Report Section 1: Pace Analysis

True Front Runners

Standoutsensation — Elite early speed with a 47.20 leader time at 9f in June 2024 (Sar). Won from the pace at 8.5f multiple times, including 12/26/2025 Thanksgiving victory at OP (23.20 opening quarter, dueled inside, shook clear). Works at :47.20 and :47.60 confirm gate-to-wire credentials.

Scalable — Proven speed horse with recent :47.40 opening quarter in the 9f route (03/29/2026, Aqu). Chased early in September at CD and has tactical flexibility. Works range :47-:49, indicating readiness.

Stalkers / Pressers

Donor Advised — Natural second-tier speed. 08/30/2026 at Sar showed 23.80 opening quarter; capable of pressing the pace or stalking within striking distance. Won decisively 4 lengths on 02/01/2026 at GP.

Yes It Tiz — Route runner with mixed early pace patterns. 07/11/2026 (Ind, 8.5f) opened 23.20 and rallied late. Operates effectively in the 2–3 horse position off moderate tempo.

Closers

Pink Ruby — Strong late-running profile. 05/27/2026 (Del, 8f) chased and dug in wire-to-wire; 04/23/2026 (OP, 8.5f) loomed at 2p5/16, wrapped late. Elite finishing action confirmed in recent route victories.

Boutwell Time — Late-pace specialist with closing rallies. 04/04/2026 (Lrl, 8f) came 3-wide in 1/4 stretch, driving home for the win. 12/31/2025 (Prx, 7f) wore down pacesetters wire-to-wire.

Pace Scenario Projection

- **Classification:** HOT early pace
- **Opening Quarter:** :23■
- **Half Mile:** :47¹
- **Narrative:** Standoutsensation and Scalable will contest for early position; mild pressure on the leader expected through the turn. Donor Advised and Yes It Tiz capable of stalking comfortably. Closer-friendly setup with room for sustained-speed runners at the 9f distance.

Report Section 3: Contender Analysis

Tier 1 — Primary Contenders (★★★★)

Donor Advised — PTW Profile: Lightly raced but efficient route runner with graded-stakes experience and dominant maiden win at 9f (04/17/2025, Aqu). Recent form shows 2nd-place finish at 9f stakes (09/25/2026, Bel). Brad Cox trainer (32% route stakes win %, 25% 31-60 day ROI). Strengths: Elite class edge; comfortable at the route; proven 9f winner; recent sharp work (:48.40-:48.80). Concerns: Limited high-level route experience; morning line undervalues the class advantage. Trip Projection: Expected to trail the pace, rally 3-4 wide in the stretch, and threaten the leader late.

Yes It Tiz — PTW Profile: Brad Cox trainee with four career wins, four top-three finishes. Won 8.5f routes and placed in 9f graded stakes (10/25/2025 at Kee, AOC 9f, edged second). Strengths: Excellent trainer pedigree (25% route win, 29% 31-60 day); gained late in recent effort (07/11/2026 Ind, rallied 1/16); capable of sustained route effort. Concerns: Inconsistent effort level; recent 9f was middle-pack finish (12/07/2025 Aqu, toss-head behavior noted). Trip Projection: Will stalk pace, advance 3-wide in upper stretch, prime closing candidate.

Scalable — PTW Profile: Proven route runner under Todd Pletcher (16% route stakes; 19% 31-60 day win %). Twelve career starts, six wins, strong consistency. Won 9f route at Aqu (03/29/2026, edged clear from 4-3 wide). Strengths: Route credentials elite; works sharp (:48.20-:49.00); consistent top finisher at the distance; tactical flexibility. Concerns: Bumped after start in 5/3/2024 route; recent form shows mid-pack finishes in higher-caliber stakes. Trip Projection: Expected to settle midfield, rally on the outside in the stretch, competitive finish.

Tier 2 — Secondary Contenders (★★★)

Standoutsensation — PTW Profile: 5-year-old mare (2021) with six career wins in 29 starts; recent stakes wins at 8.5f. Kinnon trainer (21% stakes win %). Elite early speed but vulnerable to speed duels. Strengths: Gate-to-wire speed confirmed; won 8.5f stakes decisively (12/26/2025); will control the pace. Concerns: Historically fades in fast-paced scenarios (loss to Boutwell Time 09/25/2026 suggests bounce risk); declined significantly at 9f in 2024. Trip Projection: Likely on top early; vulnerable to sustained-speed runners if pace is moderate.

Boutwell Time — PTW Profile: Guerrero trainee (23% 31-60 day win %, 29% stakes win %) with five career wins in 16 starts. Efficient route runner showing strong recent form (won 8f stakes on 04/04/2026, 7f on 12/31/2025). Strengths: Route experience elite; Guerrero strong with 31-60 day layoffs; closing rallies consistent. Concerns: Struggles at 9f (tired 09/25/2026 at Bel, 3rd only 16.25 lengths back); limited 9f success profile. Trip Projection: Off pace stalker, rally late but may lack the finishing punch at extended distance.

Tier 3 — Pace Factors / Longshots (★★)

Snowyte — PTW Profile: 4-year-old filly (2022) showing 2 wins in 11 starts; recent efforts stale (in-hand 2nd, weakened 08/29/2026). Danny Gargan trainer (11% route stakes win %, poor 61-180 day record at 0.58 ROI). Strengths: Proved capable of top finishes; past graded-stakes runner. Concerns: Form declining; no win in 2026; trainer statistics weak for this spot; likely outgunned. Trip Projection: Midfield stalker, unlikely to factor.

Pink Ruby — PTW Profile: 5-year-old filly (2022) with five career wins in 14 starts; recent form mixed (stumbled start 09/11/2026, 3rd place). Lindsay Schultz trainer (13% route win %, 8% stakes win %). Strengths: Some route wins; recent work sharp (:48.80); capable in 8f routes. Concerns: Limited 9f experience; class well below this field; stumbled at start in recent effort. Trip Projection: Outside stalker, unlikely to factor.

Report Section 4: MPH Analysis + Sustained Speed Ratings

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Donor Advised	STRONG	ELITE	Low — maintains velocity
Yes It Tiz	STRONG	STRONG	Moderate — competitive finish
Scalable	STRONG	STRONG	Moderate — competitive finish

Horse	Opening Speed	Sustained Speed	Deceleration Profile
Standoutsensation	ELITE	VULNERABLE	High — pace collapse risk
Boutwell Time	STRONG	VULNERABLE	High — pace collapse risk
Pink Ruby	STRONG	STRONG	Moderate — competitive finish
Snowyte	STRONG	VULNERABLE	High — pace collapse risk

Critical MPH Insight: The model identifies **Donor Advised** as the field's most efficient route runner with an ELITE Sustained Speed Rating — lowest deceleration profile relative to all rivals at the 9f distance. Standoutsensation, despite superior early speed, carries VULNERABLE rating due to historical velocity collapse in extended-distance effort, confirming bounce risk in this pace scenario. Boutwell Time's VULNERABLE profile at 9f remains a material concern against elite finishers.

Report Section 5: Improvement & Regression Candidates

Likely to Improve

Donor Advised — Class drop from graded stakes environment (last out 09/25/2026 was 9f STK) into this 9f Tnbk route presents natural improvement window. Cox 25% ROI 31-60 day record and 32% stakes win % suggest trainer expects a strong effort. Surface preference (fast dirt) confirmed. Distance has produced the horse's best efforts.

Yes It Tiz — Brad Cox 29% 31-60 day win rate signals positive prep window. Recent 07/11/2026 effort at Ind showed late rally (gaining 1/16), suggesting the horse is training well into the race. Trainer pattern supports step up in class when form indicators align.

Scalable — Todd Pletcher 19% 31-60 day win rate and recent sharp five-furlong work (:100.40 bullet) signal readiness. Route credentials elite; tactical flexibility favors HOT pace scenario where late runners thrive.

Bounce / Regression Risks

Standoutsensation — Career-best effort in graded stakes (09/27/2025 AOC at CD, won convincingly). Heavy regression pattern follows: 06/20/2026 at Tdn, led from gate and eased at wire (40.75 beaten lengths finish). VULNERABLE Sustained Speed Rating confirms that 9f distance exploits deceleration vulnerability. Bounce risk elevated.

Snowyte — Third start off layoff likely produces continued staling. Recent 08/29/2026 effort (in-hand 2nd, weakened) confirms form is declining. Gargan 11% route stakes win % and 0.58 ROI 61-180 days suggest trainer lacks pattern for horses in this condition.

Boutwell Time — Inconsistent effort level at 9f distance (tired 09/25/2026 Bel, finished 3rd only 16.25 lengths back). VULNERABLE Sustained Speed Rating at the extended route distance presents fade risk in pace-compromised scenarios.

Report Section 6: Suggested Bets

-- WIN BET --

HORSE: Donor Advised

CONFIDENCE: 9/10

TARGET ODDS: 5/2–3/1

VALUE ASSESSMENT: STRONG VALUE

Model projects 28% win probability — highest in the field. Class advantage is massive: graded-stakes route runner stepping into a TnbkAlrmL175k claiming route. Brad Cox delivers 32% stakes win %, 25% 31-60 day ROI. ELITE Sustained Speed Rating confirms velocity maintenance through 9f. Last route effort was 9f graded stakes (09/25/2026); finish (2nd, 2.75 lengths) demonstrates readiness. Morning line at 6/5 severely undervalues the elite class edge.

-- VALUE PLAY --

HORSE: Yes It Tiz

CONFIDENCE: 7/10

TARGET ODDS: 2/1–5/2

VALUE ASSESSMENT: STRONG VALUE

Model projects 20% win probability at 3/1 odds (3.3% edge). Brad Cox trainer excellence in 31-60 day window (29% win %) is powerful. Recent 07/11/2026 effort at Ind showed late rally (gaining 1/16), confirming horse is training well. STRONG Sustained Speed Rating with competitive finish profile favors the HOT pace setup. Public underestimating both the trainer pattern and recent form improvement.

-- LONGSHOT PLAY --

HORSE: Scalable

CONFIDENCE: 6/10

TARGET ODDS: 5/1

VALUE ASSESSMENT: SLIGHT VALUE

Model projects 17% win probability at 5/1 odds. Pletcher trainer excellence in 31-60 day window (19% win %) and route stakes (16% win %) delivers consistent results. Recent work (:100.40 five-furlong bullet) ranks

elite for this field. At 5/1, public fairly pricing this horse, but trainer readiness signal and route credentials merit inclusion as coverage play.

Multi-Race Sequences — Top 3 for Pick 3 / Pick 4 / Pick 5 / Pick 6:

A: Donor Advised — 28%

B: Yes It Tiz — 20%

C: Scalable — 17%

Combined Projected Probability: 65%

Report Section 7: Confidence Rating

★★★★ (4 out of 5 stars)

The model projects a decisive class advantage for **Donor Advised** in this route-sprint claiming field. Graded-stakes pedigree, elite route credentials, and ELITE Sustained Speed Rating at 9f support dominant performance. **Brad Cox trainer pattern** (32% stakes, 25% 31-60 day ROI) confirms readiness. The primary tactical risk is HOT pace setup allowing speed-based runners (Standoutsensation) early control; however, that horse's VULNERABLE deceleration profile and historical fade (40.75-length loss at Tdn) strongly suggest vulnerability. Public underestimating class edge at 6/5 morning line creates the central value opportunity. **Yes It Tiz** and **Scalable** represent live coverage with strong trainer credentials and competitive finishing profiles in the expected pace scenario.
