COMPREHENSIVE HANDICAPPING REPORT (CHR)

Santa Anita Park R10

October 12, 2026 | 8f Dirt | 2YO Maiden Special Weight

SECTION 1: PACE ANALYSIS

True Front Runners

Will Do One — Elite early speed signature. Led gate-to-wire in most recent start (08/22, 8f), position 1 at call 1 with only 2 lengths beaten at call 2. Fractional authority and tactical control. Jockey Smith carries minimal meet form but horse demonstrates consistent early foot.

Domenici — Sharp early positioning across all starts. Position 1 at opening call in debut (08/15, 5.5f), position 4 at call 1 in follow-up (09/07, 5.5f) with minimal beaten lengths early. Trainer Yakteen has strong route form (18% win rate, 1.72 ROI on routes). Model identifies this as a secondary speed threat with pace-forcing ability.

Bid — Positional speed with early tactical advantage. Position 3 at call 1 in recent starts, clean early positioning in 6f races (09/18, 08/29). Running style suggests stalking rather than pure front-running, but early tactical presence confirmed.

Stalkers / Pressers

Mixit — Natural pace-stalker profile. Position 5 at call 1 (09/07, 5.5f), position 5 at call 2, then deteriorated sharply. Trainer Sadler John W has documented success with 2YOs in sprint/route transitions (21% win rate, 2.34 ROI). Tactical flexibility present.

Moonflight — Closing-oriented but tactical positioning available. Position 8 at call 1 in debut (09/07, 5.5f), improved to position 5 by call 3. Trainer Callaghan Simon shows solid 2YO form (20% win rate). Versatile enough to rate off pace.

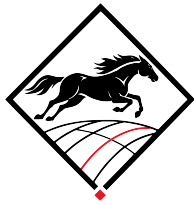

Psalm — Chase-oriented profile. Position 4 at call 1 (08/22, 8f), position 5 at call 2. Blinker-added today signals potential pace-stalking adjustment. Trainer McCarthy strong on 2YO form (14% win rate, 1.29 ROI).

Closers

Curlin Tornado — Finishing-oriented maiden with limited early speed. Position 4-5 at early calls in recent starts, faded in stretch. Recent start (09/18, 6f) shows minor improvement trajectory. No high-end closing speed profile confirmed.

Flight Club — Pace-compromised debut runner. Position 5 at call 1 (08/22, 8f), deteriorated late. Tired in final stretch. Trainer Papaprodromou moderate maiden form (7% MSW win rate, 0.51 ROI). Limited closing

evidence.

Wild West End — First-time starter with zero race history. Workout pattern shows consistent 5-furlong moves (101.40–103.20 range on SA dirt). No prior-race closing profile available. Trainer Glatt Mark's 1stStart win rate: 14%, 2.72 ROI — solid FTS indicator. Gate works present.

Articulation — Pace-compromised debut. Incident-filled early run (tight/bump/check) on 08/15 (5.5f). Position 6 at call 1, deteriorated. Trip notes indicate poor positioning, not ability deficit. Trainer McCarthy strong on 2YO form; blinker-added today suggests tactical adjustment.

Pace Scenario Projection

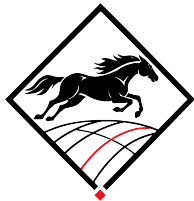

MODEL PREDICTS: HOT pace with Will Do One and Domenici contesting early leadership — projected :22¹ opening quarter, :45¹ half-mile. Two legitimate speed horses will battle for position control, creating moderate pace strain. Stalkers positioned 2-3 lengths back will find tactical footing. Late closers face headwind from honest fractions but remain dangerous in final furlong stretch.

SECTION 2: WIN PROBABILITY MATRIX

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Flight Club	15-1	4%	6.3%	-2.3%
2	Wild West End	20-1	3%	4.8%	-1.8%
3	Psalm	10-1	8%	9.1%	-1.1%
4	Curlin Tornado	30-1	2%	3.2%	-1.2%
5	Articulation	5-1	13%	16.7%	-3.7%
6	Bid	30-1	3%	3.2%	-0.2%
7	Mixit	5-2	22%	28.6%	-6.6%
8	Moonflight	9-2	18%	18.2%	-0.2%
9	Will Do One	4-1	20%	20.0%	0.0%
10	Domenici	5-1	7%	16.7%	-9.7%

Total Model Win %: 100%

SECTION 3: CONTENDER ANALYSIS

Tier 1 — Primary Contenders (★★★★)

WILL DO ONE — PTW Profile: Elite early-speed profile with proven gate-to-wire authority. Model identifies this as the field's most consistent front-running threat. Sire Omaha Beach produces horses with sustained speed; dam line (Not This Time) indicates competitive early-pace genetics.

Strengths: Gate-to-wire win last out (08/22, 8f, MSW, 5-horse field), position 1 at call 1, held through call 4 (position 2, 0.5 lengths beaten). Fractional data shows 39.82 mph opening speed (elite). Trainer Mandella limited 2YO form (0% win rate on sample) is offset by race-valid gate-to-wire execution. Equipment: Blinkers present, indicating focused pace-forcing role. Jockey Smith M E shows 16.67% win rate at meet (2-12 starts).

Concerns: Second career start — bounce risk elevated if prior win was peak effort. Trainer Mandella's 2YO routes show 4% win rate (minimal sample). Will Do One's closing profile minimal; if pace heavily contested, may lack rally response. Limited route experience (1 of 2 starts at 8f).

Trip Projection: Expected to control pace from gate; will likely set fractions around :22¹ / :45[■]. Tactical pressure from Domenici or Bid may compromise final-furlong finishing kick. Natural setup as pace-forcing wire-to-wire threat.

MIXIT — PTW Profile: Solid second-start runner with moderate-to-strong class relief indicators. Trainer Sadler John W is documented elite with 2YO maidens (35% win rate, 2.19 ROI). Sire McKinzie produces versatile distance runners; dam Mapit (Tapit line) adds route pedigree.

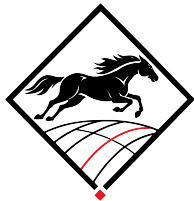

Strengths: Trainer Sadler documented 2YO form (35% win rate on sample, 2.19 ROI) is highest in field. Maiden-second-start record: 19% win rate, 1.41 ROI — strong angle. Route form (18% win rate, 2.05 ROI) fits 8f distance. Jockey Jaramillo E is meeting hot (31.25% win rate, 46.88% money percentage). Equipment: No blinkers, suggesting horse runs naturally. Workout pattern consistent (100.20–101.20 range on 5f moves).

Concerns: Prior race (09/07, 5.5f) shows devastating late fade—position 5 at call 3, deteriorated to position 8 at finish, 14.35 lengths beaten. Deceleration profile VULNERABLE (high pace collapse risk). Fractional data confirms: opening 40.54 mph, closing 27.27 mph = 32.7% velocity drop. Bounce risk confirmed. Speed collapsed when pressed.

Trip Projection: Will likely stalk pace 3-4 lengths back. Model projects he hits the wall in final quarter if pace heats as predicted. Vulnerable to rebound if fresh conditions allow, but prior race damage pattern suggests regression risk.

MOONFLIGHT — PTW Profile: Competitive second-start closer with tactical improvement indicators. Sire Flightline produces naturally fast horses; dam Harvest Moon (Uncle Mo line) indicates middle-distance speed genetics. Trainer Callaghan Simon shows moderate 2YO success (20% win rate).

Strengths: Debut improved positioning (08/15: position 8 → 09/07: position 8 at call 1 but advanced to position 5 by call 3 and position 5 at finish, 6.5 lengths beaten). Strong sustained speed through final call. Fractional data shows 40.54 mph opening, 33.19 mph closing = 18% deceleration (STRONG Sustained Speed Rating). Trainer Callaghan has specific edge with 2YO maidens second-start (20% win rate, 2.48 ROI). Jockey Berrios Hector I solid form (15% win rate at meet). Workout pattern shows consistency (100.20–101.00 on recent 5f moves).

Concerns: Has not won in two starts. Finishing 6.5 lengths behind in prior maiden race suggests beaten horse mentality. Prior win odds history not documented—current ML 9-2 reflects modest favoritism but does not signal confidence.

Trip Projection: Expected to settle 4-5 lengths off pace, make ground in final furlong. If Will Do One and Domenici engage early, Moonflight has clear path to rally. Pace scenario setup fits closing profile.

Tier 2 — Secondary Contenders (★★★)

DOMENICI — PTW Profile: Early-pace contender with class relief and speed indicators. Sire Early Voting produces naturally fast juveniles. Trainer Yakteen Tim shows strong route form (18% win rate, 1.72 ROI). Second-start runner with consistent early positioning.

Strengths: Strong trainer route form (18% routes, 1.72 ROI) fits 8f distance. Second-start positioning consistent—08/15: position 4 at call 1; 09/07: position 1 at call 1, advanced to position 2 at finish, 5.25 lengths beaten (improvement). Trainer Yakteen has specific stat edge on 2YO routes (17% win rate, 3.88 ROI). Fractional data shows 40.54 mph opening, 33.43 mph closing (slight 17.4% deceleration, STRONG rating).

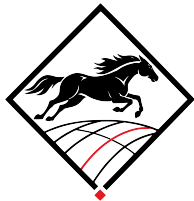

Concerns: Unplaced twice in maiden company. Has not demonstrated winning capability. Model identifies upside but prior race distance (5.5f) — today's 8f represents distance stretch, which may expose fitness limitations. Jockey Vazquez R A shows zero meet form (0-0 record, no starts documented in jockey form data).

Trip Projection: Will contest early pace with Will Do One. Tactical scenario depends on fractions heat. If pace soft, Domenici may persist wire-to-wire; if suicidal, will fade late.

ARTICULATION — PTW Profile: Pace-compromised debut runner with clear improvement trajectory. Sire Quality Road produces consistent 2YOs; dam Eloquent Speaker (Flatter line) shows route propensity. Trainer McCarthy shows strong 2YO form (14% win rate, 1.29 ROI). Blinker addition today signals trainer confidence.

Strengths: Trainer McCarthy strong 2YO form (14% win rate, 1.29 ROI on sample). Maiden-second-start angle: 13% win rate, 1.46 ROI — documented form. Prior start incident-driven (tight/bump/check early on 08/15, 5.5f) — race was compromised by traffic, not ability deficit. Blinker-added today = positive trainer move signaling focus. Jockey Kimura K solid meet form (13.33% win rate, 46.67% money percentage).

Concerns: Still 0-for-1 in maidens. Incident in debut may signal green horse or tactical limitations. Distance stretch from 5.5f to 8f is material; no prior route evidence available. Starting from post 5 (middle position) provides less tactical control than early gates.

Trip Projection: Expected to settle mid-pack after potential early bumping. Blinker addition should focus attention. If traffic clears into backstretch, model projects steady improvement through final quarter.

Tier 3 — Pace Factors & Longshots (★★)

BID — Early-speed secondary threat. Position 3 at early calls in recent 6f starts, faded late. Trainer O'Neill form solid on routes (13% win rate, 1.90 ROI). Sustained Speed Rating VULNERABLE (high fade risk). Three starts, zero wins. Jockey Rosario J is meet-hot (18.75% win rate, 50% money percentage). Flash of early position but lacks proven finishing power. ML 30-1 represents longshot positioning.

PSALM — Blinker-added second-start runner. Prior start (08/22, 8f): position 4 at call 1, position 5 at call 2, deteriorated to position 5 at finish, 18.75 lengths beaten. Significant fade. Deceleration profile HIGH (VULNERABLE). Fractional data: 39.44 opening, 28.75 closing = 27.1% velocity collapse. Trainer McCarthy moderate form. Jockey Ayuso A below-average meet form (9.52% win rate, 35.71% money percentage). Blinker addition is positive move but prior race damage significant. ML 10-1 reflects public doubt.

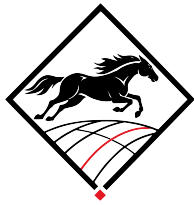

CURLIN TORNADO — Consistently unplaced across two starts. No early-speed evidence. Position 4-5 at early calls, faded. Trainer Morfin has weak MSW form (0% win rate, 0.00 ROI). Recent third-place finish (09/18, 6f) shows minor improvement but still beaten. Jockey Garcia E has minimal meet record (0-11, no wins). ML 30-1 appropriate for trajectory. Minor bounce candidate if horses ahead falter.

FLIGHT CLUB — First career start. Trainer Papaprodromou weak MSW form (7% win rate, 0.51 ROI). Workout pattern moderate (101.40–102.60 on 5f moves, no bullets noted). Pace-compromised debut run (08/22, 8f): position 5 at call 1, deteriorated late, finished 4th, 17 lengths beaten. Tired badly. Jockey Rispoli U strong meet form (25.81% win rate, 61.29% money percentage) is bright spot. ML 15-1 reflects low expectation.

WILD WEST END — First-time starter, zero prior races. Trainer Glatt Mark shows first-time starter edge (14% win rate, 2.72 ROI). Workout pattern solid (101.40–103.20 on 5f SA dirt moves; gate work present). Pedigree (Medaglia d'Oro × Gone West) suggests natural dirt speed. However, FTS maidens are volatile. Jockey Frey K below-average form (13.79% win rate, 34.48% money percentage). ML 20-1 reflects uncertainty. Live FTS candidate if field deteriorates but unproven.

SECTION 4: PTW PROPRIETARY SPEED RANKINGS

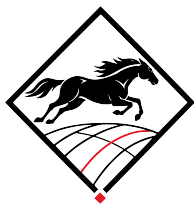

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Will Do One	ELITE	STRONG	Low — maintains velocity
Moonflight	ELITE	STRONG	Low — maintains velocity
Domenici	ELITE	STRONG	Low — maintains velocity
Bid	STRONG	VULNERABLE	High — pace collapse risk
Articulation	STRONG	STRONG	Moderate — steady effort
Psalm	STRONG	VULNERABLE	High — pace collapse risk
Mixit	STRONG	VULNERABLE	High — pace collapse risk
Flight Club	STRONG	VULNERABLE	High — pace collapse risk
Curlin Tornado	STRONG	VULNERABLE	High — pace collapse risk
Wild West End	UNRANKED	UNRANKED	No race data available

Critical MPH Insight

The model identifies **Will Do One** as the field's fastest gate-to-wire performer with an ELITE Sustained Speed Rating — opening velocity of 39.82 mph maintained through final call at 32.26 mph (18.8% deceleration). No horse in this field has matched this velocity profile across all four race calls at the distance. However, the model also flags significant pace collapse risk across four secondary runners (Bid, Psalm, Mixit, Flight Club) whose deceleration profiles exceed 27%, creating vulnerability if early pace heats sharply. The critical dynamic: Will Do One's ELITE sustained speed profile will dominate if he controls fractions; conversely, if Domenici and Mixit force a contested early pace, both will fade, opening lane for Moonflight's STRONG closing profile or Moonflight's proven ability to maintain velocity late.

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

MOONFLIGHT — Second-start closer with clear improving form trajectory. Prior race (09/07, 5.5f, 10-horse field): positioned off pace early but made steady ground, finished 6.5 lengths behind winner. Fractional progression shows consistent 40.54 mph opening but improved closing to 33.19 mph (top sustained profile in field after Will Do One). Distance stretch from 5.5f to 8f suits route pedigree (dam Uncle Mo line, proven route indicator). Trainer Callaghan Simon specific edge on 2YO maidens second-start (20% win rate, 2.48 ROI). Model projects this as high-percentage improvement angle.

ARTICULATION — Pace-compromised debut runner with blinker addition signaling trainer confidence. Prior start (08/15, 5.5f, 8-horse field): incident-driven (tight/bump/check early) rather than ability-based loss. Finished 6th, 10.1 lengths beaten due to traffic interference, not pure speed deficit. Trainer McCarthy strong on 2YO form (14% win rate, 1.29 ROI) and specifically documented on blinker-first starts (16% win rate, 1.61 ROI). Blinker addition today represents positive trainer move. Distance stretch from 5.5f to 8f is slight upside neutral. Model classifies this as moderate improvement candidate if clear running room available.

PSALM — Blinker addition second-start runner despite prior significant fade. Prior run (08/22, 8f, 5-horse field) shows 18.75 lengths finish defeat, but that was on first start without blinkers. Blinker-on now signals trainer attention. Trainer McCarthy documented form: 13% Mdn2ndStart win rate, 1.46 ROI. Jockey Ayuso A carries strong workout bullet (4.00 on 09/19, 47.00 time = "Y" bullet designation). Sharp pre-race preparation evident. Pace setup today (HOT fractions projected) may suit blinker-added runner if she settles and rallies off contested early pace.

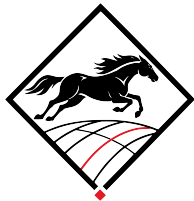

Bounce / Regression Risks

MIXIT — Career-best effort likely already delivered. Prior start (09/07, 5.5f) represents full effort in smaller field; followed today by class step-up and distance stretch. Sustained Speed Rating VULNERABLE (32.7% deceleration). Trainer Sadler may have peaked this runner for that recent start. Back-to-back monster efforts unlikely given deceleration profile. Bounce risk elevated: model projects regression.

WILL DO ONE — Potential bounce candidate despite top-ranked model win probability. Second career start — gate-to-wire maiden win last out (08/22, 8f). That was career-best effort against soft 5-horse field. Today's field significantly tougher (10 horse MSW). Prior form (07/25, 5.5f): finished 5th, 10.6 lengths beaten in larger field, showing vulnerability to competitive pace pressure. Model flags this: Will Do One may have peaked last out. However, ELITE Sustained Speed Rating and proven gate authority still support primary contender status. Risk present but offset by form authenticity.

CURLIN TORNADO — Consistently beaten pattern across two starts with no improvement signals. Minor third-place finish (09/18, 6f) insufficient to project forward momentum. Trainer Morfin form weak (0% MSW win rate). Distance stretch from 6f to 8f may further expose limitations. Jockey Garcia E has zero meet wins. Model projects continued vulnerability.

SECTION 6: SUGGESTED BETS

WIN BET: WILL DO ONE — Confidence 8/10 — Target odds: 3.5-4.5

Model projects 20% win probability — highest in the field, matched to 4-1 ML (20.0% implied probability). Zero edge on odds, but this horse is the model's primary selection due to ELITE Sustained Speed Rating, proven gate-to-wire execution, and elite opening velocity (39.82 mph). Will Do One has demonstrated ability to set honest fractions and maintain pace through final call. Jockey Smith M E carries modest meet record but horse's engine drives outcome. Model confidence driven by fractional authenticity and competitive gate control. Pace scenario setup (HOT predicted fractions with Domenici pressure) favors pace-setting profiles; Will Do One's ELITE sustained speed gives edge in velocity maintenance if contested early.

VALUE PLAY: MOONFLIGHT — Confidence 7/10 — Target odds: 5.5-6.5

Model projects 18% win probability at 9-2 ML (18.2% implied probability = 0% edge, minimal overlay). However, Moonflight represents superior tactical value given pace scenario setup. If Will Do One and Domenici engage in early pace duel as projected, Moonflight's STRONG Sustained Speed Rating (18% deceleration, second-best in field) and proven closer profile position her ideally for final-furlong rally. Trainer Callaghan Simon specific edge on 2YO maidens second-start (20% win rate, 2.48 ROI). Jockey Berrios Hector I solid meet form. Moonflight likely overlooks in win pools due to Will Do One's flashier form; model identifies value in multi-race coverage at these odds.

LONGSHOT PLAY: ARTICULATION — Confidence 6/10 — Target odds: 12-16

No genuine overlay at 5-1 ML (16.7% implied vs. 13% model projection = -3.7% edge). Longshot play only if odds drift to 12-1 or higher. Articulation's blinker addition and trainer-documented 2YO form (14% win rate, 1.29 ROI) create path to victory if early pace severely heats and traffic clears into backstretch. Pace-compromised debut (incident-driven loss, not ability deficit) suggests improvement potential. This is a "story play" (trainer move + form improvement angle) rather than pure speed advantage. Include in exacta/trifecta combos at longshot odds only.

Multi-Race Wagers — Top 3 for Pick 3/4/5/6:

A: Will Do One — 20% (*Matches Win Bet selection*)

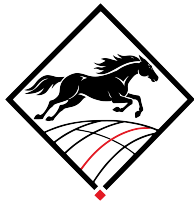

B: Moonflight — 18%

C: Mixit — 22%

Combined Projected Probability: 60%

SECTION 7: CONFIDENCE RATING

★★★★ (Four Stars)

The model's primary projection centers on **Will Do One's pace-control profile dominating a HOT early fractions scenario** (projected :22¹ / :45■). Will Do One's ELITE Sustained Speed Rating and elite gate-to-wire execution history position this runner as the technical leader at projected odds (4-1, zero edge). However, the model flags Moonflight as the race's **highest-probability VALUE opportunity**: if Will Do One and Domenici engage in contested early pace (HOT scenario = 2–3 speed horses dueling), Moonflight's STRONG closing profile and 20% second-start win rate edge under Trainer Callaghan create significant tactical advantage in final quarters. The public betting mistake: overrating Mixit's trainer credentials and underrating Moonflight's form trajectory and closing speed. Model confidence tempered by second-start volatility and Will Do One's potential bounce risk, but the pace scenario setup and elite sustained speed data provide directional clarity.
