Belmont Park

Race 4 — 11/01/2026

Class: NotebookB175k

Distance: 8f

Surface: Turf

Purse: $175,000

Starters: 9

NOTEBOOK S.. Purse $175,000 FOR TWO YEAR OLDS FOALED IN NEW YORK STATE AND APPROVED BY THE NEW YORK STATE-BRED REGISTRY. Lasix not allowed within 48 hours of post time pursuant to HISA Rule 4212. Free to nominate. $875 to pass the entry box and an additional $1,050 to start. For horses not originally nominated, a supplemental nomination payment of $1,050 in addition to the entry and starting fees may be made at any time prior to the closing of entries. 122 lbs. Maidens allowed 2 lbs. A trophy will be presented to the winning owner.The New York Racing Association reserves the right to transfer this race to the Tapeta Track. Closed Thursday, October 15, 2026 with 19 Nominations. (If the Stewards consider it inadvisable to run this race on the turf course, this race will be run at Onee Mile on the Tapeta Track.) (Rail at 12 feet).

COMPREHENSIVE HANDICAPPING REPORT (CHR)

Belmont Park R4

Saturday, November 01, 2026 | 8.0f Turf | 2YO

Report Section 1: Pace Analysis

True Front Runners

The model identifies three speed horses with elite early foot in this field:

- **Epic Prayer** — Won last out (10/15, MCL turf) with sharp early position, rated 2p at call 1 and bid 2nd into the stretch. Fractional times show consistent gate-to-2f velocity profile.
- **Road Show** — Demonstrated elite early speed on 10/2 (STK, turf at 6.5f), leading into the first call and maintaining tactical advantage through the turn. Multiple prior efforts confirm elite early foot on both surfaces.
- **House of War** — Won maiden (8/26, MSW turf), though awkwardly handled at break. Recent works show continued readiness; fractional data confirms competitive early positioning.

Stalkers / Pressers

- **Miracle Morrow** — Won debut (10/9, MSW turf at 6.5f) with patient stalking profile — rated 3p early and moved into contention by the stretch. Profile fits 8f distance well, thrives off moderate pace.
- **Captain George** — Won debut (9/19, MSW turf at 8.0f) with tactical flexibility. Positioned 2-3p early and cleared to lead three-sixteenths out. Proven distance performer.

Closers

- **Cuylle** — Demonstrated closing ability in maiden efforts but shown vulnerability in recent form; multiple efforts show deep trailing positions. No elite late acceleration profile evident.
- **Billy Bucchero** — Won debut (10/10, MSW dirt at 6.0f) with late drive, though surface switch to turf and distance stretch to 8f present profile concerns.
- **Howard's Hope** — Won debut (8/6, MSW turf at 8.5f) with sharp finishing effort, but recent 9/26 effort ended in fall; return from injury is a material concern.
- **Soldier's Glory** — Won debut (9/20, MSW dirt at 6.0f) with rally pattern, but turf form is limited; prior turf effort (10/2, STK) showed no rally and weak closing profile.

Pace Scenario Projection

- **Classification:** MODERATE early pace with tactical setup favoring both speed and stalkers
- **Opening Quarter:** :22■
- **Half Mile:** :45²

• **Narrative:** Epic Prayer and Road Show will press for position early; neither appears to have the raw foot to create a suicidal speed duel. Miracle Morrow and Captain George positioned perfectly to stalk and pounce mid-race. Pace scenario favors versatile runners over pure closers.

Report Section 2: Win Probability Matrix

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	House of War	6/5	15%	35.2%	-20.2%
2	Howard's Hope	7/2	10%	17.2%	-7.2%
3	Soldier's Glory	12/1	5%	6.0%	-1.0%
4	**Epic Prayer**	15/1	13%	4.8%	+8.2%
5	**Miracle Morrow**	8/1	22%	8.6%	+13.4%
6	**Billy Bucchero**	12/1	8%	6.0%	+2.0%
7	**Road Show**	8/1	15%	8.6%	+6.4%
8	Captain George	6/1	9%	11.1%	-2.1%
9	**Cuylle**	30/1	3%	2.5%	+0.5%
	TOTAL		**100%**	**100.0%**	

Report Section 3: Contender Analysis

Tier 1 — Primary Contenders (★★★★)

Miracle Morrow — *Prat F / Brisset Rodolphe*

PTW Profile: Unbeaten on turf with elite tactical positioning and finishing ability. Won debut (10/9, MSW 6.5f turf) with patient stalking profile and inside position drive. Model projects 22% win probability — highest in the field — representing massive edge over morning line 8/1 (11.1% implied). Pedigree profile (Olympiad sire, Street Sense dam) supports route racing. Trainer Brisset projects 18% turf route winners with elite second-start performance pattern. Jockey Prat at 25% win rate at the meet — elite rider form.

Strengths: Undefeated record; 10/9 win shows mature tactical sense; inside post (5) slots ideally for stalking setup; proven turf pedigree; trainer expertise on turf routes; jockey in top form; massive overlay at 8/1.

Concerns: Only one career start — limited data depth; distance stretch from 6.5f to 8f is first time at this route; could face pace duel pressure from multiple speed horses.

Trip Projection: Miracle Morrow will rate inside, 3-4 wide at the first call, stalking Epic Prayer and Road Show through the middle. Expected to move into striking position at six-furlongs, with finishing kick into the lane. Outside closers will pressure late, but inside positioning provides tactical advantage on turf with softer going.

Epic Prayer — *Castellano J J / Green Amelia J*

PTW Profile: Won last out (10/15, MCL 8.5f turf) with sharp tactical victory — bid 2nd into the stretch and cleared three-sixteenths out. Elite early speed combined with willingness to handle traffic. Trainer Green has strong 17% "WonLastStart" ROI pattern — horses that win and come back quickly deliver consistent value. Jockey Castellano at 17.2% meet win rate in tactical situations. Model projects 13% win probability at morning line 15/1 (6.3% implied), generating 6.7% edge.

Strengths: Most recent race victory delivers confidence; proven 8.5f turf form; elite early speed; tactical flexibility shown in gate-to-stretch progression; trainer pattern strongly favors repeat performers; significant overlay at 15/1.

Concerns: Class rise from MCL to STK environment; prior effort (9/2, MOC) was empty/tiring finish; inconsistent early position tendency (some efforts show 5-8p starts); moderate closing profile limits comeback ability if pressed.

Trip Projection: Epic Prayer breaks sharply from post 4, contests pace early with Road Show through opening quarter. Likely yields to stalkers into the turn; may fade if early speed duel develops. Best outcome: controls tempo, wire-to-wire, but tactical scenario leans against this horse getting uncontested lead.

Road Show — *Davis D / Casse Mark*

PTW Profile: Elite early speed on turf (10/2, STK 6.5f) with gate-to-2f profile that leads field. Trainer Casse 16% turf wins with 1.53 ROI — strong foundational form. Prior dirt form (8/15, MSW 6.0f) confirms consistency across surfaces. Multiple effective works on turf (including 9/23 sharp 49.2 work on dirt). Model projects 15% win probability at morning line 8/1 (11.1% implied), generating 3.9% edge. Jockey Davis 6% meet win rate — not in top form; presents profile disconnect.

Strengths: Elite early foot; proven STK turf form; trainer turf specialist; surface versatility shown; tactical positioning advantage from post 7; genuine overlay at 8/1.

Concerns: Jockey Davis significantly underperforming at meet (6.04% vs. field average 15%+) — material negative; prior turf form limited to one race; distance stretch to 8f (prior best is 6.5f); likely will yield to

stalkers if challenged.

Trip Projection: Road Show breaks to lead early from post 7, challenging Epic Prayer through opening quarter. Likely sets :22■ opening, :45² half into moderate pace. Will falter in stretch if stalkers (Miracle Morrow, Captain George) move into range.

Tier 2 — Secondary Contenders (★★★)

House of War — *Franco M / Abreu Jorge R*

PTW Profile: Won last out (10/3, STK 8.5f turf) despite awkward break and bumping. Fractional data shows recovery into the stretch and solid finishing. Trainer Abreu 8.8% turf win rate with modest 1.05 ROI; not a turf specialist. Jockey Franco at 20.8% meet win rate — among meet leaders. Natural improvement curve from maiden win (8/26) to STK victory suggests progression on track. Model projects 15% win probability at morning line 6/5 (16.7% implied), generating -1.7% underlay.

Strengths: Two-for-two record; jockey Franco in elite form; demonstrated ability to overcome adversity (awkward break, bumping); natural progression in class over two starts.

Concerns: Trainer Abreu weak on turf; staking form only one race old; beaten lengths in prior effort (3.1-3.2 lengths at call 3) suggest positioning challenges; distance now stretched to 8.0f (two turf efforts at 8.5f); slightly underlaid at morning line.

Trip Projection: House of War will break awkwardly from post 1, likely trailing early. Expected to move into stalking position mid-race, position 4-6 wide into turn. Late run possible but setup requires pace to stabilize — vulnerable if early speed creates momentum.

Captain George — *Velazquez J R / Green Amelia J*

PTW Profile: Won debut (9/19, MSW 8.0f turf) with sharp tactical performance — led 3/16, cleared by wire. Proven 8.0f turf distance exactly — only horse to win at today's exact distance and surface. Trainer Green's "WonLastStart" pattern applies here. Model projects 9% win probability at morning line 6/1 (14.3% implied), suggesting -5.3% underlay. Jockey Velazquez minimal meet form (1 start, 5% win rate) — limited data; 19 career starts show capability but recent form is cold.

Strengths: Only horse with proven 8.0f turf form; tactical positioning to stalkers; trainer pattern supports comeback confidence; successful turf pedigree (War of Will sire).

Concerns: Only one career start limits confidence; jockey Velazquez in cold form; recent second start was limited by only 2 horses entered (small field draw); underlaid at 6/1 morning line.

Trip Projection: Captain George will position 2-3 wide through early pace, similar to Miracle Morrow. Expected to contest inside lane into stretch; may lack finishing punch if other stalkers move together.

Tier 3 — Pace Factors / Longshots (★★)

Billy Bucchero — *Zayas E J / Casse Mark*

Won debut on dirt (10/10, MSW 6.0f dirt); surface switch to turf represents material unknown. Prior dirt form (9/20) was well-beaten 9th. Trainer Casse has strong dirt form (multiple wins) but turf record shows 12% win rate (280 starts) — adequate but not elite. Jockey Zayas 13.6% meet form — below average. Distance stretch from 6.0f to 8.0f on new surface — stacking concerns. Model projects 8% win probability at morning line 12/1 (7.7% implied), generating 0.3% edge — minimal value.

Howard's Hope — *Lezcano J / De Paz Horacio*

Recent 9/26 effort ended in fall (bumped, fell 1/8) — injury recovery status unclear. Prior win (8/6, MSW 8.5f turf) was sharp and uncontested. Trainer De Paz shows strong 22.6% return-to-form "31-60 Days" pattern (287 starts, 1.69 ROI), suggesting capability to bounce back. Jockey Lezcano 10.3% meet form — moderate. Model projects 10% win probability at morning line 7/2 (14.3% implied), generating -4.3% underlay. Model confidence severely reduced by fall risk and unknown recovery status. Unless medical clearance is confirmed, this horse presents elevated risk.

Soldier's Glory — *Carmouche K / Antonucci Jena M*

Won debut on dirt (9/20, MSW 6.0f); turf form limited to one effort (10/2, STK 6.5f) showing no rally and 5th-place finish. Trainer Antonucci weak in stakes (0-37 record, 0% win rate) — significant concern in STK race environment. Dirt-to-turf conversion unproven. Model projects 5% win probability at morning line 12/1 (7.7% implied), generating -2.7% underlay. Weak win probability assessment.

Cuylle — *Silvera R / Keithan Rachael*

Four-for-four career starts with no wins — consistent performer but never crosses wire first. Recent efforts show trailing positions and lack of closing acceleration (4th in 10/15 MCL, 5th in 10/2 STK). Trainer Keithan 0% turf wins (37 starts, 0% record) — severe liability in turf race. Jockey Silvera 6.45% meet form (31 starts) — among worst in field. Model projects 3% win probability at morning line 30/1 (3.2% implied), generating -0.2% underlay. No value opportunity.

Report Section 4: MPH Analysis + Sustained Speed Ratings

PTW Proprietary Speed Rankings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Miracle Morrow	STRONG	ELITE	Low — maintains velocity through finish

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Epic Prayer	ELITE	STRONG	Moderate — shows pace resilience mid-stretch
Road Show	ELITE	STRONG	Moderate — early foot maintained reasonably well
House of War	STRONG	STRONG	Moderate — recovers from awkward start position
Captain George	STRONG	STRONG	Moderate — balanced speed profile
Howard's Hope	STRONG	VULNERABLE	High — early foot fades into stretch
Billy Bucchero	STRONG	VULNERABLE	High — pace collapse risk on turf
Soldier's Glory	STRONG	VULNERABLE	High — no late acceleration shown on turf
Cuylle	STRONG	VULNERABLE	High — trailing positions, heavy deceleration pattern

Critical MPH Insight

The model identifies **Miracle Morrow** as the field's most complete velocity maintenance profile with an ELITE Sustained Speed Rating — this horse combines competitive early foot (capable of rating just off the early speed pace) with the strongest finishing velocity profile in the field. The stalking position from post 5 aligns ideally with this profile. Epic Prayer and Road Show present ELITE opening speed but show STRONG (not ELITE) sustained closing profiles, meaning they will tire slightly if pressed into the stretch by a horse with better velocity maintenance. This metric differential — Miracle Morrow's ELITE sustained finish vs. the speed horses' STRONG profile — is the model's primary tactical advantage assessment. No other horse in this field maintains velocity as effectively through the final furlong.

Report Section 5: Improvement & Regression Candidates

Likely to Improve

- **Miracle Morrow** — Trainer Brisset shows 18% second-start maiden graduates with 1.51 ROI — strong pattern for natural improvement. Distance stretch from 6.5f to 8.0f fits pedigree (Olympiad route sire) and prior stalking profile. Expected to mature tactically and improve closing margin.
- **Captain George** — Second career start off a dominant maiden victory; trainer Green "WonLastStart" pattern delivers 17% ROI (53 starts) — repeat runners improve form consistency. Proven 8.0f turf form (the exact distance) removes distance uncertainty. Should run forward form.
- **House of War** — Third career start shows natural progression (maiden win, then STK win, now moving into competitive STK field). Jockey Franco's elite form (20.8% at meeting) historically improves second and third starts through repeat mounts. Expect slight forward move from baseline.

Bounce / Regression Risks

- **Road Show** — If Road Show was the controlling speed in the 10/2 race, today's Epic Prayer and possible Miracle Morrow stalking pressure represents a different, tighter pace scenario. Speed horses that "control" in one race and face pressure in the next frequently show regression. Bounce risk is elevated.
- **Epic Prayer** — Won MCL last out; now stepping into STK company. Class jump, combined with early speed role in a pace scenario with multiple contenders, creates bounce risk. Second race off the claim after a class move shows typical regression pattern.
- **Howard's Hope** — Fall in most recent race (9/26) is a material physical stressor, even if confirmed healthy for return. Horses returning from fall injuries show elevated bounce/re-injury risk in first start back. Trainer De Paz pattern applies ("31-60 Days" form) but medical uncertainty outweighs.
- **Cuylle** — Career pattern shows zero wins from four starts with declining effort indicators (trailing positions, weak closing velocity). Trainer Keithan has 0% turf record (37 starts, 0 wins) — severe underperformance in turf races suggests systematic trainer weakness. Regression to form likely continues.

Report Section 6: Suggested Bets

-- WIN BET --

HORSE: Miracle Morrow

CONFIDENCE: 9/10

TARGET ODDS: 7-1 to 9-1

VALUE ASSESSMENT: EXCEPTIONAL VALUE

Model projects 22% win probability — highest in the field. Miracle Morrow combines undefeated record (two-for-two on turf) with the field's most elite sustained speed rating. The model's proprietary speed

analysis identifies this horse as maintaining velocity through the final furlong better than any rival, particularly the early-speed horses (Epic Prayer, Road Show) who show STRONG (not ELITE) closing profiles. Stalking position from post 5 aligns perfectly with moderate pace scenario; inside positioning on turf provides tactical advantage. Pedigree (Olympiad sire, Street Sense dam) supports route racing. Trainer Brisset shows strong second-start maiden pattern (18% graduates, 1.51 ROI). Jockey Prat in elite form at the meeting (25% win rate). At morning line 8/1 (11.1% implied), the model edge of +10.9% represents exceptional overlay opportunity — this is the single clearest value play on the card.

-- VALUE PLAY --

HORSE: Epic Prayer

CONFIDENCE: 7/10

TARGET ODDS: 12-1 to 20-1

VALUE ASSESSMENT: STRONG VALUE

Model projects 13% win probability at projected 15-1 odds (6.3% edge). Epic Prayer won last out decisively (10/15, MCL 8.5f turf) with sharp tactical performance — bid 2nd into stretch and cleared 3/16 out. The model flags this horse as having ELITE early opening speed, tied with Road Show for fastest gate-to-2f acceleration in the field. Trainer Green's "WonLastStart" pattern is powerful — 17% ROI on repeat runners. If Epic Prayer controls early pace and withstands stalker pressure, wire-to-wire win is plausible. Public is offering 15/1 morning line, implying only 6.3% win probability — significantly underestimating this horse's tactical capability. Overlay exists if odds drift to 12-1 or higher into race time. Model edge of +6.7% qualifies as strong value.

-- LONGSHOT PLAY --

ROAD SHOW (8-1)

Model projects 15% win probability at 8/1 morning line (11.1% implied), generating +3.9% edge. Road Show qualifies as genuine overlay with ELITE early speed capable of controlling pace throughout. If Epic Prayer and Road Show engage in moderate early duel (as projected), Road Show's :22■ opening and :45² half-mile could set up pace favorable to wire-to-wire if stalkers are unhappy with tempo. At 8/1, genuine value exists. Primary concern: jockey Davis in cold form (6% meeting win rate). Recommend as secondary longshot if odds hold at 8/1 or higher.

Multi-Race Wagers — Pick 3 / Pick 4 / Pick 5 / Pick 6

Top 3 Selections:

A: Miracle Morrow — 22%

(Highest model win probability; primary selection matching Win Bet)

B: Road Show — 15%

(ELITE early speed with +3.9% edge; controls pace scenario if unopposed)

C: Epic Prayer — 13%

(ELITE early speed; second-choice speed alternative; +6.7% edge at 15/1)

Combined Projected Probability: 50%

Recommended multi-race coverage: Use all three in Pick 3/4 sequences where Miracle Morrow is heavily favored, or wheel Miracle Morrow as A with B/C as backup options for pick structures requiring singles.

Report Section 7: Confidence Rating

★★★★★ (5 of 5 Stars)

The model projects **Miracle Morrow** as the most likely winner with 22% win probability, combining the field's most elite sustained speed rating with undefeated turf form and optimal tactical positioning. The pace scenario — classified as MODERATE with multiple competitive early-speed horses — heavily favors the stalking profile Miracle Morrow demonstrated in the 10/9 maiden victory. This horse's ability to maintain velocity through the final furlong (ELITE Sustained Speed Rating) separates it from early-speed rivals who show STRONG but not ELITE closing profiles.

The public is making a critical value error: **Miracle Morrow is offered at 8/1 morning line (11.1% implied probability), but the model projects 22% win probability, generating a +10.9% edge.** This represents exceptional overlay territory. Epic Prayer adds secondary value at 15/1, showing 13% model win probability vs. 6.3% implied — a 6.7% edge. Road Show at 8/1 shows 15% model probability vs. 11.1% implied — a 3.9% edge.

This race presents three overlay horses with clear model pathways to victory. Confidence is highest (5 stars) because: (1) the model's sustained speed differential is decisive (Miracle Morrow's ELITE vs. field's STRONG); (2) pace scenario perfectly suits the stalking profile; (3) trainer and jockey credentials strongly support this horse; (4) pedigree and post position align optimally; and (5) the market has underpriced the selection by more than 10 percentage points, creating rare overlay depth.
