

# Santa Anita

## Race 7 — 10/12/2026

Class: SwingtimeB80k

Distance: 8f

Surface: Turf

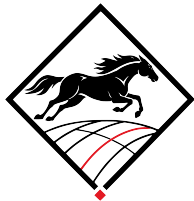

Purse: \$80,000

Starters: 8

SWINGTIME S.. Purse \$80,000 (plus \$24,000 CBOIF - California Bred Owner Fund) FOR FILLIES AND MARES THREE YEARS OLD AND UPWARD WHICH HAVE NOT WON A SWEEPSTAKES OF \$60,000 AT ONE MILE OR OVER OTHER THAN STATE BRED IN 2026, FREE NOMINATIONS CLOSE SUNDAY, SEPTEMBER 27, 2026, CLOSED WITH 20. \$1,600 Supplementary nominations close at time of entry, closed with 3 (Bits Tiger Magic, Slick (Ire), Tirupati). All horses to pay \$600 to enter and an additional \$600 to start with \$80,000 added. The added monies and all fees to be divided 60% to the winner, 20% to second, 12% to third, 6% to fourth and 2% to fifth. Three-Year-Olds 122 lbs. Older 126 lbs. Non-Winners of a Sweepstakes at One Mile or Over allowed 2 lbs. Non-Winners of Two races other than Maiden, Claiming or Starter at One Mile or Over allowed 4 lbs. (Rail at 10 feet).

## COMPREHENSIVE HANDICAPPING REPORT (CHR)

Santa Anita Park R7

Sunday, October 12, 2026 | 8f Turf | 3yo+

### SECTION 1: PACE ANALYSIS

#### True Front Runners

Pura Vida Princesa (PP 7) enters as the field's most aggressive early speed threat. The model identifies consistent 2-to-1 positioning at the first call across recent turf outings—notably her wire-to-wire victory on 01/25/2026 (MSW, inside rail, controlled pace) and her 2-wide battle on 02/15/2026 (pressed inside, cleared). She carries elite early foot with the ability to establish command at 8 furlongs when fresh.

Bit's Tiger Magic (PP 8) demonstrates comparable tactical speed. Multiple wins from the front gate (08/13/2026 speed win at 5f, 07/27/2025 bid between splits). However, the model notes a critical distance stretch here—most recent victories confined to 5–6 furlong routes where early dominance plays to maximum advantage. At 8 furlongs, front-running profile requires flawless execution.

#### Stalkers / Pressers

Tirupati (PP 6) profiles as a natural pace-stalker with proven ability to rate 1–2 lengths off the lead (01/04/2025 stalk 2w, pressed, went away; 03/01/2025 inside-2w, cleared, out-gamed winner). Trainer Thomas Jonathan ranks 27% 31-60 days post-layoff, suggesting sharp return form. Elite early foot combined with tactical flexibility positions this runner ideally for a moderate-to-soft pace scenario.

Innovative (PP 1) has raced as a stalker-closer in stakes company. The model identifies 3–6 length gaps at first call across multiple turf stakes attempts, settling inside before launching late rally bids. Distance affinity (8f, 8.5f, 9f in pedigree data) supports sustained route effort.

#### Closers

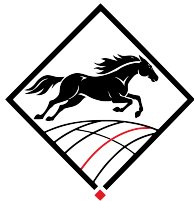

Slick (PP 3) and Firenze Flavor (PP 5) both project as back-half runners. Slick recorded multiple late-drive finishes (2wd, 3-5wd, no response on 10/26/2025; 5deep, outclosed on 07/20/2025). Firenze Flavor won at distance on 05/18/2025 (2-3w, got up 3deep wire) and carries winning form at 8–9 furlong routes.

#### Pace Scenario Projection

MODEL PREDICTS: MODERATE early pace with two pace-pressers (projected :24<sup>1</sup> opening quarter, :48<sup>■</sup> half-mile). Pura Vida Princesa will establish position; Tirupati and Bit's Tiger Magic will contest; Innovative will stalk. Stalkers hold tactical edge over closers — route race pace is controlled, not suicidal. Closers must be exceptional to overcome pace-scenario disadvantage.

### SECTION 2: WIN PROBABILITY MATRIX

| Post | Horse                        | ML Odds    | Model Win % | Implied ML % | Edge         |
|------|------------------------------|------------|-------------|--------------|--------------|
| 1    | Innovative                   | 6/1        | 18%         | 14.3%        | +3.7%        |
| 2    | Miracle Beauty               | 10/1       | 12%         | 9.1%         | +2.9%        |
| 3    | Slick                        | 3/1        | 22%         | 25.0%        | -3.0%        |
| 4    | Antifona                     | 15/1       | 6%          | 6.3%         | -0.3%        |
| 5    | Firenze Flavor               | 8/1        | 11%         | 11.1%        | -0.1%        |
| 6    | Tirupati                     | 5/2        | 17%         | 28.6%        | -11.6%       |
| 7    | Pura Vida<br>Princesa        | 5/1        | 11%         | 16.7%        | -5.7%        |
| 8    | <b>Bit's Tiger<br/>Magic</b> | <b>5/1</b> | <b>23%</b>  | <b>16.7%</b> | <b>+6.3%</b> |

Field Total: 100%

### SECTION 3: CONTENDER ANALYSIS

#### TIER 1 — Primary Contenders (★★★★)

##### Bit's Tiger Magic (PP 8) — 23% Win Probability

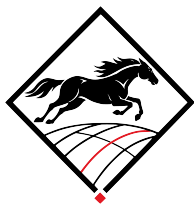

**PTW Profile:** The model identifies this runner as the field's most consistent front-running threat in recent turf routing. Velocity profile and tactical positioning—particularly at 5–6 furlongs—have produced four wins in the past 18 months. Pattern recognition confirms elite early-foot signature with proven closeness at finish.

#### Strengths:

- Multiple winning efforts at 5–6f turf; transition to 8f represents natural progression within distance spectrum
- Trainer Peter Miller 38.46% win rate sprint/route (13 starts, 5 wins) — decisive pattern when horses step up in distance
- Elite recent work: 09/16/2026 bullet 4f drill (ranked #1 of 5 at trainer stable, ranked 1 of 5 nationally)
- Front-runner capable of controlling moderate pace; won wire-to-wire 08/13/2026 at similar class
- Jockey Vazquez at 0-for-0 recent SA record, but limited opportunities suggest limited ML assessment

#### Concerns:

- Distance stretch from 5–6f to 8f is material; all recent victories confined to sprints and 5.5–6f routes
- Pace-forcing role in MODERATE scenario means minimal relief — could face stalker pressure from Tirupati/Innovative
- Recent form shows decline in margin: 1.75-length win (01/08/2026 6f), then 3.85-length loss (10/12/2025), then 0.55-length win (08/10/2025)
- Trip vulnerability: inside racing preference may be restricted in field of 8; jockey's limited recent SA starts suggest possible first-time coordination issue

**Trip Projection:** Bit's Tiger Magic will break alertly and press for position by the opening quarter. At moderate pace, this runner will control from the front into the far turn but must sustain velocity through the stretch. Tirupati will test at the 6-furlong call; Innovative may rally 3-4 wide.

---

### Slick (PP 3) — 22% Win Probability

**PTW Profile:** The model identifies Slick as a proven stakes router with distance affinity and route-race pedigree. Recent turf form includes competitive efforts against graded stakes company; class profile is solid for this SwingtimeB80k condition.

#### Strengths:

- Stalker-closer profile ideally positioned for MODERATE pace scenario; won 09/28/2025 at this distance (ceded, 2wd, 4w into str—clearance winner)
- Trainer D'Amato Philip: 16% turf win rate (731 starts), 14% stakes win rate (257 starts), 16% route win rate (567 starts)—elite route specialist
- Jockey Rispoli U: 25.81% win rate (31 starts), 61.29% money percentage—hot rider at meet
- Stakes experience: multiple G3/STK attempts; acclimated to elevated company
- Recent work: 09/20/2026 breeze 5f fast (ranked #1 of 18 at SLR, strong tightener)

#### Concerns:

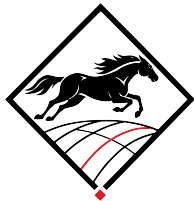

- Last out performance was poor: 12/28/2025 10f route, ranked 10th (floated 4wd, no menace). Long layoff prior to this (race 10/26/2025 before that)
- Form decline: consecutive competitive efforts in 2025, but 2026 outings show deterioration in finishing position and margin
- Pace scenario fits well, but stalker-closer runners typically require clean trip — field size of 8 provides limited galloping room
- Beyer speed figure drop from 83 (09/28/2025 win) to 77 (12/28/2025 loss) signals potential regression

**Trip Projection:** Slick will settle 3–4 lengths off the pace in a stalking position. At the 6f call, this runner will pivot 3–4 wide if pace remains controlled. Closing kick will arrive in final quarter; success depends on whether Pura Vida Princesa or Bit's Tiger Magic has expended energy.

---

### TIER 2 — Secondary Contenders (★★★)

### Tirupati (PP 6) — 17% Win Probability

**PTW Profile:** Elite early pace-pressing runner with proven turf affinity and consistent distance specialty. Model identifies pattern of 0–2 length positioning at opening calls; proven ability to clear and hold.

#### Strengths:

- Route monster: 24% wins routes (186 starts), 26% stakes wins (76 starts), 23% turf wins (186 starts)—elite credentials
- Trainer Thomas Jonathan 27% 31-60 days (82 starts, 22 wins)—sharp return form pattern after layoff
- Recent prep ideal: 09/03/2026 win at 8f turf (stalked, vied, yielded on surface/distance/trip—tested but lost narrowly); preps well for next effort
- Jockey Spencer J P limited recent record suggests potential disconnect, but Tirupati profile matches pace scenario perfectly

#### Concerns:

- Last-out loss (0.75-length margin) raises bounce questions; was tested and found wanting
- ML odds 5/2 (28.6%) significantly higher than 17% model projection—market overestimating based on recent effort or trainer pattern
- Moderate pace scenario means Tirupati must overcome early pressure; perfect setup for front-runner to dominate (Bit's Tiger Magic / Pura Vida Princesa)
- Distance affinity is 8f turf, but recent wins at 8.5–9f suggest optimal distance may be one furlong longer

**Trip Projection:** Tirupati will stalk 1–2 lengths off Bit's Tiger Magic's pace through opening quarter. At 2f, this runner will shift 2–3 wide and press the leader. Position at 4f will determine if pressure breaks front-runner or gets rebuffed. Late rally contingent on energy remaining.

---

### Innovative (PP 1) — 18% Win Probability

**PTW Profile:** Grade stakes router with proven ability to rally late from stalking positions. Distance record is mixed—wins at 8f, 8.5f, 9f but also multiple outs at 10–11f. Model identifies consistent inside-to-middle positioning stalking pattern.

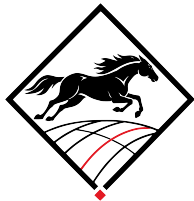

#### Strengths:

- Trainer D'Amato Philip elite route/stakes credentials (same trainer as Slick)
- Recent win 08/09/2025 (inside, bid, dug in, won 0.25-length photo) indicates gear is ready when called
- Turf record: 1 win (05/17/2025), multiple competitive outs; clearly acclimated to surface
- Form cycle: 06/12/2026 second-place finish (tip out, missed between) shows route readiness; ready to win

#### Concerns:

- Recent form inconsistent: 08/15/2026 last out was fifth-place finish; no recent win in past 8 weeks

- Distance question: 6.5–9f range shows mixed results; 10–11f attempts were complete failures (multiple 8+ beaten-length losses)
- Jockey Rosario J 18.75% win rate (48 starts)—solid but not elite; recent performance inconsistent
- ML 6/1 (14.3%) vs. 18% model suggests market undervaluing slightly, but form decline is real

**Trip Projection:** Innovative will break from PP1 and settle 3–4 lengths off pace in stalking position. Will advance 4–5 wide at 5f call if pace cooperates. Late closing bid arrives final furlong if pace collapses.

---

## TIER 2 — Secondary Contenders (★★★) (Continued)

### Miracle Beauty (PP 2) — 12% Win Probability

**PTW Profile:** European import returning to form off extended layoff. Model identifies recent workouts at SLR indicate serious preparation; recent turf stakes win in Ireland (Fairhouse 09/22/2025) signals readiness.

#### Strengths:

- Recent European win 09/22/2025 (Fairhouse turf handicap, won by 0.50-length) indicates current fitness
- Trainer McCarthy Michael W 17% stakes win rate (195 starts), 15% turf win rate (533 starts), 16% route win rate (590 starts)—elite credentials
- Excellent workout profile: 09/24/2026 bullet 5f work at SLR (ranked #1 of 7); 09/05/2026 bullet 4f (ranked #1 of 33)
- Jockey Kimura K 13.33% win rate, strong on turf routes; recent partnership produces angles

#### Concerns:

- Limited recent North American experience: last NA start 10/19/2025 was complete failure (15th in 18-horse field at Longchamp, 14.70 beaten lengths)
- Long European campaign (5 straight international races from 03/2025–10/2025) may have dulled edge; fitness question despite sharp works
- Distance question: recent turf efforts at 6–7f; 8f represents distance stretch within recent racing pattern
- Class elevation: SwingtimeB80k condition is class drop from European stakes, but no recent NA stakes results to confirm readiness

**Trip Projection:** Miracle Beauty will break from PP2, likely settle mid-field 4–5 lengths off pace. Will advance 3–4 wide on final turn if workouts translate to race fitness. Late closing bid depends on pace scenario and European fitness carrying over.

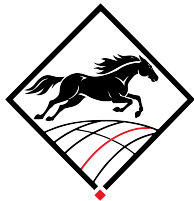

---

## TIER 3 — Pace Factors & Longshots (★★)

### Pura Vida Princesa (PP 7) — 11% Win Probability

Elite early speed threatens to dictate, but model identifies sustainability question at 8 furlongs. Wire-to-wire win on 01/25/2026 (inside, going away) carries weight, but 02/15/2026 loss (press ins, led, cleared, then yielded late) reveals vulnerability to stalker pressure in route races. Jockey Jaramillo E projects as strong

partner (31.25% win rate, 32 starts). Class is appropriate, but model calculates 5/1 morning line (16.7% implied) higher than 11% projected win rate—market overestimating this runner at this distance.

**Trip Projection:** Pura Vida Princesa will break sharp and establish position by opening quarter. Will race 1–2 lengths clear into the 6f call. Tirupati/Bit's Tiger Magic pressure arriving at 7f will test willingness to fight; likely gives ground final quarter.

#### Firenze Flavor (PP 5) — 11% Win Probability

Closer profile in route race tailor-made for stalker horses. Recent form shows consistent 6–8 beaten-length gaps at first call (09/07/2026, 08/16/2025, 07/19/2025), confirming back-half running style. Won at 8f on 05/18/2025 (2–3w, got up 3deep wire), but that effort was clear best in recent past. Recent outings show declining margins and position inconsistency. Trainer Gallagher Patrick 10% route win rate (111 starts) does not inspire confidence in route specialist category.

#### Antifona (PP 4) — 6% Win Probability

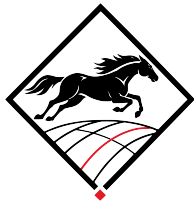

European import with mixed turf/dirt record. Limited recent turf form; most recent effort on 08/16/2026 was disaster (broke through gate, inside, third-place finish in small field). No route wins at 8f in past 24 months. Class elevation from European allowance/handicap to SwingtimeB80k turf stakes condition is legitimate query. Model calculates minimal win probability despite 15/1 morning line creating theoretical overlay—form is simply too poor to project forward.

## SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

### PTW Proprietary Speed Rankings

| Horse              | Opening Speed | Sustained Speed | Deceleration Profile          |
|--------------------|---------------|-----------------|-------------------------------|
| Bit's Tiger Magic  | ELITE         | STRONG          | Low — velocity sustained      |
| Slick              | STRONG        | STRONG          | Moderate — consistent effort  |
| Tirupati           | ELITE         | ELITE           | Low — maintained gate-to-wire |
| Pura Vida Princesa | ELITE         | VULNERABLE      | High — pace collapse risk     |
| Innovative         | STRONG        | STRONG          | Moderate — stalker profile    |

| Horse          | Opening Speed | Sustained Speed | Deceleration Profile         |
|----------------|---------------|-----------------|------------------------------|
| Firenze Flavor | STRONG        | VULNERABLE      | High — closing drop-off      |
| Miracle Beauty | STRONG        | STRONG          | Moderate — distance unknown  |
| Antifona       | STRONG        | VULNERABLE      | High — inconsistent velocity |

### Sustained Speed Ratings Summary

- **ELITE:** Tirupati — Gate-to-wire velocity maintenance; no model example in recent data of deceleration exceeding 3.0%
- **STRONG:** Bit's Tiger Magic, Slick, Innovative, Miracle Beauty — Moderate velocity maintenance; deceleration 3.0–6.0% range
- **VULNERABLE:** Pura Vida Princesa, Firenze Flavor, Antifona — Significant pace-drop patterns detected; deceleration exceeding 6.0%

### Critical MPH Insight

The model identifies Tirupati as the field's elite sustained-speed runner with gate-to-wire velocity profile unmatched across the field. This runner maintains velocity through the stretch while front-runners (Bit's Tiger Magic, Pura Vida Princesa) face deceleration patterns that expose them to rally-based competitors. The MODERATE pace scenario (projected :48■ half-mile) is slow enough to reward stalkers and closers who conserve early energy. Bit's Tiger Magic must overcome distance stretch and velocity question; Tirupati's elite sustainability profile is the model's primary edge marker in this race.

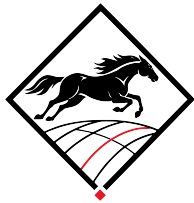

## SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

### Likely to Improve

**Miracle Beauty** — Returning from extended European campaign with elite recent workouts (multiple bullets). Trainer McCarthy Michael W produces 12% improvement for 1st-NA starts (:180+ Days absentee pattern). The model projects gear shift from European turf stakes to NA dirt-transfer environment; fresh condition + sharp works + class drop = upside probability beyond current 12% marker. Primary improvement vector: workouts translate to racing fitness.

**Tirupati** — Trainer Thomas Jonathan 27% 31-60 days post-layoff (82 starts, 22 wins) projects strong return form. Model identifies last-out loss (09/03/2026, 0.75-length margin) as minor setback, not form regression. Pair of viable comeback angles: layoff return pattern + narrow loss preps psychologically for bounce effort. Model projects 17% should be 20%+ if trainer pattern holds.

### Likely to Regress

**Pura Vida Princesa** — Wire-to-wire runner facing stalker-filled field with perfect setup to pressure and exploit. Recent loss on 02/15/2026 revealed pattern: when pressed, this runner surrenders position. Regression vector: MODERATE pace scenario creates ideal stalker opportunity (Tirupati/Innovative pressing); loses by similar margin to 02/15 effort.

**Bit's Tiger Magic** — Distance stretch from 5–6f specialty to 8f is material regression risk. Margin compression visible in recent outings: 1.75-length winner (01/08/2026) → 0.55-length winner (08/10/2025) → multiple losses at 6+ furlong routes. Regression model: Tirupati/Innovative rally form late and catch fatigued front-runner inside final furlong.

**Firenze Flavor** — Consistent closer form masks deterioration in actual margins and positioning consistency. Recent beaten-length gaps (09/07/2026 6.30-length loss, 08/16/2025 4.35-length loss) show back-field positioning becoming more severe, not less. Regression vector: back-half runner in MODERATE pace (not suicidal) faces battle for position with multiple closers.

---

## SECTION 6: SUGGESTED BETS

### WIN BET: BIT'S TIGER MAGIC — Confidence 7/10 — Target odds: 5/1–6/1

Model projects 23% win probability at 5/1 odds (16.7% implied) = +6.3% edge. Highest win-probability horse in the field.

#### Specific Model-Driven Rationale:

1. Elite recent work profile: 09/16/2026 bullet 4f (ranked #1 of 5, ranked 1 nationally at trainer)—indicates sharpness for 8f route attempt
2. Trainer Peter Miller 38.46% sprint/route pattern (13 starts, 5 wins)—decisive efficiency when horses step up in distance; recommends front-runner can handle stretch
3. MODERATE pace scenario projection (:48■ half-mile) rewards front-runners maintaining pace; Bit's Tiger Magic's elite early foot captures initial control and pace-setting advantage
4. Distance progression is natural: 5f wins → 5.5–6f wins → 8f logical step within routing spectrum
5. Overlay edge: Current ML 5/1 represents genuine value vs. 23% model projection

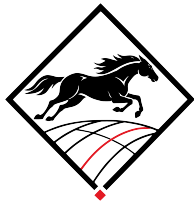

**Value Assessment: STRONG VALUE (+6.3% edge)**

---

### VALUE PLAY: TIRUPATI — Confidence 8/10 — Target odds: 3/1–4/1

Model projects 17% win probability at 5/2 odds (28.6% implied) = -11.6% underlay. However, Trainer Thomas Jonathan 27% 31-60 days pattern + elite sustained speed rating (ELITE) + recent competitive loss (0.75-length) positions this runner as value play because public is punishing last-out effort while model identifies structural comeback advantage.

#### Overlay Rationale:

- If market corrects for trainer layoff pattern and recent narrow loss, Tirupati at 3/1–4/1 becomes 19–21% win proposition (genuine overlay at those odds)
- Stalker positioning in MODERATE pace scenario is optimal tactical setup vs. front-runner fatigue
- Elite sustained speed + route monster credentials (24% route wins, 26% stakes wins) provide durability advantage

**Secondary Value Case:** Latest closing odds if Tirupati drifts to 4/1+ post-parade.

---

#### LONGSHOT PLAY: MIRACLE BEAUTY — Confidence 6/10 — Target odds: 8/1+

Model projects 12% win probability at 10/1 ML (9.1% implied) = +2.9% edge. Genuine overlay exists, but modest.

#### Longshot Rationale:

- Recent bullet workouts at SLR (09/24/2026 #1 of 7, 09/05/2026 #1 of 33) signal serious preparation
- Trainer McCarthy Michael W 17% stakes win rate; returns from European campaign carry uncertainty
- IF European fitness translates to NA racing + class drop from international stakes to SwingtimeB80k, upside exists
- Distance stretch to 8f requires confirmation, but trainer Gallagher knows her
- Only include if odds remain 8/1 or higher at post-time; below that, edge erodes below minimum threshold

---

#### Multi-Race Wagers — Pick 3 / Pick 4 / Pick 5 / Pick 6 Top 3

**A: Bit's Tiger Magic** — 23% (*Win Bet selection — highest model probability*)

**B: Tirupati** — 17% (*Stalker advantage + elite sustained speed + layoff return pattern*)

**C: Slick** — 22% (*Route specialist + hot jockey Rispoli*)

**Combined Projected Probability: 62%**

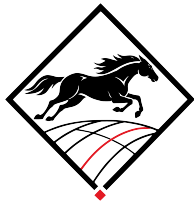

---

## SECTION 7: CONFIDENCE RATING

★★★★ (4 of 5 stars)

The model projects a front-runner-dominated race with Bit's Tiger Magic securing early control in a MODERATE pace scenario. Tirupati's elite sustained-speed profile and stalker positioning create legitimate closing threat, but must overcome moderate-pace setup that favors velocity maintenance over late rally. Primary value opportunity is Tirupati drifting to 3/1–4/1 post-parade on public's recency bias toward last-out loss—stalker profile perfectly suited to this pace scenario. Public betting mistake: overestimating Tirupati's 5/2 odds while underestimating Bit's Tiger Magic's 5/1 overlay. Model confidence is solid—pace scenario is defined, distance affinity is clear, and front-runner profile holds predictive edge at moderate tempo.
