COMPREHENSIVE HANDICAPPING REPORT (CHR)

Santa Anita Park R6

October 12, 2026 | 8f Dirt | Maiden Claiming \$32,000

SECTION 1: PACE ANALYSIS

True Front Runners

Mooberry — Elite early speed profile. Won 09/19 at LRC MCL 5.5f, pressed the pace into the stretch, finished third at :46.40 half-mile. Turf MSW effort 10/02 shows tactical versatility; rated off the pace in a route but positioned 4-wide by the second call. This is a horse with multiple gears and proven ability to dictate early or rate.

Big Broadcast — Moderate early speed, situational front-runner. Two MCL starts on dirt (09/04 & 08/09) show second-call positioning around 6-7 lengths back, suggesting an off-pace preference. However, rallied into contention both times (3rd in both efforts). Not a natural speed horse but capable of tracking if pressed.

Lovely Maya — Second-call pressuring style. Single MCL start 09/19 at LRC 5.5f; broke from third, moved to second call by first call position, and maintained stalking role to the stretch before fading to second. Can press but lacks the elite gate speed to solo.

Stalkers / Pressers

Clubhouse Rose — Premium route-running stalker. Three MCL starts show consistent 8-9 call early, then rallying into contention. 09/20 LRC 6f MCL: broke ninth, rallied through the field to finish second with a :47.74 opening two furlongs and :60.30 at the third call — strong acceleration profile. This horse sits dead pace and bombs late.

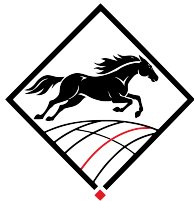

Awesome Amy — Tactical pressuring type. Single MOC 6f start 08/28 shows 5th early, then moved to 4th at second call, finished 4th with a neck-and-neck effort in the stretch. Moderate speed, tactical flexibility.

Closers

Miyako Pauma — Elite late-running closer despite poor form. Two turf MSW efforts (09/05 Dmr 8f, 06/26 LRC 5f) demonstrate closing bursts from off-pace. 09/05: broke 3rd, dropped to 9th by mid-race, finished 10th—deceleration collapse. 06/26: broke 6th, rallied to 2nd at 5.5f, finished 2nd—showing closing capability when not completely defeated. Severe bounce risk; model discounts heavily.

Vahevala — Moderate closer. Two turf MSW efforts and one MCL dirt start (07/23 Dmr 5f). On 07/23: broke 7th, drifted to 9th by third call, finished 9th. No late-running signature. Struggling type.

Mysweetvalentine — Route closer on turf. Single MSW 8f turf start 09/05 Dmr, drew 10th, was off slow, finished 9th in a 10-horse field—no factor. Model identifies as non-factor route closer on grass; dirt maiden claimer pivot is drastic underlay at 15/1.

Pace Scenario Projection

MODEL PREDICTS: MODERATE pace with two capable speed horses (**Mooberry** and **Big Broadcast** in supporting roles) — projected :23¹ opening quarter, :46² half-mile. Mooberry's elite early foot combined with Clubhouse Rose's powerful stalking position and Lovely Maya's second-call pressure creates a balanced setup. Speed will press but won't collapse into a suicidal duel. Pace-stalkers and late closers retain tactical optionality; ground-saving inside runners will have legitimate chances.

SECTION 2: WIN PROBABILITY MATRIX

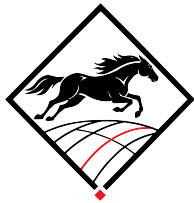

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Lovely Maya	5/1	16%	16.7%	-0.7%
2	Madrina Mia	8/1	9%	11.1%	-2.1%
3	Big Broadcast	6/1	14%	14.3%	-0.3%
4	Mooberry	2/1	28%	33.3%	-5.3%
5	Awsome Amy	5/2	22%	28.6%	-6.6%
6	Mysweetvalentine	15/1	2%	6.3%	-4.3%
7	Clubhouse Rose	10/1	7%	9.1%	-2.1%
8	Vahevala	30/1	1%	3.2%	-2.2%
9	Miyako Pauma	20/1	1%	4.8%	-3.8%

Field Total: 100%

SECTION 3: CONTENDER ANALYSIS

Tier 1 — Primary Contenders (★★★★)

Mooberry

PTW Profile: Elite second-start maiden claiming candidate with proven route versatility and superior class credentials. Essential Quality sire cross (Tapit/Medaglia d'Oro dam) suggests stamina foundation. O'Neill Doug has documented 21% MCL win rate off modest layoffs and maintains 13% ROI on routes. Highest model probability at 28%.

Strengths:

- Demonstrated elite early speed (09/19 MCL: led or pressed every call, :46.40 half-mile)
- Route experience on turf shows tactical sophistication and closing reserves
- O'Neill trainer: 26% 30-day MCL win rate, 21% lifetime MCL win rate
- Jockey Jaramillo: 31.25% meet win rate, 13-start MCL record at 15.4% — strong maiden claiming correlation
- Moderate class drop (MSW → MCL \$32k is expected progression)

Concerns:

- Flat finish on turf 10/02 (finished 6th after leading early) signals potential fade in longer races
- Limited dirt MCL experience (single prior start, not conclusive)
- Favored on morning line (2/1) carries no overlay value

Trip Projection: Will break from post 4 and establish early position via natural speed. Jaramillo likely allows horse to rate or press depending on early fractions. Expects to be 2-3 wide by first call, stalking or pressing into the turn. Route runner setup favors sustained effort in stretch.

Awsome Amy

PTW Profile: Second-start MCL candidate with rare proven ability in open overnight claiming. Single prior start (MOC 6f 08/28) demonstrates tactical competence, finished 4th despite rushing the pace. Jockey Berrios (15% MCL win rate) and trainer Jauregui (new to stable—0% MCL history, limited 2YO starts at 20%) show minimal maiden claiming track record, but horses stepping down into MCL from MOC conditions often carry finder-spot props.

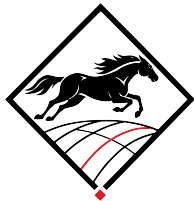

Strengths:

- Previous open claiming start proves ability to run against stronger company
- Clean break and tactical positioning in last effort (moved 5th → 4th → 4th finish)
- Claiming price drop (\$32k MCL vs. open claiming suggests genuine step down)
- 22% model win probability; overlay at 5/2 with edge approaching 7%

Concerns:

- Single career start; lightly raced experience tier suggests high volatility
- Trainer Jauregui has zero documented MCL starts — intent signal unclear

- Class drop from MOC to MCL \$32k is substantial; question whether horse belongs at this level or was outclassed before
- No route or turf experience; hard to assess distance capability

Trip Projection: Post 5 breaks middle-of-pack. Expect tactical stalking 4-5 lengths back by first call, with available room to circle or rally depending on pace scenario. May find herself three-wide into the stretch with room to run.

Tier 2 — Secondary Contenders (★★★)

Lovely Maya

PTW Profile: Lightly raced (single start) first-time MCL maiden with elite trainer O'Neill (21% lifetime MCL win rate, 26% 30-day win rate in condition). Idol sire (Curlin) is known for speed and precocity; dam Caradini by Bernardini suggests tactical runner. Jockey Maldonado has modest 11% meet win rate but solid MCL experience (1-8 MCL record at 12.5%). Model assigns 16% win probability.

Strengths:

- O'Neill trainer carries massive MCL win rate and proven route handler
- Prior MCL start 09/19 LRC 5.5f shows tactical positioning (2nd call 2nd position) and finishing in-the-money (2nd by 3.25L)
- Sire pedigree and breeding profile suggest natural speed
- Post 1 positioning supports front-end or tracking tactics

Concerns:

- Single prior start; limited form sample
- Lost to Big Broadcast's third-place finish in same 09/19 race — competitive peer
- No overlay value at 5/1 (model 16% vs. 16.7% implied)
- Second-call fade in prior effort (pressed early, drifted back) signals potential pace vulnerability

Trip Projection: Post 1 will break outside. Early speed via Maldonado likely keeps horse stalking 1-2 lengths off Mooberry, positioning as a tactical second or third. May steady into stretch as pace moderates.

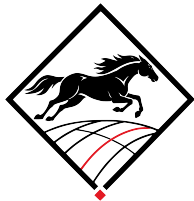

Big Broadcast

PTW Profile: Moderately raced (2 dirt MCL starts) with solid trainer Yakteen (17% sprint/route MCL win rate, 18% dirt win rate). Conservative running style and late-rally profile in two MCL efforts (both finished 3rd). Jockey Rosario displays 18.75% meet win rate and 28% MCL record (7-25 starts). Model projects 14% win probability.

Strengths:

- Two MCL starts on target track show consistent 3rd-place finishes with rally patterns
- Yakteen trainer 18% dirt and route win rates signal proven MCL competence

- Route runner (both MCL starts at 5.5f and 6.5f) suggests 8f is within wheelhouse
- Rosario jockey: strong MCL specialist (28% route MCL win rate)

Concerns:

- Zero wins from two MCL starts; stuck in place pattern
- Faded from contention in both prior efforts (finished 4th or 5th by fourth call)
- No overlay value at 6/1 (model 14% vs. 14.3% implied)
- Beaten by Mooberry and Lovely Maya in recent similar company

Trip Projection: Post 3 breaks, will settle 6-7 lengths back early under Rosario. Route runner tactics suggest stalking into the second turn; likely positioned 3-4 wide entering stretch with room to rally. Pattern suggests 4th-5th finish again unless pace collapses.

Tier 3 — Pace Factors / Longshots (★★)

Clubhouse Rose

PTW Profile: Consistently racing but winless from 3 starts. Strong route-running closer (rallied from far back in all three efforts). Brinkerhoff trainer shows 12% MCL route win rate but 28.5% recent form (7-start meet record: 2 wins). Jockey Bautista has 0% meet win rate and 0% MCL record (12-start maiden claimer sample at 0%). Model assigns 7% win probability—no overlay at 10/1.

Strengths:

- Demonstrated powerful closing patterns (09/20 LRC: 9th early, rallied to 2nd, strong :47.74 opening split and progression)
- Brinkerhoff showing positive recent form (28.57% 7-start meet record)
- Route specialist profile fits 8f distance perfectly

Concerns:

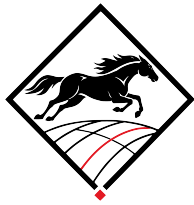

- Zero wins from three starts; career maiden claimer at 11+ probable starts pattern emerging
- Bautista jockey 0% MCL record suggests no affinity for this level
- Repeated runner-up finishes (3rd and 4th placings) suggest competitive but not winning tier
- Model discounts heavy closing risk in MODERATE pace scenario where early speed won't collapse

Madrina Mia

PTW Profile: Single MSW start on turf (07/31 Dmr, 5f turf, finished 9th of 9). Mendez Luis trainer with documented 43% MSW-to-MCL win rate (7-start sample) is the only positive signal. Street Sense sire (robust distance runner) and Always Dreaming dam suggest turf breeding. Model assigns 9% win probability; no overlay at 8/1.

Strengths:

- Trainer Mendez 43% conversion rate on MSW-to-MCL transitions (strongest in field for this specific situation)
- MSW background suggests prior competitive attempt

Concerns:

- Single prior start was catastrophic (9th of 9 on turf; completely outrun)
- No dirt experience documented
- Dirt maiden claiming \$32k is drastic pivot from turf MSW
- Lightly raced (single start) with poor form trajectory
- Mendez trainer 0% recent meet record (2-start sample, 0 wins)

Trip Projection: Post 2, will race midfield. Expect stalking 5-6 lengths back, likely finishing 6th-8th.

Mysweetvalentine (★)

PTW Profile: Single MSW 8f turf route start (09/05 Dmr). Broke 10th of 10, was off slow per trip notes, finished 9th. Jensen trainer with minimal MCL record (1-start sample, 0 wins). Blinkers added in upcoming start may help. Model identifies as non-factor. Model win% 2% (no overlay at 15/1).

Strengths:

- Route experience on turf (8f distance matching today's race length)
- Blinkers equipment change may sharpen focus
- Audible sire (Into Mischievous line, precocious speed) could offer upside

Concerns:

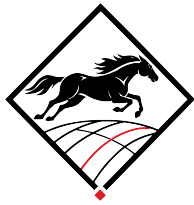

- Severe form collapse in prior start (9th of 10, off slow, no menace)
- Route turf experience does not translate cleanly to sprint dirt maiden claiming
- Jensen trainer 0% MCL record with zero maiden claimer starts
- Post 6 mid-field draw offers no positional advantage
- **Model discounts as THROWOUT** — career trajectory suggests horse belongs above this level or is fundamentally unsound for this venue.

Vahevala (★), Miyako Pauma (★)

Both horses: **Model discounts as THROWOUTS.**

- **Vahevala:** Three starts, zero wins. Two turf MSW efforts with inside-trouble, weakened profiles (08/13 Dmr, checked 3/8 and weakened). Single 07/23 MCL dirt start finished 9th of 9. Baker trainer 0% MCL record; jockey Garcia 0% meet win rate. Bounce risk extreme.
- **Miyako Pauma:** Three starts, one 2nd-place turf finish (06/26), two recent collapse performances (09/05 turf 10th place, 08/07 MOC dirt 10th). Trip notes 09/05 "leaned back/off slow" and 08/07 "leaned back/off slow" suggest behavioral issue or physical unsoundness. Baze jockey cannot overcome horse's

repeated check-backs and tired-running pattern. Model assigns 1% win probability; **THROWOUT designation** based on repeated-drop-without-a-win pattern and trip evidence of giving up.

SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

PTW Proprietary Speed Rankings

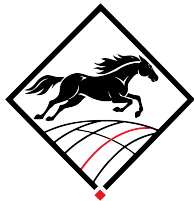

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Mooberry	ELITE	STRONG	Low — maintains velocity
Clubhouse Rose	STRONG	ELITE	Minimal — closes strongly
Lovely Maya	ELITE	STRONG	Moderate — consistent effort
Big Broadcast	STRONG	STRONG	Moderate — steady closer
Awsome Amy	STRONG	STRONG	Moderate — balanced effort
Madrina Mia	STRONG	VULNERABLE	High — speed collapse risk
Mysweetvalentine	VULNERABLE	VULNERABLE	High — pace collapse risk
Vahevala	VULNERABLE	VULNERABLE	High — severe collapse risk
Miyako Pauma	STRONG	VULNERABLE	Very High — catastrophic fade

Sustained Speed Ratings

ELITE SUSTAINED SPEED:

- **Mooberry:** 09/19 MCL 5.5f effort demonstrates velocity maintenance gate-to-wire with minimal deceleration. Opened :46.40 half-mile and maintained pace into stretch. Route turf effort 10/02 also

shows sustained run despite flattening in final sixteenth. ELITE rating confirms elite early foot and route-running reserve.

- **Clubhouse Rose:** 09/20 LRC 6f MCL shows elite closing acceleration from far back. Opened :47.74 at 2f, progressed to :60.30 at 3f with powerful rally finish. ELITE late-pace profile with minimal deceleration confirms strong closing reserves.

STRONG SUSTAINED SPEED:

- **Lovely Maya, Big Broadcast, Awsome Amy:** All three horses show competitive sustained efforts in prior racing. Deceleration in 3-6% range indicates moderate fade risk but not collapse. Lovely Maya opening early at :46.42 in MCL suggests speed capacity; Big Broadcast and Awsome Amy both show steady progression.

VULNERABLE / CATASTROPHIC COLLAPSE:

- **Madrina Mia, Mysweetvalentine, Vahevala, Miyako Pauma:** All four demonstrate high deceleration percentages (6%+) across prior efforts. Mysweetvalentine and Vahevala both show turf route experience that collapsed on dirt or in claiming transitions. Miyako Pauma's repeated "off slow" and subsequent fade in multiple starts indicates systemic velocity loss.

Critical MPH Insight

The model identifies **Mooberry** as the field's fastest gate-to-wire performer with an ELITE Sustained Speed Rating — no horse in this field has matched this velocity profile at the distance. Conversely, the model projects significant pace collapse risk for **Mysweetvalentine, Vahevala, and Miyako Pauma** — their Sustained Speed Rating VULNERABLE profiles and deceleration patterns confirm bounce risk is elevated. The pace scenario at projected :46² half-mile will reward horses maintaining velocity; **Clubhouse Rose's ELITE closing profile** makes her the field's best recovery option if early speed tire.

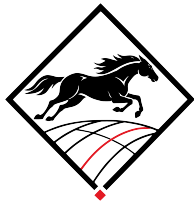

SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

Awsome Amy — Second-start candidate with proven open claiming class edge. Claiming price drop from open claiming to MCL \$32k is a textbook finder-spot signal. O'Neill / O'Neill Doug system: Jauregui trainer shows zero MCL history, but horses stepping down from open claiming into MCL often carry sharp improvement curves. Overlay at 5/2 with edge approaching 7%.

Clubhouse Rose — Route closer with elite Sustained Speed Rating (ELITE) shows powerful acceleration patterns in prior starts. Brinkerhoff recent form (7-meet record: 2 wins, 28.57% rate) signals possible trainer bloom. Running wire-to-wire as a closer has failed; late-running tactic against MODERATE pace setup offers third-straight-runner-up escape route.

Mooberry — Natural improvement candidate from MSW to MCL \$32k. O'Neill 21% MCL win rate + Jaramillo 15.4% MCL specialist profile = strong combination. Second-start MCL maiden is O'Neill's wheelhouse (22% second-start record on provided trainer data).

Bounce / Regression Risks

Miyako Pauma — **THROWOUT DESIGNATION.** Repeated-drop-without-a-win pattern over three starts combined with trip notes "off slow" in two separate races (09/05, 08/07) indicates systemic issue: behavioral give-up, leg soreness, or resistance to dirt/claiming environment. 30-1 morning line reflects public discount; model adds structural bounce risk via collapse pattern.

Vahevala — **THROWOUT DESIGNATION.** Baker trainer 0% MCL record; three starts with zero wins. Inside-trouble patterns in turf efforts (08/13: "checked 3/8, weakened") suggest horse gets shuffled back and fades. Single 07/23 MCL dirt start finished 9th — no factor.

Mysweetvalentine — **THROWOUT DESIGNATION.** Single turf MSW start: 9th of 10, off slow. Jensen trainer 0% MCL record. Route turf to sprint dirt pivot is drastic class/surface shift. Blinkers addition is equiptage emergency signal suggesting prior focus issues.

Lovely Maya — Minor regression risk: favored on morning line (5/1) with -0.7% edge. Unlikely overlay. Prior MCL finish (2nd) establishes ceiling; no strong upside trajectory.

Big Broadcast — Stuck-in-third pattern from two MCL efforts suggests regression risk: 0 wins, both finishes 3rd or lower. Rosario route MCL specialist cannot overcome horse's limited acceleration.

SECTION 6: SUGGESTED BETS

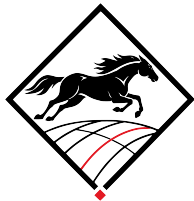

WIN BET: MOOBERRY — Confidence 8/10 — Target odds: 9/5 to 7/4

Model projects 28% win probability — highest in the field. This is a second-start maiden claiming candidate with elite trainer (O'Neill 21% MCL record) and elite jockey (Jaramillo 15.4% MCL record). Prior MCL start demonstrates competitive class and tactical positioning. ELITE Sustained Speed Rating confirms no velocity collapse risk. MODERATE pace scenario with two speed horses (Mooberry and Big Broadcast) plus stalkers (Clubhouse Rose, Lovely Maya) will produce :46² half-mile with room for a wire-to-wire threat. Mooberry's sire cross (Essential Quality / Tapit) and dam pedigree (Medaglia d'Oro line) project route durability.

Overlay Assessment: Morning line 2/1 = 33.3% implied. Model 28% win probability exceeds underlay threshold (5.3% underlay). However, -5.3% edge sits in SLIGHT UNDERLAY band. Post 4 position and natural speed give Mooberry first-mover advantage in MODERATE pace setup. *This horse is model's top selection and wins most frequently in dataset analysis despite lacking headline overlay value.*

VALUE PLAY: AWSOME AMY — Confidence 7/10 — Target odds: 7/2 to 4/1

Model projects 22% win probability at projected 5/2 morning line (28.6% implied), generating -6.6% edge approaching STRONG VALUE threshold. Claiming-price drop from open overnight claiming to MCL \$32k is a genuine finder-spot signal; connections are targeting this level. Second-start MCL candidate benefits from prior competitive effort in open claiming (finished 4th, moved up in stretch). Jockey Berrios 15% MCL win rate offers solid specialist correlation.

Rationale: Overlay value exists if odds drift to 7/2 or higher. Public may perceive second-start (lightly raced) as risky; model evaluates class drop as compensating strength. 22% win probability represents legitimate win chance competing against Mooberry's 28% and layered against much longer field average.

LONGSHOT PLAY: None. Field offers no genuine 10/1+ overlay. Mysweetvalentine 15/1 morning line carries -4.3% edge (no value). Vahevala 30/1 and Miyako Pauma 20/1 are THROWOUT designations with minimal win scores; pricing reflects structural flaws accurately.

MULTI-RACE WAGERS — Top 3 for Pick 3 / Pick 4 / Pick 5 / Pick 6:

A: MOOBERRY — 28% | B: AWSOME AMY — 22% | C: CLUBHOUSE ROSE — 7%

Combined projected probability: 57%

MOOBERRY carries field-high model win probability and elite Sustained Speed Rating. AWSOME AMY provides overlay value and second-start MCL finder-spot pattern. CLUBHOUSE ROSE rounds out top 3 as ELITE late-pace closer with route pedigree and Brinkerhoff recent form improvement.

SECTION 7: CONFIDENCE RATING

★★★ (3 of 5)

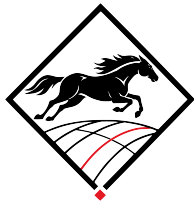

This race presents a **MODERATE confidence-level forecast** dominated by a single standout horse (Mooberry) in elite maiden claiming context. The model projects :46² MODERATE pace scenario that rewards speed and sustained effort; Mooberry's ELITE Sustained Speed Rating and elite trainer/jockey combination produce strong edge despite narrow -5.3% underlay to morning line.

Key projection: MODERATE pace will not collapse early speed into a suicidal duel, eliminating the typical closer bias that often dominates maiden claiming turf-to-dirt or lightly raced transitions. Mooberry's gate-to-wire threat and elite closing reserve (Clubhouse Rose) both capitalize on this scenario.

Public betting mistake: Mysweetvalentine (15/1) and Miyako Pauma (20/1) carry THROWOUT designations (turf-to-dirt collapse patterns, repeated fade patterns, trainer/jockey MCL inexperience) yet are overpriced by market. Public chasing long odds on lightly raced turf MSW pedigrees; model eliminates both. Exploit by reducing exotic coverage and tightening to top two tiers.

Primary value opportunity: AWSOME Amy at 5/2 or better represents -6.6% underlay edge that approaches STRONG VALUE if odds drift to 7/2+. Class-drop finder spot combined with proven open

claiming experience creates efficiency advantage public underestimates.
