COMPREHENSIVE HANDICAPPING REPORT (CHR)

Belmont Park R7

Saturday, November 01, 2026 | 8.0f Turf | Alw 105000N1X

REPORT SECTION 1: PACE ANALYSIS

True Front Runners

The model identifies **Ori** as the field's premier early-speed threat. Ori has established a consistent pattern of leading or pressing at the front, with multiple wire-to-wire and narrow-margin victories across turf routes. Most recent evidence: October 7 wire-to-wire victory at 8.0f on turf, leading gate-to-wire with commanding authority. Pattern confirms elite foot and track preference for turf routes.

Stalkers / Pressers

War Madam and **Nonconsecutivetrms** project as secondary pace threats capable of stalking or pressuring. War Madam has demonstrated tactical flexibility and consistently settles in the 2–3 path with forward momentum through the middle fractions. Nonconsecutivetrms has shown multiple instances of tracking and taking over in the stretch, indicating rating ability paired with finishing kick.

Closers

Accent, **Kokomotion**, and **Mid Summer** represent the elite closing brigade. Accent has earned the model's highest sustained speed rating and closes from mid-pack with devastating late acceleration—multiple ALW turf route wins demonstrate this pattern. Kokomotion has explosive closing profiles and a Bel stakes win on turf route. Mid Summer closed between foes to win an 8.5f MSW turf route and shows consistent finishing strength in recent efforts.

Pace Scenario Projection

- **Classification:** HOT early pace
- **Opening Quarter:** :23■
- **Half Mile:** :47²
- **Narrative:** Ori will dictate an honest, contested early tempo with War Madam and Nonconsecutivetrms pressing. Moderate pace damage at the half guarantees closers remain viable. Route specialists with sustained speed will capitalize on this setup.

REPORT SECTION 2: WIN PROBABILITY MATRIX

Post	Horse	ML Odds	Model Win %	Implied ML %	Edge
1	Tax Holiday	5/1	5%	9.1%	-4.1%
2	Omahamoiselle	20/1	2%	2.6%	-0.6%
3	Two Martini's	10/1	3%	5.0%	-2.0%
4	Toes	8/1	5%	6.1%	-1.1%
5	Cozy Rosie	15/1	3%	3.4%	-0.4%
6	**Thiene**	12/1	6%	4.2%	+1.8%
7	**War Madam**	15/1	9%	3.4%	+5.6%
8	**So Darn Pretty**	12/1	6%	4.2%	+1.8%
9	**Mid Summer**	6/1	11%	7.8%	+3.2%
10	Three to G	10/1	4%	5.0%	-1.0%
11	Nonconsecutivetrms	7/2	8%	12.1%	-4.1%
12	**Kokomotion**	6/1	12%	7.8%	+4.2%
13	Accent	5/2	15%	15.6%	-0.6%
14	Ori	3/1	11%	13.7%	-2.7%
	TOTAL		**100%**	**100.0%**	

REPORT SECTION 3: CONTENDER ANALYSIS

Tier 1 — Primary Contenders (★★★★)

Accent — Model projects 15% win probability at 5/2 morning line.

PTW Profile: Multiple-time winner with elite sustained speed ratings. This horse holds the model's highest maintained-velocity profile among ranked turf routers. Accent has demonstrated exceptional consistency across ALW and STK company, winning most recently in a 3-path ALW race and running strong in restricted stakes.

Strengths: Best sustained finisher in this field by model metrics, multiple ALW turf wins, elite closing profile, consistent class placement.

Concerns: Morning line is short at 5/2 (27.9% implied probability), creating structural underlay; model win% does not exceed rescaled ML implied%.

Trip Projection: Will sit 3–4 paths off the pace, stalk through the middle fractions, and rally hard in the stretch with the best finishing velocity in the field.

Kokomotion — Model projects 12% win probability at 6/1 morning line.

PTW Profile: Elite closer with stakes pedigree and explosive finishing profiles. Won an October 1 STK race at 8.0f turf, demonstrating class edge and finishing power. Recent pattern shows consistent closing from mid-pack into contention, with multiple ALW wins at 8+ furlongs turf.

Strengths: Explosive late acceleration, stakes winner, class edge in this 105k field, proven 8.0f route specialist.

Concerns: Will depend on a moderately contested pace setup; if pace collapses entirely, late closers lose tactical advantage.

Trip Projection: Will settle 5–6 paths off the pace, advance between horses in the stretch, and be flying late.

Mid Summer — Model projects 11% win probability at 6/1 morning line.

PTW Profile: Consistent closer with multiple route wins and recent ALW placement. Mid Summer closed between horses to win an 8.5f MSW turf route and has demonstrated reliability in moderate to premium company. Recent pattern shows stalking through the middle fractions and rallying hard in the stretch.

Strengths: Proven route closer, consistent ALW performer, recent form trend positive.

Concerns: Trainer McGaughey has modest turf route statistics; not as elite a finisher as Kokomotion or Accent.

Trip Projection: Will track the pace in 4–5 path, advance steadily, and rally to mid-stretch contention.

Ori — Model projects 11% win probability at 3/1 morning line.

PTW Profile: This horse has morphed into an elite route specialist on turf with commanding recent form. Ori won the October 7 state of the condition (SOC) race wire-to-wire in hand, controlling throughout at 8.0f. The pattern is unmistakable—consistent front-running profiles, proven turf preference, and stakes experience across multiple surfaces and conditions.

Strengths: Wire-to-wire capability, elite early foot, turf-form superiority, won last race decisively.

Concerns: Morning line overvalues this horse; model identifies structural weakness in the field's pace dynamics that may negate front-runner advantage; closers will be dangerous.

Trip Projection: Will lead or press early, establish a :23■ opening quarter and :47² half-mile. Expected to fade slightly in the stretch as closers arrive.

Tier 2 — Secondary Contenders (★★★)

War Madam — Model projects 9% win probability at 15/1 morning line.

PTW Profile: Tactical speedster with dual-surface versatility and proven ALW capability. War Madam possesses elite early foot and has demonstrated consistent 2–3 path pressure tactics. Recent win (October 10 ALW) showcases this pattern—pressing early, leading in the stretch, and holding on with gameness.

Strengths: Genuine early speed, ALW turf route pedigree, can pressure Ori and control midrace tempo, 15/1 represents **significant value edge (+2.9%)**.

Concerns: Must outrun Ori or establish parallel speed early; trainer Meyers has modest ALW turf statistics; can be targets for closers in the stretch.

Trip Projection: Will press Ori early, engage into the first turn, and set honest pace. Fading stretch likely as closers arrive.

Nonconsecutivetrms — Model projects 8% win probability at 7/2 morning line.

PTW Profile: Tactical middle-runner with recent stakes experience and consistent route form. Won an 8.0f STK race on August 29, demonstrating stakes class and finishing capability. Recent MSW win on turf route and consistent ALW performances establish this horse as a reliable mid-tier performer.

Strengths: Stakes pedigree, proven route ability, can stalk or press, consistent form trend.

Concerns: Morning line significantly overvalues at 7/2 (21.7% implied); model identifies this as a major structural underlay; not as elite a finisher as top closers.

Trip Projection: Will settle 4–5 paths, track the pace, and rally entering the stretch with moderate finishing kick.

Thiene — Model projects 6% win probability at 12/1 morning line.

PTW Profile: European-campaigned mare with route form and recent ALW placement on turf. Thiene has proven ability in allowance company at 8.0f turf and has demonstrated consistency in turf route racing.

Strengths: Turf-proven, ALW experience, recent form acceptable.

Concerns: Mixed form trend; not elite versus this field; European racing form does not translate perfectly to U.S. turf.

Trip Projection: Will stalk and rally with moderate closing kick.

So Darn Pretty — Model projects 6% win probability at 12/1 morning line.

PTW Profile: Closer with route experience and recent ALW placement. So Darn Pretty closed between foes to win an 8.0f ALW turf route in July and has demonstrated consistent ability at this distance and surface.

Strengths: Route-proven, recent ALW turf win, can close from mid-pack.

Concerns: Trainer Russell has modest recent form; not elite versus this field; form trend is mixed.

Trip Projection: Will settle mid-pack and rally with moderate acceleration.

Tier 3 — Pace Factors / Longshots (★★)

Three to G — Model projects 4% win probability at 10/1 morning line.

PTW Profile: Modest performer with limited consistent form at this level. Three to G has shown some route capability and recent ALW placement but lacks the consistency and class to compete effectively in this field.

Strengths: Some route experience, modest form acceptable.

Concerns: Limited ALW success; form trend inconsistent; outmatched by this field.

Trip Projection: Will stalk off the pace and fade in the stretch.

Toes — Model projects 5% win probability at 8/1 morning line.

PTW Profile: Turf-routed mare with modest ALW experience. Toes has demonstrated some early speed and stalking ability but lacks the consistency and class to compete at this level.

Strengths: Turf-proven, some early speed capability.

Concerns: Limited ALW success; form trend negative; outmatched.

Trip Projection: Will stalk off the pace and fade in the stretch.

Tax Holiday — Model projects 5% win probability at 5/1 morning line.

PTW Profile: Modest 3-year-old with limited turf route experience. Recent August 29 AOC race at 8.5f turf showed early speed and some finishing kick but ultimately ran second. Prior MSW turf route win demonstrates capability but form trend is not impressive.

Strengths: Modest early foot, recent placed finish.

Concerns: Lacks class edge; form is trending downward; outmatched by this field.

Trip Projection: Will stalk early, fade in midrace, and pose minimal threat.

Two Martini's, Cozy Rosie, Omahamoiselle — Model projects 3%, 3%, and 2% win probabilities respectively.

These horses lack the form, class, or recent turf route experience to compete effectively. Omahamoiselle has shown some recent ALW winning form but does not possess the sustained speed or route specialization required at this level and distance.

REPORT SECTION 4: MPH ANALYSIS + SUSTAINED SPEED RATINGS

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Accent	ELITE	ELITE	Low — maintains velocity
Ori	ELITE	STRONG	Moderate — wire-to-wire threat
Kokomotion	STRONG	ELITE	Low — explosive closer
Mid Summer	STRONG	STRONG	Moderate — balanced closer
War Madam	ELITE	STRONG	Moderate — pace pressure
Nonconsecutivetrms	STRONG	STRONG	Moderate — mid-route competitor
So Darn Pretty	STRONG	STRONG	Moderate — balanced closer
Thiene	STRONG	VULNERABLE	High — pace collapse risk
Tax Holiday	STRONG	VULNERABLE	High — pace collapse risk
Toes	STRONG	VULNERABLE	High — pace collapse risk
Three to G	UNRATED	UNRATED	Insufficient data
Two Martini's	UNRATED	UNRATED	Insufficient data
Cozy Rosie	UNRATED	UNRATED	Insufficient data

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Omahamoiselle	UNRATED	UNRATED	Insufficient data

Critical MPH Insight

The model identifies **Accent** as the field's most elite sustained finisher with ELITE velocity maintenance at 8.0f turf routes. This horse has demonstrated the lowest deceleration profile relative to its rivals in this field—Accent maintains closing momentum with unmatched efficiency. Conversely, **Thiene**, **Tax Holiday**, and **Toes** show significant pace collapse risk with VULNERABLE ratings; these horses experienced substantial velocity deterioration in prior route efforts, making them vulnerable to being caught in the stretch by more efficient finishers. **Kokomotion** ranks second in sustained speed efficiency with explosive closing power, while **Ori** maintains strong finishing profiles despite early-speed demands. The tight grouping among the top finishers—Accent, Kokomotion, and Ori—indicates that sustained speed alone will not be a separating factor; pace setup and trip positioning will determine the outcome.

REPORT SECTION 5: IMPROVEMENT & REGRESSION CANDIDATES

Likely to Improve

War Madam — Positioned for significant improvement based on trainer pattern and pace setup. Trainer Meyers shows 13% win rate with 2.82 ROI on turf routes, with positive results in 31–60-day windows. War Madam will benefit from honest early pace, can press Ori to control tempo, and has demonstrated ALW turf route consistency. Recent October 10 win confirms form is sharp. Expect this horse to carry forward solid recent effort and benefit from favorable pace scenario.

Kokomotion — Positioned to improve off recent stakes form. Trainer Beckman specializes in turf routes with 12% wins and 2.46 ROI on turf; recent October 1 STK win shows sharp fitness. This horse has demonstrated explosive closing from mid-pack positions and will benefit from the moderate pace setup projected.

Accent — Trainer Brown has demonstrated 26% win rate in 31–60-day windows with 1.73 ROI on turf routes, confirming strong recent preparation patterns. Accent's elite sustained speed and ALW turf route expertise position this horse as peak-ready. Recent form trend shows consistent ALW placement and finishing strength.

Likely to Regress / Bounce Risk

Ori — Regression risk despite recent win. This horse ran a wire-to-wire race on October 7 at SOC level, which is a slight class step down from today's 105k ALW field. Wire-to-wire victories are often career-best efforts, and Ori may face difficulty repeating against a strong closing brigade. Additionally, Ori's recent MSW and ALW efforts at 8.5f show less impressive form than the October 7 SOC win. Third start off layoff pattern does not favor significant bounce upward.

Nonconsecutivetrms — Bounce risk present despite recent stakes win. This horse's August 29 STK win was followed by August 1 MSW win—back-to-back monster efforts suggest peak form may be behind. Trainer Walsh has modest ALW statistics (17%), and recent form trend shows declining margin of victory.

Tax Holiday — Significant regression risk. This horse ran second in an AOC race at 8.5f and has not won since April (4+ month drought). Form trend is clearly negative. Prior MSW turf route win is now significantly stale.

REPORT SECTION 6: SUGGESTED BETS

-- WIN BET --

HORSE: Accent

CONFIDENCE: 7/10

TARGET ODDS: 2/1 – 5/2

VALUE ASSESSMENT: NO VALUE

The model projects 15% win probability — highest in the field. This horse holds the model's elite sustained speed rating and has demonstrated consistent ALW turf route finishing profiles with unmatched velocity maintenance. However, this horse is currently at morning line 5/2 (27.9% implied probability), creating a structural underlay. Model win% does not exceed rescaled ML implied%; therefore, no overlay exists.

-- VALUE PLAY --

HORSE: War Madam

CONFIDENCE: 7/10

TARGET ODDS: 12/1 – 18/1

VALUE ASSESSMENT: STRONG VALUE (+2.9% edge)

Model projects 9% win probability at 15/1 morning line odds (6.1% implied ML). War Madam's genuine early speed, tactical flexibility, and proven ALW turf route experience create a **+2.9% edge**. This horse will press Ori early, establish honest pace, and can hold on with finishing kick. Trainer Meyers has elite turf route ROI (2.82); jockey Zayas is strong on turf routes. Public is underestimating this horse's ability to control the race and survive closers.

Multi-Race Sequences — Top 3 for Pick 3/4/5/6

A: Accent — 15%

B: Kokomotion — 12%

C: Ori — 11%

Combined Projected Probability: 38%

REPORT SECTION 7: CONFIDENCE RATING

★★★★

The model projects a HOT pace scenario that will produce moderate closing advantage and expose front-runner vulnerabilities in the stretch. **Accent** emerges as the elite sustained finisher with the highest model probability at 15%, but this horse is offered at morning-line odds that do not represent value. **War Madam** at 15/1 presents a genuine overlay with +2.9% edge, offering the primary value opportunity through tactical pace control and finishing capability. The race structure strongly favors routers with elite maintained velocity; the tight grouping among top finishers indicates that pace setup and trip positioning will determine outcome. Public betting mistake: overvaluing wire-to-wire threats and overbet favorites (Accent, Ori); undervaluing tactical speed with closing reserves (War Madam). Model confidence is moderate (4 stars) due to competitive field depth and overlay scarcity; most morning-line favorites are fairly priced or slight underlays.
