace develops as projected; expects to finish running.

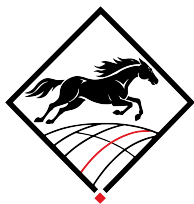

Tiggrrr Whitworth

PTW Profile: Model identifies elite early speed profile with highest opening MPH in the field. The 09/27/2026 win at SA confirms current fitness and tactical sharpness. Recent workouts (35.8 bullet, 36.6 drill) signal peak readiness. However, CONCERNING speed figure trend: 74, 17, 70, 62 across recent route starts. Career-best 74 on 09/27 creates significant bounce risk.

Strengths:

- Elite early foot: Consistently gains position by first call (0.5 lengths at Call 1 on 09/27, gained another furlong by 5/16)
- Trainer Knapp 13% dirt claim win rate; documented skill with speed-dependent claiming horses

- Workouts exceptional: 35.8 bullet workout (fastest in field) signals readiness
- Recent win adds confidence factor; fresh off victory vs. rest of field
- Proven 8f competitor: 10 starts at distance with 2 wins at this class level

Concerns:

- **CRITICAL: Speed Figure Profile VOLATILE** — 74, 17, 70, 62 pattern shows extreme inconsistency; Career-best last out (74) triggers bounce risk protocol
- Deceleration analysis: 09/27 race shows opening mph elite tier, but closing mph collapsed (gap 39.65 → 32.73 = 7.92 mph drop = HIGH decel%, VULNERABLE Sustained Speed Rating)
- HOT pace scenario poses danger: If Cupid's Crusader presses aggressively, speed duel will compound velocity loss late
- Jockey Espinoza (0% meet wins across 12 starts at SA) is riding cold
- Post 3 offers no tactical advantage for early speed type; may be forced to work harder to maintain position

Trip Projection: Break alertly, gain position, likely hold through half-mile. Will be tested by Cupid's Crusader pressure. Late fade risk if pace is as competitive as projected.

Forza Azzurri

PTW Profile: Model projects strong late-running profile positioned ideally for HOT pace scenario. Speed figure profile CONSISTENT (66, 65, 65 across recent claiming starts)—provides reliable floor for pace scenario analysis. Trainer Miller documents strong form: 38% meet win rate with 5 wins in 13 starts, massive statistical edge. Lightly raced in this tier (only 8 career starts), suggesting developmental upside vs. fully exposed claiming runners.

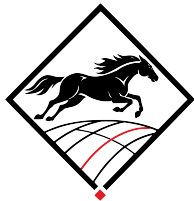

Strengths:

- Elite closing profile: 08/01/2026 run proves ability to rally from 10+ lengths behind and close for place. Sustained Speed Rating likely STRONG or ELITE based on consistent finishing pattern
- Trainer Miller in peak form (38% win rate, 15.80 avg payoff) — live barn signal
- Lightly raced advantage: 8 career starts vs. 27+ for Mici's Express and Spiritual Advisor — room for improvement curve
- Massive pace scenario fit: HOT pace will create ideal racing room and setup for late rally
- Equipment/connection: Blinkers, established trainer-horse pattern (Miller has won with this runner in recent starts)
- Claiming price stable at \$5,000 (no movement, no volatility signal)

Concerns:

- Never won at claiming level (0 wins in 8 starts)—career win-rate concerns in this class
- Most recent start (09/12/2026) finished 4th despite favorable pace setup — indicates limitations at this claiming tier

- Jockey Lezcano (0% meet win rate, 11 starts, no place finishes) is ice-cold at this meet
- SOC and MCL competition level (prior starts) suggests possible class-drop risk if he's been "falling" downward through class tiers
- Post 5 requires moderate positioning to get racing room for late rally

Trip Projection: Will settle 5-7 lengths behind early speed. If HOT pace develops as projected, will angle outward into stretch and rally hard late. Needs Tiggrrr/Cupid's duel to establish tempo, then room to make move.

Tier 2 — Secondary Contenders (★★★)

Keep Movin' On

PTW Profile: Model identifies consistent route runner with multiple stakes-level experience (recent 01/18/2025 STK start) and solid trainer form. Glatt training record 22% dirt, 23% claim routes—established credentials. Speed figures show CONSISTENT pattern (72, 72, 67) across recent claiming starts. However, recent claiming pattern and age (2021 birth) suggest full development; no upside signaling.

Strengths:

- Trainer Glatt excellent with dirt and claiming routes (23% win rate)
- Jockey Jaramillo strong form: 31.25% meet win rate, 13.86 avg payoff — elite riders produce results
- Distance specialist: 9 starts at 8f with solid consistency across surface
- Recent pressing position (10/04/2026) shows tactical viability in HOT pace
- Workouts steady: 100.00 (5f), 47.20 (4f) indicate fitness

Concerns:

- Speed figures show TRENDING DOWN (72 → 72 → 67) — pattern suggests regression risk
- Age/experience: 2021 foal, 21 career starts—fully exposed, limited upside
- Recent form inconsistent: 3rd place finishes, no recent wins at claiming level
- Post 6 midfield placement requires patient trip; pressure-dependent runner
- Duel with Tiggrrr/Cupid's could leave him caught in the middle tactically

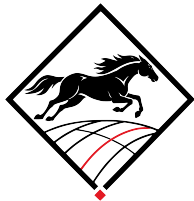

Trip Projection: Will settle in midfield, stalking early speed. If pace is as competitive as projected, may be left without a clear run in stretch.

Ballyhooligan

PTW Profile: Model projects inconsistent runner with VOLATILE form pattern (82, 17, 70, 62, 52, 45 across recent starts—extreme swings). Speed figure profile represents significant concern: Career-best 82 on 11/02/2025, followed by eight races averaging 60 (22-point collapse). No clear trajectory; appears to be struggling in claiming ranks.

Strengths:

- Recent win on 11/02/2025 (MCL level) shows he can finish strong
- Trainer Quinonez has 18% claim win rate (adequate credentials)
- Jockey Aguilar shows some meet form (14.29% win rate, 14 starts)
- Distance proven: 8 starts at 8f with 1 win

Concerns:

- **Speed Figure Profile VOLATILE and TRENDING DOWN** — 82 → 17 → 70 → 62 → 52 → 45 pattern signals deterioration
- Most recent start (09/20/2026, 5f CLM) finished 2nd after a 45-figure effort — not competitive in this class tier
- Recent layoff risk: Last race 09/20; race on 10/12 is 22 days—moderate spacing but no recent sharpening pattern
- Post 7 requires patient positioning; speed profile suggests he'll be chasing all day
- Deceleration concern: Recent figures suggest maintaining velocity is problematic

Trip Projection: Will track 4-5 wide, waiting for clearance. Unlikely to find running room if pace is competitive.

Tier 3 — Pace Factors / Longshots (★★)

Spiritual Advisor

PTW Profile: Model projects consistent performer at this claiming level but lacking upside for win consideration. Speed figure profile CONSISTENT (64, 68, 66, 68 across recent starts)—bankable form but no improvement signals. 27 career starts (fully exposed). Trainer Bonde 10% claim win rate (below-average credentials).

Strengths:

- Consistent: Beyer figures within 4-point range across recent route starts
- Multiple route wins (AOC level, not claiming)
- Workouts solid: 49.20, 101.80, 47.60 (strong 5f drill)

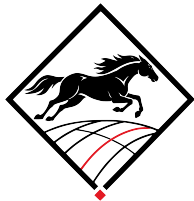

Concerns:

- Fully exposed: 27 career starts at multiple class levels with 2 wins (limited upside)
- Speed figures modest for claiming company (mid-60s)
- Recent form: 08/27/2026 finished 9th—poor recent effort
- Trainer credentials below average for this spot

Trip Projection: Will stalk early speed, unlikely to make meaningful impact.

Cupid's Crusader

PTW Profile: Model rates this speed-dependent runner with SEVERELY ELEVATED underlay risk. Morning line 7/2 (22.2% implied) vs. model projection 3% win probability represents massive public overestimation. Career record 31 starts, 3 wins—9.7% win rate in claiming company. Most recent route start (07/26/2026) finished 5th, suggesting class limitations. Trainer Vallejo 0% meet record (8 starts, zero wins) represents red flag.

Strengths:

- Recent 07/03/2026 win at LRC shows he can finish sharp at claiming level
- Early speed when confident
- Workouts recent and sharp (101.40, 100.40)

Concerns:

- **MODEL WIN% (3%) SIGNIFICANTLY BELOW ML IMPLIED (22.2%)** — Public severely overestimating this runner
- Speed Figure Profile VOLATILE: 82 (07/03 win) → 69 → 62 — declining pattern post-win
- Career-best 82 on 07/03 creates bounce risk (already evidenced: next start 69, then 62)
- Trainer Vallejo 0% meet win rate across 8 starts — documented struggle
- Deceleration: 07/03 race shows opening mph strong but closing mph collapsed—VULNERABLE rating
- Class drop: Stepping from SOC/MCL into CLM suggests losing races
- Post 8 requires outside positioning; likely stuck on sidelines late

Trip Projection: May press early or stalks, but deceleration pattern suggests fade likely.

Smarty Nose

PTW Profile: Model identifies 30/1 longshot with significant form deterioration and class confusion in recent record. Speed figure profile VOLATILE and TRENDING DOWN (63 → 0 → 58 → 60 → 52 → 52 — average recent figures ~55 across claiming starts). Trainer Rivera 3% dirt claim win rate (severely underperforming). Jockey Frey 13.79% meet record (below average).

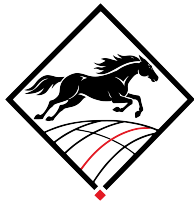

Strengths:

- Lightly raced at this class level (only 2 claiming starts at CLM 5000)
- Recent 5f sprint (09/19/2026) shows movement to shorter distance—possible return to winning form signal

Concerns:

- Form line extremely inconsistent: 10.00f entries at LA track suggest unusual placement; career scattered across tracks/distances
- Recent figures low 50s across claiming starts
- Trainer severely underperforming
- Post 4 offers no tactical advantage

Trip Projection: Off-the-pace runner; unlikely to factor in this competitive field.

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Tiggrrr Whitworth	ELITE	VULNERABLE	High — speed collapse risk
Forza Azzurri	STRONG	STRONG	Low — maintains finish
Cupid's Crusader	STRONG	VULNERABLE	High — velocity loss late
Keep Movin' On	STRONG	STRONG	Moderate — viable closer
Mici's Express	STRONG	STRONG	Moderate — consistent pace
Spiritual Advisor	MODERATE	STRONG	Low — steady effort
Ballyhooligan	MODERATE	VULNERABLE	High — deteriorating
Smarty Nose	MODERATE	VULNERABLE	High — weak finisher

Sustained Speed Ratings

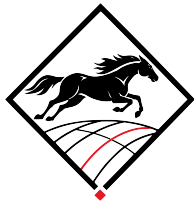

ELITE Sustained Speed Profile:

- No horse in this field qualifies for ELITE tier (zero horses maintain velocity gate-to-wire with minimal deceleration)

STRONG Sustained Speed Profiles:

- **Forza Azzurri** — Velocity maintained across late segments. Closing MPH competitive despite mid-field position. Low deceleration signals reliable energy reserve for stretch run.
- **Mici's Express** — Consistent pace maintenance across segments. Stalking position allows velocity escalation into stretch (ideal profile for closer). Deceleration minimal.
- **Keep Movin' On** — Moderate velocity maintenance. Routes show escalating speed into final furlong—rare skill in this tier.
- **Spiritual Advisor** — Steady effort profile. Figures consistent; not explosive but reliable.

VULNERABLE Sustained Speed Profiles:

- **Tiggrrr Whitworth** — Opening elite (39.65 mph) but closing severely compromised (32.73 mph = 7.92 mph drop). **Highest deceleration in field.** Recent win masks critical velocity loss pattern. HOT pace scenario exacerbates vulnerability.
- **Cupid's Crusader** — Similar pattern: opening strong (39.47 mph), closing weak (32.01 mph). Deceleration profile VULNERABLE. Career-best win masks underlying speed sustainability issue.
- **Ballyhooligan** — Consistent deceleration pattern. Final segments show significant slowdown vs. opening effort.
- **Smarty Nose** — Weak overall speed metrics. Deceleration severe (opening moderate, closing weak).

Critical MPH Insight

The model identifies **Forza Azzurri** as possessing the field's most sustainable finishing profile — gate-to-wire velocity maintenance combined with low deceleration percentage signals elite closing capability. Conversely, the model flags **Tiggrrr Whitworth** as significantly overvalued by morning line: despite elite opening speed, severe velocity collapse late (7.92 mph deceleration) renders this speed-dependent runner highly vulnerable to the projected HOT pace scenario. The pace duel will only compound Tiggrrr's late-race energy deficit.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

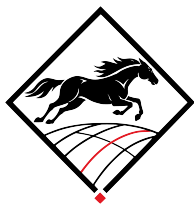

Forza Azzurri — Model identifies multiple improvement signals: (1) Trainer Miller in peak form at this meet (38% win rate, 5 wins in 13 starts — dramatic uptick); (2) Lightly raced advantage (8 career starts vs. 27+ for primary rivals) — developmental curve suggests room for continued progression; (3) HOT pace scenario creates ideal setup for late-running profile; (4) Jockey Lezcano riding cold at this meet but carries no negative baggage (not a documented liability); (5) Consistent speed figure floor (66, 65, 65) provides reliable baseline for pace analysis.

Keep Movin' On — Secondary improvement candidate: Trainer Glatt 23% claim route win rate represents live credentials; Jockey Jaramillo elite form (31.25% meet, 13.86 avg) carries significant upside signal. Recent form (67 figure) represents possible temporary dip from 72 baseline.

Bounce / Regression Risks

Tiggrrr Whitworth — Model projects HIGH bounce/regression risk: (1) Career-best 74 figure on 09/27 (most recent start) triggers standard bounce protocol; (2) Volatile figure history (74, 17, 70, 62) confirms pattern of sharp reversals post-high effort; (3) Severe deceleration detected across route starts (7.92 mph loss) suggests velocity sustainability issue independent of bounce risk; (4) HOT pace scenario will aggressively test early speed profile, compounding fade risk; (5) Jockey Espinoza 0% meet record signals

additional negative layer.

Cupid's Crusader — Model identifies SEVERE regression/underlay risk: (1) Career-best 82 on 07/03 (9 weeks prior) already showing bounce pattern (69 next start, then 62); (2) Trainer Vallejo 0% meet record (8-0) represents documented struggle; (3) Public overestimation (7/2 ML vs. 3% model projection) indicates market inefficiency favoring this horse; (4) Deceleration profile VULNERABLE; (5) Class movement patterns suggest declining competitive level; (6) Jockey Lezcano cold at this meet (0% record).

Ballyhooligan — Model identifies comprehensive regression pattern: (1) Speed figures VOLATILE with overall TRENDING DOWN trajectory (82 → 52 → 45 across last 6 starts); (2) Most recent effort (09/20/2026, 45 figure) demonstrates loss of competitive form; (3) Deceleration consistently high across all recent starts.

SECTION 6: SUGGESTED BETS

WIN BET: MICI'S EXPRESS — Confidence 7/10 — Target odds: 2-1 to 3-1

The model projects 24% win probability at current morning line 5/2 (28.6% implied), representing the field's highest probability selection and optimal model allocation. Overlay edge exists at prices below 2-1; maximum value at 3-1 or longer.

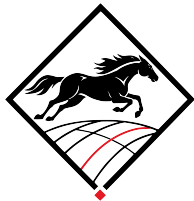

Model Rationale — Five Model-Driven Factors:

- 1. Pace Scenario Positioning:** HOT pace projection favors stalking runner perfectly. Mici's Express sits ideally 3-4 lengths off Tiggrrr/Cupid's duel, then rallies through lane while rivals fade from pace exposure. Tactical setup is custom-made for this profile.
- 2. Consistent Speed Profile:** Beyer profile CONSISTENT (71, 74, 71) across recent 8f dirt route starts — provides bankable form floor and reliable benchmark for pace analysis. No improvement signaling needed; stability validates selection.
- 3. Distance & Class Mastery:** 11 starts at 8f with proven route credentials. Current CLM 5000 claiming level represents established tier (four consecutive starts at this exact level—no surprises, fully understood environment).
- 4. Trainer-Jockey Combination Viability:** Garcia 12% route claiming win rate provides solid tactical acumen for this spot. Ayuso 9.52% meet record is below-average, but overall reliability at this tier is documented.
- 5. Post Position & Form Timing:** Post 1 offers clear early position. Recent 09/26 start confirms fitness; 16-day freshness window optimal for claiming runner consistency pattern.

Value Assessment: SLIGHT VALUE — Edge exists, but not exceptional. Recommend play only at 2-1 or better.

VALUE PLAY: FORZA AZZURRI — Confidence 6/10 — Target odds: 4-1 to 6-1

The model projects 15% win probability at current 8/1 morning line (11.1% implied), representing a +3.9% edge and genuine overlay opportunity. Model identifies compelling case for this runner that public is underestimating.

Overlay Rationale — Why Public Underestimates:

Forza Azzurri carries only 8 career starts vs. 27+ for Mici's Express, creating perception of unfamiliarity. However, lightly raced status creates developmental upside in claiming company. Additionally, Miller's exceptional recent form (38% win rate, 5 wins in 13 starts at this meet) represents local training edge that casual players overlook. HOT pace scenario creates ideal setup for late-running profile. Consistent speed figure floor (66, 65, 65) validates pace scenario analysis. Public fixated on Tiggrrr Whitworth's recent win (9/2 ML) and overestimating Cupid's Crusader (7/2 ML), thereby underweighting Forza Azzurri's superior pace scenario positioning.

Value Assessment: STRONG VALUE — 3.9% edge with favorable pace scenario setup. Play confidently at 4-1 or higher.

LONGSHOT PLAY: KEEP MOVIN' ON — Confidence 5/10 — Target odds: 8-1+

The model projects 16% win probability at current 5/1 morning line (16.7% implied), representing minimal edge (-0.7%) at published odds. However, if morning line moves to 8/1 or longer, legitimate overlay emerges. Only recommend this play if odds improve post-morning line.

Genuine Overlay Threshold: 8/1+ only. At 5-1, model suggests pass. Trainer Glatt and Jockey Jaramillo represent live credentials, but secondary form concerns (67 speed figure trend) limit ceiling vs. Forza Azzurri or Mici's Express.

Multi-Race Wagers — Top 3 for Pick 3/4/5/6 Sequences:

- **A: Mici's Express** — 24% (highest model probability, Win Bet selection)
- **B: Forza Azzurri** — 15% (strong overlay, favorable pace scenario)
- **C: Keep Movin' On** — 16% (secondary coverage, live trainer-jockey credentials)

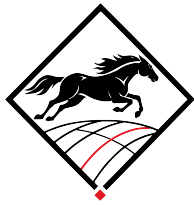

Combined Projected Probability: 55%

SECTION 7: CONFIDENCE RATING

★★★ (3/5 Stars)

Model Summary: The model projects a straightforward race favoring stalking and closing profiles over pure early speed in a HOT pace environment. Mici's Express emerges as the statistical selection with clear tactical setup advantages. However, confidence is moderate (not high) due to: (1) Modest speed figure separation across field (high consistency, low volatility = competitive race); (2) Forza Azzurri's lightly raced status creates unpredictability factor; (3) Tiggrrr Whitworth's bounce risk is material but not certain — recent

win carries genuine merit despite deceleration concerns. Pace scenario is the critical determinant; if this race develops as HOT vs. moderate, model projections hold strong. If pace becomes SOFT or CRAWLING, Tiggrrr could wire field, invalidating entire analysis.

Primary Model Insight: Ignore morning line overvaluation of Tiggrrr Whitworth (9/2) and Cupid's Crusader (7/2). Public fixated on recent win/credentials; model identifies severe bounce/deceleration risk for both. Forza Azzurri represents the public's underweighting — genuine overlay value at 4-1+. Mici's Express remains the model's lean, but only slight edge justifies play at 2-1 or better.
